WHAT WELL DRESSED WOMEN WILL WEAR

BY *Anna Rittenhouse*

As Rittenhouse, Writing From Paris, Tells What American Women Are Wearing in French Capital

THE Americans who represent smart society never fall in their allegiance to the Ritz in Paris. If one wants to see who is coming and going one goes there. Remarkable, isn't it, that when this in

They have times a year that one wonders they ever stay for any length of time. It is not in New York, for their "rent houses" there show green a more often than they show curtains. They restlessness, or unhealthy?

are always going to a cure or from one. They meet on at the Ritz in Paris. "What cure are you taking?"

Europeans say that the healthiest looking race that in upon being cured, and therefore they the authenticity of their ailments. It is true or untrue, Paris is full now of Americans who are coming on Aix or Homburg or Carlsbad. own that they never went near a of mineral waters, or drank any more loathsome than a Martini mixed by a German maitre.

hope has made its cure resorts verdant heavens of delight from the point every climate, food and people. So not go there. Far more interesting a only when the season is not in and hardly more expensive.

to these cures they go, all our good cans, the rich and the well-to-do, they have a very good time indeed at business of getting well.

THE WORN BY AMERICANS

the Ritz the other midday one could have imagined oneself in America. and Mrs. Edwidge T. Gary entering at one table, and Mrs. Gary, who in dark blue and white with a flat to match were only a short string people which were equaled in misty as well as size by those worn the neck of Mrs. Benjamin Shaw, was at another table in the corner of the adjoining table sat Mrs. Wall Field with Mrs. Henry Clegg, were not far from a party gathered her by Ambassador and Mrs. Hersie was wearing a dark blue satin with a short pleated tunic a narrow skirt, a blouse and a wide shawl, all the same material. The somberness red given by collar and cuffs of white embroidered muslin of the same kind we all wore several years ago, with a pretense of starch or feathering kept the collars upright.

THREE SMART COATS THAT COOL WEATHER CALLED FORTH AT FRENCH RACES

ON the left is a coat of eern shantung, a really admirable choice for the summer coat, for it has durability without heaviness, daintiness without the ever-menacing danger of countless wrinkle and creases. In the center is a combination coat and cape of dark blue Scotch tweed, belted comfortably about the waist and hanging easily from the shoulders. The coat on the right, with its widely flaring bottom, is made of black and white striped serge.

BLUE, EMBROIDERY WITH WHITE

Blue, embroidery with white, is the first choice of the woman, but she still taffeta embroidered.

Porria is also worn again, and on the beaches one sees a frank and unblinking mixture of purple and orange like Turner sunset. At green, red and white sands or the blue and green mountains.

In the cities they cling to dark blue with black hair, a sober uniform which comes as a surprise to the eyes of the guests of the so-called Riviera. "The Legend of Joseph," written by Sturges and costume by Leon Bakst, superb as it was did not succeed in counteracting a return to the barbaric splendor of two years ago when the Russian ballet suggested and dominated all forms of dress.

This marvelous production which one French writer described as "A scene Egyptian, a decor, Venetian, music, if there be a plot, a plot of Richard Strauss, a plot especially of the Twentieth century" had a combination of color it all times on the stage that must have driven a lover of brilliant into hysterical raptures.

DARK COLORS IN PARIS.

But it did not wear women away from even wearing these splendid tones and jewels in the evening. They prefer white with probably a splash of bright green or crimson, usually shown in a great sash or a piece of colored crystal placed to its best advantage.

Maybe the spectacular balls which have been given by the smart hostesses in French society have robbed women of the desire to exploit Oriental gorgeousness. In public they now have so many opportunities to indulge their fancies in this direction under a private roof.

splendor and fancy costumes and in a car to a dress in private entertaining and the summer of color and color. They have given early this summer in Paris waves one of the gala days at Versailles. Let us hope they are not omnivorous.

man nature demanding bright colors which shows the touch of savage in us.

Seen gaa. rament for the seaside and all is now indulged out of the. the mountains was surely never seen before. A flock of striped cotton skirts in the place of white ones worn with white shoes and these stripes being bright pink and blue with one of black to give a background.

did these skirts, sweaters of bright orange or Egyptian blue or Vatican purple with wide borders of white, and fastened with crystal buttons stockings to match above white can as pumps and then, after fixing this in your mind have a glimpse of the every-day figure of the woman at the seaside or climbing the mountains.

Really, all this Mexican brilliancy is quite alluring. It is far more fetching than a plain costume of white duck, and much more novel, topped by a Panama hat.

These striped cotton skirts wash as well as all white ones, and what if they do not wear but a few weeks as far as the style is concerned who cares? They are now here for a dollar or so, made with a high, pointed waistband at each strapped across with a belt, after the style of a corset.

There are other separate skirts worn with gay sweaters, such as one with blocks of yellow and white, fastened with white crocheted buttons, or rather fun fastened would be the proper word, for while there are four buttons and buttons at the ankle, they are left open to give one all the freedom needed in the wind of walking one does in the open. And, also, parenthetically, to show the very dashing stockings in bright colors to match some part of the costume.

ACCORDION PLEATED COLORS.

The demand for accordion pleated dress is such as we have had in some years for years, a great this summer, and the newest sweaters show heavy ribbed in bright colors which spread out into a long pleated of strongly marked colors as soon as they are on the figure. There are many varieties of stockings to match, and especially thick ones in

broad stripes in wool used for tennis and mountain climbing. They are expensive but one need not turn in vain for this addition to the wardrobe merely because the price is high for a lesser quality can be bought at a small price.

In America an exclusive shop was selling seven dollars a pair for these stockings before I left America at that price they will never become common.

COMPACT FACE CLOTHS.

Small disks of cotton, compressed into pill-box size, expand when they are dropped into water to the size of the ordinary face cloth. These are sold, ten of them, in a little Myron case for three dollars, and they find favor with the woman who is traveling rapidly, so rapidly that the face cloth has no time to dry before it is at hand to be used into its receptacle for further journeying. For these compact little cloths are thrown away in the assurance that another can be had from the leather case at the next stopping place.

GIRL SINGING MAGNATE MYSTERIOUSLY VANISHES

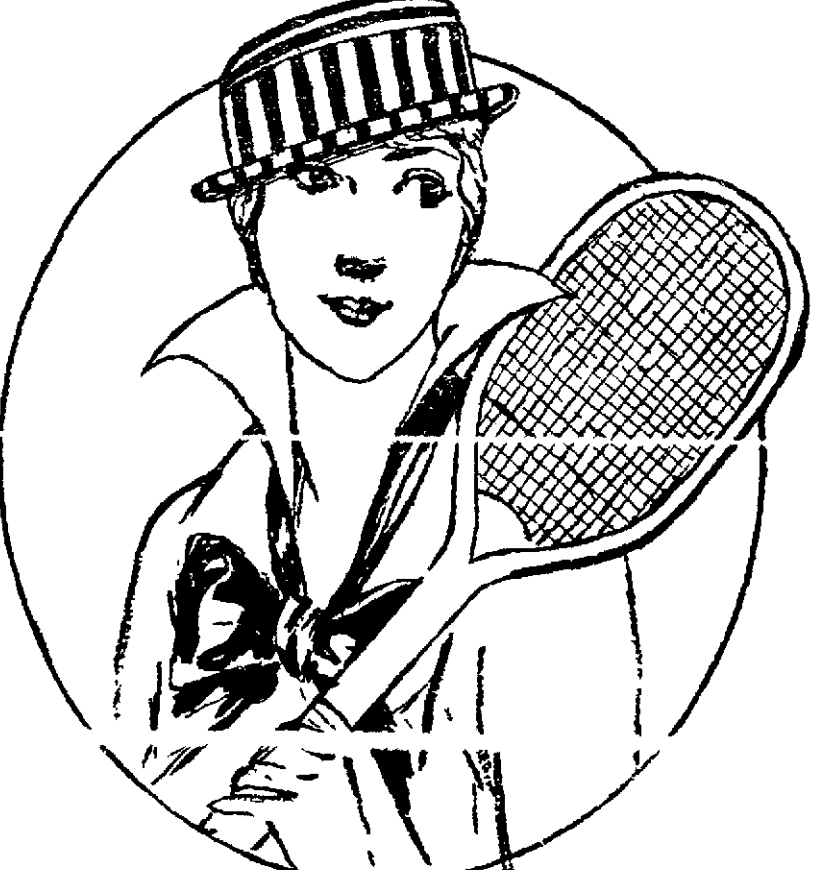

NEW YORK, Aug. 22 — Search for Miss Ivy Wareham, dog fancier, Elmhurst, L. I., who seeks \$100,000 bond to bail in a suit on file against Eugene Zimmerman (Cincinnati), father of the duchess of Manchester, was made by reporters all over New York.

The complaint of Miss Wareham against Zimmerman is not on file in 12 courts, but her declaration is it says that in New York on or about December 20, 1913, Zimmerman committed the crime of kidnapping her, and that she thinks, is worth \$100,000 and she asks just that sum.

Miss Wareham reached New York, then vanished from the station in a taxi. Zimmerman, the Duke of Manchester, declared here is "somewhere in the west." The duke declared that the Wareham case is a "hoax" and that he is a "victim." The case is expected to be heard, however, within a month.

BRIDGE IS ASKED. with the state highway in the vicinity Winthrop Aug. 22 — A bridge of Bond are asked in a petition that across the McCloud river near its mouth and a wagon road along the mouth will be presented to the superintendent from Copper City to a connection visors at their next regular meeting.

HERE IS A SMART TAFFETA HAT

Blue and white striped taffeta is used in this smart little hat, for sports hats, like all other hats, have left the realm of straw and covered with fabric.

LONDON

WILL HISTORY
REPEAT AT
SEDAN?Forty-four Years Ago
French and German Forces Met
on Battlefield.

LONDON, Aug. 22.—Forty-four years

armies were moving toward each other in almost the identical manner in which they are moving toward each other now. The difference is largely one of numbers. One division of the German army, commanded by General Steinmetz, was forcing an entry into France through the Belgian territory; another, commanded by Crown Prince Frederick William, was concentrated near Metz, in Alsace-Lorraine. Frederick Charles, was operating to the south near Strasbourg.

The German crown prince in the present war has command of the army near the ancient fortifications of Metz, which since the Franco-Prussian war has become one of the war seats of the German empire. The French and Belgians have engaged the north division of the German army in the territory of Lorraine, a repetition of history. German and French army divisions are in battle array about Metz, and a decisive battle between the central divisions of the two armies is expected momentarily along the headwaters of the Meuse and about the fortifications of Metz.

DECISIVE BATTLE AT SEDAN.

The decisive battle in the Franco-Prussian war was the battle of Sedan on September 1, 1870, and which resulted in the overthrow of the monarchy of Napoleon III, the occupation of Paris by the Germans, and the cession of Alsace-Lorraine to Germany, together with a heavy indemnity.

It was Napoleon, who from boyhood had cherished an ambition to emulate the imperial glory of his famous uncle, on August 2, 1870, the emperor of France, Napoleon III, was crowned emperor at St. Cloud a few days later.

Happy in his success in his monarchical ambitions Napoleon began secretly the work of annexing Belgium, his aim being to change the French frontiers along the Rhine and through negotiations with the king of Holland, who was also grand duke of Luxembourg, to secure the accession of the Netherlands.

The action aroused the Prussians, and after a long series of negotiations, a treaty was signed by Bismarck and Napoleon III at St. Germain, in 1870.

At once upon the dignity of France. At the same time, Napoleon III, a Frenchman, was all prepared for a contest with a nation as superior to her as was Germany.

The campaign opened on August 4 at Woeinsburg with a victory for the Germans. Marshal MacMahon of the French army, with 40,000 troops, was badly defeated at Woeinsburg. The Prussians, led by Crown Prince Frederick William of Prussia, and withdrew to Chalons. The battle line extended over wide territory and the most efficient of MacMahon's troops were killed. The French also were defeated at Forbach and driven back to Metz.

Metz was garrisoned by 150,000 French troops under Marshal Bazaine. The French army was surrounded by 150,000 men. The city of Metz was heavily, but in their retreat gained courage on the east. Bazaine, trying to move toward Chalons, was forced back to Metz.

The Prussians, under the command of General von Moltke, were victorious. The city of Metz was heavily, but in their retreat gained courage on the east. Bazaine, trying to move toward Chalons, was forced back to Metz.

PRUSSIAN TOWN HOLDS
RECORD FOR HEAVY TAX

BERLIN, Aug. 22.—The small Prussian town of Corn has lost the distinction of levying the heaviest tax of any city in the kingdom, which it possessed since 1911 until last year. The citizen there who earned \$100 a month, paid \$15.73 monthly as an income tax alone, not including church, real estate and business taxes. The city of Stuttgart now has, according to the reports for 1913, the highest taxes of any Prussian city. These amount to only 11.7 per cent of the \$100, a month man's earnings. The rate of taxation, increases progressively, so that the man with \$2,000 yearly pays \$275.19, a little more than 13 per cent, and a man who has an income of \$4,000 pays \$512.20, nearly fifteen per cent. Twenty West Prussian cities impose a municipal income tax of at least 50 per cent of the state tax. The highest municipal tax of the Greater Berlin municipalities is 110 per cent, and some of them get along with 190 per cent.

ENGLISH CHORUS GIRLS
ENVY AMERICAN PLAYERS

LONDON, Aug. 22.—There is again discontent among the English chorus girls on the question of the salaries now being paid in London. The average salary of a chorus girl is about \$100 a week. This is a week's work. That is not surprising. The average salary of an American chorus girl is about \$200 a week. This is a week's work. That is not surprising. The average salary of an American chorus girl is about \$200 a week. This is a week's work. That is not surprising.

PICTURED DESCRIPTIONS OF FAMED EUROPEANS

LORD KITCHENER
BECOMES AN EARLReceives Letters Granting New
Title on the King's
Birthday.

LONDON, Aug. 22.—Lord Kitchener, who has been made Secretary of State for War, much to the popular satisfaction, would possibly have now been on his way to India to succeed Lord Hardinge as viceroy, had not the European war developed so suddenly. Lord Hardinge recently lost his wife and as he is not in health himself, he has asked to be retired from active service for a time at least. The suggestion that Kitchener succeed him was being taken up seriously when the European situation became acute. The success of Lord Kitchener in putting down the nationalist movement in Egypt suggested the wisdom of appointing him to India to handle the anarchistic movement which that country is now permeated with. As the organizers of the movements have the sympathy of a great many of the natives, it has become a serious situation for the Indian police to handle.

Lord Kitchener has just received the letters patent granting him his Earl-dom, which was bestowed on him on the King's birthday. His lordship is to be known as Earl Kitchener of Khartoum, Viscount of Dromore, in the county of Kent, in the county of Kent. There is a special clause providing for the succession to the title in default of an heir, to his brother, Colonel Kitchener, and then to the son of the late General Sir P. W. Kitchener, and then to the son of the late General Sir P. W. Kitchener, and then to the son of the late General Sir P. W. Kitchener.

ENGLAND TO HAVE NEW
SOURCE OF SUPPLIES

LONDON, Aug. 22.—Great Britain will soon have a new source of meat supply in South Africa, in addition to that from the United States, Canada, Argentina and Australia. It will come through the South African Union, an organization having the backing of the farmers of that part of the empire. The country is able to raise from five to eight crops of alfalfa per annum, and the area can be enormously increased by irrigation. Blooded stock has been imported and a party of farmers are now visiting England for the study of stock raising and, in particular, the handling of Friesian cattle.

The first of the new meat will be shipped to England next February. Whether the supply will do more than merely meet the growing British demand is problematical. At any rate, it is not expected to influence the market price of meat to any extent for some years.

SARAJEVO COULD BE AVOIDED

LONDON, Aug. 22.—The last general strike of coal miners cost the trades industry just \$5,000,000, and notwithstanding an increase of 250,000 in membership of all trades unions, the grand total of union funds at the beginning of this year was over a billion dollars less than before that strike. In 1912, the last year for which a report has been made, there were 688 trades unions in the country, with a membership of 2,557,779 and an aggregate of nearly \$2,000,000,000 in assets. The income of the unions alone was valued at nearly \$20,000,000, and expended \$2,000,000 in unemployment benefits; \$3,500,000 in strike benefits; \$2,500,000 in sickness and \$2,500,000 in other benefits.

WAR WITH SERBIA
WAS INEVITABLEAustria's Annexation of Bosnia
and Herzegovina Caused
Wrath of Serbs.

BERLIN, Aug. 22.—What is it all about? Theoretically, the question among theaters today, and Mme. Thamar Karavina, the "Girl with the Hat," and Rosshana, noted Hindu dancer, are fighting for first honors. Their dancing is far different, but both are equally popular, and it is a story which the most talked of today. Mme. Karavina has been appearing this season at Drury Lane with Sir Joseph Becham's opera productions. She has several famous ballets in her repertoire. Rosshana, whose "snake dance" has made her famous the world over, has returned from an American tour, during which she took in San Francisco and Oakland on a vaudeville circuit before returning.

The latest photograph of Ladr Harding, of Penhurst, vicereine of India, taken just before her death, has reached London. She died following a long illness, after having escaped an assassin's bomb, but being injured in the explosion. Princess Margaret of Connaught was seen in a charming, and a short time ago at the Centennial agricultural exhibition at Malmoe, when she appeared in a Swedish peasant girl's garb. She and her husband, the Crown Prince of Sweden, received a procession of 1000 peasants at the big exhibition.

via and the rapidly following declarations of war and then the war itself. Russia, which has been arming with tremendous energy for the last year, was better prepared than in 1905. The White Bear growled when the note from Austria to Serbia demanding punishment of the Sarajevo became known. Soon the rumbling of cannons and thousands of soldiers moving toward the Austrian and German frontiers, could be heard announced the censorship. Germany flatly denounced the support of Austria and its intention of going to war if Russia interfered in the "punishment" of Serbia. Panics on all the bourses of the world and tremendous bank runs in Germany and Austria and Russia followed. Millions upon millions of dollars have been lost.

This Austria has landed a war such as the world has never seen, ostensibly to avenge the murder of an archduke and his wife. Hundreds of thousands of men must be because of the crack of a revolver in Sarajevo some weeks ago. Back of it all, however, was the fact, that for Germany and Austria and the Triple Alliance composed of those two countries and Italy, the auspicious moment had arrived for that inevitable conflict with Russia and the Triple Entente—Russia, France and England.

ESTABLISH BUREAU TO
PREVENT BOGUS SALES

LONDON, Aug. 22.—For the benefit of Americans and others who visit to buy antiques during their visits to London, the authorities of the city of London recently established a department at the Guild hall where purchasers may ascertain whether their purchases are genuine or sham articles. A case of sham antiques has been collected and the intending purchaser is advised to visit to it should be able to judge whether articles offered to him are real or otherwise, while those who buy before visiting the Guild hall can learn whether their objects of art are worth the money they have paid for them. Articles in lead and brass appear to be the special attention of the antiquaries, who are today craftsmen, his bogus productions being in many cases highly artistic.

DOBBINS A "SELF-STARTER"

Waver hit his automobile to the family home when the engine of the auto would not start. The horse ran away and Dobbins' speed started the engine. Weaver who was in the driver's seat in the auto, did not dare to keep from running over his "self-starter."

INTRODUCTIONS

Who's the Queen of the Dance in London? That's the question among theaters today, and Mme. Thamar Karavina, the "Girl with the Hat," and Rosshana, noted Hindu dancer, are fighting for first honors. Their dancing is far different, but both are equally popular, and it is a story which the most talked of today. Mme. Karavina has been appearing this season at Drury Lane with Sir Joseph Becham's opera productions. She has several famous ballets in her repertoire. Rosshana, whose "snake dance" has made her famous the world over, has returned from an American tour, during which she took in San Francisco and Oakland on a vaudeville circuit before returning.

60,000 RESERVES FOR
BRITISH RED CROSS

LONDON, Aug. 22.—The British Red Cross Society can call upon 60,000 persons many of them highly trained, to undertake field ambulance and hospital work if there is a serious demand for their services. It is estimated that at least 95 per cent of this number will obey the call.

LONDON OPENS COURSE

LONDON, Aug. 22.—Eton College, the most aristocratic of English schools, is being thrown open to the sons of working men for two weeks this summer. Tuition, board and lodging for the fortnight's course are covered by the nominal charge of two pounds. Over 1000 boys are enrolled.

PASTOR TO JOIN LEOPERS.

LONDON, Aug. 22.—From a life of comparative ease, to isolation in a Japanese leper colony is the lot which the Rev. A. S. Hewitt, until now the vicar of Eton, has chosen for himself. He is now on his way to Japan.

HERO IS SMALLEST
ADMIRAL IN NAVYCommander of English North
Sea Fleet Holds Unique
Distinction.

LONDON, Aug. 22.—Vice Admiral John Rushworth Jellicoe, K. C. B., who is in command of Great Britain's North Sea fleet as full admiral, is just the man to repel a German invasion of the British Isles, for he was the commander last year of the British fleet which represented a hostile German fleet in the navy maneuvers. He ought to know the weakness or strength of the English coast, for his fleet outnumbered the squadrons representing the naval might of England and landed his troops on the Lincolnshire at Grimsby.

Like Admiral Sir George Callaghan, he took part in the relief of the legations at Peking in 1900, commanding the naval brigade and acting as chief of staff to Sir Edward Seymour. It is an interesting story how he escaped from death in the hands of the Chinese. He is now called upon to destroy his Red Sea ship.

He married a daughter of Sir Charles Bannister, the great shipowner, and has three daughters. He lives in London when not on duty and is a lord commissioner and controller of the navy. He was in command of the Atlantic fleet in 1910-11.

60,000 RESERVES FOR

HOSPITAL SYSTEM
WORKS HARDSHIPSLack of Accommodations for
People of Moderate Means
Causes Problem.

LONDON, Aug. 22.—England's lack of hospitals for people in moderate circumstances is the thing that most impressed the members of the Clinical Congress of Surgeons of North America, who just met in London. All of London's wonderful hospitals, where the visitors have been watching operations by the great British surgeons, are charity hospitals. People who can afford to pay are barred, and must either go to the inadequately equipped private nursing homes or be operated upon in their residences.

Dr. Franklin H. Martin of Chicago, general secretary of the congress, felt the condition keenly as he had a touch of appendicitis during his visit to London and then learned that the hospitals he had been during would not have received him had he been forced to go.

This method of conducting hospitals, which is the only one in the world, is the most valuable land in the capital of the world, are devoted solely to non-paying patients, excluding from their aid means, the people of moderate means and means, prohibitive to patients of wealth. This works injustice both ways. With their large endowments, these hospitals can afford the most elaborate equipment of operating rooms and laboratories, and the best of medical science, yet patients of means are compelled to go to the unimperfectly equipped private hospitals or to nursing homes with their makeshift arrangements. This must in turn have a pauperizing effect on people of small means who are compelled to go to the unimperfectly equipped private hospitals or to nursing homes with their makeshift arrangements.

"The injustice worked on the paying patient may be serious, as nursing and private homes can not afford expensive means, such as the latest X-ray machines and the like."

LONDON OPENS COURSE

LONDON, Aug. 22.—Eton College, the most aristocratic of English schools, is being thrown open to the sons of working men for two weeks this summer. Tuition, board and lodging for the fortnight's course are covered by the nominal charge of two pounds. Over 1000 boys are enrolled.

SOCIETY FAILS
TO ATTRACT
HEIRLeaves Newport for Beautiful
Home in the Fiji
Islands.

SUVA, Fiji Islands, Aug. 22.—

Newport, N. J., has been a resident of Fiji Islands for more than two years. He inherited more than one million dollars from the estate of his father upon the latter's death which occurred in Paris four years ago. He and his beautiful wife occupy a delightful home in the bungalow type, about three miles from Suva. The house is situated upon an eminence of Viti Levu Island and overlooks the bay and harbor of Suva.

South Sea, the Lorrilards have a lotus-like life. The couple were making a world tour when the tropical beauties of Fiji attracted their interest and instead of proceeding on to Honolulu from Sydney, Australia, as they had intended, they disembarked from the steamer here and have made the island their home ever since.

Lorrillard has with him a touring car and when it was unloaded from the steamer and placed in service upon the road that runs along the beach it produced no little excitement among the half clad natives and even among many of the white residents of the little town. It was the first automobile brought to Fiji. Since its introduction to the island group a number of other cars have been shipped in and are in use by foreign residents.

The life of dreamy ease which one quite unconsciously drops into here suits Lorrillard so well that he says he intends making Fiji his permanent home. He and his wife derive great pleasure in making trips to points of interest along the coast, and in visiting the hospitable planters and exploring the out of the way places.

HAS ONLY AMERICAN FLAG.

Shortly after arriving here the couple started out one morning in their automobile to travel a narrow trail that led through the hills. It was one time been used by bullock carts. The road led them through picturesque native villages and scenic localities in the hills.

For forty miles they wended their way along this abandoned highway, coming upon new beauties at every turn. This exploration trip caused the colonial government to take steps to improve the old road and to construct new highways upon this and the other islands of the Fiji group.

Lorrillard is a graduate of Harvard. He began his world travels soon after leaving college and there is not a country upon the globe that he has not visited. He became surfeited with civilization and prefers the semi-civilized surroundings that he finds here. The United States colors to the tall flag pole that towers upon the heights overlooking the harbor.

Lorrillard has the only American flag on the island and whenever a passenger steamer, enters port he flies the United States colors to the tall flag pole that towers upon the heights overlooking the harbor.

DOCTOR'S COUNTESSANCE
SUBJECT OF DISCUSSION

LONDON, Aug. 20.—Whether a physician should adopt the cheery manner of bygone days or wear a look of business-like solemnity, is the controversy raised in the London press by Lord Rosebery, who in a speech at Eton College said he would rather a thousand times be treated by a third-rate doctor with general features than a first-rate man of repellent countenance.

The old-fashioned type who entered medical study, he said, looked like the "He and started to tell him jokes," replies one physician, "practice these days a hard time holding his practice these days."

Another writer answers that the doctor liked by the best modern patient is the one who listens gravely and ends by saying, "I know exactly what the trouble is." The main reason why the good doctor is liked is because he is a good listener, and patients like to talk when they are in the hands of their troubles.

LONDON WAITERLESS
BECAUSE OF CONFLICT

LONDON, Aug. 22.—The call to the colors for the continental recruits had immediate effect on London restaurants, hotels and boarding-houses. London became almost waiterless.

The old-fashioned English waiter is all but extinct. His passing has been deeply regretted by the older generation of knaves, because of his intelligent service, which he regarded as one of the finer arts, and his respectful demeanor. But he could not withstand the competition of the French living foreigner.

While French and Italian waiters have been attracted to London by the high pay, a large part of the German living English. Even street car conductors and taxi drivers in most of the German cities are compelled to know English, and the knowledge of foreign language is an asset for any type of German wage earner.

GRANTED CONCESSIONS

LONDON, Aug. 22.—The necessity of paid the ordinary fare will be allowed to travel free on the London County Council. The omnibus system. This concession has been made by Sir Albert Stanbury, a large part of the German living English. Even street car conductors and taxi drivers in most of the German cities are compelled to know English, and the knowledge of foreign language is an asset for any type of German wage earner.

LET YOUR MIRROR CRITICIZE!

says
LILLIAN RUSSELL

THE REPOSEFUL
EXPRESSION THAT
SHOULD BE ACQUIRED BY
EVERY GIRL

WHAT THE MIRROR SHOWS WHEN YOU PUCKER THOSE PRETTY BROWS OVER GIRL PROBLEMS.

[Copyright 1914: By Lillian Russell.]

RECOGNIZE your mirror as your best friend and let it criticise you!

N Don't be afraid of the vanity engendered by consulting it often.

It will speak to you in plain terms and give you the best advice in the world!

Your mirror will lengthen the years of your life if you will "stop, look and listen" to its advice.

If you are a facial contortionist your friend, the mirror, will tell you plainly that you're adding years in lines and wrinkles.

If you are not conscious of being a facial contortionist your mirror will tell you the truth in time to save you creases and lines that are hard to eradicate.

Most American girls are guilty of constant twisting and turning of the features into unnecessary grimaces.

Study your mirror, then! Discover what your particular fault is and correct yourself with a little will power.

Next time you are doing "heavy thinking" look in your mirror and see if your face hasn't become a storm center, which must leave destruction in its wake.

If your forehead is wrinkled into horizontal lines with a scowl or frown your mirror will give you the plain unvarnished truth about unhappy expressions as beauty destroyers.

Talk to yourself in the mirror now and then and train yourself to talk without making funny faces.

Study your face in repose in the mirror so as to avoid that severe expression that faces in repose so often wear.

Placidity of countenance may be cultivated without danger of a "vacant" expression.

Serenity of disposition is the real fountain of youth. Think of this when you are tempted to a violent outburst of temper, jealousy or envy!

Learn from your mirror how to smile.

Have you ever seen your face in a mirror with a smile which you had in a spell of absent-mindedness forgotten, till you suddenly caught sight of its poor, vapoury remnants? How inane it looks!

Have you ever seen yourself in a fit of the giggles? Nothing makes one look sillier.

Your mirror will tell you in cold-blooded tones that those fretful lines you have engraved upon your face with your ill-temper, your worrying, fretfulness and unpleasant thought weigh heavily against you as "charmer."

Remember, reform doesn't stop at simply the expression of countenance. It must extend to the mind itself.

Study the face of one inspired to noble
thought by poetry, music or kind deed.

The animation is expressed more plainly than with words. If good thoughts, therefore, are so faithfully mirrored upon the countenance it follows that unpleasant and unhealthy thoughts are as readily visualized.

LILLIAN RUSSELL'S ANSWERS TO INQUIRIES BY BEAUTY SEEKERS.

READERS: Here are a few hints to keep the hands in good condition: There is great importance in drying the hands thoroughly, rubbing the fingers separately firm and round. Much rough skin is due to the hands on undressed objects with them. You should allow their nails to grow long and let them to do so, for long pointed, well manicured give length to the fingers. The cuticle on the nails should be carefully pushed back.

every time the hands are washed. A little cold cream rubbed around the nails every night before retiring will keep the cuticle soft. Don't be afraid to use a nail brush and plenty of warm water and soap. There is nothing so attractive as those beautiful white, shapely, and well cared for hands. The hands do more for us than we can possibly do for them and we should at least show our appreciation by keeping them clean, smooth, and supple.

FAITH- Scalp massage is the secret of keeping the scalp and hair healthy. It is easily done and not a great tax either on time or patience. The scalp is loosely attached to the underlying skull and when the roots become adherent to the bones underneath and will not move easily, then the hair will fall and become brittle and lifeless. By massaging the scalp you keep it flexible, promoting a flow of blood to the roots so that it will be properly nourished. I think if you would

thoroughly massage your scalp each night when retiring, using a good hair tonic with massage, your hair would regain its luster and in time you would find a vast difference in your hair. This will also help it to grow. I shall send you complete instructions for scalp massage and formula for hair tonic if you will send me a stamped, addressed envelope.

* *

MRS R. C. M.: I received a letter from ~~one~~ of my

readers telling me of her success with the round exercises. She said they reduced her fourteen pounds in one month. I am sure this exercise will also help to reduce the excessive fat around your hips, and I shall be glad to send you a copy of my book with send me a stamped, addressed envelope. It is always best to accompany any exercises for reducing flesh with a dietary. I shall also be glad to send you the dietary for reducing flesh.

SOCIETY

MRS. CHARLES BATES, WELL-KNOWN HOSTESS OF OAKLAND SOCIETY.—Webster photo.

there have been booths, and of all kinds, to which people came to purchase the wares there offered for sale.

But we have evolved something new, even in the fete champetre. It is the little push cart instead of the booth. No longer does the little maid wait sometimes all forlorn, for the purchaser to come her way. She just fastens her bright little eagle eye on him, and away she goes after him, with the little push cart. And she is immensely attractive as she takes her trips, "running down" her customers. Down the peninsula recently in the Atherton place there was a lovely fete champetre, and it was full of merriment because of the happy little society maids with their push carts. Three little push carts were small wheeled tables, beautifully decorated and they were laden with cakes and candies, preserves, jams, fancy work and flowers.

One cart had lovely dolls in it, and there was a candy cart and a lemonade cart. One bears the ice cream cornucopias were a great success, and the soap bubble push cart was a real innovation.

All the pretty girls from the Menlo Park section were much in evidence—picturesque and merry as they thrundled their push carts through "Atherton Wood," the beautiful country place of the Eyras.

It is said that an enthusiastic girl sold the family cat, and the household canary in his cage brought a fine sum for charity.

TRAVELERS RETURN FROM DANGER ZONE.

News of prominent people is of more than the ordinary degree of interest this year, since so many well-known people have been in the dangerous war zone.

The Goodalls arrived this week and are at their Lake street home, and their relatives were very happy to welcome home again the Wallace Alexanders, who returned from England.

The Misses Mott, sisters of Mayor Frank R. Mott, who have been abroad for the past three years, are on their homeward way, having sailed recently on the Caronia from Scotland. On the same ship is Mrs. Crellin and other Californians.

Mrs. Louis Montague, with her sons, Paige and Kenneth Montague, are spending the summer at Santa Cruz. They spent last winter and part of the summer in Berkeley, where Mrs. Montague entertained extensively.

Miss Ernestine McNear and Mr. George Nickel have returned from Santa Barbara, where they were the guests of Mrs. Felton Elkins.

Miss McNear is very pretty indeed and she is a most charming study this year in blue. Her gown is of blue cloth with a tunic skirt, and she wears a picturesque little blue hat trimmed in Alice blue ribbon and flowers.

The Cairns of this city are all spending the summer at their country place in the heart of Santa Cruz island, the beautiful island just off the coast of Santa Barbara. It is the only island on the Pacific coast that is now under private ownership. In the heart of the island there is a most extensive country place, which is, in fact, a very foreign village, in which one finds vineyards and other industries. The Cairns entertain a great deal, and they are very happy each summer in their beautiful island home.

SUZETTE.

SOCIETY

Mrs. M. L. Stannard entertained Friday at her home in Webster street in honor of her house guest, Mrs. F. Mead Cheney of Los Angeles. The guests were invited to an old fashioned Southern luncheon at which delicacies of the South were served. Among those who enjoyed the affair were Mrs. Carlton Winslow, Mrs. R. H. Grier, Miss Estelle Ferri and Mrs. L. B. Arnold of San Francisco.

NORWOOD-PICKERING WEDDING.
The marriage of Miss Martha Elizabeth Norwood and Charles Pickering Pickering was solemnized Thursday evening at 8 o'clock at the home of the bride's parents, Mr. and Mrs. William L. Norwood, 406 Fairmont avenue, the Rev. Clifton J. Mason, rector of Trinity Episcopal church, officiating.

The house was very attractively decorated with palms, pink and white roses and ferns. Preceding the ceremony Mrs. Karl Nickel sang, "Dawning," accompanied by Mrs. Oscar Conrad, and Archie Thomas sang "O Promise Me," accompanied by Mrs. Walter P. Hamby. The wedding march was played by Mrs. Norwood.

(Continued on Next Page)

A SKIN OF BEAUTY IS A JOY FOREVER.

DR. T. FELIX GOURAUD'S Oriental Cream OR MAGICAL BEAUTIFIER

Beautifies the skin, removes blotches, freckles, and all skin blemishes. It is the best thing to do to the skin. It is easily, painlessly and inexpensively done by the application of ordinary mercurized wax, procurable at any drug store. The wax peels off the defective surface, leaving a smooth, clear, and healthy skin. The new skin is beautifully soft, clear and white, bearing the healthy glow of youth. Just apply the wax as you would cold cream, only not rubbing it in. In the morning wash it off with warm water. It is the most effective treatment known for the soiled, discolored or aged complexion.

As the war conditions grow more serious entertainments at leading resorts are narrowing down to small dinners and luncheons, with the weekly or semi-weekly dances for the milder diversions. All elaborate affairs in the East have been unanimously called off. Prominent hosts and hostesses and those who play the part of guests seem to feel pronounced and extravagant gaiety to be out of place in the presence of such an absorbing and far-reaching situation. In Newport, to which one naturally looks for leadership in all things social, the organization by prominent men and women of an international war relief fund, the proceeds to be sent to Red Cross headquarters, make the present main interest. The tableaux at Mrs. Belmont's home, the Breakers, have been an expression of generous sympathy on the part of the leading members of the American smart set.

Indeed all along the line of fashionable summer homes in the East the women are working hard and earnestly for this relief and other war funds, and with as lively an interest as ever they felt in purely social occasions. In times of real stress and strain one is sure to find sympathetic and willing practical helpers among the richest and most so-called worldly women, and the present situation is only emphasizing the truth of that assertion.

We are too far away from the center of things to begin our own work yet. The sympathy for the distressed European countries is with us in abounding measure and if the war continues California women will express that sympathy in some most generous fashion.

WESTERN WORLD, WESTERN PEOPLES.

Meantime all over the country there is a very general desire that the Panama-Pacific Exposition plans should go on, as all our own world of America will flock to our shores this year. Our own people hardly know how much in the way of advertisement is being done for our great exposition. The September Scribner is not yet on the book market, but the foreword from the publishers quotes from what bids fair to be a most wonderful article on the symphony of color of the exposition. It is scheduled as a new departure. The editors quote:

"But for this greatest of expositions there has been conceived and worked out for the first time a city where not only form but color will be called up to create symphonic loveliness. In Chicago there was no color, except incidentally, white not being a color. At St. Louis some of the buildings were white, others were in tint, but no attempt was made to harmonize the whole group. At San Francisco every square yard of the stately composition, a mile or more in extent, from the red roofs overhead to the tan shale underfoot and including the rich masses of California flowers and shrubs between, together with the blues of the Golden Gate and the soft browns of the adjacent hills, are all picked up and combined, blended and contrasted, in one dominant key of color to produce—not only harmony like an orchestra, but transcendent beauty like a great orchestra.

"What the actual effect will be when it is finished and visitors look down upon it as they approach from the heights above, or gaze at it from the hills across the bay, is quite impossible to describe, for the very reason that nothing of the sort was ever done before. The nearest one can come to suggesting its ethereal loveliness is to say that the whole color scheme has been devised and carried out under the direction of Jules Guerin.

"His official title, I believe, is chief of color and decoration. He has devoted two years of his career to the congenial task, but he has not painted even a single decoration himself, though the architects wanted his work for their buildings. He is the composer of the symphony, and conducts the music rendered by the orchestra, each member of it a master of his own particular instrument."

And so it follows that we must go on with the big work which so nearly approaches completion. No one hails with more joy the prospect of peace between the two cities than the women on both sides of the bay connected with the exposition. They were going to find their work difficult and their positions eminently embarrassing, unless harmony prevailed, and each group of women would, of course, feel that she had to stand for her side of the bay. Happily all that has gone down in history and the wiser counsels of peace prevail. Now that many people are home again Mrs. A. C. Posey is preparing to push her plans for the exposition. There is to be a meeting of the sub-chairmen at her home, the date to be announced in the near future.

In San Francisco the meetings of the women's board have been held at the Fairmont, the management of the hotel most generously placing the ballroom at the disposal of the managers of the women's board. For nearly two years they have held meetings there and the stereopticon exhibitions have been of most wonderful value in an educational way.

One of the finest lectures that has been given in many months is that on the exposition, the lecturer being Mr. Levy, who illustrates it with stereopticon and moving films. The pictures are splendidly colorful and the audience views in surprise and astonishment the magnificent exposition just across the way from us and almost ready to open its doors.

Mrs. Posey is planning to have this same lecture given over here, and it will probably be given in the ballroom of the Hotel Oakland. Many valuable plans are being developed by Mrs. Posey, who has entered into the work with much enthusiasm, and she has brought to it the same executive ability and enthusiasm that made the Ebell Club during her administration, and one of the most successful and one of the strongest women's clubs in the country.

LET GOOD NATURED FOLK RIDE HOBBIES.

It is the day of "hobbies." And "hobbies" are very different things from fads. In England they take hobbies very seriously. They take them for what they are worth—a panacea to counteract the troubles due to the wear and tear of daily existence. They call them in England "recreations." But we call them in America "hobbies."

And the chapters in a book on "Hobbies" might be written on the heads: Garden, golf, tennis, books, music, charity, philanthropy, education, unless harmony prevailed, and each group of women would, of course, feel that she had to stand for her side of the bay. Happily all that has gone down in history and the wiser counsels of peace prevail. Now that many people are home again Mrs. A. C. Posey is preparing to push her plans for the exposition. There is to be a meeting of the sub-chairmen at her home, the date to be announced in the near future.

much discontent and unhappiness. It will give you food for thought and food for action. It will give you a focus for your attention when the day is too warm for comfort, when the winter winds blow chilly, when you are surrounded by uncongenial folk. That is the beauty of a hobby; it is always within your reach."

And you learn a great deal when you have a hobby—for you study and your path lies along devious ways. Of the people who make a hobby of their gardens, one might write many chapters—for flowers carry a special appeal.

Trees and shrubs appeal to P. E. Bowles and he has had them brought to his garden from all over the world. All the city is indebted to Frank C. Havens, whose early hobby was beautification.

The many foothills are garden spots indeed. Because of his love for pictures we have the splendid Piedmont gallery, and in vacation times it is the yachting in the East which is of interest to him.

The Coryells have the finest orchids in the world, not excepting those of the King of England and of Queen Wilhelmina. And the finest tulips in the world are grown here in Oakland and under the direction of David Brown, whose beautiful bulbs come each year from Holland.

Very few spring gardens could be more lovely than that of John D. Eby, and the Italian garden of the Wickham Havens is one of the loveliest of the Piedmont show places.

H. C. Taft's hobby is traveling, and no one has gained a wider horizon from those many visits to foreign countries.

The Templeton Crockers are very fond of art and in their new home they are to have an Italian dining-room built entirely of marble around two Della Robbia plaques. All the color in the dining-room will be represented by these superb Della Robbia blues.

Mrs. Carolan is very fond of tapestries and the result of her many visits to Europe will be apparent in her beautiful new home.

Many of the younger girls are studying agriculture, and it is surprising what they are planning sometime to do on little farms of their own.

Lloyd Crellin's hobby is successfully

these are, and of post cards, and many people have wonderful rugs. One hears a great deal of the Chinese rugs owned by Mrs. Frank C. Havens.

Mrs. P. A. Hearst made the finest anthropological collection in the world, which she bestowed upon the university, and other collections represent wonderful laces, fans, headgear, and from Japan have come magnificent robes, heavy with splendid embroidery.

Nearly all the brides have lovely collections of cups and saucers, and their "china cabinets" are well worth while, and jewelry collections are exceedingly valuable.

Mrs. William Crocker loves farming, and she has the finest pearls on the coast.

Mrs. Malcolm Whitman loves to crochet and she always has the work with her in the limousine, evolving dainty laces as the work of deft fingers.

Very few people now can make tatting, but those who do have a valuable collection of real hand-made lace. Among those whose work is much admired is Mrs. M. W. Kales.

Mrs. Coogan plays bridge exceedingly well, but she also crochets well, and some of her handiwork has called forth much appreciation from her friends.

Among the wonderful good things, players on this side of the bay is Mrs. Victor Metcalf, who learned to play in Washington, where they play very good bridge, indeed.

Mrs. Frank K. Mott is a very good linguist and she keeps up her studies in the following way. I was going

in a remarkable way in the midst of many duties.

In the line of art one finds Miss Isabelle Percy, Miss Margaret Herrick and Mrs. Mary Ross.

Douglas Soule is doing wonderful things in music and all of the Sharrons are distinguished not only for their love of music but for their talent as well.

One has only to go to the golf links to find out those whose hobby is golf—and they are many.

F. M. Smith is devoted to yachting and the yacht that won the king's cup two years ago belonged to him.

A prominent man was asked recently that if he were not the successful lawyer he was what he would like to be. And instantly came the answer: "The leader of a brass band."

All the friends of a very wealthy and very prominent woman used to be greatly amused at her, for she openly expressed the wish that she might have the honor of being "the drum major and leading the band down the street, throwing in magic style the wonderful staff, which had a way of twirling madly in the air."

Of hobbies there are many—one indeed for every man—for you have only to think of a man and in your mind's eye instantly there is a picture of his hobby.

CLEVER WOMAN AND HER MASTERPIECE.

A prophet and honor in his own country are being continually quoted, and no one in the literary world of today is so prominently in the limelight as Mrs. Gertrude Atherton. No one arouses so much anger, nor such a storm of criticism at intervals as Mrs. Atherton, and yet no one is so extensively quoted, no woman has achieved more literary fame.

It has been decided that "Senator North" is the best character in her books, and "The Strand," the famous English magazine, in a forthcoming number will publish the following interview from Mrs. Atherton:

"I came to write 'Senator North' in the following way. I was going

out a good deal during my first London season, and was being constantly asked about American politics, to say nothing of such abstruse subjects as our educational system. I remember answering Lord Haldane's and Lord Reay's searching questions on the last with a desperate 'I really know nothing about it.' But I have always been proud of my knowledge of American politics, and was surprised to find that I did not know nearly so much as I had believed I did.

"One night at a dinner, Sir Lepel Griffin, just returned from a thirty years' governorship in India, began to put me through the usual course, when I interrupted him: 'I'll not bluff any more,' I said, with the calmness of despair; 'but I'll take the next steamer for the United States, spend the winter in Washington, study the subject and put the result in a book.' 'Senator North' was the result. Senator Hale of Maine suggested the title character, but psychologically Senator North had wide divergencies from Senator Hale."

Mrs. Atherton will be in California this autumn, having finished the new book which she recently wrote in Montana. She can be a social leader whenever she wants to and there is always much entertainment for and by prominent people on this coast.

"FETE CHAMPETRE" HAS LOCAL HISTORY.

Oakland is usually the home of the fete champetre, for years ago there had people to spend happy hours in our gardens. The fetes began several years ago, when the late Mrs. Mary R. Smith gave annual garden parties for charity.

There have been many fetes for the Ladies' Relief Association, both at beautiful Mosswood Park and at picturesque Piedmont Park.

entertains her friends by means of all fresco entertainments at Mulford Farm; Mrs. Requa loves to serve afternoon tea in shady "Chevy Chase," on her spacious grounds. But always in the fete champetre

MISS BEATRICE OLDS, ONE OF SOCIETY'S TALENTED AMATEUR ACTRESSES.—Fraser photo.

tion, people, clothes, politics, chickens, horses.

There is a good deal of comfort in the message the English send us all the way over the water. They tell us that:

"A hobby is a precious possession, something to be cherished by the person who possesses it, braced about maybe, and something to be sought by the person who has it not."

"For a hobby will keep you from

expressed in his fine ranch in the Napa valley, and near Napa, too, the William Watts (Olive Middleton) have developed some of the finest dairy interests in the state.

Mrs. William Chitt has a collection of candlesticks which would be a joy to any museum, and she has also wonderful old china in blue patterns brought from abroad.

There are people who make collections of stamps, and very valuable

To Peel Off Freckled, Tanned or Muddy Skin

To remove tan, muddiness, freckles, blotches or any complexion difficulty, the best thing to do is to remove the skin itself. It is easily, painlessly and inexpensively done by the application of ordinary mercurized wax, procurable at any drug store. The wax peels off the defective surface, leaving a smooth, clear, and healthy skin. The new skin is beautifully soft, clear and white, bearing the healthy glow of youth. Just apply the wax as you would cold cream, only not rubbing it in. In the morning wash it off with warm water. It is the most effective treatment known for the soiled, discolored or aged complexion.

when it is chosen as the top-line number, yet that was the selection of Manager Pantages for his bill for the week starting Sunday. Delmore and Lee are the athletes honored for this bill, and they both top the bill and close the show. Their offering is termed "A Study in Black and White." They are costumed in white and their aerial apparatus is in black velvet, makes an unusually effective picture. In addition to having one of the prettiest acts in vaudeville, the two men are really wonderful performers. They accomplish extraordinary feats on the trapeze, Roman rings and huge revolving ladders, the apparatus for which was built and patented by themselves. It is far and away from the conventional style and wins applause for the breath-compelling and hazardous feats accomplished.

Popular Charlie Kelly, always a great favorite with Oakland audiences, returns with "The Irish Emigrant." His selection of songs this time will include "The Girl I Call Sweetheart," "A Toast to Erin" and "Too rol too rol, or an Irish Lullaby." In the cast with Kelly will be Fanny Warren, Ben MacGahan, Mary E. Ryan, Lola Norris and Mabel Burt. Another name well known on the legitimate stage is that of Olive Briscoe. Having won success as a comedienne, Miss Briscoe recently entered vaudeville and she has

(Continued on Next Page)

MACDONOUGH

Tonight at the Macdonough theater there will be disclosed for the first time in Oakland what has been pronounced the apotheosis of photo-drama, "Cabiria," which, enthralled captivities audiences in San Francisco for four weeks. Its engagement in this city is for two weeks, with daily matinees. Nothing so marvelous in beauty, power, and grandeur has been seen as this tremendous spectacle-drama of the titanic struggle between Rome and Carthage.

"Cabiria" is a tragedy as it affects the lives of most of the characters, but the little girl whose name it bears escapes soullessness from earthquake, volcanic eruption, pirate raid, vicious hate and war. The times are those of Hannibal, "the sword of Carthage," about 200 years before Christ, and so vividly is the play flashed before the auditor that the brutal life of that day leaves a strong historical impress.

The story of the play tells of the adventures of Cabiria, a 5-year-old Sicilian girl, who is saved from death by her nurse when Carthage, in Sicily, is almost destroyed by an earthquake and an eruption of Mt. Etna. She is taken to the seashore, where with her nurse, she is captured by Thracian pirates, who sell them in the slave market at Carthage to the high priest, Kartilo. The latter prepares to offer the child as a human sacrifice to the god Molech, into whose fiery furnace Cabiria is about to be thrust

when she is rescued by a Roman spy named Fulvius and his herculean Nubian slave, Maciste. The play revolves about the adventures of Cabiria and her rescue until, following the fall of Carthage several years later, she finally becomes the bride of the Roman and sails back to Rome with him in one of the victorious ships.

The times are timed and tuned throughout. The entire symphony orchestra and large choir of trained voices that rendered the music especially written for "Cabiria" by distinguished Italian composers will be heard at the Macdonough. It should be noted that the production is at 2:15 o'clock for the matinees and at 5:15 o'clock for the night exhibitions, and patrons are urged to be in their seats at curtain rise in order that they may not miss the singularly beautiful and effective orchestral and vocal prelude to this remarkable work.

"TOO MANY COOKS" COMING.
The announcement of the Macdonough for September 6 is Frank Craven's hilariously funny comedy, "Too Many Cooks," which ran for one year at the Thirtieth Street theater, New York, and which is scheduled for early production in London. "Too Many Cooks" is conceded to be the best and most diverting comedy written in the past twenty years. New ventures are difficult and new trails hard to follow, but in "Too Many Cooks" Mr. Craven is said to have written the typical comedy upon an absolutely new and original idea with an air of possibility and plausibility. It is the laugh play of the century, a tonic for old

and young, a comedy for all tastes. William A. Brady, Ltd., makes the production. Frank Craven returns to us as author-actor, and will play the leading male role in "Too Many Cooks."

ORPHEUM

The big feature of the week at the Oakland Orpheum will be the vivid and colorful actress, Bertha Kalich, in her current vaudeville tour. The vehicle she is working in is entitled "Mariana," Kalich taking the episode of Echeagaray. This bit of Spanish drama gives her wide scope in which to display her emotional ability, and she works up an intense dramatic climax to the act. A splendid little company supports Miss Kalich.

With Rogers, long known to the theatrical world as the Oklahoma cowboy, will return this week, to the delight of his many friends and admirers. He recently shared honors with Blanche King in the

production of "The Wall Street Girl," in which sketch he displayed his histrionic abilities. He is exceedingly skillful in the handling of the lariat, and his dry, unctuous humor helps along the story. In fact, he would have more success in stepping out of the cowboy part and taking on a regular comedian line.

LEAVES OPERATIC STAGE.

Miss Josephine Dunfee, known to the concert and operatic stage for several years, one tour having lasted for seven years, has joined the ranks of the two-day, and comes this week to the Twelfth Street playhouse. Her voice is of excellent timber, her first appearance in opera having been in the prima donna cast for the Gilbert & Sullivan opera company; another season she sang with Conway's band. Her selections will be the best from the ever-popular operas, and sev-

eral of the choice ballads of the day. A novel and original specialty act will be presented by Fred and Eva Mozart, in which they will dance on snowshoes. Mozart, aside from his singing and dancing, is a yodeler of no mean talent, and Miss Eva does a close dance while skipping the rope. The act is quite prettily set.

Another songstress on the bill this week is Byrd Frost Crowell, a young soprano just breaking into the game, and therefore utterly devoid of an "squeakiness." She has a beautifully cultivated voice and sings songs of high class. Her gowns are a part of her act, and are the latest thing from vogue.

EXCELLENT HOLDOVERS.

James T. Duffy and Mercedes Lorenz will be holdovers this week in their musical comedy in miniature called "Springtime." Duffy is a breezy comedian, with a large store of up-to-date songs, while Miss Lorenz is a pretty little comedienne who gives him excellent support. The Trans-Atlantic Trio will return for a week's engagement in a novel musical offering, that includes some splendid

singing, and the playing on the banjo by Harry Clark, one of the world's crack artists on that instrument, adds much to the act.

Waldemar Young and William Jacobs, well-known San Francisco newspaper men and members of the Family Club, will offer their sketch, "When Caesar Ran a Paper," originally written for a high jinks entertainment of the San Francisco Press Club. The play is from the pen of Young, the dramatic critic, and it produced such a decided hit that friends insisted the two take their sketch on the road for a time. It is a satire and decidedly clever and funny.

PANTAGES

In these days of features with big numbers to close the program of a modern vaudeville bill, it must be an out-of-the-ordinary acrobatic act, with but two men,

COLORADO CANYON IS WORLD'S GREATEST WONDER

ancient world had its Seven-madeto the river itself. Then, when one is returning, by looking upwards at the towering masses, a sense of the gigantic proportions will begin to dawn on the understanding.

But why should I, with my feeble pen, essay to describe the indescribable, when much abler writers have made the attempt and failed?

Hundreds of lesser canyons, on either side, lead into the main canyon.

At both sunrise and sunset, the most striking effects are seen with a wealth of ever-changing hues and colors, together with shadows shortening and lengthening while moving over valley, mesa and gorge.

In this clear atmosphere distances are very deceptive, and what appears to be

SENTINELS OF THE DESERT

A company has been formed and complete surveys have been made looking toward utilizing the unlimited water power of the river to generate electricity for commercial purposes.

Since the water would have to be diverted from its channel while an impounding dam is being built, the whole cost of the enterprise is estimated to be \$50,000,000.

Grand View Hotel has been recently purchased by William Randolph Hearst, and it is rumored that he contemplates building an electric railroad from Flagstaff to the canyon.

At this time of the year thunderstorms occur nearly every afternoon.

Did I go down into the canyon and the river? Yes. There were seven of us who made the descent, accompanied by a guide, three men and four women, all mounted on trusty mules. We took the Bright Angel Trail promptly at 8:30 A. M. and rode all the way down and back, except at Jacob's Ladder and the Devil's Corkscrew, where we dismounted and walked.

At both of these places the descent is very steep, and the trail is solid, slippery rock.

Garden Far Down.

After descending 3100 feet we pass through a small, fertile, narrow valley called the Indian Gardens. Here we see many kinds of garden products and trees loaded with peaches and apricots.

This is the half-way resting place and contains several buildings and a spring of excellent water, which is used to irrigate the seven acres of fertile land.

Just before reaching the river we ride through a narrow canyon with high, precipitous walls of granite.

Down this canyon flows Bright Angel Creek into the Colorado. The creek was named by J. W. Powell, of the geological survey, who was the first white man to go by boat through the entire length of the canyon. When Powell reached this creek he gave it the name Bright Angel, because it was the first clear water which he had seen since starting on his journey from Green River.

Arriving at the river, we ate lunch, after which I lay down on the sand, and was soon lulled to sleep by the roaring waters. The river at this point is about 300 feet wide.

In returning, I walked the first two miles, preferring to do so.

One of the men of our party was a wealthy building contractor from New York, whose mule persisted in walking on the extreme outer edge of the trail, much to the discomfort of the rider, who scolded the driver for giving him such a careless and daring brute.

The fact is the mules like to walk near the outer edge, because the ground is softer for their feet. When your mule not only walks perilously near the edge of the trail, but reaches over to get a bite of green to satisfy his appetite or shakes one foot over a chasm a thousand feet below you just for a joke you feel queer all over, and wish that you had never seen a mule, or that interior of the canyon.

ARIZONA ROMANCE.

We all returned from the round trip of fourteen miles to the river at 5 P. M., some of us being so stiff from the riding that we had to be dragged from our saddles.

A queer character who stays about the hotels on the rim, is Capt. John

Hance. He built one of the first trails, named the Hance Trail, and has been

anything that ran on four legs. He was a

great fox dog. I've known that dog to

identified with the canyon for upwards of thirty years.

He romances considerably, and many of his stories are of the Jules Verne kind.

I was told that Hance had been pensioned by the Santa Fe company, who gave him his board and \$50 per month for entertaining people. I had many chats with the genial old fellow.

One of his big talk stories had reference to his escape from being killed. He said that one day, while picking on the canyon side, a big boulder, about as large as a house, started to roll, and somehow it caught his pick and threw him thirty feet away into the air, and then bounded over him as it plunged down the canyon.

His stories reminded me of those of an old hunter who was accustomed to brag about a wonderful dog which he once had. In starting out to tell his story the old hunter would say, "Sir I once had a dog that could catch any varmint that he ever skinned up, and he weren't afraid of

start up a fox. Well, sir, the fox would run and the dog would run and for awhile it would be about nip and tuck, but sometimes the dog would be a little ahead."

FISH CHOKED IN RIVER.

The Colorado River is formed by the junction of the Grand and the Green. The Grand has its source in the Rocky Mountains five or six miles from Long's Peak, while the Green heads in the Wind River Mountains. The Colorado rolls a mad, turbid stream, into the Gulf of California. Colorado means red, and the river was named because of the color of its waters. So muddy is the stream constantly that about 20 per cent is silt or silt, and at times even the fish are choked by the mud.

All of the tributaries of the Colorado have cut canyons so that the upper portion of the basin of the Colorado is traversed by a network or labyrinth of these deep gorges.

The Indian legend is that long ago there was a great and wise chief who mourned the death of his wife, and would not be comforted until one of the Indian gods came to him and told him that she was

take the chief there that he might see for himself, provided that, upon his return, he would cease to mourn. The great chief promised. Then the god made a broad trail through the mountains that intervened between that beautiful land, the balmy region in the West and the desert home of the chief. This trail was the canyon gorge of the Colorado. Though having led him through the trail, and evaded a

anyone of the joys of that beautiful land, best all of the Indians should desire to leave this world, as an extra precaution, he rolled a mad raging river through the canyon to engulf anyone who should try

Up to the present time this year the number of persons visiting the canyon is 1,400 less than the average during the past few years.

The explanation given is, that many have postponed visiting the canyon this year, but intend to stop off next year when they come out to the Panama-Pacific Exposition.

There are good accommodations at the canyon, and the rates are reasonable, when considering that all the water used for domestic purposes, and for the horses and mules has to be brought on cars from springs 125 miles distant.

If one desires to have fashionable quarters, let him put up at El Tovar. If one is content with humbler quarters and less style, let him hire a room at Bright Angel Camp, and take his meals at the cafe. Fred Harvey's cuisine is most excellent, as I can personally testify.

COW GOES GIL.

EDWARDSVILLE, Ill., Aug. 15.—Miss Mary Schmidt, 18 years old, daughter of Carl Schmidt, was gored by a cow when she started through a pasture near her home. The animal's calf had been taken away the day before and the cow was in an ugly mood. When Miss Schmidt started across the pasture the cow charged her and tore a gash in her right thigh and leg.

When Uncle Sam Lay Siege to Vera Cruz In 1847

In the parlor of a Harlem apartment, an old man sat in the sunshine streaming in through the southern window, and sketched out on the back of a rumpled newspaper a map of operations at the siege of Vera Cruz.

"The division held our right," he said, "when Winfield Scott was over-

Winfield Scott, and before him, Hugh-and-Ready Zach Taylor, to

It was a long time ago, I am

man now, most 90 years, but I will

forget the day, the 29th of March

in 1847, when General Morales and

en marched out of the Gate of

and stacked their arms in the edge

hills behind the city, and how we

down there to the old castle and

of the Mexican war—one of the

few, for a man to have fought in

campaign of sixty-seven years ago

ing they used when we first pushed into

their country so many years ago. Then

they fought like men, instead of firing

from house-tops, like Indians.

TRIP TO VERA CRUZ.

"We had come down to Vera Cruz har-

bor on transports and warships, about

10,000 of us, to take the city, which then

was one of the most heavily fortified of

Mexican cities. There were two stone

forts, Fort Concepcion and Fort Santiago,

besides the Castle of San Juan de Ulua.

All were garrisoned with big guns and

were strongly garrisoned. Knowing this,

our commanders—General Scott was at

the head of the army—decided to land

the troops down the beach two or three

miles from the city. This had not been

decided upon when Commodore Comer

had been requested by old "Rough-and-

Ready" Zachary Taylor to pick out the

best place for disembarking.

"I remember the first meeting between

General Taylor and Commodore Comer.

The Commodore was always known as a

great dandy—one who was always scrup-

ulously dressed in full uniform. On the

other hand, "Rough-and-Ready" Taylor

was seldom more than half dressed at

any time, and knowing Comer's name

as a stickler for military formality, old

"Rough-and-Ready" dug down into his

trunk and got out a worn and tattered

blue dress uniform, which he got into

for his reception of the Commodore, getting

the waistcoat on inside out and button-

ing the second button of the high standing

collar in the fourth buttonhole. Then

he sat down in quiet discomfort to await

the arrival of Commodore Comer.

"Well, the Commodore, also wishing to

be polite, knew the hatred of "Rough-and-

Ready" for formality and dress, so, instead

of putting on his usual elegant suit, he

got into a pair of overalls and an old

jacket, and in this he called unattended

at Taylor's tent. The story got about,

and was a great joke for a long time.

"But to get back to our landing, it

was a beautiful day, the sun was brightly

reflected from the white roofs of Vera

Cruz in the distance. The water was deep

blue, and the spirits of our boys were high.

Under cover of a fire of shells from the

gunboat Vixen, just as our men landed

last week under the "Prairie" fire, we

rowed ashore, expecting every minute that

we would be met with a hail of shot

from the sand hills that slope gradually

back from the shore, and behind which

we thought were Santa Anna's men. But

we drew no fire, and found no Mexican

soldiers on the beach. By night we had

several thousand men ashore, and then we

began our march back into the country

to surround the city, cutting it off from

road communication with the interior,

while our fleet blockaded the port.

HIS FIRST ENLISTMENT.

I was enlisted in "Beverton's" volun-

teers. The first of our column to start

inland was Twigg's division. We followed,

and Worth's division brought up the rear.

Under command of Brigadier General

Pillow, Colonel Haskell's and Colonel

Campbell's Tennessee regulars and Col-

onel Winkoop's Pennsylvania regulars

pushed back into the sand hills, encoun-

tering a few little parties of Mexican

troops, who promptly retreated.

"We marched practically all night, and

in the morning were near the Line Kin,

held batteries. As we approached the

Line Kin and a stone building with a

last week under the "Prairie" fire, we

fire from a body of Mexican troops, and

a sharp engagement occurred. It was my

first time under fire. I can remember

how the bullets whizzed over our heads

and knocked up the earth in front of us.

Two or three of our men were killed and

several wounded.

"We got possession of the magazine, and

later established our field hospital there.

One incident that I never forgot is how

a solid shot from a Mexican field gun

hit Captain William Alburquerque. He

was standing not far from me. Suddenly I

saw him collapse. He was cut right in

half. It seemed as though some invisible

giant had taken a huge scythe and with

a single sweep severed his body at the

waist, the two parts falling in opposite

directions. I was horrified at the sight.

"From the 9th until the 13th we were

practically around behind the city, driving

in the enemy's outposts and bottling up

the garrison and inhabitants behind the

city walls. When we had finally drawn

our lines, Twigg's holding the left ex-

trême at Veracruz, two miles from the

city on the coast with our division in

the center, directly behind the city, and

Worth's men on the right, we were pretty

well tired out. It was terrifically hot,

and a series of northerly had prevented

the landing from our fleet of mules and

provision trains, so we were on half ra-

tions, which had to be carried by men up

into the hills.

"On the 15th we heard of the victory

of Buena Vista; then we knew why Santa

Anna had not been waiting to fight us on

shore. He had turned away in the direc-

tion of the Rio Grande instead. Also we

knew that Vera Cruz was practically cut

off from outside aid, and that our cam-

paign had narrowed down to a mere siege

of the city.

GOSSIP FROM SAN FRANCISCO WEEKLIES

Worked the Railroad to Perfection

Tom Fitch, "the silver-tongued orator," as he is well known in the earlier days of politics, tells a good story of an ingenious but not creditable scheme of blackmail worked on a street car corporation in this city. Back in the sixties, in order to secure the enforcement of a law limiting street car companies to a six and a quarter cent fare—which law the companies disregarded—the legislators passed an act inflicting a cash penalty for each violation of the law, and giving half of the fine collected to the informer.

A company of the enterprising young gentlemen made a business of riding on street cars all day on Monday. The first fare of the party would tender a dime to the conductor and demand change, which would be refused. When the conductor applied to number two for his fare that

cent piece in payment of his own fare and that of the other three. That also would be refused, and the other three would pay a dime each on compulsion. There were four witnesses besides the immediate sufferer to each violation of the law, for which penalties amounting to \$250 were incurred, one-half of which went to the parties injured. The sufferers having noted the hour, the place, the number of the car and the conductor's name and the names of other passengers, when obtainable, descended from the car, took the next one and repeated the transaction. Before nightfall penalties amounting to more than \$10,000 had accumulated against the company for violation of the law, besides an unknown amount for damages, for the five gentlemen varied the program occasionally by being put off the cars for non-payment of fare.

The newspapers next morning were filled with accounts of the transactions, and soon about every car passenger was following the example of the five pioneers. A week of this sort of work would have bankrupted the corporation. A hurried consultation with counsel and a directors' meeting ensued.

Three-cent pieces and one-cent pieces were then in existence, but although a legal tender in limited amounts, were not so in California. There was quite a store of them in the United States branch mint in San Francisco. These the railroad company secured and thereafter all passengers offering a dime were tendered four cents in change. The company also issued coupons of four tickets for 25 cents, which were good on all lines. Thereafter the company owed the law.

The syndicate of five pioneers of railroad huffers were settled with and were reported to have pocketed about \$500 each.—News Letter.

Splenetic Lover Spoils Charming Romance

Everyone has been wondering why the devotion of a certain distinguished foreigner to a fair maid of the younger set came to a sudden end, without any apparent rhyme or reason.

He is a son of one of Italy's oldest families, and as proud as Lucifer. She is bright and merry, with a very acute sense of humor, which has played her false on numerous and sundry occasions. This time, the story goes, it was the cause of disrupting a friendship which was well on its way to being something far deeper.

The fair maid in question occupied an attractive home with marvelously polished floors, and several very handsome Persian rugs scattered around.

One evening, the noble son of Italy came to pay his respects and was ushered into the drawing-room to await the lady of his adoration. She parted the heavy portieres and stepped into the room just as he made an impetuous dash forward to place a chaste salute on her fair hand. But, alas and alack for gallantry! Just as the noble admirer had almost reached his lady's side, one of the small rugs slipped and down he went, flat at her very feet. This, of course, was too much for the merry maid, who made the room ring with peals of laughter. The titled cavalier saw nothing ludicrous in the situation, and was furious right through to his aristocratic backbone. After an undignified scramble to his feet, the angry visitor stalked from the room, got his hat, and vanished. Never a word did he say to the laughing maiden, nor has he been back since. Her friends tell her that she has lost nothing.—Wasp.

Wedding Anticipated; Society Wonders

Dome rumor says that a most interesting engagement is very soon to be announced and that no secret is being made of it down Monticello way for the ardent devotion of the young man has caused much talk for many months past. The girl is a daughter of one of the wealthiest families down there, and she is equally popular in the mission town—in Oakland and San Francisco.

Her parents have just recently purchased one of the show places at Monticello and the young man has spent most of the summer as the guest of his married sister, who has leased a place for several months.

One nice feature of their little romance is that the fair maid, who is tall and dark and very good looking, is one of the most intimate friends of the young man's sister, who chaperones her wherever they go. Last winter at the tea dances the two young lovers were quite inseparable, and their intimate friends predict a wedding before the autumn is very far along.

One on Admiral of Oakland Navy

The admiral of the Oakland navy has been heard from, and he asserts a defiant neutrality. Fearing that the Oakland garbage boat Aberdeen might be sunk while cruising in the Pacific with a load of refuse by a cruiser of one of the belligerent nations, the admiral of the Streets Ferry F. Brown issued strict orders that the garbage boat should be equipped with an American flag and should fly the colors while out on the head. The Stars and Stripes have been nailed to the mast. Admiral Brown has understood to be a candidate for the Nobel peace prize.—News Letter.

Artistic Temperament As Seen by Morosco

Artistic temperament is the subject of an article written by Oliver Morosco for the September "Green Book." The article was suggested to "Ollie" by an exhibition of artistic temperament given by Laurette Taylor, the star of Harley Manners' very successful play "Peg of My Heart." After describing several phases of artistic temperament, "Ollie" goes on to say:

"One of the funniest and most absurd cases of 'artistic temperament' I have ever encountered I found a few years ago brewing in the bosom of a promising young actor. At that time he was playing important leading roles with my Burbank stock company in Los Angeles. I had brought to Los Angeles, from New York, a well known feminine star to play a special starring engagement with my

Morosco does not give the names, but I shall. The promising young actor was Harry Mestayer, now of the Holbrook Blinn Princess players. The well known feminine star was Margaret Illington.

"Ollie" says that the exhibition of artistic temperament came at a Thursday matinee during the production of "Romeo and Juliet." At that performance Romeo acted with unusual brilliance, so much so that he was the center of attention of the first act that the applause was for him, not for Juliet. But Romeo hid and refused to answer the call. He wanted that audience to clamor for him, and clamor in vain, so that the manager might appreciate his importance. The ovation was brought to an end when the stage manager threw on the house lights and the orchestra began to play. Juliet sent for Romeo, and everyone on the stage became aware of the fact that somebody was being "told his right name." "Fearing for Romeo's personal appearance," the stage manager interfered. But according to Morosco the attack of artistic temperament persisted that evening. It was cured when Morosco "told Romeo several things the star had overlooked in the afternoon." Such is the story Morosco tells at the expense of Harry Mestayer.—Town Talk.

An Unexpected Honor

The directors of the Chamber of Commerce gave a fine luncheon at the Commercial Club the other day. The purpose was to assemble the brightest minds of our mercantile houses for a discussion of the Owens amendment to the shipping bill. Among those present were Harry Diamond of the Dry Fruit Association, Ned Dimond of the American-Hawaiian, A. B. Hammond and James Tyson, the lumber barons, Joe Hotchkiss the packer; C. R. Johnson, representing a dozen or so Fleischacker and Wendling corporations, Milt Esberg, the tobacco king, and many others. Henry Fortmann of the Alaska Packers and Jim Armistead of the Ilika came as the rest were sitting down to Chef Reiter's tempting repast. They came with blood in their eyes and war written in their countenances. Their appearance created a sensation.

"Why haven't we been invited to this luncheon?" they chorused in dangerous tones.

"Not invited!" exclaimed the master of ceremonies. "Why, Henry, you surprise me. And, Jim, you pain me. You were not only invited, but you were invited to be guests of honor. Come to the head of the table."

Two extra chairs were sneaked in, two extra covers laid. But Fortmann and Armistead were shaking with cold and nervousness, and didn't notice that the table was crowded. Thus does diplomacy cover up its mistakes.—Town Talk.

Eighteen and Twice Married

Though only 18, pretty Miss Gertrude Hood can boast already of two wedding rings. The attractive lady and the juvenile Kenneth Gunn of San Rafael electrified their friends and relatives by walking off quietly one day and getting married. Three months of domesticity made them sick of it at it they separated, the girl-wife returning to her parents in Santa Rosa and young Gunn going back to his home in San Rafael. So matters stood for several months, when the disenchanted bride concluded to give double-harmony another trial. She hid herself to San Francisco, and having obtained an annulment of marriage on the grounds of being a minor, she proceeded to the altar with James L. Dunn, a mining engineer from Montreal.

The second marriage ceremony atoned for the lack of formality and pomp in the first. It took place at Grace Cathedral at high noon and the bride was attended by her three sisters. The happy couple will reside at Montreal.—The Wasp.

War Spelling Is Matter of Controversy

The man who winds the ferry clock actually blushed when he entered the editorial sanctum sanctorum the other day.

"I've been writing a bit of poetry," he said with great embarrassment.

"Wonders will never cease," I brooded.

"You never know how the war fever will hit you," he agreed; and handed me this:

What is the name of the place of the siege?

Are we correct in pronouncing it Lege?

Are those in the right who give us their pledge?

That natives who know always term it Lee-ee?

And how about those who argue for Leeza?

As though it should rhyme with the Moscovito Riga?

Or is the old town where the batteries rake

Properly called in the French way, Lee-aze?

"How do you pronounce it?" I asked in the face of the clock tower.

"I follow Joe Dwyer," was the answer, "and Joe never pronounces it the same way twice."—Town Talk.

La Loie Fuller's Visit to Coast

Quite unheralded to the public La Loie Fuller the famous American dancer, arrived in this city last week to be the house guest of Mr. and Mrs. Adolph B. Spreckles. Mrs. Spreckles and Miss Fuller met in Paris and formed an acquaintance which ripened into friendship under the influence of an affinity of artistic tastes. When Mrs. Spreckles learned that La Loie was considering the advisability of bringing her dancing pupils, her "brood" as she calls them, to San Francisco during Fair time, Mrs. Spreckles enthusiastically approved the idea and induced La Loie to make a preliminary visit in order to arrange the necessary details of the undertaking. Miss Fuller was fortunate in starting for America just before Europe became an armed camp. Almost the first thing she did on arriving here was to pay a visit to the Exposition grounds. They surpassed her expectations.

Not only in beauty but in the condition of preparedness. So delighted was she that she immediately threw herself into the project she had been tentatively considering, and her hours were since have been divided between business conferences and the charming entertainments which Mrs. Spreckles has arranged to do her honor.

Miss Fuller is one of the most ardent admirers in the world of the genius of Rodin. Indeed she joins to a wholehearted worship of his sculptural achievements a sincere affection for the artist himself. He is her very dear friend, and she has been entertained at his beautiful home in Meudon. She possesses several of his best pieces, and they are the most treasured items in the exceptional art collection which it has been part of her life work to assemble. Several of these she has brought to San Francisco, and she takes great delight in showing them to the friends of Mrs. Spreckles who have been invited to meet her. One of them is a bronze head done in Rodin's most expressive manner. This head, at once a thing of beauty and a study in character, is the head of a Japanese girl who was a dancing pupil of Miss Fuller. It is rendered invaluable to Miss Fuller because Rodin inscribed its base with a dedication to "the admirable and genial La Loie Fuller." That is a distinction few can boast. It is on a par with another honor that has been bestowed upon Miss Fuller, the honor of having Anatole France write the introduction to her book of memoirs. But to return to Rodin. One of the facts that she brought some of Rodin's works to this city and out of conversations with Mrs. Spreckles and she have held about them has grown another project—nothing less than that of having a great Rodin exhibition at the Fair and inducing the master himself to pay a visit here. When Miss Fuller returns to France—and she will probably return as soon as she thinks it safe to travel—she will set about carrying this project to fruition.

During her visit with Mrs. Spreckles La Loie has met several Californian celebrities whom she has charmed by the easy grace of her manner and delighted by the depth of her sympathetic insight. Among them were two sculptors of whom California has reason to be proud, "Bob" Aitken and Arthur Putnam. Miss Fuller, on account of her high admiration for Rodin, has made a special study of the sculptor's art, and she surprised both of these men by her familiarity with their work and her understanding of their artistic aims. Another sculptor whom she has met here is Robert G. Eberhardt of New York, one of the sculptors at the exposition. Jack London and David Wardlaw are two other Californians whom La Loie met in the home of Mrs. Spreckles, and to whom she paid due homage by compliment, an unstudied familiarity with their achievement. It is not given to many visitors to absorb the spirit of San Francisco as readily as Miss Fuller has absorbed it, but then, how few visitors there are who come here with the open mind of sympathy which is one of her delightful characteristics? One of the most enjoyable affairs arranged by Mrs. Spreckles in honor of La Loie was a luncheon on Tuesday at which Mr. and Mrs. Jack Spreckles, Mrs. George Wingfield, Mrs. Joseph Fredericks, David Wardlaw, Robert Aitken, Arthur Putnam, Robert G. Eberhardt and Frank Unger were among the guests. On this occasion Miss Fuller was deeply interested in the singing and playing of a quartet of Hawaiian musicians.—Town Talk.

Long Titles

What San Francisco girl possesses the longest name? I heard the matter talked of the other day, and it was agreed that Agnes Tillmann probably won this distinction (if it is a distinction) when she became the Baroness Jan Carol van Panthelen van Eek. It was also remarked that the former Azalea Keyes probably has the longest name. Her name is Countess Lovenhaupt von Paulkenstein. But these are not so bad. I notice that the daughter of the new Minister to Belgium, Christine Marburg of Baltimore, is engaged to the secretary of the Dutch Legation at Brussels. His name is Jonkherr Alldius Walmdous Lambertus Jorda von Starckenroth Stachomover. It's pretty hard to beat that. What a lot it must cost the Jonkherr to have his cards engraved.—Town Talk.

Clever With Their Pens

It is not an opinion of a "young woman" as a butterfly of fashion, whose intellect is capable of no greater strain than that imposed by dancing and dressing is not realized in Mrs. Milton Pray's literary achievements. She has surprised society by proving herself to be a clever writer of short stories. Her story, "A Modern Excalibur" in a San Mateo newspaper has been praised highly. She contemplates more extensive and ambitious attempts to put Gertrude Ather-

some society woman herself when she took to literature professionally.

Mrs. Pray is one of the most beautiful young married women in San Francisco society. She is very fair of complexion and has an abundance of brilliant golden hair.—Wasp.

Healing Wounds of Society Dancers

The decision of the Palace Hotel to renew the dansants has come as a salve to heal the wounds of those who took the ultimatum of the St. Francis as a death-blow to the afternoon dansants of a semi-public nature. As first disclosed in these columns, the St. Francis has decided, the management unanimous in this decision, that it will not sponsor dances this season. This does not mean that the seasonated time will not undulate through the air until even the least susceptible begin to gyrate to the come-hither quality of the music. But it does mean that the hotel management will not of its own initiative, wave the baton, nor start the colony bubbling, nor show the list of long, cool drinks. Dansants may crowd the afternoon calendar at the St. Francis, but they will be the affairs of private individuals.

Itself has untied its tango clippers and laid them away in the lavender of successful yesterdays—for the dansants were a success. But Mr. Woods apparently feels that while the operation was successful and the patient lived, there is no use taking another chance. The Burlingame crowd ran the show last year, and every time any one who did not slumber by the reflected light of Burlingame got in there was a huge cry of "Burlingame!" and a number of people in spite of every precaution, a number of people did get in who gave the patronesses plenty of opportunity to keep their hue and cry up to concert pitch. For example, there was a stunning looking young woman who wore clothes that were the very la-la-la-set in the day of the doo-dads. Even if her clothes had not been of the oh my! sort, she would have attracted attention by her dancing, which was a glorified imitation of titillation blowing about to music. Needless to say she did not lack partners, nor did she escape the scrutiny of the patronesses who met in solemn session afterward to discuss her, for while her clothes and her conduct were above fashionable reproach, she was altogether too attractive to allow under the wire again without a look into her credentials. She proved to be a model in a fashionable shop. Indignation and protestations from the patronesses! New job for house detective. Gum shoe sleuth discovers that some one has slipped her a card that was issued in a name properly endorsed by the patronesses. The young lady has reprehensible good looks, but there is nothing the matter with her character save that she allowed a young man to deceive her into thinking that she would not be unwellcome at the dansant in spite of her beauty and hard working career. The patronesses considered the case with Napoleonic wisdom and hit upon the strategic plan of calling in all the cards that were issued when the dansants were young, and getting out a new set, which would black-face, double-head, scare-head type the admonition that the cards were not transferable. At that there were a number of incidents which made the high-strung fashionable patronesses wave their white hands around in the air and threaten to wash them of the whole responsibility. Only those who have done picket duty on the frontier of the Blinnum set to keep all others out, know the soul of agony of the job! Before Mrs. Douglas Crane went East, she said in a pathetic little way: "I know that there are people out here who dislike Douglas and me, who think that we are awful snobs and catered to the smart set. But what could we do? We could not admit people to the dansants just because they took dancing lessons from us. The patronesses would not stand for it. Why, of them even said to me: 'Mrs. Crane, we really don't know much about you, you know, and if we consent to act as patronesses of these things, we shall hold you responsible not to get into any scandal or anything of that sort.' Can you imagine any one saying a thing of that kind?" Which only goes to prove that other things besides war are a nervous strain.

At any rate, the management of the St. Francis decided that there was not enough money in the dansants as they were run last year to pay for the strain. The Palace was not organized in the same way, and every time some nice young girl from the Richmond district came in for tea with a college boy, the attendants did not have to carry out a patroness and apply first aid to her injured feelings. To be sure, there were among the names of patronesses some of the proudest in the blue book, but they did not take their duties seriously. This does not imply that the Palace dansants were staid grounds for the socially submerged. But there is no doubt that they were frankly democratic from the first, and that the society people who did go in large numbers did not mind. The college boys and girls from about the bay came in large numbers to these Saturday afternoon affairs, and gave a pleasant, wholesome air to them, which is largely responsible for the decision to give them on Saturday again this season.—News Letter.

He Fell From the Wagon

Society people out here who remember dashing Eleanor Sears so pleasantly are very much interested in all the revived rumors that the eccentric maid is to marry Harold Vanderbilt, the son of Mrs. O. H. P. Belmont.

We all know that the athletic Miss Sears was much pleased with young Vanderbilt, but objected to his over-indulgence in the flowing bowl. He, however, felt sure that, with her for a Mentor, he could absolutely keep away from the temptation for a whole year, and so he went on probation for that time. At the end of the year the engagement was to have been announced. But, alas for the good resolutions: force of habit and environments were too strong for the young millionaire, and he fell with a dull thud from the top of the wagon.

Thereupon, the late Esquire decided the whole incident closed, and the pair were no longer seen together. Now, however, they seem to have patched it all up again, for they are thicker than peas in a pod and do not bother to deny the rumors of their engagement at all.—The Wasp.

Few Interesting Pages of Ancient History

The brief references to the death of Lieutenant Ashton Potter, at Colorado Springs, says that a new generation rules in local society, and the names of former notables mean little to the present set.

The whirlwind wooing of the dashing army officer was a subject of much interest when he married Miss Mayne McNutt, daughter of Dr. William F. McNutt. The bride was one of the fairest belles of San Francisco, and Lieutenant Potter was a nephew of the late Bishop Potter of New York, one of the most prominent churchmen in America. The lieutenant's father was the late Howard Potter, a director of the Bank of England, who had had his son educated at Oxford University, England.

Lieutenant Potter was one of the rich and patriotic young men from Eastern States who came to San Francisco on their way to the war in the Philippines. Local society gave various entertainments to the young couple.

It was at one of the dances that Miss McNutt met young Potter, whose intimate friends and companions were young Sartoris, grandson of the great General U. S. Grant and Jimmy Blaine, son of the famous Republican statesman and hero of many escapades.

War called the young officers away in a hurry, and the wedding of Miss McNutt and Lieutenant Potter had to take place at Yokohama.

Miss McNutt went to the Orient, accompanied by her mother, her sister Ruth and Mrs. Genevieve Gold Martin, who married a brother of Peter and Walter Martin almost on his death bed.

After a few years, the handsome widow married Robinson Kelly.

Mrs. Potter disliked army life from the first and finally came to detest it. She liked society and it is said had an idea that her husband, with his personal qualities, good family and wealth would be better placed in Newport society, than at an army post. It was said that she induced him to resign from the army and have nothing serious to occupy his time, relaxed to his bachelor ways in due time, the inevitable divorce suit was filed. The wife was given the custody of the little girl who was their only child, and who had been brought up by her grandmother, Mrs. McNutt.

Lieut. Potter married Mrs. Goodyear Dewey, a New York divorcee, not long after his divorce. Her first husband was Samson Dewey, a railroad magnate of Buffalo, New York and nephew of former Senator Chauncey Dewey. Mrs. Dewey was an interesting invalid, who suffered from pulmonary trouble and could live only in certain climates.

After his divorce, Lieut. Potter met the lady in Switzerland. She soon, after changed her residence to Colorado and has lived there ever since her marriage to Lieut. Potter. That she should survive her husband despite her delicate health is an illustration of the uncertainties of life.—Wasp.

Age and Veracity Not in Double Harness

To lie about one's age is one of the leading weaknesses of humanity, and among prevaricators it is perhaps the hardest to detect. From one to eighteen a person wants to appear older than he is; from twenty-five to seventy it is one's invariable impulse to appear younger; but from seventy on age becomes a pride to its possessor and a sore temptation to untruthfulness. There are tribes of Indians whose members claim to have attained a fabulous old age, but canny scientists have discovered that it is a custom among their old men to claim a hundred years as soon as wrinkles and gray hairs appear. The student of human nature, therefore, may be too polite to reveal his skepticism when an age is understated or overstated, but he may be pardoned for entertaining doubts on the subject.

All of which is suggested by a newspaper item that chronicled the death of Captain Godard E. D. Diamond at the alleged age of 118. For years we were regaled with stories about the captain whenever his birthday rolled round. He used, on that day, to go through a series of exhibition stunts that were religiously reported in the papers. He would dance with a girl supposedly one hundred years his junior, and perform various other feats, including a walk to the Cliff House and back. Was Captain Diamond as old as he claimed to be? It has often been doubted. The most recent challenge was published in the New York Sun of August 9 in a letter which read as follows:

To the Editor of The Sun:—Sir: There was printed the other day in The Sun a statement telegraphed from San Francisco that Capt. Godard E. D. Diamond was confined to his bed there and his friends feared the illness would prove fatal as he had just turned 118 years. The dispatch further stated that he was born in Plymouth, Mass., May 1, 1796.

As the number of persons of modern times who can be proved by registry of birth, or other equally good evidence, to have reached that age may possibly be counted on one finger of one hand, I was moved to inquire of my friends in Plymouth in regard to the matter. The carefully kept records of the town did not disclose the birth of Capt. Diamond at that date or any other date, or that any one of the name of Diamond ever lived in the town of Plymouth.

Boston, August 8. C. E. S.—Town Talk.

Blingum Talks About It

Society is gossiping about the over-devotion of one of the "cuties" down Blingum way to a certain very dashing young man, who has rather a passion for youthful admirers. Of course, we all know that "cuties" are all the rage, but it was suggested by the fair lady's better-half that possibly she was taking the craze up just a bit too strenuously.

The lady in question is one of several prominent dames who abide in the ultra smart set, and the enamored "cutie" is fresh from college and belongs to one of the Valley's most conservative families. Burlingame—at least the female portion of it—talks more about the possibilities of this affair than of the great one in Europe.—Wasp.

Opera for Farrar by San Franciscan

The war in Europe may deprive two Californians of a high artistic distinction. It may prevent Geraldine Farrar, the great prima donna, from producing a new grand opera, "Cleopatra," written by Charles K. Field, the editor of "Sunset," and W. J. McCoy, the well known composer of the Bohemian Club. The score of "Cleopatra" was finished not long ago, and libretto and score were expressed in Geraldine Farrar in Paris just before Europe was convulsed with war. Since then Field and McCoy have had no way of ascertaining the prima donna's whereabouts, or of discovering whether the work is safely on its way to her. When Farrar was in San Francisco she heard about "Cleopatra," and expressed a desire to see the work. The Field libretto was completed, but not the McCoy music. The work that had been done interested Miss Farrar, and

Coy about it. Miss Farrar has been sung grand opera in England, but she seriously considered doing so after this work had been brought to her attention. Her final decision will of course be delayed now. The book of "Cleopatra" represents several years of work on the part of Field. The story is founded to a certain extent on Shakespeare's "Antony and Cleopatra" and Sallust's "Cleopatra," but Field also found inspiration in the pages of Plutarch, Appian and Athenaeus. Those who know the poetical and dramatic powers of Field and the musical ability of McCoy are hoping that "Cleopatra" receives the approval of Geraldine Farrar. If she makes up her mind to sing it California will have the distinction for the first time of a great prima donna's repertoire. "Natalma," it will be remembered, was only half Californian; Joe Redding wrote the book, but Victor Herbert composed the music.—Town Talk.

Owens River Water in Courts

The use of the water brought from the mountains to the city of Los Angeles by means of the Owens River aqueduct was held up last week when Henry A. Hart of Los Angeles applied for an injunction to prohibit the delivery of the water to consumers. Hart's application was based on affidavits made by Dr. Ethel Leonard, former bacteriologist for the city of Los Angeles, and by Dr. A. F. Wagner, professor of chemistry in the University of Southern California. Dr. Leonard and Dr. Wagner, as a result of their investigations, take the position that the water is unfit for domestic use. With the aid of their findings Hart is fighting to place the matter before the State Board of Health for a thorough bacteriological and sanitary investigation. This is not the first time that the purity of the Owens River water has been questioned, and it looks as though the matter will be settled now one way or the other. As Los Angeles' water problem is not unlike that which San Francisco is trying to solve in the Hetch Hetchy project, the subject is one of great interest to San Franciscans.

Dr. Wagner analyzed ten samples of water taken from the Owens River, its tributaries and the Los Angeles viaduct. He makes affidavit that all ten samples are unfit for human consumption. Dr. Leonard's affidavit contains a number of arresting statements. She declares that the Owens River is polluted by the drainage from the swamp which composes a large part of Long Valley, a swamp infected with anthrax and other cattle diseases which kill hundreds of animals every year, also that the carcasses of these animals add further infection to the soil of the valley. She declares that the Owens River water is further contaminated by the outflow from the septic tank of the town of Bishop, with 1500 population, which tank is used for the purpose of treating all the sewage of the town. She points out that a slaughter house, the conditions of which "are almost beyond description," flows directly into the Owens River carrying with it the filth and pollution from the slaughter pens, hog pens, barnyards and from the carcasses of dead animals about the slaughter house. She says that many large animals and hundreds of smaller ones, drowned in the sixty miles of open aqueduct and in the Halvace reservoir, constitute a further source of pollution and furnish organic matter on which bacteria coming from higher up may feed. "I feel," she says, "that the stream should be called the outfall sewer of Owens Valley instead of the Owens River," and her conclusion is that "any domestic use of Owens River water must be abandoned."—Town Talk.

Capt. McCully Off to the Wars

Captain Newton A. McCully, who up to a few weeks ago was commanding the cruiser California, left on Monday for Yokohama on his way to St. Petersburg as military attaché to observe war operations in Europe and report to Washington. This detail will be the callant captain's second experience of observing a foreign war, as he was on detachment duty at Port Arthur studying naval war tactics.

Captain McCully is pleased with his detail, as he has many friends in St. Petersburg, where he has naval attaché for several years. He speaks Russian fluently.

The cure of a day were to spend two hours at the "professional."

Amateur Strategists' Horrors of War

Not least among the horrors of war is the amateur strategist. You find him everywhere—before the bulletin boards, in hotel lobbies, in bar rooms, in club grills and lounging rooms. The amateur strategist has small respect for general. He picks flaws in every plan of campaign. Had his advice been followed, the Germans would have reduced the Lyons forts in ten hours; the Austrians would have had the Servians on the run long ago; the French would be bivouacking beneath the lindens of Berlin; the English would have cleared the North Sea, the Baltic and the Atlantic of hostile ships. The amateur strategist is equally at home in Washington, in California, in Kiao Chau or Dunkirk. He knows the passes of the Vosges, the valley of the Drina and the road from Belfort to Strassburg. He can lead ten army corps across Russia in a night. "Now, if von Emmich had only—" and he is good for

has already happened is of secondary interest to the amateur strategist. His main concern is with what is going to happen. He has settled the whole thing.

The new map of Europe is already drawn in the tablets of his brain. Emperor William has become plain Mr. Hohenzollern; or, if his sympathies run the other way, France and Belgium are Teuton provinces. He is co-sure, emphatic, and he is the amateur strategist is a fearful bore.

The amateur strategist reminds me of a story Harry Mestayer tells about his friend Herbert Druce. Druce is a London actor of high standing. We saw him once with John Drew. During the war Druce was playing in a London theater, and one of the stage hands conceived a mighty admiration for his ability. London stage hands are taught to know their place, but this stage hand finally plucked up enough courage to ask Druce to have a drink with him. Druce consented, and the stage hand led the way from the theater to a pub where, he assured Druce, the liquor was excellent. The bar was lined from end to end with London workmen, all intently following the exposition of an amateur strategist. Even the bar maid hung upon his words.

"Ere's bloody Buller," expounded the talker, placing a beer mug in position. "And ere's Spion Kop, and 'ere's the river," spilling a trail of beer between Buller and Spion Kop. "Buller crossed the river and attacks Spion Kop from the front. What's the result? 'Er's repulsed with bloody slaughter. All wrong, I say. What's to prevent Buller from circling round 'ere and attacking Spion Kop from the rear?"

It was quite impossible to get a drink, so the stage hand led the way to the door.

"beg your pardon, Mr. Druce," he said earnestly. "I'm very sorry. It's getting so I can't go out that pub without meeting a bloody head masher!"—Town Talk.

Mrs. Parrott and the War

A San Mateo remarker to me the other day that nobody of his acquaintance was so much distressed about the general European war as Mrs. Abby Parrott. For my benefit he counted off on his fingers the relatives of the mistress of "Baywood" who may be called upon to serve their countries in the field. In France lives Mrs. Parrott's daughter May whose husband is the Comte de la Lande. There are also Mrs. Parrott's granddaughters Marie Christiane de Guigne and Josephine de Guigne whose husbands are Viscount Philippe de Tristan. There is also the former Regina de la Lande, daughter of the Comte and Comtesse, who is now the Viscountess Louis de Tristan. In England is the former Isabelle Parrott. She is the wife of Colonel Archibald Douglas-Dick. He won his colonelcy fighting the Boers, and may be expected to take the field again. It is not to be wondered at that Mrs. Parrott is terribly worried.—Town Talk.

British Subjects Bump Into Trouble

In case any international difficulty has arisen over the fact that two newspaper men left a neutral port in company with the German Colossus to beam the German man-of-war Leipzig, a curious situation would have been divulged. The two newspaper men in question were Jack Donaham, reporter, and Henry Coleman, photographer. These Examiner men are both British subjects! Obviously it would take a Philadelphia lawyer to figure out what could have been done to them had the matter been referred by Admiral Pond as a breach of neutrality to Secretary of State Bryan. Of course Captain Haun of the Leipzig was not aware of the nationality of his two visitors. He took it for granted that they were patriotic or patriotic Americans.

Suppose he had known that they were Britishers? There is another curious angle to the affair—the fact that a British subject should be called upon by the exigencies of newspaper work to praise the preparedness and courage of his country's enemy, and to tell how that enemy was going to annihilate the British vessels in these waters.—Town Talk.

Low Appraisement From Tom O'Connor

Father Henry I. Stark, the well known young Priestly priest, preached at the last mass at old St. Mary's Sunday. In the course of an eloquent sermon he had occasion to mention the Cure of Ars, a French priest of great sanctity who will probably be canonized some day. After mass Tom O'Connor met the preacher, and asked him for more information about the "holy" man. Father Stark briefly outlined his career, and gave several instances of his self-sacrifice. As an instance of his indefatigable zeal he mentioned

The Cure of Ars were to spend two hours at the "professional."

AMERICA'S LEADING OUT-OF-DOORS GIRL

Miss Marion Hollins, a New All Around Champion, Has Dethroned the Former Pre-eminent Sportswoman, Miss Eleanor Sears.

MARION HOLLINS SOCIETY BOB

MARION HOLLINS CHAMPION SPORTSWOMAN

MARION HOLLINS DRIVES HER OWN CAR

Miss Hollins handles a four-in-hand with the skill of an Alfred Vanderbilt, plays polo like a Milburn, swims like a Daniels, plays golf like a Vardon, is a cup winner in tennis and withal is "the dearest, sweetest, prettiest girl you'll find anywhere."

TWENTY-ONE and a champion in every outdoor sport is a score with life that no other woman in the United States is making except Miss Marion Hollins.

When the women's golf handicaps were announced in the spring it was discovered that Miss Hollins was in a class by herself, with a handicap of plus one. "That's it," one enthusiastic sportswoman said when she saw the announcement. "Marion Hollins is in a class by herself in everything, and that class is the highest. She rides as well as she golfs. She's the best woman driver in the east. She's the star of the Long island polo team. She swims like a reincarnated mermaid. She plays tennis like a whirlwind. I'd trust myself with her in a motor climbing the Jungfrau if she took it into her head to drive to the top and if they'd level the trails a bit. If there's anything she can't do and hasn't done better than any woman in the country I'll never ride to another hunt. And with all her triumphs she's the dearest, sweetest, and prettiest girl you'll find anywhere."

Miss Hollins well deserves the name of being the best sportswoman in the United States. She is everything that the name implies. She never forgets the rules of the game. She never takes a mean advantage. She loves the game. And she plays with every bit of her wonderful young vigor.

Last fall Miss Hollins battled with Miss Gladys Ravenscroft of England for the international woman's golf championship. The game went to England, as championships have had a habit of doing in the last decade, but the game was the most brilliant and the most zealously fought struggle of the season. Miss Ravenscroft won by the narrow margin of 2 up. The loss of the game was a great disappointment to the earnest young player. But even if she did not have the opportunity of holding the international championship she holds the Metropolitan title, and there is little possibility of her ever losing it if she continues playing the steady, splendid game that she plays now. Miss Hollins is, week in and week out, probably the best balanced golf player in the United States.

Country's Best Woman Whip.

With horses this versatile young sportswoman passes almost as a genius. Since her earliest childhood she has loved horses, and they have loved her, or she would not have had the success with them that she has had. In the saddle she has won blue ribbons which literally cover the stalls of her stables. She first came into prominence as an exhibitor of saddle horses. The quiet determination with which she subdued a fractious mount won admiration and applause for her even when she was very young. When she was only 18 years old Marion Hollins won the prize of Morris E. Howlett. He proclaimed her the foremost woman whip in the country. At that time she was just getting out whip as well. She drove Mr. Howlett's public coach, the Magnet, from the Holland house to Arrowhead, near Fort Washington, in one hour and five min-

utes, the exact time scheduled for the run. The run was made with the precision of a government clock. Rare horsemanship was displayed on the trip. With ease and grace the four-in-hand was piloted through congested Fifth avenue.

For several years Miss Hollins has driven a coach in the annual parade of the Ladies' Coaching club in New York. In the long distance runs of the club Miss Hollins never relinquishes the reins until the entire course has been covered. That ceremony is invariably accompanied by the cheers of her coach mates, for she always arrives at her tiny station on the stroke of the clock.

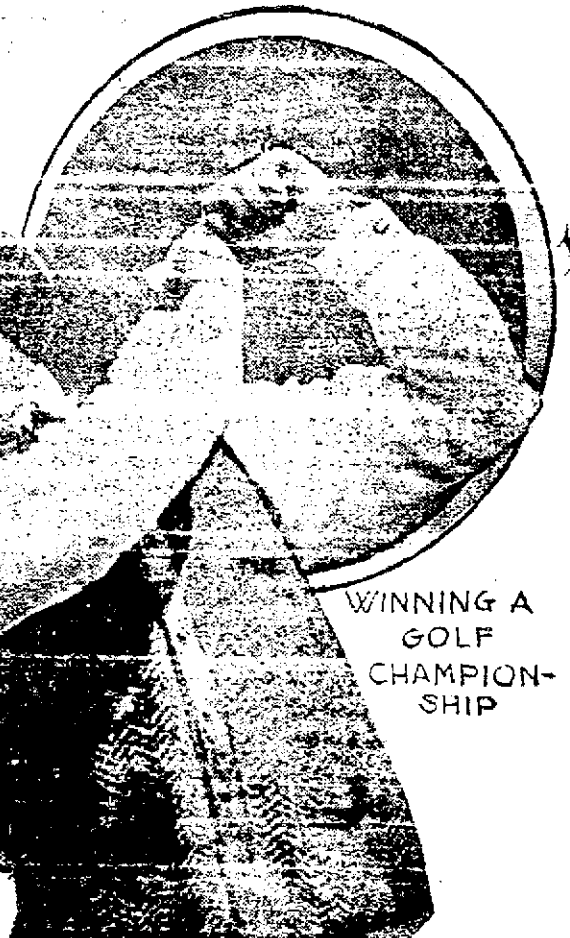

The skill with which Miss Hollins manages horses is more apparent on the polo field than anywhere else. Into the thickest of the game she plunges. She is a reckless player, but she is so skillful that she takes practically no risks when another less skillful player would be endangering life and limb at each gallop. She scorned skirts to ride in. In her mannish togs she has won the Long Island polo championship. She plays back, a position in which she has won distinction.

In the hunting field she is an intrepid cross country rider, and when the hounds run their quarry to cover she is always one of the first to see the "death." In the steeplechases she knows no fear. She rides to the amazement of her audience, and she even causes devotees of the sport to wonder whether she has not a charmed life as well as a "way with horses."

At Home in Other Sports.

Miss Hollins is as much at home in the water as she is on the back of a horse or on the rolling links of the country club. She swims with all of the skill that she displays in playing golf. Like Miss Eleanor Sears, who used to be called the sportswoman pre-eminent of the United States, she wears a bathing suit of a fashion to give absolute freedom to her limbs. No current or undertow is strong enough to overpower her. She revels in a hard battle with the surf. In the north in the summer and in Florida in the winter she swims with unexcelled strength and swiftness. She is a splendid player, and she would undoubtedly be a winner in the national tournaments if she devoted the same amount of practice to tennis

that she does to golf. Even without systematic practice she has many cups and trophies to attest her prowess in the game. Many a hard fought set has gone to her, for she plays tennis with the same cool, clear determination that she uses in managing a four-in-hand or in timing her onslaughts on the polo field. "Miss Hollins' love of outdoor sport has by no means marred her social popularity. Like Miss Sears, who was always the heroine of the maddest, merriest, most mischievous pranks of her set, Miss Hollins is always ready for anything. She is the daughter of H. B. Hollins, a broker of New York. She has accepted her social duties and she fulfills them with the same success which crowns her athletic feats. She is one of the most popular girls of her set. She is sweet tempered and thoughtful, and, as her admiring fellow sportswoman said, "the dearest, prettiest girl you'll find anywhere."

AL POULTER IS KILLED; 1 HURT

Oakland Police Corporal Meets Death in Auto Wreck.

Lester Manning Badly Injured on Way to Night Fire.

COLLIDING with a heavy touring car while speeding to a fire at East Fourteenth street and Thirty-seventh avenue last night, a police automobile in which were Lester Manning, a special policeman, and Police Corporal Al Poulter, was wrecked, Poulter was killed in the crash, and Manning was badly hurt. The car was totally destroyed.

The body of the dead police officer was removed to the morgue and Manning was hurried to the Emergency Hospital, where he was treated for severe cuts, lacerations and other injuries. He will live.

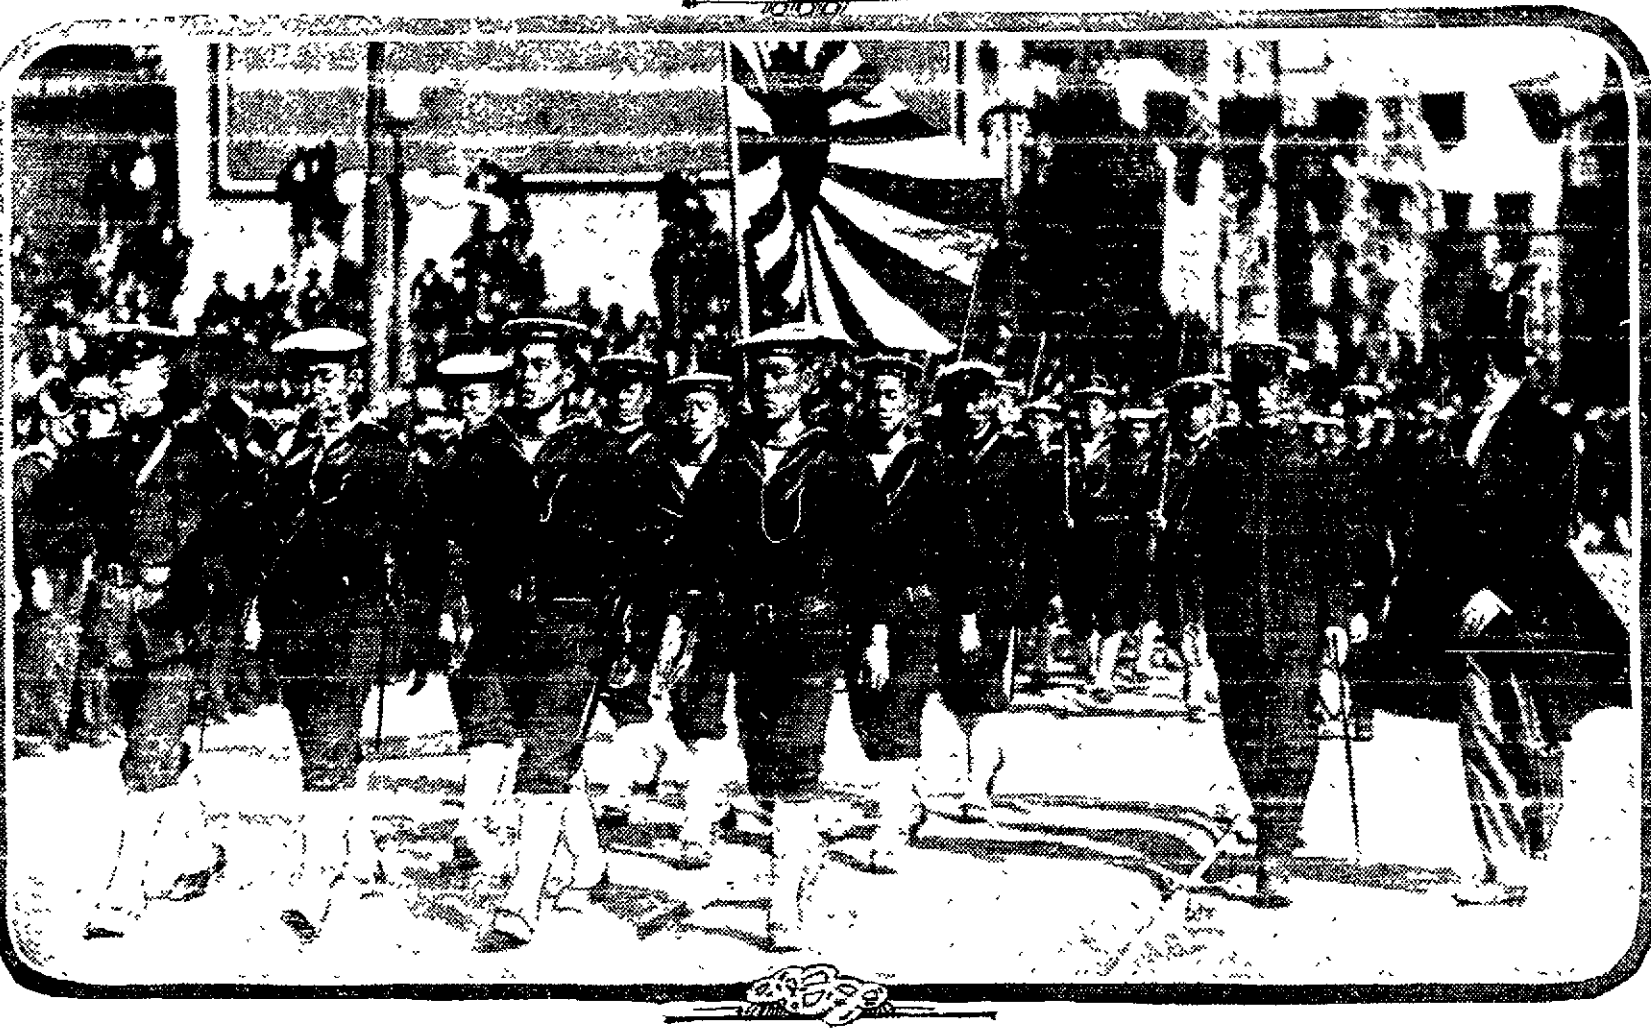

The accident occurred as the police automobile turned from Fruitvale avenue into the Boulevard, having come from the Melrose police station. The touring car was coming west on the Boulevard.

The heavier machine was driven by J. N. Dimmick, and owned by the Stewart Taxicab Company of Oakland. The driver was not hurt, the police believing that the error lay on the side of the two department members, as they were driving at the faster rate.

Manning is the son of Deputy County Clerk Lee Manning, and

Pacific Ocean to Be Scene of Great Conflict; United States Is Alone in Peace

TIME OF EXPIRATION OF JAPAN'S ULTIMATUM

TOKIO—12 o'clock noon, Sunday, August 23d.
BERLIN—1 a. m., Sunday, August 23d.
WASHINGTON—10 p. m., Saturday, August 22d.
CHICAGO—9 p. m., Saturday, August 22d.
OAKLAND—7 p. m., Saturday, August 22d.

LONDON, Aug. 23—2:10 A. M.—It is reported that the Japanese fleet, accompanied by a large number of transports conveying troops are near Kiau-Chau, in readiness to begin operations against the German forces stationed there.

LONDON, Aug. 23—4:06 A. M.—The Exchange Telegraph Company's Pekin correspondent declares that the Japanese are ejecting the Germans from Mukden, Dahn and other places. The Japanese, the correspondent adds, take the view that the war will extend over China east of the Yellow river, and accordingly all Germans are under surveillance.

WASHINGTON, Aug. 22.—When the time limit of Japan's ultimatum to Germany expired at 10 o'clock tonight (Washington time) no word or intimation regarding developments in Berlin or Tokio had been received at the Japanese or German embassies or the state department. Japanese Ambassador Chinda said at that time he expected no word before tomorrow morning.

A confidential clerk remained in the state department to notify Secretary Bryan at his home in case word was received. The Japanese embassy, however, planned to close for the night at 10:30. Baron Chinda went to the embassy from his residence shortly before 10 o'clock, but remained only a few minutes.

GERMAN CHARGE NOT INTERESTED.

Charge Haimhausen of the German embassy said just before 10 o'clock that he did not expect to receive any word whatever from his government. All officials believed that official news of German answer would not be available before tomorrow, unless some announcement to the press was made at Tokio or London. Little interest was evidenced at the German embassy as the hour of expiration of Japan's ultimatum approached. Charge Haimhausen spent the evening at his club.

Great activity in the early evening was manifested at the Japanese embassy. All secretaries and clerks were on duty until Baron Chinda directed closing of the embassy at 10:30.

UNITED STATES TO HEAR LAST.

Chinda authorized an explanation why no news of Germany's reply was received here when the ultimatum's time limit expired and why none was expected before tomorrow. He said that the Japanese foreign office probably would notify the United States last of all the powers. Because of the more vital interest of warring European nations in Germany's action, he said, the official notification to the embassy here and to the state department would probably be delayed until the very last. Delays of cable transmission and wire isolations of Berlin, he said, were also factors in probable delay of the receipt of the news in the United States.

President Wilson did not wait for the news. He retired at an early hour.

JAPAN READY TO STRIKE.

SHANGHAI, China, Aug. 23.—The Japanese battle fleet, made up of the first squadron of battleships and armored cruisers, was reported tonight lying off the Shanghai peninsula. As soon as the time limit of Japan's ultimatum to Germany expires, the admiral commanding is expected to be ordered by Tokio to strike. He will bombard the defenses of Kiau Chau and a Japanese army, already on transports at a rendezvous, the location of which is kept secret, will land troops.

Among the Japanese warships reported here to have been sent to the rendezvous are the Shikishima, Kawachi, Sitsuo, Kashima, Kurami, Kongo and Ibuki, all among the very best in the Japanese navy, with the heaviest guns and longest range of the fleet. They will be depended on to reduce the land defenses and to take care of the German cruiser squadron, should it decide to try to make a run to neutral waters. In addition, the second cruiser squadron of the Japanese navy is reported patrolling the Chinese coast.

Just how large an army Japan expects to use in the investment

WILSON KEEPING U. S. OUT OF VORTEX

WASHINGTON, Aug. 22.—All world powers except the United States and Italy at war. Imminent, and to practically all officialdom here, inevitable, war between Japan and Germany, tonight, left this country isolated among the great nations at peace.

News from Tokio declares war declaration against the Kaiser was expected hourly tonight. Japanese Ambassador Chinda believed war inevitable.

Above the war clouds rose President Wilson's determination to keep this government at all hazards, without honor, from being involved. Announcement that Japan had been notified of this nation's strict

BRITISH ARMY NOW IN IMPORTANT CLASH WITH TEUTON FORCES

LONDON, Aug. 22.—It is now believed certain the British army on the continent is engaged with the Germans. Intimations of that fact were contained in some of the official announcements today, although all details were sternly refused. The situation is admitted very serious, as the allied armies are now facing a concerted German attack extending through Belgium along the entire French frontier of Lorraine and through the middle of Upper Alsace up to the Swiss frontier.

The fighting in Upper Alsace is believed to be of the most serious character. Specials from Basle say that the Swiss army has been mobilized along the frontier to prevent a violation of Swiss territory by the defeated army. The sound of artillery fire is declared to be plainly heard at Basle.

ANTWERP, (via Paris) Aug. 23—12:30 A. M.—English and German cavalry brigades clashed Saturday on the battlefield of Waterloo.

LONDON, Aug. 23.—A Central News dispatch says that a large detachment of German cavalry suffered virtual annihilation in the suburbs of Malines, Belgium, Friday afternoon. The dispatch comes from Amsterdam. It declares that Belgians, in motor cars armed with machine guns did the work.

GERMAN SHIPS BOTTLED.

Announcement that 7 per cent of all German shipping is in British hands, 20 per cent more "bottled up" in neutral ports and that the Austrian fleet has been driven by the Anglo-French fleet into the Adriatic was made by the British Embassy tonight from advices from the London War Office.

A dispatch from Ostend, via Paris, to the Exchange Telegraph Company, untimed, but dated today, received tonight, says:

"The civil guard and all citizens have been disarmed in anticipation of the German occupation in force. To the present hour the German cavalry, which is near the city in force, has not entered. There are no Belgian troops here and there will be no resistance."

A News Agency dispatch from Amsterdam says the Germans are advancing in force on Lille, moving from Ostend through the ancient town of Alost, 17 miles from Ghent.

AGAINST OVERCONFIDENCE. The newspapers warn against overconfidence. They point out, through their military experts, that the enormous German strength demands absolutely a defensive campaign. They emphasize through the same sources that an initial reverse may not mean any serious final result.

A single mine might cost England a hazardous far greater than is the possibility of a night raid by destroyers or submarines.

SEVERE FIGHTING RAGES. PARIS, Aug. 22.—Severe fighting on an enormous scale is reported at numerous points throughout Belgium.

(Continued on Page 19, Cols. 3-4)

AERIAL RAID IS BEING FEARED IN ENGLAND

LONDON, Aug. 22.—England is very serious tonight. Everywhere the question is: "Will the allied lines hold?" They are being subjected to the final test. The overwhelming German force moving with phenomenal rapidity throughout northern Belgium, is being flung directly at the French boundary.

Along a battle line the allied outposts have been thrown back on their main body. The right wing of the army of the Meuse is hurrying its force towards Lille. The left, aided by the German army of the Moselle, is hammering at the Namur forts, and, swinging wide out of range of their fire, is pouring down on the allies' center near Charleroi. All day the fighting has raged. The war office is silent on the result. If the line breaks it will be a herculean task to reform along the French frontier.

The seriousness of the situation is evidenced in the conduct of all the high governmental officials. But they insist they are confident of the final result. Additional reinforcements are believed to have been hurried across the channel. But the war office remains mute on the subject.

FEAR AERIAL RAID.

Fears of an aerial raid by Germany are entertained in many quarters. With the Germans at Ostend, they are close enough to the English coast to use their Zeppelins in a hazardous game, and there are few here in England who doubt they may make the attempt. But whether a Zeppelin would be able to do much damage is still one of the unsolved mysteries of the war. They were un-

(Continued on Page 19, Col. 5)

MAZATLAN LOADING COAL FOR LEIPZIG, IS BRITISH CLAIM

WASHINGTON, Aug. 22.—The British Government tonight formally called the attention of the State Department to the reports that the Mazatlan, living the Mexican flag, was taking aboard coal at San Francisco for delivery to the German cruiser Leipzig.

The embassy here received its information from its consul at San Francisco, who reported the moves of the Mazatlan as suspicious. He said he had lodged a protest with the authorities at San Francisco. After a long conference between Secretary Bryan, Counselor Robert Lansing and Colville Parlav, the British Charge d'Affaires, Lansing said the State Department would determine its course as soon as possible.

In the meantime, the Federal authorities from Washington to keep the Mazatlan under the closest surveillance. The gunboat, Parlav stands ready to leave the harbor without clearance papers.

SAN FRANCISCO, Aug. 22.—An idea for a moving picture feature, drawn into one for the coal of the

German cruisers Leipzig and Nürnberg at sea, with coal in sacks carried by the Jochen freighter Mazatlan. Such coaling was declared yesterday by Great Britain to be a distinct breach of neutrality, and Collector Davis was ordered by Washington to hold the freighter until further orders.

Today Captain G. W. Heers, a tugboat captain and owner, told the inner details of how representatives of the German government schemed unsuccessfully for 19 days to provide their cruisers with coal.

This is how Captain Heers told of three separate attempts, each of which was frustrated only by a slip.

"After that I figured on several other features, but it was on Tuesday morning, August 11, that the great idea struck me.

"The Leipzig and Nürnberg were in the

KNOWLAND'S NOMINATION CERTAIN, SAY SOUTHRONS

ALAMEDA CONGRESSMAN TO SWEEP ENTIRE SOUTHLAND

LOS ANGELES, Aug. 22.—Victory for Joseph R. Knowland in Southern California is certain, according to political leaders in this section of the state. Betting tonight was three to one that Knowland will carry the state and there is no Shortridge money in sight. Knowland's name is top-most on the list of favorites discussed in political circles.

LOS ANGELES, Aug. 22.—Content with the knowledge that Congressman Joseph R. Knowland is safe within the nomination column and now working to pile up a majority that will aid him in his race for office in the fall, the southern friends of the Congressman tonight are planning a whirlwind finish to one of the swiftest and most conscientious campaigns in the state's political history.

Volunteers, offering aid, through the Knowland headquarters come profuse of aid from friends in the outlying districts. Joseph R. Knowland is a winner, without a doubt, say the Republican leaders of the south.

capacity is adviser to the vast local Teutonic population, came out with a statement over its signature advising the readers to vote for Knowland.

Betting runs three to one that Knowland will be nominated Tuesday, and some of the betting fraternity are offering odds of four to one in favor of Knowland. None seem to have the

courage to bet a dime on Knowland's opponent, for the sentiment is too strongly set for the Alameda candidate.

Knowland banners decked hundreds of autos in and around Los Angeles today. Knowland cards are everywhere. Knowland's name is

Impenetrable gloom seems to have descended on the headquarters of success is weakly shaken by those in charge of the opposition camp. They seem to await some trick of fate that may give their candidate a boost. The brand of confidence expressed to a newspaper interviewer tonight in the opposition camp runs thus:

"We would not bet on the result. Tomorrow an auto squadron of 40 of Knowland's volunteers will visit

acquire a Sunday population of close to 200,000 persons from the interior who seek a short sojourn at the seashore.

The fraternal order of Eagles hold a monster picnic at Playa del Rey and the local area has extended invitations to Congressman Knowland's representatives in this city to be present.

JAPAN TO HURL GREAT FLEET AND ARMY AT GERMANY

OWNING BATTLESHIP QUADRON IS LYING OFF SHANTUNG PENINSULA

(Continued From Page 17.)

Chau is a matter of much speculation here. Estimates of number of transports reported to have sailed vary from seven to ten. The Japanese censorship of troop movements, however, has been maintained absolutely, and it is unlikely any identification of the German concessions is issued from Tokyo. The protestations of the Japanese government that it updates no territorial aggrandizement, Tokyo newspapers indicate a position that it is not expected to relinquish the territory acquired.

CHINESE GOVERNMENT IS WORRIED.

announcement is known to be causing the Chinese government much worry. Advice from Peking says the president and cabinet have been in almost continuous session considering the situation. China is bitterly disappointed because the United States did not see fit to side with her and urge Germany peace.

There is a fear here that China and Japan may yet become involved in the present war. Japan, in taking over Kiaochow, may be satisfied with only the German territory, but the Peking government believes England will oppose any grab in China at the moment because it might result in serious complications with the United States.

AWAIT NEWS FROM TOKIO.

from Tokio was anxiously awaited here today. The center was so strict that little definite information could be secured. The impression here was that there would be some delay in the expiration of the Japanese ultimatum to Germany, as doubted if the Japanese would strike, as against Russia, a previous declaration of their intention to do so. There is reason for acting suddenly in the present case, and formal statements having been exchanged in Europe, it was believed the Japanese government would prefer to conform to international law.

There was no longer any expectation that Germany would diplomatically, but it was not thought the Kiaochow forces would resist long or seriously, as it was deemed this would be a useless sacrifice of life. Peking advices indicated no action on China's part to take a hand.

TRANSPORTS OFF KIAO CHAU.

NDON, Aug. 23.—A news agency dispatch from Tientsin, says that a Japanese fleet of troop transports was off Kiaochow late yesterday waiting for the Japanese ultimatum to expire. The fleet was awaiting wireless orders to sail for the Chinese port should Germany fail to agree to the terms of the Japanese ultimatum before the time limit expired.

EUROPEAN INFUX CUT OFF BY WAR

Island Nearly Untenanted for First Time in History.

YORK, Aug. 22.—With the cessation of the last batch of immigrants, the island of Ellis Island, which has been the scene of a general war broke out on the mainland, and the island is now the first time untenanted in its history.

The four big double-decked ships, which have been waiting for the last batch of immigrants, are now being used for the purpose of housing the immigrants who are being held on the island.

According to advices received by the Trans-Atlantic Steamship Company, a thousand immigrants were expected to arrive in this port during the week. Federal examiners believe that the number will be the average for the time, and that it will be years before the conditions return.

Statistics at Ellis Island show that during the week of June 13, 1914, 1,000 persons seeking admission to the port of New York arrived from 14,000 to 16,000. This was largely by Italian laborers returning to their home countries.

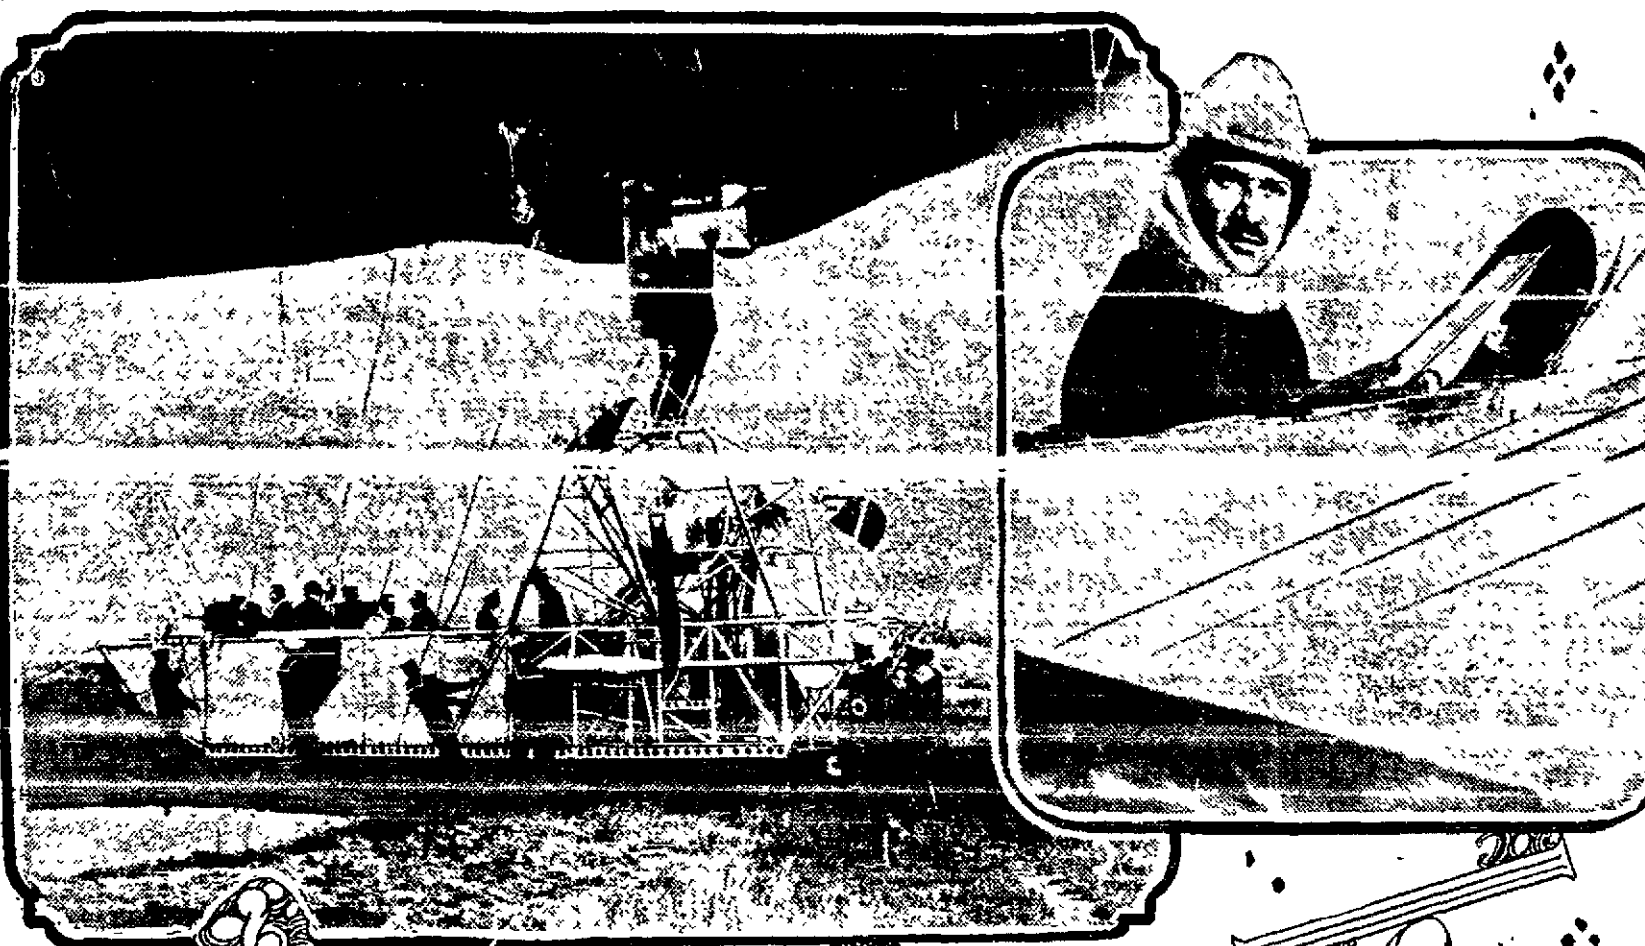

Immigration falls. The number of immigrants who arrived at Ellis Island during the week of June 13, 1914, was 1,000, a drop of 7000 from a week earlier.

WILSON PLAYING DIPLOMATIC ROLE

Assured by Japan That No Attempt Will Be Made to Involve U. S.

(Continued from Page 17.)

neutrality and "hands off" policy was made today by Secretary of State Bryan.

President Wilson and officials, Japanese and German embassies awaited news of the war declaration from either Tokio or Ambassador Gerard.

This afternoon, through Bryan and Gerard, at the request of China, the Japanese charge at Berlin was directed to break off diplomatic relations with Germany at 4 a. m. tomorrow (noon, Sunday, Tokio time, and 10 o'clock tonight, Washington time) if Germany failed to reply to Japan's ultimatum for withdrawal of German warships from the Orient and surrender of the Chinese province of Kiaochow.

LITTLE HOPE HELD OUT.

Little hope that Germany would accede to Japan's terms, or even reply with a note requesting further negotiations, was entertained by any official here tonight. Instructions sent today to the Japanese charge at Berlin gave him authority to leave the German capital if necessary.

At the Japanese embassy it was stated that if Germany should equivocate in her reply time would probably be afforded for change of the note and its consideration in Tokio, postponing departure of the Japanese charge in Berlin.

The possibility of Germany's reply being an open declaration of war on Japan, considering the ultimatum as an insult, was also a development not overlooked in diplomatic circles. Baron Chinda personally asked Bryan today to transmit his detailed instructions to the Japanese charge in Berlin to turn over the embassy to Ambassador Gerard.

DIPLOMACY IS PLAYED.

That the United States will undertake to act in a similar capacity for the German government at Tokio is practically settled. Charge Halmann discussed this matter with Bryan today, it was reported.

To keep the United States free from the vortex of war was the part President Wilson played in the rapidly-moving diplomatic situation today. Through Ambassador Guthrie at Tokio, Secretary Bryan announced to the Japanese government that the United States had full confidence in Japan's intentions to maintain China's integrity and ultimately to return Kiaochow. At the same time this government refused to discuss the ultimatum, maintaining that its strict neutrality was necessary. Japan was notified, however, that this government would expect to be notified if Japan contemplated any further territorial moves in the Far East.

TWO BREAK ARMS.

Lawrence O. Miller, 13 years of age, residing at 431 Twenty-eighth street, sustained a fractured right arm yesterday afternoon when a car wheel ran over his arm.

He is the son of M. K. Miller and his mother, Mrs. J. J. Miller, who is a widow, was removed to the receiving hospital, where he was attended by Dr. J. J. Reine. Warren Richards, 9 years of age, fell while playing at Mosswood Park yesterday afternoon and fractured his left arm. He was treated at the receiving hospital and later removed to his home at 5223 Broadway.

HE FIGHTS, ARRESTED.

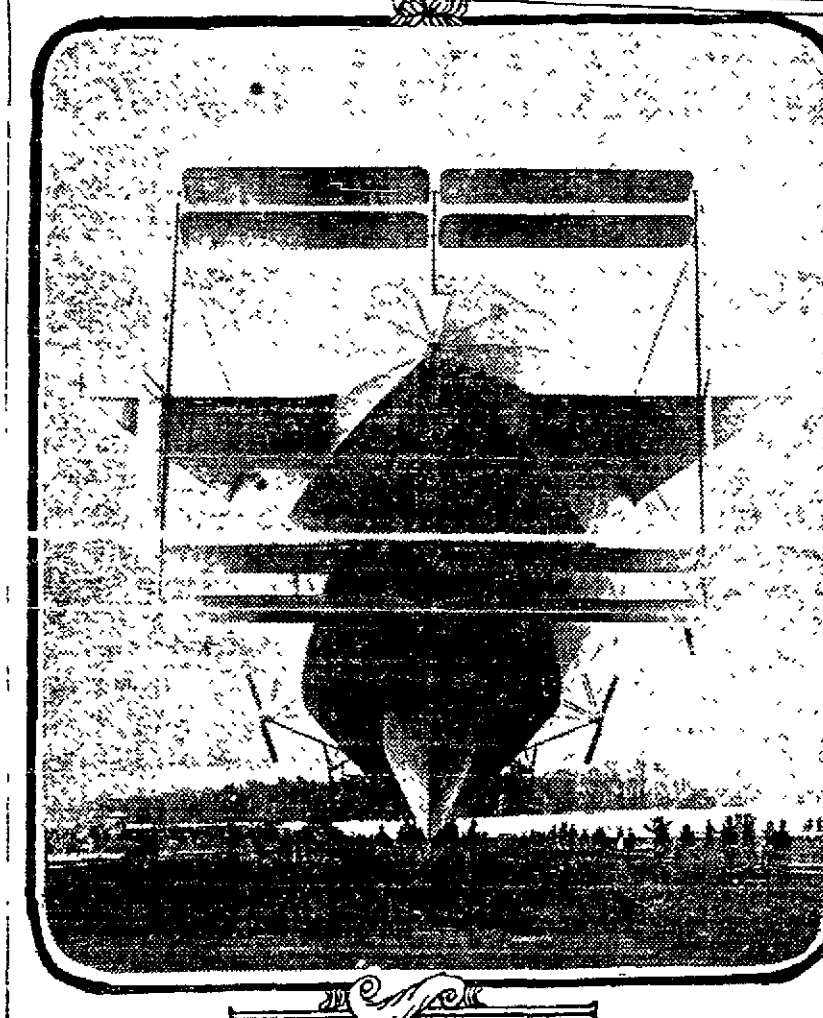

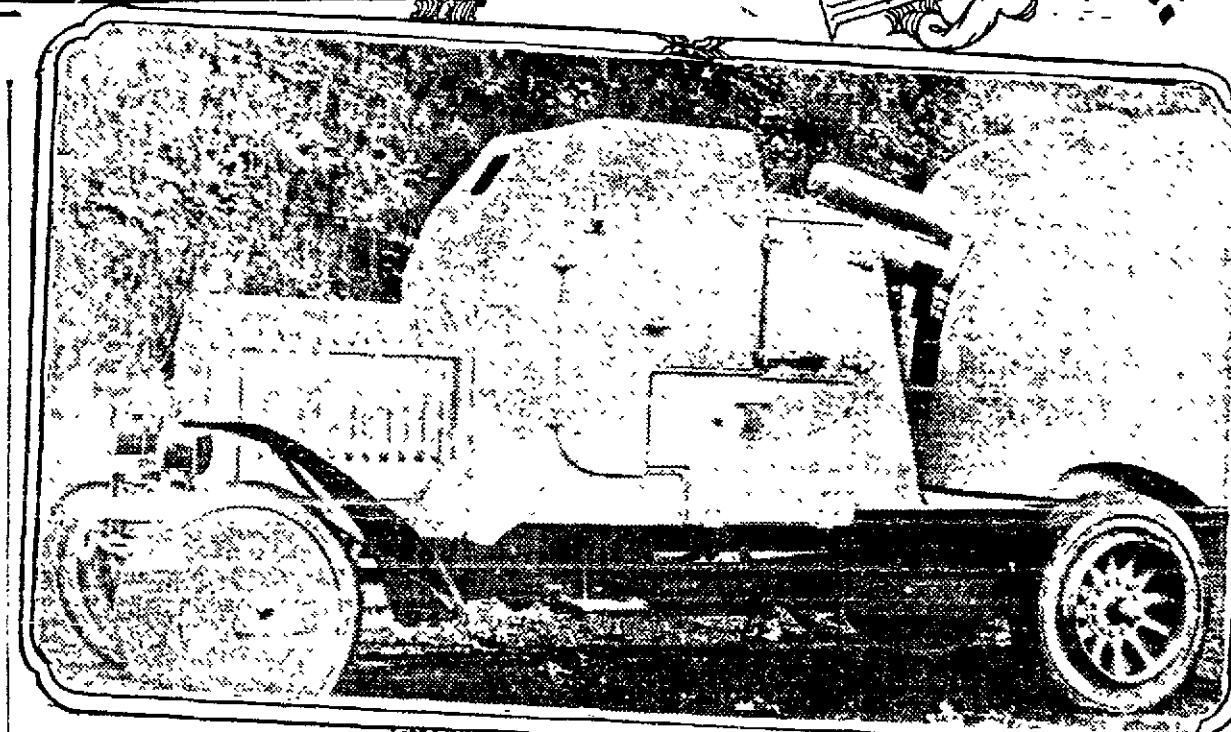

SANTA MONICA, Aug. 22.—F. T. Mangin, an old soldier, passed the night in jail yesterday for fighting with a woman.

A foreigner made disparaging remarks of the United States in Mangin's presence.

Down went the foreigner. To jail went Mangin.

Officer Harlan hated to do it, too, but it happened right "under his nose," and he couldn't help it.

Mangin will be released, it is said, following strict instructions to tell his friends to be good.

WEEK'S WAR IN BRIEF

The honors of the week belong to Germany. The Kaiser's forces have shut a large part of the Belgian army in Antwerp, have captured Brussels and have practically driven the French out of Lorraine.

The Belgian operations have been conducted behind the censor's curtain, so that one does not know how severely the allies may have been handled. But indications point to a constant series of skillful retreats before the German advance, within prearranged lines. Since the Anglo-French-Belgian plan of campaign did not contemplate the retention of Brussels, Germany's victory cannot fairly be called the allies' defeat.

About Dinant the severest Belgian fighting of the war has been raging all week. There is no evidence of victory for either side, but a drawn engagement is really a German defeat, since it prevents a German crossing of the Meuse south of Namur and German maneuvers in the Ardennes woods and hills.

The French spent the early part of the week developing an imposing encircling movement in Lorraine, trying to drive the Germans back toward the Strasbourg.

This was an offensive movement containing possibilities of much danger because of the enormous strong German fortifications in the area of operations. French troops gained half a dozen towns after several days' fighting, but the Germans suddenly took the offensive themselves, and the French quickly retreated across the boundary, gaining nothing by their work.

In southern Alsace the military operation cannot be satisfactory to the French general staff, since the commander of the operations about Mulhausen has been superseded by General Paul, the one-armed popular hero of the battle of Froeschviller, in the Franco-Prussian war.

French and German forces at Mulhausen seem evenly matched. Neither side is able to make a decisive impression, and the French quickly retreated across the boundary, gaining nothing by their work.

The French spent the early part of the week developing an imposing encircling movement in Lorraine, trying to drive the Germans back toward the Strasbourg.

The population of Ostend is still ignorant of the true situation.

SITUATION AT LIEGE.

The correspondent at Amsterdam of the Reuter Telegram Company has sent in the following account of the present situation at Liege, which he obtained from the Rotterdam Courant, which in turn got the story from its correspondent at Maastricht.

"The firing of a shot from a private house on the Quai des Preheurs in Liege was the signal for widespread bombardment and arson on the part of the German army of occupation, the Maastricht correspondent says. The situation of the population of Liege became extremely perilous."

Immediately the shot was fired, the Germans opened up with their machine guns from 20 houses and killed the inmates of 10 other houses.

"In addition to the war tribute of \$100,000 levied on the province and city, Liege has been mulcted of an additional \$2,000,000, the German army administration in private banks that amount of cash in private banks. All citizens have been invited to hand over their arms and at the same time the peasants have been invited to return to the country and begin harvesting. The lives of foreigners in Liege are in danger. There are a great many Dutchmen in Liege and the Dutch government is taking measures for their protection."

In conclusion, the correspondent says that Prince Eitel Friedrich, second son of Emperor William, has been killed.

The population of Ostend is still ignorant of the true situation.

The population of Ostend is still ignorant of the true situation.

REFUGEES TELL OF BELGIUM WAR

Towns Are Being Left Open and Claim Is Made of Atrocities.

LONDON, August 22, 8:30 p. m.—Large numbers of refugees from Belgium arrived in London tonight coming from Ostend. They are mostly Belgians, but among them are a few Americans. They say the general opinion in Ostend today was that the Germans were not coming to the coast.

A dispatch to the Exchange Telegraph Co. from Ostend, received here this evening, denied previous reports that the Germans have occupied Ghent.

At Ostend, the correspondent continues, every preparation is being made to render the town open. The civic guards will be disbanded and 4000 volunteers are being removed from the port.

The rapidity of the German movement in Belgium was in a measure to the failure of the retreating Belgians to destroy railroads and bridges behind them. These facts must be faced, the correspondent continues.

Northern Belgium is now a German province, at least temporarily, since the battle has yet to be fought. Ghent is only one hour by express train from Ostend, consequently the German cavalry could arrive here at any moment.

The population of Ostend is still ignorant of the true situation.

DANISH SHIPS ARE SUNK BY MINES

Strike Explosives in North Sea and Crews Are Supposed to Have Drowned.

LONDON, Aug. 23, Sunday.—In a formal statement the official bureau of the German government with reference to the Hague Convention on mine-laying in the North sea and warned neutral shipping of the grave danger they incur in traversing that body.

"Mines appear to have been scattered indiscriminately along the ordinary trade routes," the statement said, "on the chance of catching warships of the allies or their merchantmen. The mines violate the Hague Convention in that they do not become harmless after a certain period of immersion and in that they are not laid in connection with any special military operation."

LONDON, Aug. 22.—Floating mines planted by the German squadron in the North sea have claimed two vessels. The Danish steamers Maryland and Broberg, plying from Copenhagen over British North sea routes, struck mines and sank. The fate of the Maryland's crew is uncertain, but it is feared all were lost. The crew of the Broberg, with a single exception, were saved.

The Maryland, en route to Hull, struck the mine Friday. Her entire forward part was completely demolished and she sank almost immediately. The Broberg, nearly ten miles away, saw the disaster, but when she reached the scene it was nearly dark, and although two boats were put over and combed the sea in the vicinity, no members of the Maryland's crew could be located.

The captain of the Broberg anchored for the night and resumed the search at daybreak. Steaming slowly along, the Broberg struck a second mine and, like the Maryland, she was so badly injured that she sank almost immediately.

BRITISH IN DANGER.

The crew of the Broberg got the boats over before the vessel foundered and were able to remain afloat until another vessel rescued them. One member of the crew, who was below when the explosion occurred, was crushed to death.

The war bureau says the Maryland was sunk while following the main trade route in the North sea. This announcement has caused alarm, as the Danish steamers were about the only ones that have been maintaining their regular sailings. Shutting down of this trade will seriously interfere with the importation of foodstuffs from the Scandinavian peninsula, which has been strongly fortified since the outbreak of the war.

Navy officials admit this latest naval tragedy indicates that the Germans have thoroughly sown their mines through to the North sea, and that the big British battle fleet is in constant danger.

NEW FORM OF WARFARE.

The press bureau announced receipt of a report that two Dutch steamers, in addition to those blown up by mines in the North sea, had been sunk by the underwater defenses in the gulf of Finland. The steamers had sailed from Swedish ports, it was said.

"Great Britain has not yet laid mines," the bureau stated, "but the admiralty reserves the utmost liberty of retaliatory action against this new form of warfare."

It was believed here that the Dutch ships were victims of mines laid by the German fleet, which at the time it bombarded Liban, Russia, was reported to have sown the gulf of Finland with mines.

The rapidity of the German movement in Belgium was in a measure to the failure of the retreating Belgians to destroy railroads and bridges behind them. These facts must be faced, the correspondent continues.

Northern Belgium is now a German province, at least temporarily, since the battle has yet to be fought. Ghent is only one hour by express train from Ostend, consequently the German cavalry could arrive here at any moment.

SCHOOL TROUBLES ARE TAKEN INTO COURT

PLACERVILLE, Cal., Aug. 22.—The trouble between the teacher and trustee of Green Valley school district took another turn yesterday in the arrest of Miss Katharine Coughlin on charges of malicious mischief.

Under Coughlin's authority, she broke the lock and chain and then with the key still in her possession worked the old lock and entered the schoolroom. Spectators present offered no resistance. She had broken a padlock and on advice of county officials the trustees were advised to again padlock the door, and this they did at 11 o'clock this morning, following the teacher's departure.

Miss Coughlin, on reaching her school yesterday, discovered a hoarse lock and chain on the door to prevent her entrance. She was not to be rebuffed and returned home with her key.

She broke the lock and chain and then with the key still in her possession worked the old lock and entered the schoolroom. Spectators present offered no resistance. She had broken a padlock and on advice of county officials the trustees were advised to again padlock the door, and this they did at 11 o'clock this morning, following the teacher's departure.

Compiles High Cost of Being U. C. Co-Ed.

UNIVERSITY OF CALIFORNIA, Aug. 22.—That the co-eds of the University eat more than a ton and a half of chocolate in the course of the college year is the estimate compiled by a statistician of the co-operative store on the campus. Figuring the consumption to cost 50 cents a pound, he computes \$1500 is spent by the women students for these dainties. In the course of their four years, he goes on, the length of time of the undergraduate life, nearly six and a half tons of candy, or to be exact, 15,480 pounds. This adds to the total sum of \$6240, showing the high cost of being a co-ed. Dividing the total four years' cost among the 2000 women students reduces the individual expense of \$6 to an item of the budget of a student.

Alimony Is Reduced to Assist Children

SAN FRANCISCO, Aug. 22.—On petition of Major Henry T. Ferguson, U. S. A., Judge Graham today reduced Mrs. Hattie May Ferguson's monthly alimony allowance from \$175 to \$100. Mrs. Ferguson was granted a divorce a year ago on grounds of desertion.

Major Ferguson, in one of the most extraordinary affidavits ever filed in a divorce action in the local courts, asked to have his alimony payments to Mrs. Ferguson reduced to \$175 a month and that the remainder of the amount which he is now paying her be divided between his daughter and son. \$75 a month to the daughter and \$25 a month to the son.

Major Ferguson, in one of the most extraordinary affidavits ever filed in a divorce action in the local courts, asked to have his alimony payments to Mrs. Ferguson reduced to \$175 a month and that the remainder of the amount which he is now paying her be divided between his daughter and son. \$75 a month to the daughter and \$25 a month to the son.

RUSSIANS MOW DOWN ENEMY WITH FEARFUL LOSSES

PENETRATING FRONTIER AT MANY POINTS AMID DESPERATE BOMBARDING

ST. PETERSBURG, Aug. 22.—Russia is moving fast in Austria and eastern Prussia. An army of invasion, numbering hundreds of thousands, and comprising the picked forces of the Russian military establishment, is penetrating the frontiers at a number of points, the exact location of which is withheld. The war office declares that the enemy is being slowly but surely pressed back. The Austrian opposition is admittedly not so serious as is the German. The official declaration of the fighting is "desperate."

Among the killed and wounded are reported some of the best-known nobles of the empire. The crack regiments from St. Petersburg and Moscow, officered by members of the royal family and scions of noble houses, have been in action in Prussia. These regiments are reported to have covered themselves with glory, riding through the Prussian forces and carrying fortified positions at a fearful cost to themselves. Only members of the families know of their loss, however, as the government refuses to post any lists of dead at this time.

STUBBORN RESISTANCE.

The Russian advance into Prussia is following the line of the railway from Eydkuhnen toward Konigsburg. It is already in the outskirts of Interburg. Opposed to it is an entire division of German infantry, heavily supported by artillery. The Germans are stubbornly defending their positions. Forced from one line they move back to another already prepared, carrying their artillery with them. The Russians are forced to charge and take each advanced line of trenches at the point of the bayonet.

The Russian aerial corps, heretofore considered a negligible quantity, has covered itself with glory. It is announced in official bulletins from the war office that military aviators, carrying staff officers, have flown over into the interior of both Germany and Austria. High explosives have been dropped on military storehouses and the general topography of the country and the secret fortifications have been accurately mapped. The information obtained is expected to prove of incalculable value to the general staff in pushing forward the invasion.

SWEEPING SUCCESSES.

The main invasion of Austria is through the Styrian valley. Sweeping successes are reported in this section. The army from the mobilization triangle of Dubno, Revno and Krasne has penetrated thirty-five miles inland in the general direction of Lemberg, capital of Galicia. Practically continuous fighting has occurred, with the war office claiming a sweeping victory at Krasne, only thirty-five miles from Lemberg.

In this fighting it is declared that an Austrian division was completely routed and that seventeen guns and more than 1300 prisoners were taken. The Russians are reported as following up their advance and to be pushing on toward Lemberg.

SEVERAL EFFORTS TO COAL VESSELS

Every Move Made, However, Was Stopped by One Ship or Another.

(Continued From Page 17.)

offing. They needed coal and they did not want to use their twenty-four hours' license. Why not load the Retriever up with coal, make a noise like a moving picture stunt, and slip out to sea without question?

"It seemed possible, and that afternoon I went to see Ray de Maro, personal representative of Captain Fred Jensen. I found him to be secret, but a few minutes later I had reason to believe that he had told a man by the name of Rinder in the employ of the company.

TAKING NO CHANCES. "So I took no chances, but went to see John and Julius Rothschilts. They liked the idea and I proposed to accept \$5,000 for delivering the coal and taking all responsibility, or \$500 for my services if they would take the responsibility.

"We went to the German consulate. I waited downstairs while the Rothschilts went up to see the German consul. They came downstairs with Dr. Simon Reimer and the details were discussed.

"The first thing was for the German consul to get in touch with the Leipzig. This could not be done by wireless. I offered to arrange for a tug to take them out.

"The next day I heard they had gone out in a gasoline boat. On the morning of Thursday, August 13, I read of the expedition in which the consul had boarded the ship.

"It seemed to me that this publicity would stop the venture, but John Rothschilts called me up and said that the coal was being placed in new sacks by the Western Fuel Company and for me to be on hand to take it out to sea.

"On Friday, the next day, I heard about

the Mazatlan changing her registry to that of Mexico. I asked John Rothschilts about it and he said that arrangements were going to be made and that rendezvous was to be set.

"I waited again and then I read of the launch being stopped on the way with Dr. Reimer and officers of both the Alexandria and Mazatlan aboard.

"That seemed to put the question on the proposition. Then the Leipzig came into port and Captain Jensen returned from New York.

"Again I was called on by the Rothschilts in connection with loading the Leipzig with the coal allowed her. I told them that only the Western Fuel Company could do this in a hurry, and I washed my hands of the whole affair.

FIRE ABOARD VESSEL. "But last Wednesday I happened along the waterfront to pier No. 17, knowing the Mazatlan was lying there. I saw them loading coal in sacks on top of cargo. Then the fire broke out.

"Agent Smith, working for Special Treasury Agent Tilden, was on watch. When the unloading due to the fire started, Smith noted that the coal was labeled for Topolobampo, away south on the Mexican coast, and was piled over cargo labeled for Ensenada. La Paz and way ports.

"This aroused Smith's suspicions and he notified Tilden, who told Collector Davis. It was apparent that the coal was meant for transfer at sea before the under cargo could be delivered at Ensenada and other ports.

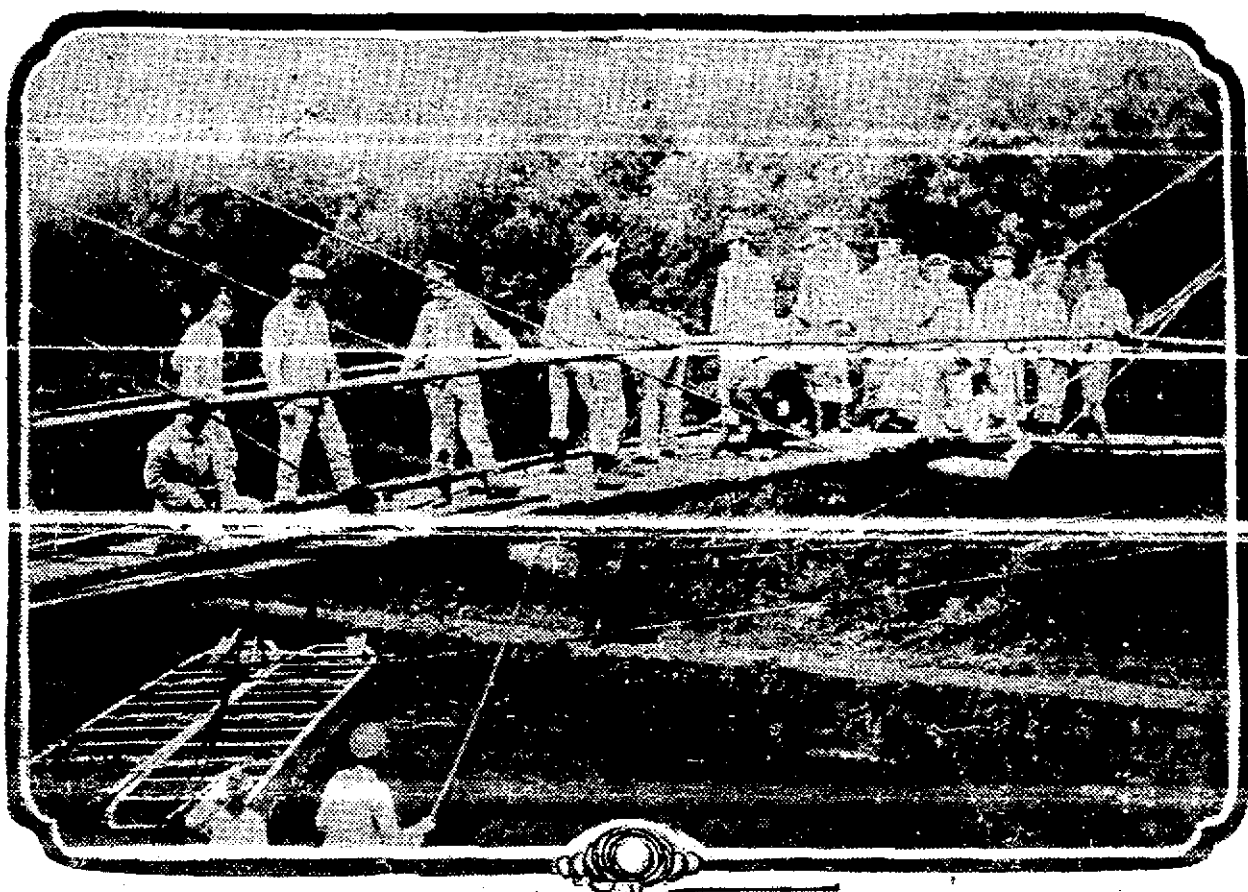

"Of course an inquiry followed and Washington stopped the Mazatlan from going out. But the funny part of it is that, so far as I can learn, the Rothschilts, the German consul, Dr. Reimer, and Jensen were all within their rights, except that the change of the Mazatlan's registry was not according to Hoyle.

"There is no accredited and recognized representative of the Mexican republic in this city and the consul appointed by one of the warring factions has never received recognition by the United States so far that he may effect change of registry."

CLOSE RADIO STATIONS. PORTLAND, Ore., Aug. 22.—Orders that all amateur and private radio stations be closed forthwith on pain of prosecution under the neutrality laws and confiscation of apparatus were received in Portland today from R. E. Thompson, government radio inspector at Seattle. Commercial stations must submit copies of all messages to be sent or received to the radio censor for approval, accompanied by a translation.

WEAVERVILLE, Aug. 22.—E. L. Herring of San Diego was killed for a deer by his brother on South Fork mountain, in Trinity country, this morning. Herring was one of an automobile party of hunters from San Diego who were near the Humboldt county line. The sheriff and district attorney accompanied the coroner to make the investigation required under the new law.

ENGLAND'S ARMY ENGINEERS WILL HAVE A CHANCE TO TEST THEIR SKILL WITH GERMANY'S CORPS FOR WHICH THE CLAIM OF SUPREMACY HAS NEVER BEEN CONTESTED. BRITISH ENGINEERS ARE SHOWN HERE BUILDING A BRIDGE FOR AN APPROACHING ARMY.

ALLIES AND GERMANS FACE TO FACE ALONG 200-MILE BATTLE LINE

(Continued From Page 17.)

tonight. Indications that the first decisive conflict of the war is well in progress are numerous. The tide of battle is expected to ebb and flow for at least three or four days.

The first German advance of the Moselle is in action, endeavoring to penetrate the advanced lines of the allies' center along a front that, broadly speaking, commences midway between Gembloux and Charloir, covers both banks of the Sambre and extends eastward near Dinant. The Germans have passed down both banks of the Meuse around Namur and the forts of the latter place are being subjected to a heavy bombardment.

The German army of the Meuse has swept through Brussels westward. The cavalry patrols are reported in great force in the vicinity of Ghent and as far northwest as Ostend, but whether these cities have been occupied in force the official war bureau professes to have no notice. It is stated, however, that the bulk of the German infantry has not yet crossed the Dendre river, although the cavalry patrols are declared to have penetrated out the strength of the French front that defends Lille.

The French War Office tonight, in reviewing the situation, and admitting that France has so far been unable to check the German advance, says:

ENGAGEMENTS BINDING. "France is resolved to do everything to liberate the territory of her ally, but has been impossible for strategic reasons to precipitate earlier a defense, but the engagements into which we have entered are the more binding on that account."

The War Office tonight issued an official report saying that the Germans, in force in an attempt to retake Schmirck Pass, in the Vosges mountains, were repulsed with heavy loss.

The War Office tonight declared the Germans are being driven from the Department of Moselle-et-Moselle. The official statement declares the German infantry and artillery, which have been holding the 20 miles of line from Briey to Longuyon, were attacked today by a French column, which charged the German entrenchments and drove them out at the point of the bayonet. The war office asserts that the German retreat was precipitate and their losses were heavy.

LORRRAINE IS SILENT. Little information regarding the situation in Alsace-Lorraine is forthcoming. It is admitted at the war office that the offensive movement in Lorraine has been checked through the appearance in front of the French advance of an overwhelming force, supposed to be the German army of the Saar. The advance on Strassburg, which had been unopposed, was checked, as was the advance on Metz, and the French army retired to the protection of the frontier forts. It is whispered that an offensive movement on the part of the Germans in upper Alsace, close to the Swiss frontier, narrowly missed breaking through the French army at Belfort and that it was driven back after stubborn fighting, which still is in progress.

That the Germans are renewing their general assault on Mulhausen in a desperate effort to retake that city, and that the French army, under General Paul Pau, the one-armed hero of Froeschviller, is being hard pressed, is believed here. But the French war office insists that the situation is "excellent" and it is suggested in official circles that a surprise is in store for the Germans. It is stated that the two Austrian army corps which crossed Lake Constance have reinforced the Germans in Alsace-Lorraine, and this may necessitate General Joffre halting additional troops from the French reserve line to defend the forts along the frontier.

REPRISALS URGED. The government is being urged to make reprisals on the German prisoners now in its hands to offset the cruelties of the Germans. War officials admit that the prisoners are to receive no particular favors and will be kept in strict confinement in the concentration camps.

high official of the war office today. Paris is exceedingly worked up over the charges that the Germans have violated the rules of civilized warfare. Specific allegations setting forth the following charges have been transmitted to the neutral powers:

That German troops have used explosive bullets in contravention of The Hague convention.

That the Germans, without justification, have executed dozens of non-combatants, including the burgomaster of Aerschot and several prominent residents of that municipality who had been taken as hostages.

CHARGE ATROCITIES. That the Germans have fired upon undefended villages, the case of Pont-et-Mousson, in the department of Moselle-et-Moselle, being cited as an example.

The war office announced that the government was determined to demand that the various neutral powers who are signatories to the international conventions dealing with the rules for international warfare demand that Germany change its tactics and respect the pledges to which it is a party.

Important developments in connection with the French Mediterranean fleet, now co-operating in the Adriatic with the British squadron of battle cruisers, are expected soon. It is believed that the Austrian seaport of Cattaro, which has the best harbor on the Adriatic, will soon be taken by the French, and that they are also planning a bombardment of Pola, the chief Austrian naval base on the Adriatic.

The war office announced tonight that the German and French troops have been engaged in the hills north of Lunerville, in the department of Moselle-et-Moselle, but that the German attack was weak.

REPORT ALL-DAY BATTLE. ANTWERP, August 22 (via The Hague).—That the real battle of the war, which will determine whether the allied line is to hold against the German attack, is in progress along a line extending from Namur to Charleroi was announced at the war office tonight.

The battle began at daylight and was still in progress when darkness set in. The Germans assaulted the French line, which is reported strongly entrenched, and the fighting was of the most desperate character.

able to injure the Belgian forces at Liege, although frequently tried. They proved impotent in an attempt to wreck the Longy forts. The heads of the war office profess to believe they could likewise prove impotent over England, even if they were able to overcome the peculiar air currents of the channel.

The war office insists that the present fighting may last for three or four days because of the enormous number of men engaged. Germany will use her reserves in an attempt to overwhelm the allied armies, and if she succeeds it will be necessary for the allies to fall back on their secondary positions within the French frontier.

Japan Reports Safe Routes for Shipping

TOKIO, Aug. 22.—The Chamber of Commerce has announced that the Oriental-European sea routes are safe except in the neighborhood of German possessions. The route from Japan to Seattle is declared to be safe, but by way of Honolulu it is advisable to steam to the north, to maintain vigilance and to communicate by wireless as soon as possible with Hawaii and San Francisco.

Although most of the passengers on the Baltic this afternoon had lost their baggage, Samuel Untermyer, the New York lawyer, and Mrs. Untermyer, brought fourteen trunks.

At New York early Monday morning the Atlantic transport ship Minnekaska is to dock with a capacity list, 254 passengers. On the White Star steamer Adriatic, which left Queenstown on August 21, are 1550 passengers; on the American liner Merion, from the same port Tuesday last, 430 passengers sailed.

On the Olympic of the White Star line

GUARDED BY WARSHIP. The Baltic was convoyed by the big British cruiser Essex from the middle of the Atlantic to a short distance outside the three-mile limit. Passengers said the officers of the Baltic told them the Essex was traveling 80 miles in advance. Just off Sandy Hook the passengers saw the British cruiser as she passed on her way out to sea again.

All the passengers on the ship praised the British government for its efforts to ease hardships of stranded Americans.

REPORT ALL-DAY BATTLE. ANTWERP, August 22 (via The Hague).—That the real battle of the war, which will determine whether the allied line is to hold against the German attack, is in progress along a line extending from Namur to Charleroi was announced at the war office tonight.

The battle began at daylight and was still in progress when darkness set in. The Germans assaulted the French line, which is reported strongly entrenched, and the fighting was of the most desperate character.

Only meager information has reached here, but the war office insists that the allied line has withstood the German artillery fire and frequent charges by the German infantry. The Namur fortifications are holding out, all efforts of the Germans to silence their fire having failed.

S. W. V. AUXILIARY TO HOLD DANCE THURSDAY

Elaborate preparations have been completed for the entertainment and dance to be given Tuesday evening by the women of the Julia A. Martin Auxiliary No. 20, Department of California, Spanish War Veterans. The affair will be held at Pythian Castle, Twelfth and Alce streets, and a special program has been arranged by the committees in charge. Several novel features are planned as additional features for the evening. The affair will commence at 8 o'clock sharp according to the announcement of the committees of arrangements. Several prominent officers of the organization will assist in receiving the guests and supervising the details.

FIX WEDDING DATE. SAN FRANCISCO, Aug. 22.—The date for the wedding of Miss Edna Elizabeth Ryan, daughter of Mr. and Mrs. Herman L. Ryan, to Herman A. Ripe, has been set for Sunday, September 6, at St. Joseph's church. Ryan is day captain of detectives and is one of the most popular officers on the Pacific Coast. His daughter, a talented musician and possessed with unusual charm of manner, is prominent in musical circles and has taken a leading part in the charitable work. The announcement of her engagement was made some time ago and today the wedding plans were made public.

Arrangements have been completed for an elaborate ceremony and several hundred invitations have been sent out. The bride will be given away by her father and the service will embrace the solemn ritual of the Roman Catholic church.

USE HALF-MILE OF HOSE. ARCATATA, Aug. 22.—A brush fire seriously threatened the home of Mr. and Mrs. Milo Wible. The section crew of the Northwestern Pacific Railroad had been burning rubbish along the tracks below the house and burned fiercely up the hill. All about the house on that side are evergreen trees and it was feared the flames would jump from the brush into these and thus reach the house. An alarm was turned in and the fire company responded though the house is situated several blocks out of the city limits. One stream of water was thrown onto the fire through 2700 feet of hose.

REFUGEES ARE FRENCH DENY HOME FROM EUROPE SUCCESS OF GERMANS

American Reach Country on Two Ships Crossing Atlantic.

NEW YORK, Aug. 22.—Nearly 3500 American refugees from Europe ar-

Star liner Baltic, which arrived late this afternoon, brought 2130, and the American liner St. Louis, which arrived at quarantine at 7 o'clock, had nearly 2000. Rules of the port against ships passing quarantine at night were suspended for the St. Louis, in view of the wireless plea from her passengers that many were without baggage and other comforts and would like to land on American soil tonight, instead of lying over off quarantine.

Among the passengers on the St. Louis was Miss Helen Cox, daughter of the governor of Ohio. She and her instructor, Miss White, were forced to sleep one night in the steerage, but the next day obtained second-class accommodations. Samuel P. Marsh, millionaire manufacturer, and James L. Hammill, a prominent lumberman, both of Columbus, Ohio, were able to obtain first-class accommodations. The St. Louis sailed from Liverpool August 15, and very few of her passengers had been on the continent at the time of the war declarations.

PRIVATIONS DESCRIBED. The Americans had the same stories to tell of privations and difficulties in getting out of the war zone that hundreds of others have told on their arrival here. Passengers on the Baltic were nearly doubled. Many had to be content with steerage accommodations. Tonight there are nearly 3000 American refugees on the seas homeward bound from Europe on the boats of the International Mercantile Marine line. The American liner Dominion, due at Philadelphia tomorrow or Monday, has 640 passengers; the steamer of the White Star-Dominion service will land 800 at Montreal tomorrow; the Atlantic Transport liner Minnekaska, due at New York Monday, carries 264. On the White Star liner Adriatic, which left Queenstown yesterday, are 1850; on the American liner Merion, from Liverpool, Thursday, 430 sailed. The largest single carrying of the homeward rush is that of the Olympic of the White Star line, from Liverpool, this afternoon, on which more than 3000 passengers sailed. The Atlantic Transport liner Minnetonka, which left London this afternoon, brings 290, and the White Star-Dominion liner Canada, from Liverpool, sailed tonight with 700 more.

Although most of the passengers on the Baltic this afternoon had lost their baggage, Samuel Untermyer, the New York lawyer, and Mrs. Untermyer, brought fourteen trunks.

Victories in Alsace Greater Than Lorraine Setbacks, Is Report.

PARIS, Aug. 23 (Sunday).—The official war bureau this morning em-

German have won a sweeping victory in Lorraine. The statement says: "While the French, facing a superior force, have retired from Lorraine proper, the claims of a French defeat are grossly exaggerated. The French successes in Alsace are far more important than the German successes in Lorraine.

"The French conquest of the passes of the Vosges mountains is complete. The French hold the heights of the Vosges plateaus and dominate the plains of Donan and the pass leading to Colmar."

According to officials at the war office, the German aggressive movement in Lorraine, which has been developing for the last two days, has now suffered a severe check. The Germans have been baffled in their attempt to capture the Schmirck valley passes and are declared to have lost very heavily in the ensuing fight.

leaving Liverpool today, will be 3000 passengers and on the Minnetonka, also due to leave there today, 200, all the vessel can carry. The White Star-Dominion line vessel Canada will bring 700 from Liverpool, also starting today.

TELLS OF WAR. Among the passengers was Miss Florence Ralph of Buffalo, who at the outbreak of the hostilities was studying music in Berlin. She told an interesting story of her escape from the continent, in which he said his sword has been forced into his hands by his enemies. He said it, he patted the hilt of a heavy saber that was hanging at his side and tears came into his eyes. The Germans cheered the Emperor's speech until he told them to go to the churches and pray. The crowd then became solemn.

"The day before I left Berlin the authorities issued strict orders," she said, "that no parades of citizens should be allowed and that any persons found staging patriotic songs would be immediately arrested. The idea was, I understand, that the government wanted to impress upon the people that it was a time to be solemn and not to be confident."

Passengers on the St. Louis included the British Ambassador, Cecil Arthur Spring-Rice, and the French ambassador, Jules J. Jusserand. On board the Campania was Archbishop John J. Glennon of St. Louis.

Dr. S. W. Morris of Tacoma, Wash., another steerage passenger, arrived in New York with \$150 and the clothes he had on.

GUARDED BY WARSHIP. The Baltic was convoyed by the big British cruiser Essex from the middle of the Atlantic to a short distance outside the three-mile limit. Passengers said the officers of the Baltic told them the Essex was traveling 80 miles in advance. Just off Sandy Hook the passengers saw the British cruiser as she passed on her way out to sea again.

All the passengers on the ship praised the British government for its efforts to ease hardships of stranded Americans.

Important Notice

Regardless of the sharp advance in the prices of all materials and trimmings because of the war, The Pacific will make no advance, but will maintain its well-known standard of "best values—lowest prices."

Just Received—On Sale Monday

New Redingote Suits

\$15.00 and \$17.50

Famous as this store is for value-giving, we can safely say that we've never had better bargains than these at a season's start.

At \$15

POPE TO BE NAMED IN FEW DAYS

Cardinals Hurrying to Rome to Cast Votes for Pontiff

Four Votes to Be Taken Daily Following August 31

ROME, Aug. 22.—Seven cardinals are now being mentioned as the most likely candidates to succeed Pope Pius X. in the alignment of the sacred college toward continuing the policies of the late pontiff or adopting a more liberal policy. Those heading the element desiring to continue the fight of Pope Pius against "modernism" are: Cardinal de Lai, Cardinal Billot, Cardinal Sevin and Cardinal Du Billard. The leaders of the more liberal faction are Cardinals Garparri, Maffi and Ferrari.

ROME, Aug. 22.—With preparations going rapidly forward for the conclave at which a successor to Pope Pius X. will be selected and cardinals from every Catholic country now endeavoring to reach Rome, the world will probably be given a new Pope within less than two weeks.

Cardinal Della Volpe, the cardinal camerlengo, head of the church during the interregnum, today announced that the conclave will open August 31st. It is believed in Rome that the cardinals engaged in the solemn election in the vatican will choose the new Pope within four or five days. Four ballots will be cast daily, but it is not likely that the five first votes will be taken before the second day of the conclave.

The first day the cardinals will assemble in the Pauline Chapel, where mass will be celebrated, and they will receive communion. The days following the members of the sacred college will also celebrate mass privately.

AMERICANS TO SAIL. It is curious all the members of the sacred college will not be in Rome when the sacred college opens. The American cardinals—Gibbons and O'Connell—may not arrive until the second day, having sailed from New York Friday. It is believed they will arrive in time to register their votes. Efforts are being made to secure from the vatican nations assent to the election of an American to the papacy.

It is generally believed that an Italian is certain of election as the new Pope. It is not believed enough foreign cardinals will be able to reach Rome to offset the representation of the Italians. It is believed the effect of the war will undoubtedly have its effect on the election, despite the attempts to remove the selection of the Pope from all secular influences. The famous "Spanish veto" cannot be used in the present conclave.

QUESTION OF MODERNISM. It now appears likely that the selection of the successor to Pope Pius will hinge greatly upon the question of modernism. In the sacred college there is now one faction believing the late Pope's policies should be continued, and another element with more liberal views. Pius steadfastly fought to accept only those passages of scripture which stand for science. His holiness also took a firm stand against "modernism," believing the only two fields of modernism were the home and the church.

Until 4 o'clock this afternoon, hundreds of the faithful streamed by the bier of the late Pope in the chapel of the sacrament, while thousands of others were massed in St. Peter's Square. Later with the removal of the bier came the solemn rites in which the cardinals, vatican officials and other church dignitaries participated in the temporary entombment.

WILFRED BERGER TAKEN. SAN FRANCISCO, Aug. 22.—Fred Schneider, known to the police as the "skylight" burglar, was arrested tonight by Detective Marlon and booked at the city prison on two charges. He is alleged to have robbed the store of J. A. Hill, 123 Third street, August 8, and that of Maurice Blumberg, 619 Clay street, August 11.

WHAT KNOWLAND BELIEVES

Candidate for Senate Tells San Francisco

Congressman Joseph R. Knowland closed his Senatorial campaign in San Francisco last night with a speech to an enthusiastic crowd of voters in Mangel's Hall at Twenty-fourth and Folsom streets.

Knowland's address was especially well received by the voters and he was enthusiastically compelled to halt in his remarks because of the cheering and applause that greeted his utterances. Among other statements made by the Senatorial candidate were the following:

"Length of service in Washington means influence and power. The eastern states have recognized this and their members are returned year after year. One-third of the membership of the Senate is composed of former members of the House of Representatives. California's interests are so diversified that no State is more interested in national legislation. "Ten years' experience in Washington has acquainted me with the requirements of every section in California. I have been a Senator for ten years and I have been a Senator for ten years."

"In behalf of my own candidacy I wish to refer the voters to my past record, a record extending over seventeen years and comprising seven years in both branches of the California State Legislature and ten years in the House of Representatives. My platform is my record."

NOTES FOR CALIFORNIA.

"At all times I have endeavored to represent the State of California and supported any meritorious legislation of value to any particular section of the State. In Congress I opposed the removal of the United States Mint from San Francisco, fought for the Panama-Pacific Exposition for this city and worked in behalf of the Hetch-Hetchy water supply."

"I am proud to have opposed the reductions in the Democratic tariff which have injured the great industries of California. I fought the repeal of the free tolls provision of the Panama canal act, firmly believing this provision would aid in fostering American shipbuilding and securing for us an American merchant marine."

"In 1910, on the floor of the House, I introduced an amendment providing that whenever a railroad reduces its rates owing to greater competition those rates should never again raise those rates. This amendment is today part of the interstate commerce law and in many portions of the country districts where there is water competition are enjoying low freight rates."

"I should be removed the same rates will remain in force."

"I was also author of the provision in the Panama canal act which absolutely prevents railroad domination of the canal by prohibiting the use of the canal to railroad owned or railroad controlled ships."

"It is on such legislation and on my legislative experience that I am seeking the support of the voters of California in my campaign for re-election and election as United States Senator on the Republican ticket."

KODANI CAUGHT

Japanese, in Toils, Denies Knowledge of Girl's Disappearance.

CARMEL, Aug. 22.—George Kodani, the Japanese artist-photographer, for whom a state wide search has been conducted, ever since the disappearance of Helen W. Smith, painter, is being held here following his capture by Sheriff W. J. Nesbitt and a posse at the Carmel river bridge. Kodani had been lured from his hiding place in the woods near Point Lobos.

Kodani denies any knowledge of Miss Smith's disappearance. No clew to the girl's whereabouts has been unearthed. The Japanese declares that he hid because he feared that he would be unjustly accused. He is to be held for examination.

SLAYER IS BEING SOUGHT BY POLICE

Grape Picker, Who Dropped From Sight, Thought to Be in Oakland.

Following the slaying of a woman, several days after she had disappeared and he declaring that she had been taken to a sanatorium, also dropped from sight. Domingo Lopez, a Dinuba grape picker is now being sought by the authorities in Oakland where it is believed he fled on a night train after leaving the ranch where he was employed in the San Joaquin valley. The fact that the man had mentioned friends in this city placed the Dinuba authorities on his trail.

The police search follows the discovery of one of the most brutal murders ever committed in Fresno county. The woman's body was found in a vineyard, fully dressed and covered with long trailers from grape vines Friday. Three days before the woman had disappeared her husband, a Mexican laborer explained to his fellow workmen that she had been ill and had been removed to a hospital. A purse was collected for the man and during the evening he disappeared. Yesterday grape pickers, going through the vines, discovered the woman's body.

The corpse according to the authorities in the valley, was fully dressed and partly decomposed. A black hair was found on the body, how the woman met her death.

According to Mexicans in the neighborhood Lopez and his wife quarreled frequently and it is thought possible that the crime may have been committed during one of these quarrels.

Coroner Loece was notified and came from Visalia and took charge of the body. The corpse when found was wrapped in a blanket, and was clothed in a brown waist and light brown skirt, tan hose and black shoes with the woman's hands and feet identified by C. Garcia by means of the white buttons upon the shoes.

Garcia stated that a couple of weeks ago he informed Lopez that his wife had been out riding with a man in an auto the following day both Lopez and the woman disappeared and the finding of the body today was the first intimation that a crime had been committed.

Coroner Loece was notified and came from Visalia and took charge of the body. A Demonstration of Suit Values Supreme at The Toggery this week

No increase in prices at this store, notwithstanding the tremendous rise in the prices of all imported fabrics and trimmings because of the war. We maintain our usual standard of value-giving. You may always feel certain of getting here the correct style at lowest prices.

A great and satisfying variety of modes, suits of unusual charm in style and fabric ranging from the 48-inch Redingotes down to 32-inch coat models suitable for misses and small women. There's a style to suit every taste, and a size to fit every figure—a price to fit every pocketbook.

One of the "Smart Style" Models at \$15.75

Undeniable Economy in these Suits at \$25

Fifteen new models just received—plain tailored and trimmed—any length of coat from 32 to 48 inches. Included are the New Paddock, Redingote and Cossack models, copies of the latest creations received from Paris.

The Materials in all new colors are

Chiffon Broadcloths Fine Gabardines
Imported Worsteds Crepe Poptins
Gilbert Serges Needle Cards

Specially designed models in Misses' and Small Women's

Suits at \$15.75

Handsome dashing little garments of Crepe Poptins, in the entirely new hood effect illustrated on the left. Hood and cuffs trimmed with Roman stripes and Roman stripe drop skirt. Colors, Copenhagen, green, brown, navy.

Oakland Man Passed Bad Checks, Charge

LOS ANGELES, Aug. 22.—W. S. Locke, a retired business man of Oakland, was arrested in this city today on telegraphic advice from Chief of Police Petersen of Oakland on a charge of passing a fictitious check for \$20. He appeared before Judge Works on a writ of habeas corpus, and was released on \$1500 bonds for his appearance at Oakland. Locke has friends in this city who will probably make good the check, which appears to have been drawn without sufficient funds to cover it.

Imported Dry Goods Show Big Decrease

NEW YORK, Aug. 22.—Imports at New York this week amounted to \$14,258,228, compared with \$12,419,783 the week before and \$15,639,149 two weeks before. Included in these imports are \$271,039 worth of precious stones and jewelry. Imports of dry goods for consumption totaled \$1,389,257 silk entries being appraised at \$470,726. The week before these entries were valued at \$2,496,490. Significant as reflecting the paralysis of shipping following the outbreak of the European war is the fact that the dry goods entries here the week of August 15th were less by \$1,107,233 than in the preceding week. The brunt of the slump appears for the week to have fallen on dry goods, as imports in other lines show no such proportionate decrease.

Breaks Record and Neck in Motor Race

READING, Pa., Aug. 22.—After breaking the track record for a mile, making it in 1:10, George Evans, well-known motorcycle racer, was killed in an accident at the stadium here late today. Evans had dropped to second place in a ten-mile professional race when the leader's machine skidded. Evans was forced to the fence and catapulted to the track. He was then run over and killed by W. W. Hagy. Edmund Dege of Reading broke his collarbone when he tumbled over the two men lines.

MARRY IN OAKLAND.

SACRAMENTO, Aug. 22.—Charles and Elizabeth C. Rohl, daughter of W. B. Rohl of this city, left Sacramento yesterday and were married in Oakland today, according to advices received by friends of the young couple. The parents of the two are R. W. Hagy. Edmund Dege of Reading broke his collarbone when he tumbled over the two men lines.

U. S. Ambassador Will Remain in Brussels

WASHINGTON, Aug. 22.—American Ambassador Grand Whitlock at Brussels advised the State Department tonight that, despite German occupation of the Belgian capital, he planned to remain there a few days longer to aid Americans caught in the wake of the war forces. Whitlock gave no details of army movements.

COUPLE FLY TO THIS CITY; ARE MARRIED

SACRAMENTO, Aug. 22.—Charles F. Sellinger son of George Sellinger, a well known local merchant, and Elizabeth Rohl, daughter of W. B. Rohl of this city, left Sacramento yesterday and were married in Oakland today, according to news received by friends of the couple. The parents are absent from Sacramento.

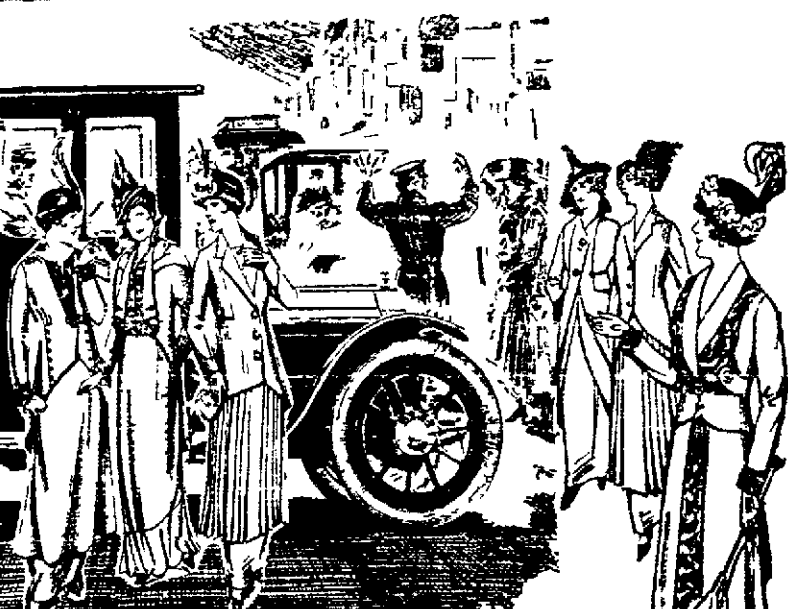

Machine Speeds Over Bridge; Death Results

NEW YORK, Aug. 22.—Charles J. Hite, of New Rochelle president of the Thane Motor Corp., and whose automobile turned a somersault off a bridge last night, died of his injuries today.

CAVALIERI SINGS.

PARIS, Aug. 22.—Luna Cavallieri has been separated from her husband Lucien Muratore, by the war until recently he is a member of the territorial army, and is stationed in the south of France.

She has just joined him at his post. She wears a man's suit of khaki. In his few idle moments Muratore and his wife pass their time singing patriotic songs (free but worth on the stage about \$300 a song) to the

Friedman's Styles Are Seen Everywhere

Especially where well-dressed women meet—at the theater, at the dance, at Hotel Oakland; in fact, everywhere. There is a certain individuality about a Friedman Suit you can't help admiring. We have one for YOU—come in and investigate.

Sightseers Flee to Safety at Mt. Lassen

REDDING, Aug. 22.—The frequency and violence of eruptions from Lassen peak this week have again cleared the mountain of sight-seers. The twenty column of ash-laden steam to a height of 7000 feet. This followed an even more violent outbreak yesterday, during which the pillar of steam rose to a height of 10,500 feet by triangulation. The crater is enlarging with each eruption and soon will break through the west wall of the ancient promontory crater, which has been inactive since the last geological formation was an inferno of molten lava.

CALL VOTERS' ATTENTION TO PROGRESSIVE PERFDY Republican National Committee Issues Statement Showing Plain Scheme of Deception

To the Republican Voters of California:
A situation has arisen in this state of such significance that it is felt that the same should be called to the attention of the voters by the Republican National Committee.

Two years ago, in organizing the Progressive party, the leaders of that party for their own ends and purposes and as a part of the program of those in control to wreck and destroy the Republican party and in violation of all of the rules of honor and confidence that had heretofore controlled the political organizations, assumed control of the Republican party in this state and under its name and title, placed the candidates of the Progressive party upon the Republican ticket, totally disregarding the political rights of the Republican party, and the voters loyal to its cause.

It is a well known fact that at one time a deception and a purpose never before attempted by political organizers

situation and the possibility of the non-fulfillment of the Progressive party, was attempted to be accomplished, it is emphasized and increased by the fact that these same individuals, with one exception, have heretofore been nominated and elected to office as Republicans in this state. It cannot be doubted that many influential citizens, not active devotees to political matters, will vote for these candidates, still understanding and believing that they are Republicans running as such, with nothing upon the ballot to dispel this illusion. The injustice thus attempted to be done to the party is expected to be done by the insidious action of 1912 above referred to.

PURPOSE IN MIND.
This statement is issued for the purpose of calling directly to the attention of the Republican voters of this state that the following candidates whose names will appear upon the ballot as candidates for the Republican nomination, are not Republicans, but are Progressive registered as such, and are openly and avowedly devoted to the destruction of the Republican party. Republican voters should remember that these candidates are not seeking office as Republicans, but are also seeking the position of delegates to the Republican convention while proclaiming their opposition to and their disloyalty to the Republican party.

John M. Egan, candidate for lieutenant-governor. Vote against him.
F. J. O'Brien, candidate for secretary of state. Vote against him.
John S. Chambers, candidate for controller. Vote against him.
Francis W. Richardson, candidate for treasurer. Vote against him.
U. S. Webb, candidate for attorney-general. Vote against him.
W. S. Kingsbury, candidate for surveyor-general. Vote against him.

It is not only this trust, but party loyalty and party consistency, and common integrity been sneaked into a law in this state, but even the Progressive candidates, registered as such, and members of that party, and equally avowed enemies of the Republican party, are seeking to be nominated as Republicans, and thus to become delegates-elect to the Republican convention. All of these conventions, by the way, to be held at the same time and in different places.

The deception and unfairness of this

convention, are not Republicans, but are Progressive registered as such, and are openly and avowedly devoted to the destruction of the Republican party. Republican voters should remember that these candidates are not seeking office as Republicans, but are also seeking the position of delegates to the Republican convention while proclaiming their opposition to and their disloyalty to the Republican party.

John M. Egan, candidate for lieutenant-governor. Vote against him.
F. J. O'Brien, candidate for secretary of state. Vote against him.
John S. Chambers, candidate for controller. Vote against him.
Francis W. Richardson, candidate for treasurer. Vote against him.
U. S. Webb, candidate for attorney-general. Vote against him.
W. S. Kingsbury, candidate for surveyor-general. Vote against him.

As stated, each of these candidates are Progressive registered as such, and are not Republicans. Do not name the Republican ship with a traitorous crew. We feel morally certain that these candidates will be defeated for the Republican nomination, if the deception is known and understood; and therefore, to prevent the fraud being consummated, we ask all Republicans to give all possible publicity to this situation, and to warn other voters, and also to have printed and distributed, and to be hung on public buildings, and to be voted against. Republican National Committee.

Member for California.

ILLITERACY TEST MAY CAUSE BREAK Measure Expected to Divide Democrats Before Passing Senate.

WASHINGTON, Aug. 22.—All hope of passing the immigration bill before adjournment has been abandoned by friends of that measure. This defers the moot battle on the merits until the next session of Congress. When it does come it is expected to divide the Democratic party, as did the fight on the repeal of the exemption of Panama canal tolls.

Such a party split is not expected to profit the Republicans much, however, for the simple reason that the Republicans in the Senate will follow the example they set in the tolls battle and will split themselves, so that it would be difficult to make a party

as the bill passed and the House continued the illiteracy test, and this is strongly desired by a number of Senators, this being shown by the report of the Senate Immigration Committee, made many months ago. In fact, it is generally believed that the friends of the illiteracy test would fight to be given to the subject has not been changed in conference, since it would not be amenable to the rulings of a conference committee.

WILSON OPPOSES TEST.
The President is known to be opposed to the illiteracy test, despite the earnest desire of such strong administration Senators as those of North Carolina, Smith of South Carolina and others to have the measure passed. Consequently, when the final vote on that measure does come in the Senate a most interesting situation will arise. That the President can scarcely prevent the ultimate passage of the immigration bill with the illiteracy test in it is admitted by a number of Senators opposed to the provision, though they say there will be no difficulty about delaying the vote until the next session of Congress.

Whether the President will carry his opposition to the illiteracy test to the point of vetoing the bill, and thus deal a slap at the Senators favoring the provision who have supported him through thick and thin, as for instance, Simmons, who reversed his position on the tolls question, and led the fight for the President, is one of the angles of the question which gives it great significance here.

Incidentally, aside from the big controversial question of the illiteracy test, there are a number of points in the bill, many of them inserted by officials of the Atlantic coast immigration states, which if passed will have the effect of saving those states a great deal of money, as well as granting them a larger measure of protection against the competition of the foreign laborer.

One of these relates to the admission of the incipiently insane, or, as one of the physicians testifying before the committee said, "those who have the germ of insanity." A provision in the bill framed to meet this would permit the doctor to detain several years of a person who has come, apparently sane, to this country, but who went insane due to the stress of American life, or for some other reason.

Insanity experts and officials of the immigration states are extremely anxious for the passage of this amendment, and for another which provides for more careful examination for insanity among the immigrants. The present examination, they say, is a joke.

HEARS SENTENCE OF DEATH PASSED Larson, Convicted Wife Murderer, Undergoes Ordeal for Second Time.

LOS ANGELES, Aug. 22.—Wild eyed and trembling, Louis Andrew Larson, convicted of the murder of his wife in the Verdugo hills, June 19, 1912, stood before Judge Craig in the Superior Court and for the second time heard the sentence of death passed upon him.

Judge Craig from the bench urged the condemned man to tell the truth and if guilty to speak it quickly.

Larson's face twitched, his frightened steel blue eyes opened wider, the whites of his eyes glistened, but his lips remained sealed.

He was led from the courtroom, steel handcuffs were placed upon his wrists in the corridor and then with a motley crowd, comprising women church workers, others who said they were interested in criminal reforms and half a hundred more who made no pretense of any purpose other than to satisfy their curiosity following him, he was led into the jail.

THEY ARE CHURCH WORKERS.
To the officer to whom he was chained he said:
"They are church workers I used to know. I want them to come and see me."

Miss Luella Larson, the daughter who was one of the principal witnesses against him, was not in the courtroom, although he had asked her to come.

He stood for nine days and will then be taken to San Quentin, where within twenty days he is condemned to hang. The exact date was not fixed.

"It is not my duty to again pronounce on you the severest sentence provided by law," Judge Craig said. "It is a formality whose requirement has no basis in reason or in common sense or any other cause except that of technicality and red tape, which makes up by far too much of our law."

GROWS AND MULTIPLIES.
"Right and wrong exist without a regard to personality. One person commits a sin and another is injured thereby. It is not the sin against the person injured, but the sin in the abstract as an entry of law and morals and multiples in a thousand forms and scars the soul of the sinner."

"I am not in any sense, and do not set myself up to be a judge of whether or not you or any other defendant in this court is guilty. But if you are guilty, do not go out of the world with a lie on your lips. A murder is an awful crime, but the man who commits it is a chief sufferer. You are as long as there remains a vestige of its stain, even merely the stain of denial of guilt."

After a few minutes' silence, Larson's lips remained fast shut and Judge Craig then said:

"Not sooner than sixty days nor more than ninety days within San Quentin prison you are to be hanged until dead."

ENTERTAINS FRIENDS
AT INFORMAL DANCE
Miss Avanelle McCormack entertained with a dance at the home of her parents, 403 Sixteenth street, Claremont, Oakland, Friday evening. Those present were:

Misses Dorothy Wood, Pauline Roxburgh, Mariann Mahon, Martha Wiehe, Dorothy McQuinn, Edith Hansan, Mildred McCormack.

Messrs Charles L. Gal, Will Brougher, Fargo Bonestall, Al Carter, Alex Genesey, Clifford Bunch, George Pomeroy.

Miss McCormack is a student at the University High School, Berkeley.

WILL FORCE ELECTRIC
ROAD TO PAVE STREET
OROVILLE, Butte county, Aug. 22.—Following upon the report of the Northern Electric to enter into a contract with the Clark and Henry Construction Company for the paving of that portion of Meyers street formerly occupied by the Board of Trustees is now preparing to call for bids for the paving. The Board of Trustees has refused absolutely to take any step that might even by inference free the Northern Electric from responsibility for the paving costs.

Since the Northern Electric has refused to act in the matter, however, recourse has been had to a provision of the 1911 improvement act, designed to meet just such an emergency.

Under the law, where a railroad company refuses to agree to a contract for its portion of the pavement, the Board of Trustees is authorized to appoint the city superintendent of streets as the agent of the company, with full power to enter into a contract that will bind the company. Accordingly, City Superintendent of Streets Davis will soon issue an advertisement for bids for the portion of the street, for the costs of which the Northern Electric is legally responsible. This includes the track and two feet on either side.

JOKE VS. CUPID;
CUPID IS VICTOR
Romance Grows From Note; Wedding Follows; Couple Happy.
A joke and a romance of Robert Chambers' swiftens are responsible for the marriage to be consummated next Saturday, August 29, of Miss Essie Garvey of 621 Madison street, Oakland, and Laurence Handy, a traveling salesman from Sacramento. Miss Garvey is just 18 and Handy is 21.

According to Mrs. Garvey the groom-to-be had some difficulty in meeting her daughter. While visiting in Oakland six weeks ago he stayed at the Garvey home. Discovering that a Miss Garvey, whom he had never met, was visiting in Sacramento, he begged to be given her address. "Nothing doing," laughed Mrs. Garvey, and the young man departed disconsolate.

Friends of Miss Garvey returned from the Capitol city and heard of the episode she wrote a little note to the Sacramento taunting him with his failure to meet her. The salesman was not slow. Within a few days after the note had been sent Handy presented himself at the Madison street residence. A few hours later he knew he wanted to marry Miss Garvey. A few weeks later, when her eighteenth birthday arrived, he persuaded her to take his point of view in the matter.

COMMISSIONERS TO
CONTINUE INQUIRY
Big Shippers Engage Much
Space on Vessels Through
the Panama Canal.
SAN FRANCISCO, Aug. 22.—The United Railroad officials will appear before the railroad commission Monday and present a mass of evidence to refute the claims of the commission's investigators that its accounts were not regularly kept. The session Monday will be a continuation of the investigation of the railroad commissioners into the financial status of the corporation, which was brought on by the discovery of the withdrawal by Patrick Calhoun of \$1,096,000 from the treasury.

President Jesse W. Lillenthal stated today that he did not intend to go into the facts relating to the Solano irrigated farms project, in which it is alleged Calhoun diverted the company's money. Unless a demand is made on the United Railroad no attempt will be made to go into the details of Calhoun's disappearance.

The company's officials will content themselves with offering rebuttal testimony to that already given by the experts of the commission.

There is no likelihood of another postponement of the hearing and unless something unforeseen has occurred the proceedings will go on as scheduled.

FREIGHT INCREASE
EAST IS DOUBLED
DEMAND IS INCREASED.
Hitherto it has been the habit of the steamship lines to take freight for one port only, New York City, and a very little portion of the cargo has been reshipped from that port, none ever going farther west than Ohio. The opening of the canal, however, has increased the demand for through freight lines to other sections, and the American-Hawaiian boats are now stopping at all Pacific Coast ports in the United States and at Charleston, Philadelphia, New York and Boston. Freight is reshipped as far westward as the Mississippi river in some instances.

It is expected that before the first of November 5,000 tons of California produce will be shipped out of here in merchant vessels. The steamer Honolulu of the American-Hawaiian fleet leaves at 10 o'clock tomorrow. She will carry only 25 passengers, and will be the first ship leaving here with passengers to make the trip through the canal.

"AEROPLANE 'BUS' PLAN
IS NOW DISCUSSED
SAN DIEGO, Aug. 22.—Rapid progress is being made in the plans for bringing the transatlantic liner America to San Diego and operating the big plane in an ocean service to Los Angeles. Glenn Curtiss has announced that Wanamaker has agreed to dispose of the America at a stipulated figure, and that final negotiations would be concluded soon.

Curtiss said that the America would be fitted to carry about ten passengers. The price for passage on the unique aeroplane ferry will be announced later.

Arrangements for reopening the Coast route. Company headquarters on island have been made. Raymond Morris, who was sent here to assemble and pilot the new Curtiss tractor on her trial flights prior to being turned over to the First Aero Corps, probably will have charge of the school, which will open about September 1.

TO RESUME AGREEMENT.
NEW YORK, Aug. 22.—Conferences held yesterday between the foreign freight traffic managers of the railroad trunk lines entering this city and freight directors of North Atlantic steamship lines developed that the issuance of through bills of lading from the grain fields to European points would soon be resumed.

THIEF KNEW HIDING PLACE.
SAN FRANCISCO, Aug. 22.—Some one familiar with the premises is believed to have stolen \$26 from the drug store of T. Beck, Ellis and Buchanan streets, in a recent holdup. Beck has kept some of his coin hidden in a shelf behind some medicine. The money was taken from its place of concealment and nothing else disturbed.

\$30, \$35 and \$40 Suits in New Models at \$25

TRAVEL 1000 MILES TO
INSURE QUIET WEDDING
LOS ANGELES, Aug. 22.—A. C. Carpenter, a young man of 22, of Houston, Texas, and pretty Miss Louise M. Hansen, also of Houston, traveled the 1000 miles from their homes to Los Angeles to insure themselves a quiet wedding and to outwit friends who were determined to insure numerous activities in connection with the event.

They slipped into town here, got their license, and went to the home of a friend at 32nd street, where a minister was waiting to perform the ceremony.

There their trouble began. Messengers arrived with telegrams of congratulation from friends in all parts of the country.

A second contingent of messengers brought packages of old shoes.

Then a private detective announced himself, and after an imposing display of authority, presented the couple with a message of forgiveness and well-wishes from their parents.

BANDIT TO RECOVER
bullet extracted from his left eye, Earle Loomis, the youthful hold-out who shot and killed Mrs. Clifford Holcroft, 1010 Seventeenth street, Monday night, will recover, according to reports from the county hospital.

Loomis was shot by Mrs. Holcroft when he attempted to rob her husband's ice cream parlor at the front of a revolver, and Loomis then fired on Mrs. Holcroft, killing her instantly.

JOKE VS. CUPID;
CUPID IS VICTOR
Romance Grows From Note; Wedding Follows; Couple Happy.
A joke and a romance of Robert Chambers' swiftens are responsible for the marriage to be consummated next Saturday, August 29, of Miss Essie Garvey of 621 Madison street, Oakland, and Laurence Handy, a traveling salesman from Sacramento. Miss Garvey is just 18 and Handy is 21.

According to Mrs. Garvey the groom-to-be had some difficulty in meeting her daughter. While visiting in Oakland six weeks ago he stayed at the Garvey home. Discovering that a Miss Garvey, whom he had never met, was visiting in Sacramento, he begged to be given her address. "Nothing doing," laughed Mrs. Garvey, and the young man departed disconsolate.

Friends of Miss Garvey returned from the Capitol city and heard of the episode she wrote a little note to the Sacramento taunting him with his failure to meet her. The salesman was not slow. Within a few days after the note had been sent Handy presented himself at the Madison street residence. A few hours later he knew he wanted to marry Miss Garvey. A few weeks later, when her eighteenth birthday arrived, he persuaded her to take his point of view in the matter.

THREE GENERATIONS
HAVE EXTRA FINGERS
POMONA, Aug. 22.—A most unusual case of physical heredity was brought to light when it was found that for three generations in a family residing in China, the descendants of an old resident of Mexico, are adorned at birth with superfluous toes and fingers.

Antonio Gomez died in Mexico thirty-five years ago, at the age of 89. At birth he had six fingers on each hand and six toes on each foot.

A daughter of Gomez, Senora Gracia Guzman, living in China with her two sons, Ferdinand and Antonio, was born with the same peculiarity, but her parents had them amputated when she was 3 years of age. Only the scars are left.

Both her sons were born with the same family characteristic. The younger son, Antonio, is known in China as "six-fingered Jack." Guillermo, thirteen months of age, a son of Ferdinand, has six fingers on each hand and six toes on each foot.

ACCIDENT RUINS SIGHT.
SAN FRANCISCO, Aug. 22.—J. W. Lowe the sight of his left eye as the result of an unfortunate accident at the Kruss' Mills, Twenty-first street and Treat avenue at 1 o'clock this morning.

Butt was working in the engine room when a belt broke and struck him in the face, knocking him down. The right side of his cheek was torn away and an examination at the Central emergency hospital disclosed the fact that his left eye was so badly injured that his sight will be gone.

Save Your Nerves!

Why Suffer in the Dental Chair When Your Teeth Can Be Fixed Painlessly?

There's no need of your going to a dentist and being tortured until you are in a state of nervous exhaustion. Come to me and I'll fix your teeth, no matter how sensitive they may be, without causing a single twinge of pain.

The moment I apply my marvelous Tetrasthesia to a sensitive tooth the nerve feeling leaves and does not return until the tooth is filled, crowned or extracted, as the case may be. Tetrasthesia does not act like cocaine, and is other dangerous anesthetics.

and no harm can result from its use. You remain wide awake and can watch all that is going on about you, but the sensation of pain is absent.

I have never yet found a case where Tetrasthesia failed to do the work required of it, or where it had the least ill-effect. I can excavate, grind down, cut off or bore into the most sensitive tooth that ever grew in the human mouth without causing the patient any discomfort.

Only one trial is necessary to convince you that I have made dentistry painless in all its branches. If I hurt you the least bit, I don't want any pay for the work. That offer is proof of my sincerity. It's now up to you to take advantage of it.

No matter what kind of dentistry you require, you will find me prepared to give you the very best grade of work at reasonable prices. I make a specialty of replacing lost teeth by the Rex Alveolar System without plates or bridgework. If you have some teeth missing, let me tell you more about this method.

I also do plate work of every description. I am the only dentist who makes the famous Platoid metal plate—the lightest, strongest and most comfortable plate known.

Call at once and have your teeth examined free. I will give you an estimate on any needed dental work, without obligation on your part. Consultation free to all.

Hours: 9:30 to 5:30; Sundays, 10 to 12. If you can't call, write to-day for my Free Book on Teeth.

SILVER PURCHASE BILL IS PASSED BY SENATE

WASHINGTON, Aug. 22.—Purchase by the Government within six months of 15,000,000 ounces of silver was provided in the Smoot bill passed today by the Senate and sent to the House. It would call for an expenditure of between six and eight million dollars. The bill is designed to offset the decreased demand for silver as a result of the European war.

CHINESE IS GOOD SOLDIER.
GRASS VALLEY, Aug. 22.—The letter which George Y. Bow brings back with him from the Norwich Military College of Vermont is as strong a document as any officer of the United States Army could make. Over the signature of the army officer designated by the War Department to instruct the youth at Vermont college in military tactics, the young Chinese student is recommended by the lieutenant to any person or nation who desires the services of a capable military man.

OAKLAND BELLE WEDDED

GROOM A PROMINENT ELK

MRS. HARRY C. CLAUDIUS (EVELYN KONIGSBERG), WHOSE WEDDING TOOK PLACE YESTERDAY.

The wedding of Miss Evelyn Konigsberg and Henry C. Claudius took place yesterday at noon at the bride's home in Oakland. Rev. Bernthal of the Lutheran Church was the officiating clergyman. A limited number of guests were present, and the bride and groom were attended by Mr. and Mrs. Eugene Van Antwerp as best man and matron of honor. Later in the afternoon they departed on a honeymoon trip to Del Monte, and on Wednesday will go to the summer cottage of Mr. and Mrs. Van Antwerp at Lagunitas, where they will spend two weeks. The bride is very attractive and has many friends in Oakland, with whom she is a great favorite. The groom is a prominent member of the Elks and other clubs of Oakland, and is in business in San Francisco. The home of the young couple will be in Oakland.

The subscriptions, which exceed \$8,750,000, were received from approximately 3000 subscribers, of whom a great proportion are new stockholders. In fact, the company has succeeded in almost doubling its stockholders since the end of the last fiscal year.

In view of the disturbed financial conditions, brought about by the European war, and to avoid unnecessary hardship upon subscribers, the company, through its board of directors, has deferred the time of payment of the second installment of \$15 per share from August 15th to October 15th, of the third installment of \$12.50 per share from October 1st to November 15th and of the fourth installment of \$12.50 per share from January 1st to January 15, 1915. Following is therefore the revised schedule of installment payments on the basis of the sale price of \$82.50 per share authorized by the State Railroad Commission:

As an unusually large number of the subscribers have either paid for their stock in full or have signified their intention of completing the full payment upon allotment, the company is expediting as much as possible the engraving and printing of the permanent stock certificates. The fact that so many subscribers are paying for their stock in full instead of availing themselves of the installment privilege is due to the fact that the full paid certificates net 7.27 1/2 per cent per annum on the investment, whereas only 6 per cent is paid on installment payments.

BARNUM AND BAILEY'S CIRCUS TO EXHIBIT

The Barnum & Bailey "Greatest Show on Earth" will exhibit here September 4 at Forty-fifth street and San Pablo avenue.

The time-honored tradition has been to distinguish each successive year's circus as "bigger and better than ever before." The phrase has become so true, however, that Barnum & Bailey hesitate to repeat it, despite their conviction that it adequately describes this season's entertainment. The familiar catch-line, "the Greatest Show on Earth," has been lived up to so far and away more generously than in any of the long years this amusement colossus has appeared in this city. Morning routine and repetition have been so completely eliminated that old-timers will rub their eyes in astonishment.

There's material enough to make a score of the circuses of recent years in this modern wonderland. Proving most overwhelmingly its continued supremacy, Barnum & Bailey contend is "The Wizard and Prince of Arabia," a panoramic picture whose magnitude and beauty have no line or equal in all the vast and varied history of spectacular presentations. Its stupendous scenic and property investment, stage pictures, music, songs and great choruses are the proud achievements in the Barnum & Bailey career; the prettiest, daintiest array of femininity ever assembled is disclosed, and the tapers of revels of the ballet belles provide a gloriously iridescent eye-feast.

With this wonderful feature, the Barnum & Bailey circus offers an array of circus talent that is unequalled in modern circus history, there being 350 acrobatic performers.

Tambling and baseball elephants, acts of a death-defying nature, novelties of a startling character, features.

and all for one price of admission.

PIG PACKING BEGINS.
FRESNO, Aug. 22.—Pig packing has started in the San Joaquin valley, after a slight boom in prices caused by the war. The pig market is said to be back to normal, and the packing season is well under way in Fresno and vicinity. Packing started this week and will continue until late in the fall.

CHARGE DOCTOR USED INFLUENCE

Aged Widow Is Said to Have Been Induced to Transfer \$45,000 Fraudulently.

LOS ANGELES, Aug. 22.—Two actions designed to bring about an official inquiry into circumstances under which Mrs. Georgina Louise Downing, an aged and wealthy Los Angeles widow, is said to have been induced to transfer property worth \$45,000 to her physician, Dr. J. Park Douglass, 3815 Ingraham street, and to make him later chief beneficiary under her will, were filed yesterday in the Superior Court.

Besides the physician, his sister, Miss Jessie Miller Douglass, his wife, who was formerly Gertrude Bennett, Mrs. Downing's nurse, and Attorney John H. Foley, a well-known Los Angeles lawyer, are named in the petitions which specifically charge that "fraud, duress and undue influence" were used.

Behind the carefully worded phraseology of the legal instruments is a remarkable story of romance and mystery, as it is set forth by Attorney Foley.

"We have just paved the way for the introduction in court of evidence that is certain to attract a great deal of attention," said Attorney Foley.

This will include the story of the wanderings through Europe of a half-crazed, suffering old woman who left Los Angeles to travel nearly 20,000 miles, which seeks to have the will of Mrs. Downing declared null and void and to set aside the transfers of two valuable pieces of property to Miss Jessie Miller Douglass to be held in trust for her brother, who at that time was involved in litigation with his first wife.

The second asks that the transfer of the Downing homestead at 3815 Ingraham street and other property at Eighth street and Gramercy place be set aside on the ground that it was secured by means of an alleged "conspiracy" and was devoid of consideration.

SCION OF WEALTHY FAMILY IS HERMIT?

Divorce Suit Against Nephew of Pierre Lorillard Makes Revelation.

NEW YORK, Aug. 22.—An action just started by Mrs. Lenora A. Lorillard, to recover back alimony from Irving Lorillard, the wealthy tobacco manufacturer, brought the revelation that the nephew has been living as a hermit in Westchester county for nearly 14 years.

As told by Attorney John T. Canavan, of No. 132 Nassau street, representing the wife, her Rip Van Winkle husband seems to have tried to convince the court that he has been obliged to fall back upon the habits of the Digger Indian to keep the wolf from the door during the long lean years and winters that he has endured this self-imposed social ostracism.

Some six months ago a woman friend came face to face with Lorillard upon the railway station at Mamaroneck, N. Y. She notified Mrs. Lorillard. A search was instituted. Through the aid of Sheriff Dorle, of Westchester county, Lorillard was located and served with a court order. Lorillard was brought from a shack that he inhabited back in the hills below Scarsdale to the court.

TULARE RAISES RICE.

PORTERVILLE, Aug. 22.—Rice in paying quantities is now being raised in the southern Tulare country. Three hundred and twenty-five sacks were harvested from fourteen acres, a yield which is considerably greater than the average yield given in the United States agriculture year book. The rice was grown on alkali soil two miles west of Delano.

threw distinct doubt upon her husband's story, saying: "My husband may be living the life he would like to impress upon the court, but I am convinced there is another household, well supported, which often sees him and gives him welcome. I am not going to talk about my action, for it may prejudice me in the eyes of those whom I do not wish to offend. But I have suffered 14 years for the sake of my two daughters."

Mrs. Emily Ross Perry, Poet Author

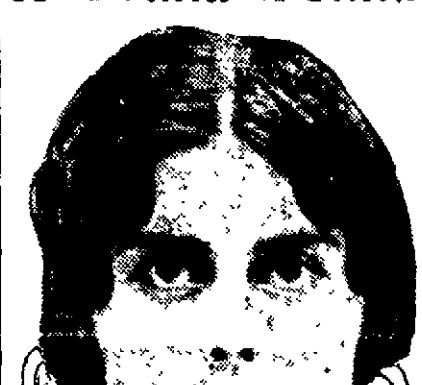

"I have found Peruna to be an Excellent Tonic"

Received a Medal from Her State in Recognition of Services

Mrs. Perry, of 319 18th Avenue, N. E., Minneapolis, Minn., is the wife of Commander Freeman G. Perry, well known in C. A. B. and society circles. She is the author of "Mimosa-baha Laughing Water." She says: "I have tried Peruna and found it an excellent tonic and cure for catarrh. It is good for all catarrhal affections of the stomach, and all diseases leading to consumption. Also for bronchial troubles. I believe it to be one of the best medicines on the market. Thousands can testify to its cure with the same pleasure that I can."

Those who object to liquid medicines can now procure Peruna Tablets.

Was Choir Singer Is Prima Donna

MISS MERCEDES CORVELL.

From the choir of a country church to a principal part in a great grand opera production is a long step and usually one that requires years of hard work and training, but Miss Mercedes Corvell, a former Hanford girl but now of Oakland, has signed a contract which means that she has attained the heart's desire of every ambitious chorus girl.

Miss Corvell had for several years been noted in the neighborhood of Hanford for her sweet voice, as well as for her pretty face. It so happened that Ferris Hartman, hearing of the remarkable voice while his musical comedy company was playing at the opera-house, attended church on Sunday morning and after hearing him solo from the throat of the pretty Nellie Northover, offered her a position with his company.

The Hartmans and Miss Corvell became fast friends, and she has been a member of the company all summer at Idora Park, where her face and figure have attracted much attention in addition to her musical soprano voice.

She has kept up her musical studies with Paul Steindorff and other teachers and has perfected herself to such a degree that when her voice was tried out by a representative of Henry W. Savage, the foremost producer of grand opera in English, she was immediately offered a contract, which she accepted, and at the close of the Idora Park season she will go to New York to begin rehearsals.

COMPLETING WORK ON WISHBONE ROUTE ROAD

A. E. Loder, division engineer of highway construction in this district, has announced that the Oakland branch of the Wishbone route highway, around the lower portion of the bay between Oakland, San Jose and San Francisco, is now practically completed through San Mateo county. The contracts have been let from the San Mateo county line to San Jose, and from San Jose north to the Alameda county line. Work is also proceeding from Niles northward to the Oakland city line.

There is a portion of the highway lying between Niles and the Santa Clara county line with regard to which the route has yet to be determined. This depends upon certain conditions to be met by Alameda county. This matter is in process of adjustment.

It was also announced that the principal contractors have been let for the bay route highway from the end of San Pablo avenue in Alameda county through Contra Costa county as far as Martinez.

HIGH SCHOOL PUPILS ENTER HOGS FOR FAIR

SACRAMENTO, Aug. 22.—Expert hog raising is fast becoming part of the work of the high school agricultural clubs throughout California and twelve students from various parts of the state have entered hogs in the contest to be held at the state fair this year in September. The competition has been especially arranged by the directors to encourage the work of raising on the part of the high school students in the country.

Students who have entered hogs for the contest are: Raymond W. Beckman, Lodi; Everett J. Howard, Woodland; George C. Hollingsworth, Woodland; Carroll Huggins, Woodland; Howard H. Huggins, Woodland; Neil Lane, Woodland; H. Long, Woodland; Frank Nissen, Esparto; David Snyder, Madison; Paul Stevens, Madison; Leslie Mason, Madison; R. F. Fraser, Drenth.

All of the Woodland students have entered Berkshire with the exception of Hollingsworth, who will exhibit a Poland-China hog.

MANY REFORMS TO BE SOUGHT BY OFFICIALS

STOCKTON, Aug. 22.—Due to the unprecedented amount of work falling on county clerks in the registration departments as the result of the approaching primaries, proposed changes in the election laws will be discussed when the convention of California County Clerks meet in Sacramento, September 15.

Among the matters that will come up are the simplification of the election laws, fund to obtain aid in emergencies and a more expeditious handling of problems pertaining to elections.

Nearly 3,500,000 names and addresses were examined within thirty days by the fifty-eight county clerks of the State. Twelve initiative measures, with a total of approximately 400,000 names, also were handled. The fifty-nine aspirants for State of 1916 each had an average of 20,000 names on the petition. County Clerk Cook of Alameda is secretary of the association.

POLEMICS LEAD TO AFFRAY

SAN FRANCISCO, Aug. 22.—John and Mary Troy, who live at 152 Lily avenue, disagreed on the merits of a political candidate this morning and mixed things very badly. After both had taken a trip to the Central Emergency Hospital they found themselves locked up in the Buena Vista station and facing serious charges.

SPAIN FINALLY WON OVER TO 1915 PARTICIPATION

E. J. Molera, Fifth Commissioner, Brings Delicate Mission to Successful Culmination

E. J. Molera, fifth commissioner to Spain from the Panama-Pacific Exposition, returned to San Francisco on Monday last, the 10th of August, having brought to successful culmination the object of his visit—the participation of Spain in the exposition of 1915.

This apparently impossible achievement had already been decided adversely four times. Early in the history of the exposition the King of Spain had sent his envoy here for the purpose of investigating conditions. This gentleman, the Marquis de la Vega Inclan, was the guest during his stay in San Francisco of William Crocker, whose apartments he occupied at the Hotel Fairmont and with whom he was magnificently decorated with flowers in honor of the guest's arrival. Marquis Inclan

Francisco, was teted and made much of by society. When the Marquis departed it was generally understood that he favored the participation of his country in the great international exposition of 1915. But months went by, and no word, favorable or otherwise, reached the commissioners in San Francisco. Finally, investigation brought to light the fact that, contrary to expectations, the Marquis had advised the non-participation of Spain. Great was the surprise in the city by the Golden Gate, and greater the speculations among the acquaintances in California who had believed that participation was a foregone conclusion.

Astonishment at the outcome did not dismay the exposition directors. They sent a second emissary to Spain, with no better result. A third went overseas on a similar mission. This gentleman, too, came back with a negative. A fourth envoy, James D. Phelps, undertook then to persuade the Spanish that in every way it would be most desirable were they to exhibit in San Francisco at the exposition. He, too, reported failure.

MOLETA UNDERTAKES IT. "Perhaps," Spaniards speculated, "the managers of the 1915 fair," "would be more successful?" To that end they consulted E. J. Molera of San Francisco, who undertook the then apparently hopeless commission.

Than Mr. Molera no one understood better the delicate mission of obtaining the Spanish co-operation. And he was successful beyond words. As a result, some of the richest treasures of Spain will be shown here during the next year. Her products, natural and manufactured; some of her art treasures, tapestries, ceramics, and, above all, some of the rich art treasures are promised for the exposition. From the Prado will be sent priceless paintings, possibly a Velasquez, a Murillo and others equally wonderful. There will be, also, some of the works of the moderns be seen side by side with those of the old masters.

But Mr. Molera did not set about obtaining the desired end after the fashion of the preceding commissioners. Than he, no one could be better fitted to have undertaken so delicate a mission, combining, as it did, the necessity of a fine perception, knowledge of the national characteristics of the Spanish, an ability to speak the soft Latin tongue, and an equally astute business sense. In the last appointed commissioner all these characteristics were combined. A gentleman, a business man and a scholar, with strong artistic leanings, he accepted the trust reposed in him.

AGAINST PARTICIPATION.

Mr. Molera went straight from San Francisco to Barcelona, chief commercial city of Spain. "I had been ready," said he, quietly, "been in communication with the President of the Chamber of Commerce of that city, and at the time of my arrival there was a meeting of the board of directors. The object of my visit, the directors were of one opinion. They were against participation. 'Please do not mention the exposition,' said they, 'proceeding to give reasons why they should not be among the exhibitors. Nothing daunted, Mr. Molera made a speech to the assembly. His remarks set forth the claims to consideration at the hands of Spain. 'This speech combined,' said Mr. Molera, 'history, romance and business.' He called attention to the fact that California was the most truly Spanish of any of the states in the United States. That here you will find the Spanish color as nowhere else in America. The habits of the Spaniards prevail here, and in California are to be found well preserved monuments of Spanish occupancy and Spanish life. The wonderful missions, the names of rivers, streets and towns, commemorating the names of the old Spanish explorers and settlers! He named some of them—Father Junipero Serra, Father Palou, and some of the titled Don's who obtained their grants here. At the end of Mr. Molera's visit the gentlemen of the Chamber of Commerce were once more of a single voice. But this time they said, 'We'll go to San Francisco!'

From the Chamber of Commerce the President took Mr. Molera to the Chamber of Industry. Here said Mr. Molera, "I told the same story and obtained the same result. Both presidents accompanied me to the Chamber of Commerce. Here the president also promised to do everything in his power to help."

SAW DON FRANCISCO CAMBO. "After that," continued Mr. Molera, "who could not be induced to speak of himself at all except in relation to his mission, and who is one of the quietest mannered men imaginable," I sought an interview with Don Francisco Cambo, the most popular man in Catalonia and one of the first industrialists in all of Spain and a member of Congress. I saw him and he promised to do everything possible in favor of my mission. He would, so he said, go to Madrid with me and personally introduce me to the members of the Cabinet and to the King of Spain."

However, Senor Cambo had to leave the next day for Madrid and afterward for London, to be absent from twelve to fourteen days. He asked me, proceeded, Mr. Molera, to see him on his return and he would make a promise to obtain what I desired. Not wanting to lose time, however, Mr. Molera went himself to Seville, with a letter of introduction to the president of the Chamber of Commerce.

There he met the president of the Chamber of Commerce of Seville, the Marquis de Muro Bueno, who

ing an audience. This was granted. Marquis Bueno was quick to see the mutual advantages afforded by the exposition. 'Seville,' he decided he would not leave Seville, but would take part in the exposition even if Spain did not."

"Seville," explained Mr. Molera, "will have an exposition of her own in 1917. The commissioners in charge of this exposition have offices in the City Hall, adjoining those of the Mayor. These gentlemen were also in favor of taking part in the San Francisco exposition. While in Seville Mr. Molera visited the grounds of their exposition, and there beheld the 'prettiest building I have ever seen.'"

ATTRACTION OF FAIR.

"I told them that if they would put up such a building at San Francisco it would be the attraction of the fair." That night the principal men

LAFIT & TENNOY COMPANY

NEW FALL Suits, Coats and Dresses

Shipments Arriving Daily

Coincident with the arrival of our buyer from her pre-season trip to New York comes the shipments of models showing all the latest innovations and the best and most distinctive features of the new Fall and Winter styles. We are showing full and complete lines.

New Fall Suits

The most approved coats are shown in Plum, Green and Maroon, in Broadcloth, Serge, Gabardine, etc., both plain and fancy tailored. The prices range from \$24.75, \$29.50 up to \$65

New Fall Novelty Suits

A splendid line of exclusive novelties in silk, satin, velvet, silk plush and broadcloth. Perfect workmanship and exquisite tailoring. The prices range from \$65.00, \$75.00 up to \$125

ANGORA SWEATER SETS—In gray, tan and white. Priced \$4.95

CLAY at 14TH and 15TH

ENFORCED HUBBY PREFERS WARFARE

Married by Court's Order, He Would Fight for the Kaiser.

SAN DIEGO, Aug. 22.—Whether Herman Linke is inspired by a patriotic desire to fight for the fatherland, or whether it is because it would be better to go to the front than continue in his present state of enforced matrimony, is unknown to county officials, who yesterday received his application for release from the conditions of an order of probation made in March last year by Judge Sloane. Linke, however, wants to go to the front, and the question of allowing him that permission raises a delicate point of international law. Aside from

PAINLESS PATTERSON THE BEST

preventative against loose and decayed teeth is a dentist who will put them in a healthy condition and keep them that way.

By freeing the gums or by taking oxygenated gas you can have your teeth filled or extracted without the least particle of pain.

MAYORS MAY HOLD CONFERENCE HERE

Correspondence Between Mott
and Mitchell of New York
Leads to Inquiries.

The proposed national conference of municipal executives may be held in Oakland next year as a result of correspondence between Mayor Frank K. Mott of Oakland and Mayor John Purroy Mitchell of New York City. Mayor Mott recently suggested in a letter to Mayor Mitchell that Oakland would be a suitable meeting place, and that Mayor Mitchell is carrying forward the plans is indicated in the following dispatch received today:

NEW YORK, Aug. 22.—Mayor Mitchell today addressed letters to the mayors of all the principal cities in the United States asking their views on the proposal, made recently,

municipal executives be held some time during the Panama-Pacific Exposition at San Francisco next year.

Mayor Mott's letter suggesting the conference be held in Oakland follows:

Honorable John Purroy Mitchell, Mayor of New York City, New York, N. Y.: My dear Mr. Mayor: This letter is addressed to you as the result of word which has been received here containing the matter of calling a nation-wide conference of municipal authorities, to be held during the Panama-Pacific Exposition in San Francisco.

I am taking the liberty of directing your attention to the San Francisco Bay cities as the most desirable place for holding this proposed conference, and to advise you that such a meeting would be especially in view of similar conferences which are now being arranged for 1915, in Oakland and San Francisco.

Of these conferences, the League of California Municipalities, comprising a membership of a large number of the cities and incorporated towns of California, will hold a state conference in Oakland. Along the same lines, only of course on a much broader plan, will be the international municipal congress, at which the attendance of delegates from a large number of American as well as European cities is expected.

You will see from this, I am sure, that a conference of American municipal authorities would be in line with the general plan of civic activities that I have mentioned, and I am sure that this municipal authorities conference would be productive of results to the entire country.

Oakland offers a splendid auditorium, free of cost, which will have all conveniences for both small conferences and large meetings, with a seating capacity of 10,000 upwards. Hotel and other accommodations for delegates and other visitors are ample.

I desire to extend to you the most cordial invitation to be a guest of this city, and through you, to invite the municipal authorities to hold their convention here. Please accept my assurances of high personal regard. Very truly yours,

FRANK K. MOTT.

To Hold Picnic Bnai Brith Event

MISS LUCILLE LIPPMAN.

SAN FRANCISCO, Aug. 22.—The committee of fifty Bnai Brith lodges of San Francisco will hold its fourth annual picnic at East Shore park on Sunday, August 30.

There will be something doing all the time—baseball game in the morning between Oakland and San Francisco lodges, dancing and games in the afternoon.

The entire proceeds of this affair will be contributed to the 1915 fund, which will be used in appropriately entertaining the brethren and delegates of the constitution grand lodge of the Bnai Brith lodges of the world, whose convention will be held in our midst in 1915.

A ladies' committee has been organized to work in conjunction with the picnic committee, and all are putting forth every effort to make this one of the biggest successes of the year. Following is the committee: Miss Rose Silver, Mrs. Hilda Kersky, Mrs. B. Jackson, Miss Esther Solomon, Miss Beadie Friedman, Miss Helen Mauser, Miss Lucille Lippman, Mrs. Milton Meyer, Miss Frances Wasch, Miss E. Israel, Miss S. Pack-

ascher, Miss F. Marks, Miss Julia Silverman, Miss Carrie Cowen, Miss Pauline Ginsburg, Miss Bertha Wolf, Miss Hazel Jonas, Miss Clara Muzi, Miss Leah Musin, Miss Bernice Musin, Miss A. Wolf, Miss Goldie Abramowitz, Miss Daisy Solomon, Miss Panny Phillips, Miss Dorothy Phillips, Miss Rose Cohn, Miss Fanny Koch, Miss Sarah Sabelsky, Miss Kramer, Miss B. Abramowitz, Messrs. L. Napulio, L. Fuchs, E. J. Fletcher, Bert Berger, Ike Wolf, Ike Friedman, L. Weiner, Abe Friedman, Milton Meyer, M. Wirtshafter, W. R. Fleisher, Leo Brown, L. Schwartz, Dave Wolf, Harry Gans, Eddie Zelsler, Henry Zeland, J. T. Pechner (chairman).

PARK BAND OFFERS EUROPEAN SUCCESS

Steindorff Returns From Trip
With Selections for Lake-
side Concerts.

The weekly concert of the Oakland Park Band in Lakeside Park this afternoon, will be featured by the initial rendition of "Our Chief," a lively march composed by the late Otto Kegel, conductor of the band, and dedicated to Henry F. Vogt, manager of the band.

Selections from "Sari" (Der Zigeuner-primas, by Kellman, the latest European success, will also be played in today's concert. This will be the first time Kellman's music will be heard here. The music was purchased by Paul Steindorff, director of the band, during his recent European trip, and is only one of many new compositions he has brought back.

The complete program for today, as announced by Manager Vogt, will be as follows:

March, "Our Chief".....Otto Kegel
(Composed by the solo cornetist of the Oakland Municipal Band and respectfully dedicated to Henry F. Vogt, manager.)

Overture, "Egmont".....Beethoven
Waltz, "Tout Passe".....Doddwell
"The Ride of the Valkyrie".....Wagner
Grand Selection, "Carnegie".....Borton
INTERMISSION.

Overture, "Zanetta".....Auber
(Intermission, "Marie".....Williams
(b) Polka Mazurka, "Maiden".....Kuhner
Selection, "Sari" (Der Zigeuner-primas, by Kellman, the latest European success.)

"A Cavalier Charge".....Lueders
March, "Old Comrades" (by request).....

PROFESSOR ADDRESSES SCHOOL WOMEN'S CLUB

A large number of teachers were present at the regular monthly meeting of the School Women's Club held at Starr King Hall last Saturday. The meeting was presided over by Miss Helen Win-

chester, the vice-president, and was in the nature of a reception to the recently-elected women teachers of the city. The first half hour was taken up by an address by Prof. Alexis F. Lange of the University of California on the subject of the continuation schools in Germany. A discussion followed based upon questions on the part of those present.

A special half hour followed, during which the newly-elected teachers were made acquainted with each other and with other members present while refreshments were served.

Then followed a short business meeting at which the Teachers' Loan Fund Committee reported that the net returns from the concert held in June were \$120.

This fund is to be used to assist teachers who become financially embarrassed through sickness. The committee has made a good beginning and is arranging plans by which to increase the fund.

It was announced that the new office of the club in the city hall would be ready for use early in September.

An educational bureau has been established by the club by means of which teachers of national reputation will be invited to the public from time to time.

It was announced also that the Board of the primary investigation committee will put it in operation as soon as the director of physical culture returns. This plan will relieve some of the difficulties in the large primary classes by providing for a playground teacher to take charge of large groups made up of portions of two or three crowded primary grades. The playground teacher to instruct the large group while the other portions of the same grade are receiving the usual instruction.

Full Speed Now---New Things are Crowding in Fast and Faster 100 New Suits Came Yesterday

The Last Word in
Style and Value

So fine that to make them finer would be "painting the lily." Fabrics are the very pick of the woolen market—many from abroad.

No season has seen so much variety in the styles. Each Suit is distinctive and in the best of taste.

There are Long Coats and shorter ones, gathered basque Coats, loose fitting coats with low placed sashes, much braid and velvet trimming, many new colors. Tete de Negre is among the leaders and there are blues never seen before, greens, browns, dark rich tones of all the staple colors and many black suits. Some very handsome woolen and velvet combinations.

Prices \$22.50 to \$75.00
is the price range of these new arrivals.

We Specialize in Suits at

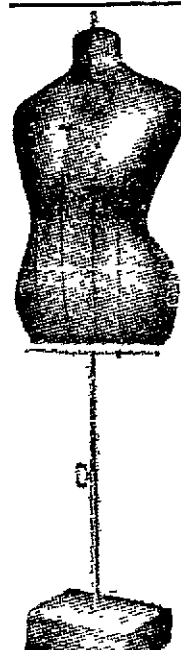

At this favorite price for women with a moderate purse who want a good service suit \$29.50 which is also the latest word in style, we have a wide choice of gabardines, broadcloth, mixtures and tricot cloth. Made in the redingote or plainer tailored styles.

Fall Suits for Misses and Juniors

In charming and fresh array, full of the spirit of the new season. Broadcloth in satiny, beautiful shades, is much in evidence among the materials, but there are plenty of serges, gabardines, mixtures and plaids.

Pleated skirts in several new forms, coats short and long, coat loose with big pockets, the use of braid, striped or panne velvet—all these points give a distinguished and attractive air to the group.

Prices, \$19.75 to \$67.50

August Sale of \$15 PNEUMATIC Dress Forms \$12

A great saving opportunity for home dressmakers.

These splendid Forms can be inflated to any size and will do for both mother and daughters by simply changing the lining.

They are made of air-proof non-elastic cloth, which is protected by a silesia cover, and heavy unbleached muslin lining. Can be pinned to with little danger of puncturing.

The Forms are mounted upon a rod that can be regulated to any height for skirts. When not in use can be folded away in a box.

Dress Goods

of Great Beauty
A choice collection of new things that will play a leading part in the coming Fashion Show. Distinctive patterns and exclusive novelties among them.

Crepe, Poplins, Epingles, \$1.50 yd.
50 inches wide.

Novelty Armures, \$1.00 Yard
42 inches wide.

Chiffon Broadcloth, \$1.50 Yard
Sponged and shrunk.

New Fall Coatings

In newest weaves, including Plaids, Fancy Mixtures, Reversible Coatings, Zibelines, Novelty Bedford Cords, Chinchillas and Boucles. Hand-some patterns and autumn colorings. Width 56 inches.

\$1.50 to \$3.75 Yard

Lovely Silks for Autumn

This Store is headquarters for Silks, and our showing of the newest Fall designs is already large and greatly varied in character.

The beautiful textures and the richness of colorings and finish have never been equaled at any previous season. Just arrived and displayed are

Silk & Wool Poplins, \$1.50, \$2 yd.
Imported Satin Majestic, \$2.00 yd.
Radiant Crepe Taffeta, \$2.00 yd.
Crepe Meteor, \$2.00 to \$3.00 yd.
Roman Stripe Silks, 95c to \$2.50 yd.

Good heavy quality in a large assortment of attractive patterns.

Japanese Matting Rugs, \$3.45
Large 9x12 Rugs in both stencil and jacquard patterns.

H.C. Capwell Co.
THE LACE HOUSE

A Statement Anent War Prices

We hardly consider it necessary to assure our customers that there will be no raise in prices on our present stocks, imported or domestic, which are more complete than at any time in the history of the store.

Those who have been our patrons during a quarter of a century of business and whose patronage is responsible for the present CAPWELLS know us better than to expect that the slightest advantage will be taken of conditions caused by the war.

The tremendous growth of CAPWELLS made necessary a heavy increase in our Fall stocks. Advance orders have already brought, or are bringing these goods to us at normal market prices.

Of course, when present holdings of certain stocks are sold out we may not be able to replenish them at "before war" prices but you may rest assured no advance will be made that may not be justified and necessary by later developments. No establishment in California can meet the conditions better than ours.

Larger and Larger Grows the Showing of New Fall Millinery

Some of the larger shapes coming in remind one of the Gainsborough heads, and their almost inevitable tilted hats. They are very picturesque and their large velvet brims form a perfect setting for a woman's face.

There are brimless hats, too—snug fitting, with a touch of exaggeration about the trimming that gives the hat just the proper "line." The trimmings are quite novel, such as the hackle feather, black and white poppies, metallic and new feather trimmings.

Prices, \$5.95, \$7.95, \$10 to \$22.50

New Linoleums in Our Drapery Department with Special Values

To our stock of Rugs and Mattings we have just added Linoleums, and visitors to this big Third Floor Department will now find extremely choice patterns in best qualities of new fresh stock.

These are some of the splendid values offered:

Printed Linoleum, 50c yd.
In wood inlay and tile effects. Width six feet. The same effects in 12 feet, full room size—65c square yard.

Inlaid Linoleums, 90c yd.
Genuine inlaid quality, long service kinds in attractive patterns. Width 6 feet—90c sq. yard.

More New Blouses

Fashionable striped Silk Blouses, with the new Marie Antonette collars, dressy crepe de chine and chiffon Blouses and smart tailored Waists of linen, pique and linette and combinations of two were among the week's arrivals.

Dress Blouses\$6.50 to \$22.50
Tailored Blouses\$1.75 to \$3.95

CLUB RESEMBLES 'BEHIND SCENES'

Nile Members Are Busy With
Midsummer Revels and
Jinks Rehearsals.

These are busy nights at the Nile Club where rehearsals for the midsummer revels to be held at Brookdale next month are proceeding amidst great enthusiasm. The complete cast of characters for Ben F. Woolner's new play "Sum of the Sands" has been bulletined as follows:

Simri, Ben F. Woolner; High Priest, C. F. Parker; Goroob, Will R. Hill; Khip-die, Gerald D. Beaumont; Deseu, William, Emil Fritsch; Hane, Ben H. Hane; Amsekar, Carl Volker; Chief Guard, John McEwing; Wanda, E. James Finney; Helicia, Robert Lynas; Philline, Frank Woodward; Carl, Edna; Royal Chamberlain, Edward Huxley; First Soldier, Howard Robbins; citizens, singers, court entertainers, etc.

The costumes being designed by Goldstein, while incidental music is being arranged by Edwin Dunbar Crandall. Those who have seen the preliminary rehearsal predict that the play will achieve everything the Nile Club has yet undertaken. The play will be presented Sunday evening, September 6, in the Brookdale grounds of H. C. Capwell who has once in an interview club to make use of the natural wooded stage which is a feature of this beautiful spot. The low jinks which will be on Saturday evening, September 5, have been given over to a committee consisting of Gerald Beaumont, Emil Fritsch, Frank Woodward and Will Hill. This committee is already working hard to spread that their efforts will take the form of a minstrel show. Crandall is directing the singing and chorus work while new talent will care for the comedy and also specialties.

Such renowned fun-makers as C. J. Heesman, Charles Smith, Joe Gharad, and Ben F. Woolner, are being invited into the fun.

"INDUSTRIAL SCHOOLS WOULD HALT UNREST"

PORTLAND, Or., Aug. 22.—Industrial schools will halt unrest among American workmen, John Tait, a local laundry owner, declared before the Federal Industrial Relations Commission today.

"The great trouble today is that many of our people have no understanding when they leave school of how to support themselves," he said. "If we would teach them the use of their hands, the last few years of school instead of giving them the high school branches, the situation would be relieved."

That declared the laundry business has been out recently and as a result his sales are coming on time. The minimum wage increase was met here by raising the price of laundry work, and many persons refused to pay the advanced cost, he said. Japanese laundries, he mentioned incidentally, are increasing activity. Chinese decreasing.

LOS ANGELES, Aug. 22.—What are the most representative animals of the south? "The alligator," said Joseph Wiggins, secretary of the Chamber of Commerce, who has been invited to send a letter to the zoo and aquarium at Washington, D. C., to be placed in the Madison Square Zoo.

Wiggins exhibited that the alligator is the most representative animal of the south.

DAVID CLAIMANT GIVEN SETBACK

Mrs. M. Sproule, Wife of S. P. President, Places Deposition on File.

SAN FRANCISCO, Aug. 22.—The efforts of Julia Baird to obtain a share of the Baird estate by means of a suit against Mrs. Veronica Baird and Mrs. Marie Sproule, wife of President Sproule of the Southern Pacific Company, were given a setback today when Mrs. Sproule made a deposition which was filed in the Superior Court.

The case is to come up on Monday of the money for which they paid

day before Superior Judge Griffiths and Baird is expected to make a fight. Mrs. Sproule, besides making a sworn statement, has filed a receipt and a bill of sale showing that in 1902 the stock at issue was sold to the Baird estate. The sale, it is said, was made in consideration of the liquidating by the estate of a pledge of \$32,000 made by Miles Baird to the Bank of California and the paying to him in cash of \$10,800. Baird charged that when he pledged the stock to the bank, and the bank insisted in redemption, the defend-

the stocks as security and dispose of them, paying him the difference between the amount involved with the bank and the amount received from sale of the stock.

Mrs. Sproule's deposition, together with the minutes of the meetings of the directors of the estate and entered in the books showing that neither Mrs. Sproule or Mrs. Baird had ever received the stocks or any

sold. Details of the situation are as follows:

"That Baird, in 1902, had squandered what money he had, and after pledging the stock to the bank, impounded the directors of the estate, who were then Mrs. Baird, Mrs. Sproule, John Rush Baird, David A. Baird and himself, to purchase the stock.

"That he set his own price, which was payment of his debt to the bank, and \$10,800 cash additional.

"That the estate finally consented to buy the stock, and did buy it, do with the transaction beyond voting against the purchase of the stock."

GRAPES GO EAST.
LODI, Aug. 22.—Although Tokay grapes seem a little green and sour, packing has commenced in most of the packing sheds and within a few days shipments will be in full swing. Most of the consignments are to points west of the Mississippi river.

1 DEATH; 3 HURT IN SAVING CHILD'S LIFE

NEW YORK, Aug. 22.—To save the life of a little boy on a bicycle, one man was killed and three seriously hurt in an automobile that was crumpled like a bit of paper against a heavy electric power pole on Coney Island avenue.

The machine was at the corner of the avenue and Cortez road when John Copeland, one of the party, suddenly leaped to his feet and yelled at the driver:

"Look at the boy. Swing out. For God's sake, swing out."

Kiehl swerved the large Pope-Hartford in the nick of time to avoid killing the little fellow, but the machine skidded and crashed against the electric pole with terrible force. Copeland, being on his feet, was thrown out first and was taken to the Kings County Hospital, where he died an hour later.

suffered fractures of both legs. William Gebhardt, of 182 Seelye street—24 Third Avenue—Baird of 342 Coney Island avenue were severely hurt. They were taken to the Methodist Episcopal Hospital.

Kiehl was not hurt. He is chauffeur for George Guthrie Jr. of Ocean Parkway and Canton place and had the privilege of taking out the car whenever Mr. Guthrie was not using it.

HEAVY OIL SOLD.

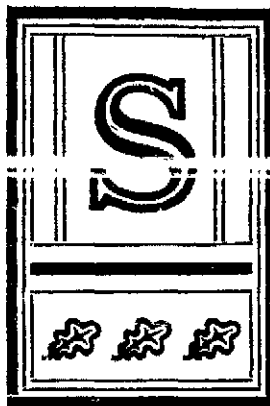

BAKERSFIELD, Aug. 22.—Forty-fourteen gravity oil is being delivered to the Standard Oil Company from the rate of about 40,000 barrels a month. A contract recently drawn up calls for a delivery of 500,000 barrels in twelve months, not ten times this, as has been published.

CANNERY BREAKS RECORD.
SELMA, Aug. 22.—With a daily output of 900 to 10,000 cans of fruit, this season's pack at the Libby, Neill & Libby cannery already equals the entire amount canned last season.

FREDERICKS NOW
—IS—
"ONE BEST BET"

THE KNAVE

INDOOR YACHTERS
—IN—
GREAT OUTDOORS

SAN FRANCISCO, Aug. 22.—Predicting a victory of a 50,000 majority for Congressman Joseph R. Knowland, candidate for the Republican nomination for United States Senator at the primary election on Tuesday over Knowland's opponent, Samuel M. Shortridge, the Knowland headquarters are spending the last few days of the campaign in perfecting organizations in the San Francisco bay region for work at the polls on primary day. This plan is also being followed at Knowland headquarters in other sections of the State. Knowland's backers are confident of a handsome majority south of the Tehachapi, where there is over one-third of the registered Republican vote of the State, and a great deal of time and work has been put in in the eight southern counties.

While Shortridge backers are claiming San Francisco, the Knowland people are equally confident of carrying San Francisco by anywhere from 2000 to 5000, owing to Knowland's support of legislation of particular interest to this city. The east bay region is conceded to Knowland by a vote of at least four to one.

After a most careful canvass of the sentiment throughout California Knowland's supporters are convinced that the quiet work which has featured their campaign will show with big results when the returns come in. These supporters state that they have worked day and night, reaching the individual voters, while such work has been absent from the campaign of their opponent. Wherever Shortridge sentiment has made itself apparent, work has been immediately started and carried on until those making Knowland's campaign were positive the Shortridge lead was more than overcome. While this personal work was being carried on, Congressman Knowland himself has been speaking, meeting leaders and individual voters where the most effective work could be accomplished. The candidate has issued the following statement:

"Having voted for the constitutional amendment providing for the election of United States Senators by a direct vote of the people, I have had no hesitancy in placing my candidacy before the voters of my native State. My campaign and my platform has been based on my seventeen years of public service, of which seven were spent in both branches of the California State Legislature and ten in Congress. I found in the campaign that the argument of ten years' service in one branch of Congress fitted me for work in the other, was a most effective argument as was also that with such experience I could render much better service than a new man. My public record has been a most important factor in winning support of my candidacy.

"For the past two weeks there has been absolutely no doubt in my mind of my success at the primary; it merely being a question of how large the majority would be. With the overwhelming Republican registration in California there can be no doubt of the result in November."

Voyage of the Indoor Yacht Club

Many and varied are the stories that filter back to town about the voyage last week of the Indoor Yacht Club of Tallac. The beautiful resort on the shore of Lake Tahoe was startled into unwonted activity by the descent upon it of some 160 joy-seekers. They went to see and to conquer and that they succeeded in the latter quest may be attested by the fact that they left a vanquished baseball nine and a wilderness of empty bottles behind them. The bar boasted nothing stronger than Napa Soda lemonade when they departed, whereas before their arrival John Tait had stocked it to capacity.

There was only one disagreeable feature of the baseball game, and that was the battered nose of genial Tiv Kreling, sergeant-at-arms of the Board of Supervisors. Tiv might have had a lot of explaining to do at home, too, were it not for the fact that the mix-up in which the injury was received was duly caught by the movie operator, and faithfully reproduced on the canvas when the films were shown Thursday night. He blames the whole thing on Jim Coffroth, but his friends are telling him that he's lucky he fared no worse, by reason of the antics of a wild Indian, who mixed in the scrimmage.

The breaks were going against the yacht club team and the score was something like 12 to 1 in favor of the Tallacs when Coffroth had his happy

look at it. Judge Frank Griffin, the pitcher, had just "fanned," and it seemed lively that Umpire Harry Stafford would call three strikes on Kreling, who was at bat, when Coffroth whispered to the

uniformed constable standing by, telling him to "yank" Tiv from the game in order to make some comedy for the movies. Kreling was not in on the joke and he wanted to fight as soon as the officer laid hold upon him. The two rolled in the dust and the constable's heel came in contact with Tiv's nose. The sergeant-at-arms is supposed to be a fighter and he was ready for more, despite the crimson flow from his nasal organ. Just as bystanders were beginning to interfere, a big brave, who had been playing first base for the home team, and who is also deputy constable, rushed up, seized the bat and went to the aid of his superior officer. The thing was assuming a serious aspect. The Indian was restrained, however, and the camera man having obtained more than enough action, the game proceeded. In the end the visitors won out, although they quit in a body without giving the Tallacs their deserved "last licks."

Politics and Pranks

Sam Berger was master of ceremonies, and whether he did it intentionally or not, he injected a political flavor into the festivities attendant upon the distribution of prizes. Supervisor William McCarthy was to make the awards. Berger introduced him as "our next mayor." The announcement was received in silence. Either the crowd had determined that politics was tabooed or they did not second Berger's nomination. Evidently Sam was not abashed, for he came right back and brought forward Con Deasy as "our next sheriff."

There were few incidents to mar the pleasure of the outing. Everyone seemed bent on having a good time in his own way. Some patronized the bar a bit too freely, and more than one laid in a stock of spirits against the hour when the law says drink dispensaries must close down. Along about 3 a. m. on Saturday morning a party of five young blades who had been playing cards several hours, and who were feeling pretty lively by reason of the repeating filling of their glasses, were joined by a young Englishman who was not a member of the chosen band, being merely a tourist sojourning at the hotel. He had considerable of a cargo aboard and refused to be snubbed into leaving the party, although it was made very plain to him that he was considered a rank outsider. He was still with the crowd when a morning stroll was proposed. It was just about daylight, and rather unevenly they all walked to the boat house. The water looked cool and inviting, and in an unguarded moment one of the men remarked that it might be nice to take a swim. A second later he was struggling in the lake. He had been shoved overboard. When, with a few strokes he reached the landing steps and inquired as to the perpetrator of the practical joke, he was told that it was the Englishman, although that worthy was innocent of the charge. Nothing would do but that the Englishman should be ducked, and before the reign of hilarity was over they were all in the water. As they returned to the hotel dripping wet they decided that their plight was due solely to the activity of the stranger in their midst, and picking him up they threw him into the marble fountain which adorns one of the paths. The man's ankle was broken in the process and he was in a sorry plight.

A few hours later he was ready to make a great hue and cry over the matter until somebody whispered to him that he himself was liable under the law for pushing a man overboard. Thereupon he hired an automobile and moved on to another resort.

Knowland Is Favorite

The great number of friends and supporters whom Congressman Joseph R. Knowland has won by his record for aggressive measures and his achievements for his constituents since first he was elected to public office are working busily in his behalf and are predicting his election by a substantial vote. Attorney James N. Hanley, who served in the California assembly with Knowland some years ago, remarked to a coterie of his friends this week that he did not see how he could be beaten.

"No one has ever met Joe Knowland but has a good word to say for him," he declared. "He is not only a popular man, but he is a man who never makes enemies. I venture to say that there is scarcely a man in this state who has more well-wishers than Knowland. His affiliations with the Elks and the Native Sons and his record in public office have caused him to be widely known and liked, and no one who ever becomes acquainted with him would for a moment be against him."

Although San Francisco is the home town of Sam Shortridge and his supporters are claiming great things for him here to offset Knowland's pluralities in other places, the indications are that

the Congressman will spring a surprise and pull a big vote right under the nose of his "silver tongued" rival. Knowland is favorite in the betting all over the State.

Real Fight at Last

Jack Lindsay, former newspaper man, and now connected with the Board of Education, is making a fight in the Twenty-second District for the job of State Senator. All of Jack's opponents are connected directly or indirectly with the saloon business, so he figures he has a good chance of winning out with any kind of an even break. This is his first venture into politics and he is making it via the Democratic route. Before he married and settled down he used to like to rove a bit at times and there is an amusing episode connected with a little trip he took to Seattle in 1906.

The earthquake and fire had laid waste the home city, and it seemed a good time to obey the proddings of the "wanderlust." Jack decided to take a look at the northwest. Just before he left one of the city officials had given to some of the newspapermen as souvenirs little gold nuggets made from a lot of jewelry melted in the fire and found in the ruins of the old police property clerk's office. Jack didn't hear of the distribution until it was too late. The nuggets were all gone. One of the reporters on the job, however, determined to play a little joke on Lindsay and a lump of metal consisting of melted door knobs was duly presented to him. It was a larger and finer specimen than any of the other nuggets that had been passed out. Jack valued it highly and declared that he would never part with it. But after he reached Seattle he had a run of hard luck, and it became necessary to use the nugget for emergency purposes. Expecting large returns he took it to one of the leading pawnbrokers of the northern metropolis. Jack's eyes glowed with the pride of ownership as he handed over his treasure, which he expected soon to redeem.

"How much can I get on that?" he asked. There was a critical examination, and an acid test was made.

"It is worth about 18 cents a pound, my friend," replied the loan expert.

Lindsay never did quite get over that episode, and he never told the story on himself. He is, however, fond of recalling how he enlisted for service in the Spanish-American war. He was filled with the fever of patriotism, and had visions of a nice trip to the Philippines, and perhaps China and Japan ere his return. He was not quite happy until he got into his soldier's uniform, and then he chafed at the restraint and narrow confines of Camp Merritt in the Richmond district. At last marching orders came. He was in high spirits until Lo and behold, he was transferred with the other members of his company to guard prisoners on Alcatraz, and there he remained until peace was declared.

This political campaign is, therefore, the first real fight Jack has ever been in, and he has a good chance to win, too.

The New Chief Justice

The selection of Matt Sullivan by Governor Johnson as chief justice of the Supreme Court to fill out the unexpired term of the late Judge Beatty was forecasted in The Knave, and was expected by most of those who know the close relations existing between the attorney and the Governor. Sullivan has always been a Democrat, but like John J. Dwyer, president of the State Board of Harbor Commissioners, who has already had his reward, he registered four years ago so as to be able to vote for Johnson at the primary. He has been a staunch Johnson supporter ever since, and the Governor has taken this first opportunity of showing his appreciation and regard for his friend.

Sullivan has the distinction of obtaining the largest judgment ever paid in a damage suit in California. The case was that of Zibble vs. the Southern Pacific Company, and the railroad passed up an opportunity to compromise for a few paltry thousands.

Zibble, who had been driving trotting horses at the Fresno race course, was crossing the tracks of the Southern Pacific, when he was run over by a train and his legs amputated. A jury gave judgment for \$70,000. The case was, of course, taken to the Supreme Court, and when, after years of litigation, the claim had finally to be settled, the railroad paid in cash \$97,342.28.

Looks Like Fredericks

From every direction come assurances that nothing can prevent John D. Fredericks from being the next Governor of California.

Fredericks has managed to gather a tremendous

following among the business and professional men of the community.

The fight for the eight vacancies on the local superior bench has begun to take on the flavor of a vaudeville show. Jim Brennan, assistant district attorney, who is running for a seat on the bench, started it all. He consented to give a monologue at a local theater, and then some of his rivals swooped en masse upon the management anxious to sign contracts for the three-a-day. Brennan says he got his idea from Judge Graham, but that great reconciler and mender of broken hearts denies the charge.

"I never really appeared on the bill at a theater in my life," said the judge, by way of explanation. "I was sitting in a box on one occasion when I was running for office. It was amateur night and the manager seeing me asked if I wouldn't say something. I was afraid they would 'give me the hook' after I gave a little recitation, but they spared me that anyway, although someone did throw some money on the stage. That's the first time anyone ever threw any money away when there was a candidate around to do the spending, I'll wager."

Anyway it is rumored that Brennan telephoned to Judge Graham to ask his advice before he ventured into vaudeville. He may be trying to emulate "Fiddling" Bob Taylor, who, aided by his violin and fighting his own brother, was elected Governor of Tennessee in the nineties.

Judge Deasy of the Police Court and Superior Judge Crothers, who are ambitious for like honors with Brennan, have indicated their willingness to do "stunts" in public, while Judge Sullivan is doing his best to make weight for an acrobatic act which his press agent is trying to book for him.

The Slight That Failed

Corporal D. Herschel Brasfield, who by virtue of recent civil service achievement is to become a sergeant of police on Monday night, is having a quiet laugh in his sleeve at the expense of his superiors. How he turned the tables on them after he was cited to appear before the police commission has been kept under cover pretty carefully, but is worth the telling.

It all revolves around the capture of "Babe" Curtin, notorious robber and ex-convict, who was shot while attempting to hold up a Sixth street saloon two weeks ago in company with John Cone, who has not yet been caught. Both men are out of prison on parole.

Recently the police arrested two other robbers who confessed to doing considerable of the "stick-up" work that was going on. Therefore when Brasfield reported that he had learned that Curtin and Cone had purchased revolvers from a Third street second-hand shop, and suspected that they were perpetrating some of the robberies of saloons, Captain of Detectives Patrick Shea scouted the idea and declined to order them arrested.

Later when Curtin was captured Shea was on his vacation. In some manner, however, Chief White heard that Brasfield had had knowledge of the fact that the two men were acting suspiciously and he had the corporal on the carpet for not reporting it. Acting Captain of Detectives Ryan and several other upper office men had to be pressed into service by Brasfield to bring about a complete vindication, and now the story is going the rounds of the department.

Judge Graham's Joke

Superior Judge Graham is something of a champion as an angler, and most of his vacations are spent where trout streams abound, and where he is assured of getting his fill of the sport. This year he journeyed up to Mendocino County, and had more than an ordinary run of good luck at his favorite pastime.

He was telling a few of his friends at luncheon at the Olympic Club, following his return on Monday, how he had pulled an old joke on a game warden whom he encountered far from the beaten track of travel, getting away with the laurels in fine shape.

"I was walking along a by path with my rod over my shoulder and my bag on my arm," said the judge, "when a stranger suddenly stepped out from behind some shrubbery. 'Have any luck today?' he asked. 'You bet. I've got ninety fish in my bag,' I answered. 'That's forty more than the law allows. Do you know who I am? I'm the game warden of this county.'"

"Whereupon I replied, 'Do you know who I am? I'm the biggest liar in this county.' Then I showed him my catch, which was not as good as it should have been."

THE KNAVE.

CHARLES ADAMS SEEKS OFFICE

Asks Election as County Treasurer on Business Ability.

Charles Adams has been for the past 20 years a resident and taxpayer of Alameda county, having extensive real estate interests. For over five years Mr. Adams, in conjunction with his own interests, has been one of the Electricity Commissioners for the Municipal Electric Light Plant of the city of Alameda. Alameda county's most successful municipal venture, Mr. Adams takes a prominent part in business and fraternal affairs, and his qualifications for the office of Treasurer of Alameda county cannot be questioned. All his life a staunch Republican, Mr. Adams is now asking for election as Treasurer of the county.

The new primary laws require that all candidates for county office be placed on the non-partisan ticket at the primary election, but it should be understood Mr. Adams is the only Republican now in the race for the office of County Treasurer. Mr. Adams' record and ability assures the people of Alameda county a clean, efficient and business-like administration by a man who himself is interested in the welfare and financial conditions of Alameda county. Residence, 1204 Lincoln avenue, Alameda, Cal. 94601.

NEUTRALITY ENFORCED BY PASADENA WOMAN

PASADENA, Aug. 22.—Hanging a small United States flag over the front door of her home as the symbol of the "melting pot of nations," a well-known Pasadena woman has set this as a sign that those entering the portal of her home must leave war-talk and discussion on the outside. She states that to her personal knowledge a number of very heated discussions over the war have taken place in the homes of some of her friends and believing that the United States should be neutral in every sense of the word, she has hung up the national emblem as a warning to those who visit her.

The action in question suggests that the plan be generally adopted and that it might be given variations by having the white flag of peace or some other emblem substituted as a peace reminder.

JUDGE DUNN RETURNS FROM OKLAHOMA TRIP

Judge Jesse Dunn of the Oakland law firm of Dunn, White & Allen, has returned from a trip through Oklahoma, his former home state, during which he lectured in the interest of the Panama-Pacific Exposition, of which he is a commissioner from Oklahoma.

KINGS COUNTY TO EXHIBIT.

HANFORD, Aug. 22.—Kings county live stock breeders are making a good showing as entrants for the State Fair in September. M. Bassett, William Bernstein and Archie Bassett will enter about fifty Poland-China hogs, each showing his own drove.

MURPHEY GAINS SUPPORT IS A POPULAR CANDIDATE

JUDGE JOHN D. MURPHEY, CANDIDATE FOR ASSOCIATE JUSTICE OF THE SUPREME COURT, WHO HAS RETURNED FROM A TOUR OF THE NORTHERN PART OF THE STATE.

Judge John D. Murphey has just returned from a tour of the northern part of the State and reports that his candidacy for Associate Justice of the Supreme Court is receiving the warmest and most enthusiastic support on all sides. Judge Murphey found large numbers of persons who were actively and energetically conducting a vigorous campaign in his behalf in Northern California.

Advice received from Judge Murphey's campaign committee of Los Angeles, show marked and material gains being made in his behalf, and those who are conducting his fight in that locality unhesitatingly predict that he will carry Southern California by a large vote. In the mountain and interior counties, where Judge Murphey is so well known, it is no exaggeration to say that his vote will be unanimous.

Around the bay of San Francisco Judge Murphey is regarded in exactly the same way as if he were a local candidate. Foremost among Judge Murphey's supporters are found members of the Supreme Court of the State, Judges of the various District Courts of Appeal, over 50 Superior Judges from all parts of the State and large numbers of the bar throughout California. Judge Murphey's wide popularity is due in a large measure to his enviable record while sitting as Superior Judge in the Extra Session Department of the Superior Court of a large number of counties of the State.

Grant D. Miller For Coroner

OF ALAMEDA COUNTY

GRANT D. MILLER, Candidate for Coroner

Grant D. Miller Says:

A matron is one of the necessities of the Coroner's Office. He will have one when you elect him.

Mr. Miller has had fifteen years of direct dealing with the office, which has given him a close knowledge of its requirements and needs.

The majority of men holding this office, in this as well as other states, are chosen from the undertaking profession.

He has stood for the best things in the community.

He believes that the same thought, kindness and consideration should be shown in a public office as in a private establishment.

He has proven a matron to be necessary in his private business; he believes her to be equally necessary in that of the public.

He stands for up-to-date equipment and modern methods.

He is fair-minded, humane and just.

PRISONER ASKS PARDON. MERRIMAC, Aug. 22.—J. T. who was sentenced to thirty years in San Quentin for murder in the second degree and was paroled in 1900, has filed a petition signed by more than 100 prominent residents of Butte county, including all the county and city officers, among whom are Superior Judge Gregory and District Attorney Jones.

FREDERICKS FOR GOVERNOR

On Tuesday, in the November Election, and for Four Years Republicans:

If you stand together Tuesday and vote for Captain Fredericks, the strongest man in the race for Governor, you can elect him Chief Executive of this State in November. You can win back prosperity for California, and you can place California on the map again as one of the great Sisterhood of Republican States.

Captain Fredericks is the strongest candidate for Governor. He is coming north on Tuesday with 75,000 Republican votes behind him. In his recent trip through the northern part of the State, his strong forceful personality and his character as a courageous, able and efficient public servant, tested for twelve years as District Attorney of Los Angeles, won for him as many more votes in Northern California.

He is the strongest man—you can't defeat him—you don't want to defeat him. You will be for him after Tuesday—why not vote for him now?

Capt. Fredericks Has This to Say to You:

Hiram Johnson would like to make himself and his administration the main issue in this campaign, but the people by their registration have made him a side issue.

There are 472,000 Republicans registered as against 214,000 Progressives.

Johnson and his appointees have deserted the Republican party which placed them in power. The Republican party has therefore decided to move on without Johnson.

The reason this State has broken all records for Republican enrollment is because the Democratic free trade administration at Washington threatens ruin to California industries.

Sicily floods California's Eastern markets for citrus fruits with lemons and oranges, picked and grown in Sicily.

Cuba and Mexico will put the California beet sugar industry out of business the moment the last cent of tariff is removed.

Japan can sell rice cheaper in California today than the farmers of Butte County can raise it and pay decent wages to their help.

China already floods Pacific Coast markets with the cheapest eggs in the world, because Chinese labor costs but 10 cents a day.

The people of California have turned to the Republican party to save their industries from disaster. The people realize that there is no hope in either the Democratic or so-called Progressive parties.

The Democrats have already demonstrated their incapacity to make their tariff theories live with practical common sense.

The Progressives are without national representation worth mentioning.

That's why Johnson and his administration are a side issue. That's why the voters of the State are turning to the Republican party as a means of self-preservation. A strong Republican State administration and a sound Republican delegation in Congress will save them.

The Progressives have nothing to offer in the way of constructive legislation.

Johnson and his supporters are living in the glory that was yesterday's. They were chosen by the Republican party to enact certain reforms,

such as the initiative, the referendum and the recall, the workmen's compensation, the mother's pension and the public utilities acts. All these have been placed in operation by those who secured office by Republican votes.

The attempt of Johnson to maroon and isolate the State from the great solidarity of Republican states which makes for protection of California industries and for the real progress of both state and nation, has already failed. It only remains to count the Progressives out in November.

The people having rid themselves of one machine, will no longer tolerate machine government, no matter how self-righteous the chief engineer of that machine may boast himself.

A vote for a Progressive Governor is a vote to encourage division and dissension, and strengthen the machine which would destroy the prosperity through which alone prosperity can come to our people, and such a vote will postpone our return to peace and prosperity.

We will never get where we are going unless we start. We are going to return prosperity to California and we must start this year.

CAPTAIN JOHN D. FREDERICKS, REPUBLICAN CANDIDATE FOR GOVERNOR.

RAISE IN PRICES A HORROR OF WAR

Many Products Soaring in a Prohibitory Manner.

One of the "horrors of war" to the non-participant is the raise in prices of almost every article we use in daily life.

Dentistry is the latest profession to be affected.

Rubber, which is the base of many dental plates, is a Brazilian product. It is exported, in a crude state, to England and is then shipped to all parts of the world.

Porcelain, which is used extensively in filling teeth and of which all artificial teeth are made, comes from Germany, Austria and France.

Platinum is a foreign product, being mined in the Ural mountains, Russia. All good artificial teeth, such as are used in Alveolar and

ing pins of platinum.

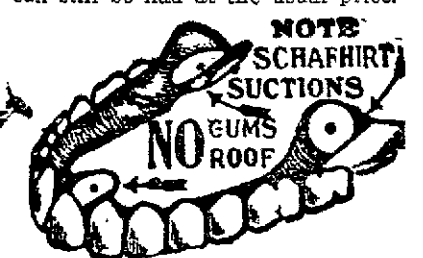

The prices on these things, as well as on gold, mercury, foreign manufactured instruments, etc., have advanced materially in the last few days.

Fortunately I have a large stock of these materials on hand, but I do not know how long they will last. Perhaps in two weeks or two months I will be obliged to buy them at the new prices.

Until this supply gives out, I will continue to make my invention, the Schaffert Roofless Teeth (pictured below), and all other styles of teeth at my usual moderate prices.

I therefore urgently advise all those who are contemplating having new teeth made or other dental work done, to call at my offices, Room 9, second floor of the Macdonough building, 1322 Broadway on the corner of Fourteenth street, at once, for as soon as my supply of materials has been exhausted I shall probably have to advance my prices.

Remember, this set of teeth with nothing over the entire roof of the mouth which I have been telling the people of Oakland about for six years, can still be had at the usual price.

NOTE: SCHAFFERT SUCTIONS NO GUMS NO ROOF
J. B. SCHAFFERT, DENTIST
Macdonough Building,
CORNER 14TH AND BROADWAY.
Entrance, 1322 Broadway.

OAKLAND CURATOR COLLECTS CURIOS

Returns From East With Rare Specimens for Local Museum.

C. P. Wilcomb, curator of the Oakland Public Museum, has returned from the annual conference of the American Association of Museums and collected exhibits for the Oakland Public Museum. During his absence he visited Milwaukee, Chicago, Pittsburg, Harrisburg, Philadelphia, Washington, New York, New Haven, New Bedford, Boston, Albany, Rochester, Salem, Cambridge, Worcester and Los Angeles, inspecting forty-two museums and galleries, and took observations of buildings, exhibition cases, methods of installation and administration, and especially recent advances in museum technique, accumulating considerable material in the form of pictures, blank forms and literature containing information dealing with museum work and especially from the educational point of view.

TO CONVEIN IN OAKLAND.

The museum conventions was held jointly in Milwaukee and Chicago from May 19th to 24th and was attended by representatives from the museums in the United States and Canada. A lively interest was manifested by the delegates over the invitation from Oakland for next year's meeting, and before the close of business the association voted unanimously to meet on the Pacific Coast in 1915. Nearly every delegate wore a California poppy emblem bearing the legend "Oakland, 1915."

Among the antiquities obtained by Wilcomb were furniture, culinary utensils, crockery and other household articles; wearing apparel, spinning and weaving utensils, crude mechanical and farming implements and sundry other objects illustrating early American history. Natural history specimens comprising birds, mammals, reptiles, insects, butterflies, minerals, shells, corals.

Educational exhibits including plaster models, charts, pictures and books.

SEARCH FOR MISSING LAD.

SAN FRANCISCO, Aug. 22.—Nick Turchich, 16 years old, has been missing from his home 733 Union street, since August 6. His mother, who was prostrated by his disappearance, has gradually grown worse as time went on and no word was heard from him, so that his father, an employee of the Park Commission, appealed this morning to the Detective Department to bring every effort to bear to find him. The lad was employed in Golden Gate Park. He left for work in the morning and failed to return. He is 5 feet 7, weighs 150 pounds, and wore a grey suit when he left home.

WOMAN CANVASSES STATE HER CANDIDACY IS ACTIVE

MRS.
HELEN K.
WILLIAMS,
who seeks the
nomination at
primaries for
Lieutenant-
Governor.

Mrs. Helen K. Williams is making an active canvass for Lieutenant-Governor on the Republican ticket. It is stated by her friends that she has made an active canvass in Southern California and expects to receive a large vote south of the Tehachapi.

Mrs. Williams is a resident of San Francisco. Her friends have organized several clubs in that city and

have been active for several weeks in her behalf. She has just completed her canvass of the State and reports that she has every reason to believe that she will qualify at the primary for the important office which she is seeking.

Mrs. Williams declares that she will get a large percentage of the women's votes at the primary on Tuesday.

DEPARTMENTS TO CHANGE QUARTERS

Several Already Moved to the City Hall: Broadway Annex to Be Abandoned.

City departments have already commenced to move into the quarters in the city hall, and by September 1 it is anticipated that the city hall annex in Broadway will have been abandoned. It is planned to open the city hall with formal dedicatory ceremonies September 9.

The street department and the engineering department were moved to the city hall yesterday. Commissioner of Streets Baccus, Superintendent of Streets Perry Brown and their men occupy the eighth floor of the new city hall, while the engineering department has been assigned to the seventh floor. They will be open

ments tomorrow morning.

The Women's Protective Bureau has also been moved to the seventh floor. The bureau was at first housed on the third floor in the offices now assigned to the commissioner of public works.

Members of the various departments have expressed the highest praise for the manner in which Commissioner of Public Works Harry S. Anderson has handled the transfer of departments. "The changes have taken place with the greatest expedition and smoothness, and there has been little or no interruption of public business."

Anderson has apparently foreseen and provided for every difficulty. He has made changes in the assignments, has met each request for more room by effecting rearrangements that would utilize the space to the best possible advantage.

LADY JUDEANS ANNOUNCE FIRST OF OPEN SOCIALS

The first open social of the Ladies' Auxiliary of the Judeans is announced for September 3, and it promises to be an unusually interesting and delightful affair. The auxiliary is a new organization, of many of the young members of the Jewish community, and its purpose is to promote sociability and education among the young people. It was organized with the assistance of the Judeans, Inc., a prominent organization of Oakland, and the headquarters are at the Judean Clubrooms, Fourteenth and Webster streets. The first election of officers was held August 6th, when the following were selected: Pauline Hirsch, vice-president; Esther Strauch, recording secretary; Eva S. Buchman, financial secretary; Hannah Levy, treasurer; Beckie Bakari, lecturer; Gilda Hirsch, guard; Ida Bloch. As the charter of the Ladies' Auxiliary of the Judeans is still open, additional membership is invited.

HIS SUIT CASE STOLEN.

SAN FRANCISCO, Aug. 22.—H. A. Rodgers, of Portland, Oregon, was prevented from leaving on a late train for the north last night by the theft of his suit case containing valuables to the amount of \$241. He left the Stewart Hotel for the ferry and while he was having his trunk checked, someone stole his grip.

Rodgers is a Harvard graduate and very well known in Portland. He delayed his departure until today hoping to get trace of the suit case which contained several highly prized articles.

Ellison Is Popular Asking for Votes

S. F. ELLISON.

"I want to be as well known in the State as I am in my own home." This is the slogan of S. F. Ellison, of Vacaville, candidate for the office of State Treasurer. Ellison is more than sure of an overwhelming majority in his own home city—for he knows that there he is respected, trusted—and even loved.

"That's my aim in the whole state," declared the candidate. "I want the whole state to have the faith in me that Vacaville has—and if I am elected I'll guarantee that the state will have before I'm through the term."

Ellison is registered as a Republican, and is planning an active canvass of the entire state in the interest of his candidacy. He is a Californian and a man long identified with big business operations and with a thorough knowledge of financial conditions. He was born in San Mateo county 41 years ago. He first began his career in Oregon as a telegrapher and later became identified with the Southern Pacific. He was a prominent fraternal man, a Mason, a Knight Templar, a Woodman, a Native Son (Vacaville Parlor) and a member of the Order of Railway Telegraphers. He has been a bank cashier, station agent and financial man generally.

NATIVE SONS TO HOLD SERIES OF CONCERTS

The inmates of the Ladies' Relief Society will be entertained this afternoon at a concert to be given by the band of Piedmont Parlor, Native Sons of the Golden West. The company will give a series of recitals at the various charitable institutions this season. The first will be given today, and a literary program will be held. The speakers will be Kenneth A. Milligan, Miss Bessie J. Wood, Judge Everett J. Brown, Robert Robertson, Harry G. Williams, A. A. Denison and Frank M. Smith.

Miss Matilda Brown, president of the

OAKLAND TRIBUNE EDITORIAL PAGE

FOUNDED BY
William E. Dargie
IN 1875

FIT SUCCESSOR FOR JURIST OF EMINENCE.

In the death of Chief Justice Beatty there has been removed from the Supreme Court of California a man more than merely an able jurist of unquestioned integrity, but a man of extraordinary personality and power, so great that his individuality has become stamped indelibly into the jurisprudence of the land. The people of this State will, at the coming election be called upon to fill the vacancy caused by the previously announced retirement and subsequent death of Chief Justice Beatty. It can well be said that there is no office within the gift of the people of California regarding which they should more carefully and guardedly exercise their elective franchise than in the high and exalted position of Chief Justice of the Supreme Court, generally regarded as the highest honor to be bestowed by the citizens of a State.

Measured in this careful manner there is but one candidate for the position who in reality can be termed a logical successor to the late Chief Justice, and that candidate is Associate Justice Frank M. Angellotti of the Supreme Court. For twelve years Justice Angellotti has been associated on the same bench with the late Chief Justice, and shortly after Judge Beatty announced that he would not seek re-election, he himself indorsed the candidacy of Associate Justice Angellotti, which indorsement has been joined in by his fellow Associate Justices of the Supreme Court, by large numbers of Superior Judges and by a majority of the members of the bar of the State of California.

For twenty-four years Judge Angellotti has been on the bench of California, and his decisions have uniformly been marked by their fairness and honesty, and have been widely quoted, not only in California, but in many other jurisdictions, as precedents showing a thorough and able grasp and knowledge of the law. His term as Associate Justice is about to expire and if he is not elected Chief Justice, his valuable services in the judiciary of the State will be lost. No other candidate for this position has had any Appellate Court experience whatever, and when the choice lies between Justice Angellotti with his experience of years of demonstrated ability on the Supreme Bench and other aspirants who have had no such experience whatever, the duty of the voter is certainly plain for the great position of Chief Justice is not one in which experiments should be tried.

There has been some effort to inject State sectionalism in the campaign for Chief Justice, the claim having been made that interior parts of California are not as well represented on the Supreme Court as they should be. No such plea as this will prevail upon the voters to remove from the judiciary a man with the excellent record of Justice Angellotti. His long career upon the Supreme Bench entitles him to come before the voters not as a candidate from any one section, but rather as the candidate of the people of the State of California to fill a position which his own labors for many years in dealing with the great problems of the entire State, prove him to be entitled to be promoted. Judge Angellotti's candidacy and campaign are entirely non-partisan and voters, irrespective of political parties, have the opportunity of according him their full support.

Born and having lived his entire life in the State of California, Justice Frank M. Angellotti presents to the people of this State in asking to be elected to this high office, a character without blemish, a private life and a public career that have both been above reproach. His election as Chief Justice is a promotion he has fully earned, and will redound to the benefit of the people of the entire State by increasing his field of usefulness.

So far as the Russians are concerned they do not appear to be living up to their title with respect to advances on the east side of Germany.

While we think of it, Kaiu-Chau is pronounced Kee-ow-chow and Tsing-Tau, T'sing-tow.

HONEST OFFICIAL FOR TREASURER OF COUNTY.

Mr. J. Kelly, county treasurer, who is a candidate for re-election, has made a record for honesty and efficiency during his term of office that has commended him to financiers, bankers and citizens generally. The books of Alameda county and its money were never so well cared for as during his incumbency. He has simplified systems, surrounded himself with expert talent, inaugurated new ideas, kept down expenses and as a result of these has proven himself one of the most competent men in California.

Mr. Kelly's supporters are trying to re-elect him at the primary and the prospects are he will be selected by an overwhelming vote.

Why not recruit a battalion of Mexican ex-presidents for the defense of France?

As a result of the war the price of garlic has advanced. Strong reason for suppressing the speculators who trifle with the food supply.

HAVILAND WILL BE SURVEYOR ONCE MORE.

The manner in which County Surveyor P. A. Haviland has conducted the affairs of his office has been such as to commend him to the citizens and taxpayers of Alameda county. His work has been accurate and his methods of a character to attract attention. Carelessness in county surveying is responsible in many cases for litigation, but during the terms he has served there have been no such events.

Mr. Haviland's records are marvels of correctness and are a monument to his fidelity, care and ability. He has one opponent only and will be re-elected at the primary Tuesday without doubt.

Seems to be a hard task "scooping" the military censors across the waters.

As between the claims of the interrogation point and the statements of a cardinal, we are inclined to believe the cardinal.

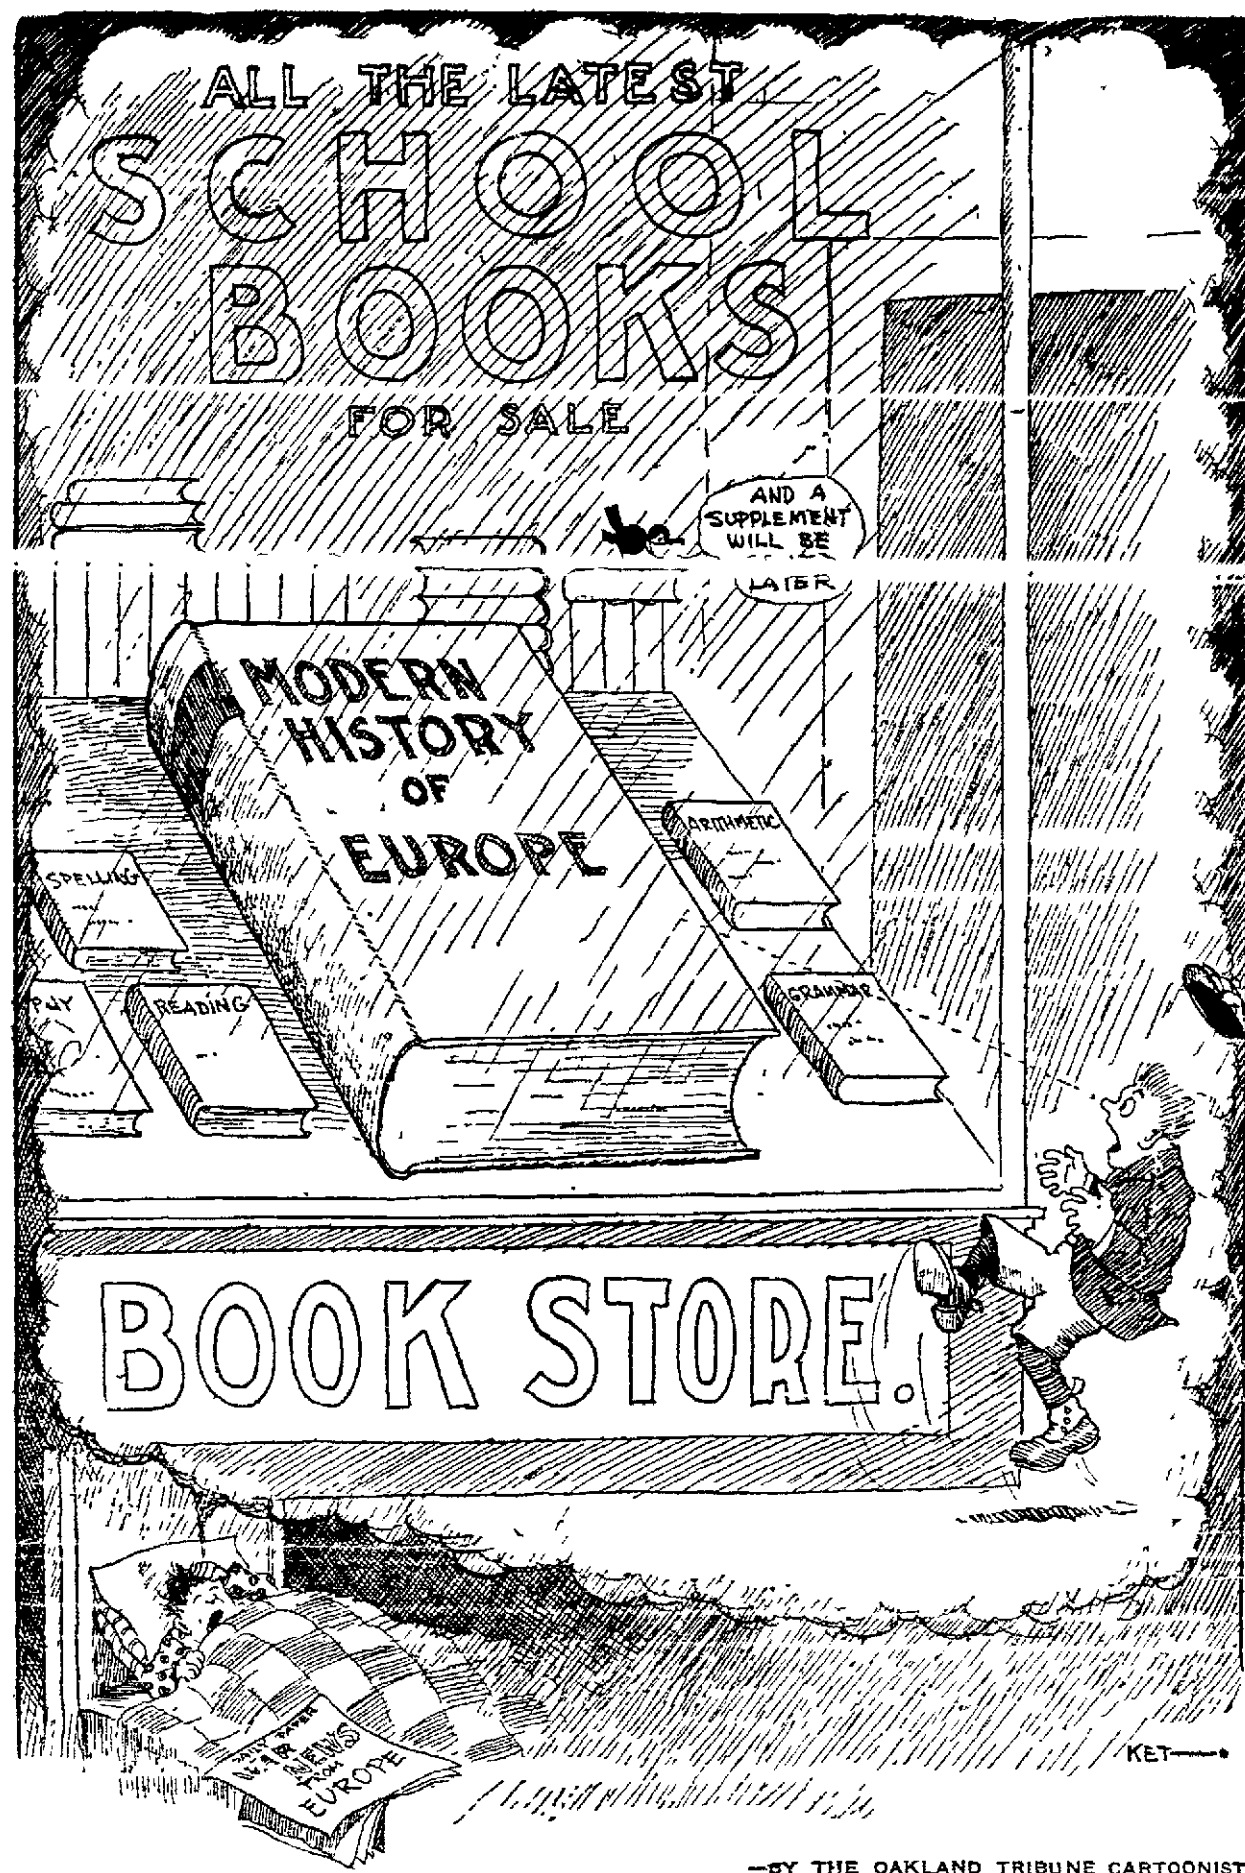

SUPERVISOR KELLEY WILL BE RE-ELECTED.

During the sixteen years he has served as supervisor of this county, J. M. Kelley has made a record for economy and efficiency second to no man who has ever held the place. Mr. Kelley is a business man and knows that the same care and attention are required in public affairs as in private. An effort is being made to re-elect him at the primary Tuesday, and as so many would be a successful one.

The L. W. W. has declared a strike in the Wheatland hop fields, but the pickers are still piling up shekels as a result of working in the harvest.

General Strin commands a German army corps. But he's one of our leaders.

JOHNNIE'S NIGHTMARE

THREE GOOD MEN FOR SUPERIOR COURT.

On the eve of the primary election THE TRIBUNE desires to strongly reiterate what has heretofore appeared in these columns concerning the election of Judges William H. Waste, T. W. Harris and Everett J. Brown as judges of the Superior Court of Alameda county to fill the vacancies caused by the expiration of their respective terms. While there is no doubt whatever regarding the re-election of these judges, due to the excellent record made during years of service in these positions which they desire to retain, still the proper measure of justice will not have been met out to them by the people of this county whose faithful servants they have been, unless their vote is practically unanimous. The office to which they aspire is non-partisan in its character, and no voter can excuse his failure to vote for them by virtue of political reasons.

Judges Waste, Harris and Brown have demonstrated conclusively their inherent fitness upon the bench, and the years of faithful service already rendered by them, round out and add to their qualifications to such a marked degree that opposition to these trained, tried public officials should fade away at its inception. It is absolutely ruinous to the economic welfare of a county, where an official has been occupying a public office requiring special trained knowledge, and has demonstrated his fitness beyond question, to remove him and rob the county of his valuable experience simply because somebody else is a candidate.

Judges Waste and Harris have served Alameda county as judges since 1905, and Judge Brown since 1908. Prior to their elevation to the bench they had served the county in other positions. Judge Waste was for two terms a member of the Assembly of the State Legislature. Judge Harris was for several years Deputy District Attorney, and Judge Brown was District Attorney.

In their earlier public life, as upon the bench, these men were fearless and able and attracted attention by their independence of mind and action. Both in public and private life they have demonstrated their fitness to hold their present honorable positions. The bench of Alameda county is acknowledged everywhere throughout California to be one of the strongest and ablest in the State. Let every voter on Tuesday next show the appreciation that is due these public officials by placing a cross after each one of their names, and thereby make the vote as nearly unanimous as possible.

New York's Sun pokes a little quiet fun at the Pacific Northwest by quoting a speech in Congress by Representative Johnson of Washington, in which he said: "Chief of these (streams) are the Quileene, Dusewallips, Duckabush, Hamahama and Snohomish. To the south flow the Humptulips, Hoquiam, Wishkah, Wynoteechee and the three branches of the Satsop." Well, the east has its little by-play on Indian names also. We recall that east and north of east of Schneetady and Poughkeepsie, the Susquehanna, rising in Otsego, pursues its way toward Chesapeake past Mehoopany, Wyalusing and Wvsaunking; that it flirts with Meshoppen and is augmented by Tunkhannock. We know that from placid Mumbocker comes the crystal waters of Wawajohannippy, or South Branch, and that on the other side the purling tides of Odamiowalla flow into its ample bosom. When it comes to Indian names the decadent east hasn't anything on the peaceful west, nor should it have, for the places where the Seneca sunk his tommyaxe into the skull of the early Knickerbocker and the localities where the unerring arrow of the Pawnee found lodg-

homes of history. There is as much romance in the land where the Cheyenne sang his war song from Stinking Water to Tie Siding as there ever was in Wassahickon, and while the eastern seeker after scalp had a more euphonious language perhaps, the western collector of all sorts of hair was equally energetic.

With so many single ladies already in pursuit, we see no excuse for this proposed law "tagging" bachelors.

Twenty Years Ago Today

Last evening Hugo Abrahamson, junior member of the dry goods firm of Abrahamson Brothers of this city, was wedded to Miss Bertha Jacoby. A fairer and better-mated couple never assumed the marital obligation, and never was more gratification experienced by friends and relatives over the joining of two young hearts than characterized the nuptials of this devoted couple. The ceremony took place in the residence of the parents of the bride. The canopy was supported on four standards, sustained by Abe Jacoby, Samuel Jacoby, brothers of the bride, Leon Magnus, Rudolph Coffee and Miss Rosalie Goslinsky. To the strains of the "Wedding Chorus" from Loengrin the bridal couple entered the parlor in the following order: Miss Cecil Abrahamson as maid of honor, the bride, Miss Bertha Jacoby, resting on the arm of her father, Mrs. Abrahamson, mother of the groom, leaning on the arm of her son, Philip, Mrs. D. Magnus, a sister of the groom, resting on the arm of her brother, Henry Abrahamson of New York. At the wedding banquet toasts were responded to by Dr. Friedlander, Dr. Leo Dr. Nieto, Leon Magnus, Sol Kahn, Henry Abrahamson, Jonas Aursama, and S. Ehrlich.

The new battle-ship Oregon is making a good record in her preliminary trials in the bay and has already attained a speed of eighteen knots.

Senator George C. Perkins has returned to his home after a years absence in Washington, whence he went immediately upon receiving his appointment from Governor Markham as the successor of Senator Stanford. It has been a year of uninterrupted hard work and the Senator has earned nothing, neither war nor responsibility. For nine months of the present session Congress has been dealing with questions of the most vital importance to the country. The Senate was for a large part of the time engrossed with the tariff, in the revision of which California has been deeply interested. Senator Perkins stuck to his post of duty through the long and tedious trial with rare fidelity, keenly intent upon protecting the interest of the state. He is reasonably enough a candidate for election to fill the unexpired term of Senator Stanford, which holds until March, 1917. His candidacy is backed withal by a splendid record.

Schools and Colleges

Manzanita Hall
PALO ALTO, CALIFORNIA.

to the universities. Its location adjacent to Stanford University and to Palo Alto, a town of remarkable culture makes possible a school life of unusual advantages and opportunities. The next term begins August 25, 1914. For catalog and specific information, address: W. A. SHEDD, Head Master.

COMPETENT MAN FOR SUPREME COURT PLACE.

Judge John D. Murphey, non-partisan candidate for Associate Justice of the Supreme Court, a clean, honest, fearless, industrious man, learned in the law, an able, efficient, painstaking judge, embodies every quality essential to the full performance of the duties of the high office to which he aspires. Every elector, irrespective of partisanship, who has the welfare of his State at heart, will cast his vote for this candidate, who has demonstrated his fitness by years of public service.

The support that is being accorded Judge Murphey comes from every section of the State of California, and knows no partisanship. Kindly by nature, a man of education and refinement, and at the same time one who has learned from the hard school of experience what it means for a man to succeed through his own efforts, the support that this candidate is receiving is most truly deserved.

For the last twelve years Judge Murphey in the capacity of Superior Judge has sat in more different counties and tried a greater variety of cases than any other judge in office. His marked ability as a Superior Judge was officially recognized by the Supreme Court of this State, which designated him as one of the judges of the First District Court of Appeals, and during his service in that capacity he conclusively demonstrated his ability as an Appellate Justice. This fact has been well shown by the enthusiastic support that is being given to Judge Murphey's candidacy by several of the judges of the Supreme Court, and by the judges of the Appellate Court in which Judge Murphey sat. Coming from the interior of the State which is entitled to representation on the Supreme Court, Judge Murphey's supporters do not in any sense need to lay claim to his right of election because of geographical reasons, but rather on the bigger and broader lines of his excellent qualifications.

A striking incident in the career of Judge Murphey, proving his wide popularity in the estimation of the people who know him best, is shown in the fact that in Mono county, where Judge Murphey was successively elected County Clerk, District Attorney and Superior Judge for two terms, he never in the days prior to the non-partisan judiciary had a Democratic or other opponent in any of said elections.

A considerable portion of each year for several years last past, has been spent by Judge Murphey in the performance of judicial duties in Alameda county, and his services have met with the hearty approval of our own Superior Judges, the Alameda County Bar and the litigants who have appeared before him. There is no more fitting way in which the voters of this county can show their appreciation to Judge Murphey than by giving him a rousing, overwhelming vote on Tuesday next.

BARNET BEST SHERIFF COUNTY EVER HAD.

Frank Barnett, sheriff of Alameda county, is considered by all who have had dealings with his office to be the best sheriff this county has ever had. He is brave and efficient in the discharge of all duties and his conduct of the jail has been such as to make it a profitable institution, instead of an expense to the taxpayers. Federal prisoners are sent to Alameda county for incarceration and through this means Mr. Barnett has been enabled to make the institution pay in lieu of being a burden.

He will be re-elected at the primary election Tuesday and by a majority overwhelming in its character.

ASSESSOR HORNER RIGHT MAN IN RIGHT PLACE.

County Assessor Horner is the right man in the right place, according to the verdict of thousands of citizens of Alameda county who are engaged in an effort to re-elect him at the primaries Tuesday. His work has been accurate and without discrimination. He has been fair in his valuations and has shown a desire to give justice to the property owner and the county at the same time, and that he has been successful in this effort is manifested by the fact that no complaints have been registered, and the manner in which he has conducted the business of his position has never been questioned.

Short Sermons for Busy Readers

OAKLAND'S RELIGION OF EDUCATION!

Fifty years ago the most imposing building in any town or city was the church or cathedral. Today with few exceptions the noblest buildings in city or town are devoted to public education. A striking evidence of our modern acceptance of the gospel of intelligence, the religion of science, the ever expanding scripture of knowledge. Foremost among cities devoted to the thorough culture of its children and youth Oakland by right of what it has done and is doing, takes leading place.

The stranger, riding hurriedly about our city, would hardly fail to notice with admiration such splendid school buildings as the Emerson, or the new Durant Grammar School, beautiful in appearance and one of the best equipped in the country, with its 24 classrooms and fine assembly hall. Or passing along the College Avenue car line our stranger would find at Forty-second street the coming educational center of Oakland.

EDUCATIONAL INVESTMENTS
Here is located and nearing completion the Oakland Technical High School, one of our citizens know that this is an educational investment of \$7,000,000 for land buildings and equipment that the annual cost of maintaining this mammoth plant will approximate \$100,000, or a million dollars each decade.

And how many of our citizens know that the work which will be accomplished for the youth of the city will justify every dollar of this huge investment. In the eighty rooms and shops of this great building, or if you choose, group of buildings 2000 youth and adults will receive instruction in day and evening classes. Instruction in what? Here, book learning? Not at all. In addition to regular college preparatory courses the Oakland Technical High School offers instruction in eight departments directly preparing the student for his or her life work.

SPIRITUAL TRAINING.
A training school for those who wish to become clerks, merchants and salesmen—or seamstresses, milliners, dressmakers, and housekeepers, or practical tradesmen—as carpenters, plumbers, cabinet-makers, electricians, sheet-metal workers, machinists, etc.

Expert instruction for bookkeepers and stenographers and draftsmen, special training for those who desire to become musicians, or nurses, or teachers in elementary schools, and for those who are undecided as to future occupation and course called "Survey of Vocations" is thoughtfully provided.

Here about seventy-five teachers and lecturers will guide, as I have said, some two thousand of Oakland's young people, including such adults as can be induced to take advantage of golden opportunities along the path of really useful knowledge. Here our boys and girls will be trained for self-supporting, self-respecting manhood and womanhood. Here the newly arrived stranger from over the sea will be taught the privileges and duties of American citizenship. Here the boy who wants to do "something real" will be given that expert knowledge which fits a man for leadership in the industrial world. Education for citizenship: for clean, honorable, successful living—this is the end sought and the end attained in the best schools of today. And among these best schools without question must be numbered the schools of Oakland, with especial mention of Oakland Technical High School soon to move into its palace of education at Forty-second and Broadway.

Thus it appears that the phrase, "Religion of Education" is full of meaning—more, that it points to a new chapter in human history, redemptive of the world of its worst evils—War and Crime.

WAR BENEFITS U. S., SAYS LANE

Vast Mineral Resources of the Nation to Supply American Industries.

WASHINGTON, Aug. 22.—A direct benefit to the United States from the European war will be its effect in making the people of this country realize to a greater extent the value of its mineral resources," said Franklin K. Lane, Secretary of the Interior, in an interview today. "It is entirely possible to so utilize these resources and expand our industries as to become familiar in our own foreign markets."

"Of an importance second only to that of the food supply," said Lane, "is the supply of mineral products necessary to meet the requirements of twentieth century civilization. One of the first effects of the war has been to make us realize the interdependence of nations in the matter of food supply. Most of the foodstuffs which we consume are imported from foreign countries, and we have caused for self-congratulation in the United States that we are able to feed ourselves. What we possibly have not so fully realized is that we are nearly as independent in the possession of essential mineral resources, and that the interference with manufacturing caused by interruption of the flow of importations of many necessary raw materials may be overcome almost wholly by development of neglected resources in our own country."

"Do you mean," Lane was asked, "that the United States can make itself independent of the rest of the world in its manufacturing?"

"Very largely," asserted the secretary. "The main difficulties to be overcome are in the rearrangement of the distribution system to establishing this independence. Business is established along certain well marked channels and usually follows the line of least resistance. It has been easier and perhaps cheaper, to import mineral products and materials from other countries than to go to the trouble and expense of developing our own resources of the same nature. Forced to the latter course by suspension of commerce with other countries, it becomes that American enterprise and energy will almost at once turn to the development of the native resources rather than permit production to lag and supply to be diminished in any industry."

"For the maintenance of agriculture, for instance, we rely upon the use of more largely upon mineral fertilizers. These essential plant foods are potash, nitrogen and phosphorus, the latter used generally in the form of phosphates. We have depended, with the rest of the world, upon the mines of Germany for our supply of potash salts, and war has cut off this supply. But we have large deposits of potash in a California reserve which can be immediately opened and developed if a bill now before Congress to make these supplies available is enacted. Chile holds a practical world monopoly of the most easily available nitrogen in its great nitrate belt, and not only the manufacture of agricultural fertilizers but also of many kinds of high explosives, have been made dependent upon the Chilean supply of nitrates. If this supply should be cut off a new supply would have to be found in manufactures and agriculture would suffer. Fortunately, this new supply is at hand. We can draw nitrogen from the air and fix it with lime by the use of large and cheap electrical developments, as is done at Niagara Falls and in Norway, and all that is necessary is the way to this electrical development is the passage by Congress of the Federal Reclamation bill which will make possible the utilization of the great untapped water powers of the Western States."

DEVELOP NEW INDUSTRIES
"The Southern States have for years largely supplied the world with phosphates but because of the distribution, system a large part of this supply has gone to Europe, and most of the phosphates used in the Western States have been imported across the Pacific. We have some 5,000,000 acres of phosphate lands in the West lying near the smelters from which is produced the sulphuric acid necessary to form these phosphates into form available for plant food, and still there is no law by which these phosphate deposits can be made commercially available, although a bill which would allow of their immediate development has been favorably reported by the House of Representatives and is awaiting the approval of the House and Senate."

"Will these resources be developed if these laws are passed?" the secretary was asked.
"Of course they will," he replied. "You can depend upon American enterprise and ambition to make good when it is given an opportunity. At present these deposits and resources are looked up out of use. To open them to use when the supply from other countries is cut off means to make American industries using these materials independent of the rest of the world, and business men will not neglect the opportunity to make our industries safe from the interruptions of war we are now experiencing."

"What other industries are there now dependent upon the products of other countries which can be made independent?" Lane was asked.

"The steel industry, for one," he replied. "Manganese is of large importance to the industry and the largest supply of ore comes from Russia and other countries with which commerce is now paralyzed. There are large deposits in South America which have not been developed, but it is not necessary to go so far away as that. We have great stores of manganese in this country which has been largely untouched because it is somewhat inferior in quality. To bring this home supply into use means merely adoption of methods for its purification, which are known and can be successfully used, and then we can continue making manganese steel without regard to foreign war or sources of material. There are other international contributions, though, in the steel industry. We have depended largely upon the island of Ceylon for the graphite used in the manufacture of the crucibles in which crucible steel is made, and small furnaces is made. Or to take in part Chinese and Mexican ores, have in late years furnished much of the world's supply of antimony, which is used in the manufacture of type metal, and also medicinal purposes. The production of antimony in England (Newcastle), and prices have gone up. Antimony, however, is easily obtained from low grade ores and in great quantities in at least a few States, and there is no reason why

The Store That Undersells

HALE'S OAKLAND STORE

Washington at Eleventh

Values for a Memorable Monday at Hale's

Note the Big Savings on Needed Goods: Then Shop at the Store That Undersells!

25c Embroideries, Yard 10c

Gym Suits all-wool alpaca. Prices cut to 1/3 Off.

CONCORD NEWS OF TWO AMEDAS

LIBRARY BOACH, DISTRICT'S PLEA

Fruitvale Clubs to Wage Vigorous Campaign for Building.

FRUITVALE, Aug. 22.—The residents of Fruitvale are working to have the new \$35,000 Carnegie branch city library situated in this community. The Fruitvale Board of Trade, at a meeting last night, endorsed a resolution asking the library trustees to accept a free site for the library at Twenty-ninth avenue and East Fourteenth street, which has been pointed out, is in a central location for a large and populous section of East Oakland.

Two Carnegie libraries will be built east of Lake Merritt, and the residents here are confident of securing one of the institutions. The Fruitvale Women's Improvement Club has instituted and maintained a public library in the Diamond district, paying for the upkeep by means of benefit affairs. The city council gave the club and the residents of Diamond an assurance that a permanent branch library would be established in Diamond.

An effort is being made by the board of trade to have the road surface between the street car lines on East Fourteenth street improved when the grading of the rest of this thoroughfare in Oakland is in progress. The street car company has asked for the upkeep of this work, but the commercial body has requested that there be no delay. Progress in the asphalt paving of Fruitvale avenue from East Fourteenth street to Pacific depot was discussed at last night's meeting.

COUNTRY CLUB HOME OPENED FOR MEMBERS

CENTREVILLE, Aug. 22.—The new home of the Country Club of Washington township was formally opened this week, when the members of the club tendered a reception to their many friends throughout the township.

The clubhouse, which is most complete in its appointments, was tastefully decorated in white and green, the colors of the club, and the ladies welcomed their guests in a charming manner.

Mrs. J. C. Hume, of the building committee, formally presented Mrs. Hume, who is acting president during the absence of Mrs. Hudson.

SAN LEANDRO NOTES

SAN LEANDRO, Aug. 22.—Miss Bonnie Johnson, formerly of this city, was hostess at an informal gathering Friday evening, at the residence of her aunt, Mrs. G. G. Peart, on Crocker avenue. Among the guests were: Misses Grace and Agnes Harding, Louise Delamater, Abbie Redell and Edith Jones of San Leandro, Ruth and Lorraine Johnson of Woodland and Leatrice of Oakland, and Messrs. Raymond and Fred Jones, Charles Deitz, Clifford Clevenger, Maurice Nelson and Andrew Jones of San Leandro, and Mr. D. M. Peart of Oakland were present.

Mrs. Mary Isabel Mattos died at her home on Castro street Thursday morning, after a short illness. She was a native of Portugal and was 65 years of age at the time of her death.

Miss Lucille Constant of Fresno, who has been enjoying several weeks here at the home of Miss Edna Haggard of Joquima avenue, left Friday for Los Angeles.

Mr. and Mrs. H. Sharp and daughter, Miss Mildred of Pacific Grove, are the guests here of Mr. Stephen C. Thomas and wife of Joquima avenue.

Mr. and Mrs. J. H. Haggard of Sutter county are here for a short visit with their daughter, Mrs. Haggard of Ward street.

Mrs. T. S. Haggard is gradually recovering from the effects of a injury to her lips sustained by her last December.

Mrs. M. J. Goss, formerly residing in San Leandro, were here last week visiting on acquaintances.

Mr. and Mrs. H. Haggard of Sutter county are here for a short visit with their daughter, Mrs. Haggard of Ward street.

EXPECT NEW POSTMASTER ANDRADE WILL BE NAMED

C. Q. RIDEOUT (LEFT), RETIRING POSTMASTER OF SAN LEANDRO, AND M. J. ANDRADE.

SAN LEANDRO, Aug. 22.—Ratification of the appointment of M. J. Andrade as postmaster of this city is awaited from Washington, D. C. Andrade was recommended to both the House and the Senate for the appointment.

Three men were named as candidates for the office of postmaster under the Democratic government over six months ago, M. J. Andrade, P. C. DuBois and W. R. Locke. Opposition was raised against all three men and on this account the appointment was withheld all this time.

The only man who wasn't worrying about the delay was Postmaster C. Q. Rideout.

LIVERMORE NOTES

LIVERMORE, Aug. 22.—Mrs. A. St. Clair and two daughters returned Tuesday evening from a week's visit to the home of Mr. and Mrs. A. W. Rice and family of Berkeley spent the week-end with relatives in Oakland.

Mr. and Mrs. Emmet Moran spent Saturday and Sunday in Berkeley.

Mr. and Mrs. J. H. Haggard of Sutter county are here for a short visit with their daughter, Mrs. Haggard of Ward street.

Mrs. T. S. Haggard is gradually recovering from the effects of a injury to her lips sustained by her last December.

PADSHAHNERS OLD ELABORATE AFFAIR

Interesting Entertainment Is Furnished by Members of Catholic Society.

RICHMOND, Aug. 22.—An interesting entertainment was held last evening by the members of the Catholic Society of the parish on the west side. The affair was held in the opera house on the west side and was attended by every candidate for office in addition to some five hundred persons.

The curtain arose on the amateur talent precisely at 8 o'clock and the program was as follows:

Messrs. J. A. McIver and Harold Key. Mrs. Irene Hannan and Alton Matthews. Scotch, Irish, English songs and dances. Miss Carolea Stanley. Solo. Enthusiastic. Miss Frances McCon. Impersonator of languages. Miss Jewell Dinnian. Song. Accompanied by Miss Eunice Dinnian. Carter and Black (Day and Night). Talking and Songologists. Accompanied by "The President's Gift". Company L. L. C. of S. F.

RICHMOND IS AGOG FOR BIG POLITICAL BATTLE

RICHMOND, Aug. 22.—Candidates swarmed upon the streets today, numerous processions were held and Richmond was lively as a result of the enthusiasm which has suddenly become rampant over the political battle to be fought out at the primaries next Tuesday.

The sheriff's race will be decided at the polls by two candidates, R. V. Year and James P. Arnold. The corner race will narrow down to two and only four of the seven candidates for Superior Judge will be left. There is to be a runoff election in the case of the court will be established in Richmond the first of the year.

In the Assembly fight a warm battle is looked for. W. R. Sharkey, of Martinez, and James P. Arnold, of Port Costa. Doctor Homer Woodruff and Clare D. Horner of this city. Lucy and Sharkey are making a warm fight for the Republican nomination.

The District Attorney race is another one which will not be settled until the vote of Tuesday. A. S. Armsby and A. J. Voto, of Martinez, and Thomas L. Johnston, of Port Costa, are the candidates. There are strong candidates the battle will be lively to the end.

Doctor C. L. Abbott, incumbent, Bert Curry and J. G. Clark are going great guns after the post office. The fight will be a tight one and will also be in doubt to the finish.

There are seven offices in the county where the candidates have no opposition. They are county clerk, county auditor, superintendent of schools, county recorder, county treasurer, county assessor and county tax collector.

PHILADELPHIA WILL BE STATIONED AT ISLAND

MARE ISLAND, Aug. 22.—Mare Island is to get the disciplinary barracks ship Philadelphia, from the Boston Navy Yard and the man-of-war will arrive at the local naval station in the near future, according to advices received today from Washington.

CONCORD TO MASS ON BENCHERS

Mr. Soares Declares His Intention to Capture Richmond's Baseball Goat.

CONCORD, Aug. 22.—Concord is going down to Richmond tomorrow in state with the Concord baseball team on a special train and with band accompaniment. There is to be no fooling about it on this occasion. Mr. Soares declares he is determined to get an eagle for the Concord park. He has strengthened up his team a bit and figures that the final score in the contest he will have about all there is of the Richmond roar to the back with him.

science that has enabled Richmond to pull ahead recently and he is confident that the Concord team will go on a diamond does not last long.

But anyhow it is all to Richmond on Sunday for the Concord fans in a special train. Concord will leave Richmond at 6 p. m.

YOUNG ELOPERS MAY BE FORGIVEN BY PARENTS

RICHMOND, Aug. 22.—Consternation reigned in the family of Charles A. Schwartz, merchant, residing at 631 Taylor street, when he learned that his daughter, Miss Ada Schwartz, had eloped with Miss Ada Reed, a nurse. The two obtained a marriage license in Oakland and were married in the city.

Miss Schwartz is a graduate of the local high school and one of the best known girls of the city. She is a very extensive acquaintance in Richmond. The two met about three years ago, and after a short friendship became engaged.

MISS EVA SANFORD TO WED OAKLAND OPERATOR

RICHMOND, Aug. 22.—An interesting announcement was made today by Mr. and Mrs. W. H. Sanford to the effect that the wedding of their daughter, Miss Eva Sanford, will take place in the early part of September. The groom will be Charles E. Holmes, who is connected with the Western Union telegraph company.

WORK IS STARTED ON STATE ROAD

Way; Workmen Upon Scene.

HAYWARD, Aug. 22.—The improvement of another section of the state highway, starting from near the Valle Vista school, and continuing through the town of Valle Vista, will be commenced next week. The Niles road for a long stretch outside of Hayward is already laid up and gangs of roadmen are busy transforming that section into a first-class road.

The state highway commission will do the work by day's labor and the work will be rushed with all possible speed. The work will start at the end of the contract and will continue through the town of Valle Vista, and the Alameda county line below Warm Springs.

C. C. Cottrell, who has just finished a large piece of work the state highway commission had to take over from another contracting firm, that became involved and could not finish the work, at Santa Rosa, arrived here Sunday and will have charge of the new work. Mr. Cottrell has taken up his headquarters at Decoto. He is rated as a great hustler and intends to put on about 800 men to begin with. The road will be eighteen miles long, with a minimum of 100 feet of width.

Cottrell is an Iowa man and a friend of the state highway commission. He has made a record in road work since coming here to the state—setting a new record for mixing and pouring concrete on the Santa Rosa road. The work will be rushed so as to get as far as possible before the wet weather sets in. Niles is not being incorporated into the road but will be a fine paved thoroughfare for nothing.

The building of this piece of road will be a great help to the state, as for the past two seasons it has been in an awful shape.

HIGH SCHOOL STUDENTS WILL ACT AS HOSTS

HAYWARD, Aug. 22.—Something new in the way of entertainment has been arranged by the senior class of the high school for its initial social affair in the new term, which will be given in the high school auditorium Friday evening, August 23. Miss Clara Alexander, San Francisco, who has a fine social reputation in England as an entertainer, will be the principal attraction at the school affair. She has arranged a series of entertainments of negro folklore, melodies and love-poems. Her interpretations of darky life, its humor and pathos, are of a high order. The program includes a wide range of social matter, and is quite out of the ordinary.

PREPARATIONS MADE FOR COMING ELECTION

HAYWARD, Aug. 22.—Preparations are being made here for the primary election Tuesday. The banks will be closed, with the exception of saloons, will stay open, as usual. The postoffice will also be open all day.

Preparations in Hayward and vicinity are as follows: Hayward, 3 precincts; San Lorenzo, 3; Mount Diablo, 3; Contra Costa, 3; Alameda, 3; Valle Vista, 1.

DANVILLE NOTES

DANVILLE, Aug. 22.—Mrs. M. B. Matheson and daughter, Mrs. Cora Townsend, motored from Berkeley Sunday to the Matheson farm in Sycamore.

Ward Hall visited Sunday at the Hall home near Alamo.

The newly elected officers of the San Ramon Valley high school student body are: President, V. O. Vio; vice-president, Lloyd Abbott; secretary, Marie Conley; treasurer, Edith Adams.

Miss G. Crocker has accepted a position in the school at Willow. She will leave for her new home on Monday.

The St. James Sunday school picnic was a great success. Through the kindness of Mrs. Gallegos they were allowed to use the private grounds.

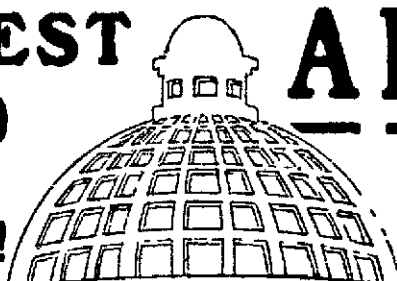

The next of the barrels will take place at J. A. Bunting's, Saturday, the 29th.

Rev. M. C. Gullis has been appointed assistant pastor at the Catholic church, Contra Costa No. 6, S. P. S. I. will give a picnic at the town hall on Saturday, September 10.

Miss A. S. Francis of San Francisco has been visiting in town the past week. Miss Gertrude Moore of San Francisco was a visitor at the Moore home on Sunday.

Berkeley is spending a few weeks at Lake Tahoe.

PUBLIC AUCTION
\$150,000
Salvage Stock
Dry Goods and
Asst'd Mdse.

We Will Sell on
WEDNESDAY
Aug. 19, 1914

Under Instruction From
Johnson & Higgins
Auctioneers.

For the accounts of which it may concern, absolutely the largest stock of goods ever sold under the hammer at one auction sale. This salvage is the result of the contents of one ship which was attacked by fire while docked at this port. It consists of stock consigned to Pacific Coast Jobbers and is one of the largest lots of salvaged merchandise ever brought into a port. The most of the goods are in A1 condition and this will be an exceptional opportunity for department stores, bargain houses and clothing stores, as well as speculators, to secure high class staples at cut prices. We will in particular mention:

- 2,100 dozen Working Shirts.
- 1,500 dozen Flannel Shirts.
- 900 dozen Woolen Underwear.
- 900 dozen Flannel Night Shirts.
- 700 dozen Flannel Pajamas.
- 20,000 doz. Handkerchiefs, all kinds.
- 1,100 dozen Cotton Union Suits.
- 600 Comforters.
- 10,000 yards Colored Buzis.
- 6,000 Sweaters, men's, women's and children's.
- 35,000 yards Cheese Cloth.
- 1,000 men's Overcoats.
- 10,000 dozen Assorted Hosiery.
- 2,000 dozen Sanitary Fleece Underwear.
- 2,000 dozen Ribbed Underwear.
- 4,500 Assorted Embellish.
- 1,100 dozen men's and boys' Caps.
- 200 dozen B. V. D. Underwear.

Also a large quantity of infants' and children's Bath Robes, Shoe Face, Absorbent Cotton, Turkish Towels, Sheets and Ralston's children's Cashmere Hosiery, Ladies' Handkerchiefs, Suspender, Duck, Canvas, Drillings, Linings, Kaki Cloth, Gauze, Silk Hosiery, Aprons, Bandages, Infants' Sweaters, Pillow Slips, Crib, Working Gloves, Cotton Blankets, Flannel, men's, Bathing Underwear, Ladies' Chemises, Cotton Goggles, Teen Shirts, Bath Robes.

SALVAGE SALE

Beginning Tomorrow Morning at 9 O'Clock

Our buyers were fortunate in obtaining the CHOICEST goods from the cargo of the S. S. Kentuckian. This merchandise was consigned to Pacific Coast jobbers for their fall and winter trade. The most of the goods are in A1 condition and are priced remarkably low. See our Stupendous Window Display.

The women of Alameda county and the surrounding territory have never been offered an opportunity as worthy as the sale of this Salvaged Merchandise. The prices we quote below look impossible, but we place the name of KAHN'S behind every item advertised as a guarantee of honesty in every word.

Women's Silk Hose, Pair . . 39c

One case of these Silk Hose is in absolutely perfect condition. All the new late shades in an excellent 50c and 75c SILK HOSE with deep lisle top and reinforced heels and toes. Be on hand early Monday Your choice for 39c pair.

Children's Ruff Neck Sweaters 79c

These Sweaters are worth easily \$2.50 retail, and they are practically perfect. Guaranteed all wool of extra quality. Ruff Neck models with roll collar and white buttons. The most wanted fall color. Red only. All sizes. Sale price, 79c

Choice Rag Rugs 59c for 79c and . . 59c

These fine Rag Rugs are almost perfect in every instance. There is an excellent variety of patterns. Those worth \$1.25 will sell for 59c, and a larger size rug worth \$1.50 and \$1.75 will sell for 79c. An opportunity of a life time.

Men's Tennis Flannel Nightgowns . . 58c

These Night Gowns are made of genuine Amoskeag high quality Tennis Flannels, cut full and neatly trimmed. The kind you always pay \$1.00 and \$1.25 for. Most of these are in perfect condition; a few slightly soiled by water only.

Women's Umbrellas for . . 49c

Covered with American Taffeta and Helvetia 8 ribs—steel rod—baked, abraded handle. Worth \$1.50 to \$2.50. All slightly damaged by water only.

NO. 3

Wawona Road to Yosemite Valley Mapped

AUTOMOBILE ROAD MAP TO THE YOSEMITE VALLEY OVER THE WAWONA ROAD, WHICH HAS JUST OPENED TO THE PUBLIC THIS WEEK. THIS MAP WAS COMPILED FROM THE DATA SECURED BY THE TRIBUNE REPRESENTATIVE, WHO MADE THE TRIP IN A BUICK CAR DRIVEN BY G. H. McCUTCHEON OF THE HOWARD AUTOMOBILE COMPANY. THIS TRIBUNE-BUICK CAR WAS THE FIRST MOTOR VEHICLE OF ANY KIND TO GO OUT OVER THE WAWONA ROAD.

BUICK SIX ON WAWONA ROAD.

YOSEMITE TRIP VIA WAWONA ROUTE

New Road to Valley Is
Mapped for Oakland
Motorists

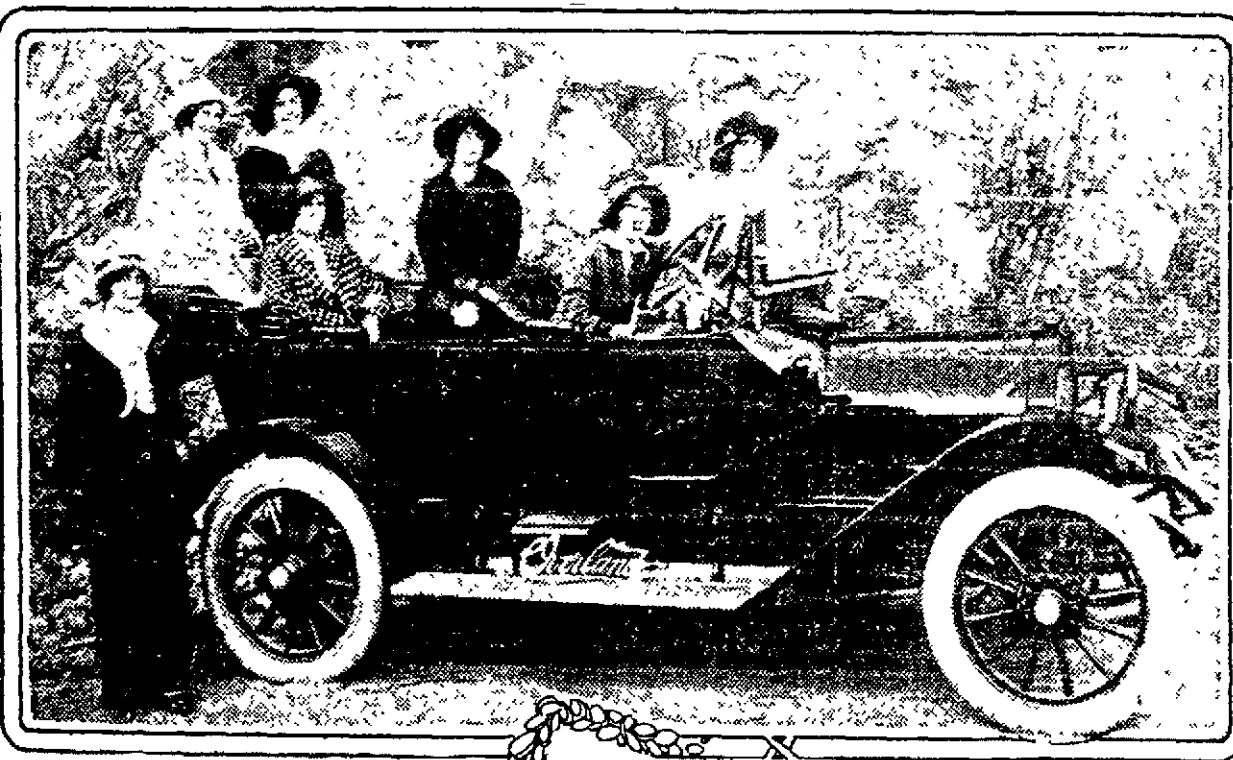

(By EDMUND CRINNON.)
The Automobile Department of THE TRIBUNE takes pleasure in presenting to the motoring public today the first and only automobile road map ever published showing the Wawona route to the Yosemite Valley.
This road which has for years been closed to motor cars was thrown open to the motorists this month through the assistance of General Superintendent of National Parks Mark Daniels, who, in accordance with his policy of making the park more accessible for all of the people, has granted the motorists concessions wherever possible, and will continue to loosen up on the restrictions as much as safety to all will allow.
Realizing that the Wawona road was soon to be opened to the automobile, THE TRIBUNE arranged to send its representative over this road and secure the data necessary for the accompanying map.
THE TRIBUNE map-making car—a Buick Six driven by G. H. McCUTCHEON of the Howard Automobile Company—succeeded in making this trip easily, going in via way of the Big Oak Flat and coming out of the valley over the Wawona road. This car has the distinction of being the first automobile to ever leave the valley over the Wawona route, according to the officials in charge of the park who stated that while two or three machines have in times past on off-road, none was ever known to make the grades out of the park until

the Buick Six proved to the officials that it could be done with a motor car. Since that time the road between the floor of the valley and Chinquapin has been improved to a considerable extent.
The Wawona road, while longer than the Coulterville and Big Oak Flat, especially for those making the trip from the bay cities, will still be a very attractive way. The roadbed is about on a par with the other two routes. The grades pretty much the same. It has, however, one drawback, and that is the fact that all horse-drawn stages operating over this road have a five-foot-one tread, which makes a track much too wide for the wheels of a motor car to follow. The scenery on the Wawona is worth the while, and many desirable camping spots can be found all along this road. In this respect it is similar to the Big Oak Flat road between Gentrys and Crane Flat.
The map published herewith has marked on it all of the mileages necessary for one to follow in making the trip. For that reason we will not publish a log in connection. After a drive over the Wawona road most from the floor of the valley to the park boundary lines one gets some idea as to the magnitude of this domain of Uncle Sam's. While THE TRIBUNE map-making crew drove out over the road snow was still on the ground in many places near the road. One place in particular the snow was so close that the car was turned off the road and driven into it for the sake of a photo, and while all the crew had discarded coats on account of the day being extremely warm, they still had the pleasure of a snowball fight—a decided novelty in mid-summer.
Like all routes to the Yosemite, the Wawona road has grades that beginners have no business on. Good brakes, a husky motor and a clear head are three very necessary features when making this trip. Check over the three when you start and make sure they are all working. Also give this "Safety First" idea some thought. Accidents would be few if all would keep that slogan in mind at all times.
Before the season closes it is asserted, unofficially though, that the Big Oak Flat road will be opened from Crane's Flat to the floor of the valley, doing away with the present necessity of connecting with the Coulterville road near Hazel Green. When this is done the Big Oak Flat will be a winner for the motor travel out of Oakland. Even at the present time it is favored by the majority over the other roads. The Big Oak Flat road is now made by motorists as mapped by THE TRIBUNE in the Outing Section, Sunday morning, July 12. When the Gin Flat cut-off section is opened to motorists THE TRIBUNE will have it mapped also.

FAST AUTO TRIP.

"One of the most remarkable automobile runs ever made between San Francisco and Los Angeles was made this week. Driving his '30' Simplex with full roadster equipment, E. T. Stimson, an oil operator, made the distance in a little more than fifteen hours 'out-and-back' time," says Bert Latham of the Simplex and Mercer Pacific coast agency.

BEAUTIES ALL. THE NEW 1915 OVERLAND MAKES A HIT WITH THE GINGER GIRLS FROM THE COLUMBIA.

CADILLAC OWNER ENDS LONG TOUR

Six Thousand Miles Without a
Puncture: Season's
Record.

Six thousand miles without a puncture is the unusual performance of a 1914 Cadillac car driven by J. B. Anderson from Los Angeles to Kansas City by way of Denver and back by way of Reno and San Francisco.

Anderson passed through last week on his way home and reports a wonderful trip, having no trouble to make his pleasure. He was accompanied by his wife and two children. The trip over was by

way of Needles, Williams, Albuquerque and up through Colorado to Denver, where a stop of several days was made. The Cadillac went from Los Angeles to Denver on seven and half gallons of lubricating oil. On the entire trip it averaged thirteen miles to a gallon of gasoline.
"Much road work is being done on the route," said Anderson, "and the 1915 travelers will find improved highways, but not what they will be in a few years. I found the greatest enthusiasm in Arizona and New Mexico, and I believe there will be a boulevard from one end of the state to the other within two years. Along the route back I found the garage keepers very poorly informed regarding road conditions. I would enter a garage and inquire about the roads, only to find that the information I would receive was

several bridges before we could get by. "We passed many Cadillacs on the way, and I can truthfully say that, while we saw many other cars in serious trouble, not one Cadillac was tied up. They were all going ahead and the owners were cheerful."
"It is this always going ahead that through the middle west I found the people interested in the transcontinental highway, and I believe travel will be very heavy to San Francisco during the next two years."
WILL SURVEY COUNTY.
SAN DIEGO, Aug. 22.—A letter from District Engineer H. D. McGlashan of the United States geological survey to the Hydraulic Engineer Whitner of the water department stated that a party of engineers and the corps will begin a geological survey of San Diego county about September 1. The data which this survey will furnish will be of much benefit to the water department in gaining information on water sources in the county.

MOTOR CAR PLAYS IMPORTANT ROLES

Nation's Chiefs Utilize Modern
Methods of Transportation.

Our national capital is certainly a busy place in these days of European turmoil. Although Uncle Sam is keeping bravely out of the mix-up, it is necessary that our country's executive be constantly on the alert to protect the nation's commercial and diplomatic interests.
Much of the burden of the country's affairs have fallen on the shoulders of Vice-President Marshall, especially since the President's recent bereavement. One of the familiar sights on the boulevards of Washington is the big car belonging to Vice-President Marshall.
A 6-60 White, equipped with Firestone tires, conveys the Vice-President from place to place in his round of duties. Car and tires are no doubt playing an important role in national history, although history will never record their services.
The motor car is becoming more and more a valuable adjunct in the nation's affairs. Though arms may get the glory for victories in war, and arbitration or mediation get the credit for final peace, the motor car is on the job all over the world and rendering services that cannot be estimated.

USED IN ACTUAL WARFARE.
In the present international crisis, when for the first time all of the new inventions which have been conceived for use in case of war are being tried out, none is proving more effective than the motorcycle. Always ready for instant use, speedy, easily operated and reliable, the tri-wheel can carry messages more quickly than they can be delivered in any other way. They are also very efficient for scout duty.
In the advance of the German army into Belgium it was Harley-Davidson motorcycle scouts who kept the vast army in touch with its headquarters. The enemy, who destroyed telegraph wires and stations on route. There are said to be thousands of motorcycles in the German army. The English tankettes have found their motorcycle corps almost invaluable in mobilization work. And these corps will be taken into the field to act as messengers and scouts.

REDDEN ESCAPES FROM FRENCH WAR ZONE

The anxiety felt at the Detroit offices of the Maxwell Motor Company over the whereabouts of its sales manager, Charles F. Redden, was dispelled yesterday when a cablegram from Redden was received by Walter E. Flauders, president of the company.
According to the dispatch, the streets of the French capital were thronged with people and the greatest difficulty was experienced by Americans in getting in or out of the city. Redden just succeeded in catching the last train which left France for London.
Redden's cablegram bespoke in no uncertain terms the enormity of the conflict which is being waged among the several European countries, and the seriousness of the situation in which all American tourists abroad are involved. Redden also said that the fighting countries were confiscating all commercial shipments and all exports had been stopped.

MAGNETO EXPERTS OPEN
OAKLAND REPAIR SHOPS

No longer will Oakland motorists
have to take their magneto troubles
to San Francisco for repairs now that
Schelbner & Hudson have opened a
modern ignition repair shop on the
corner of Twenty-fourth and Web-
ster streets, near Packard Garage.

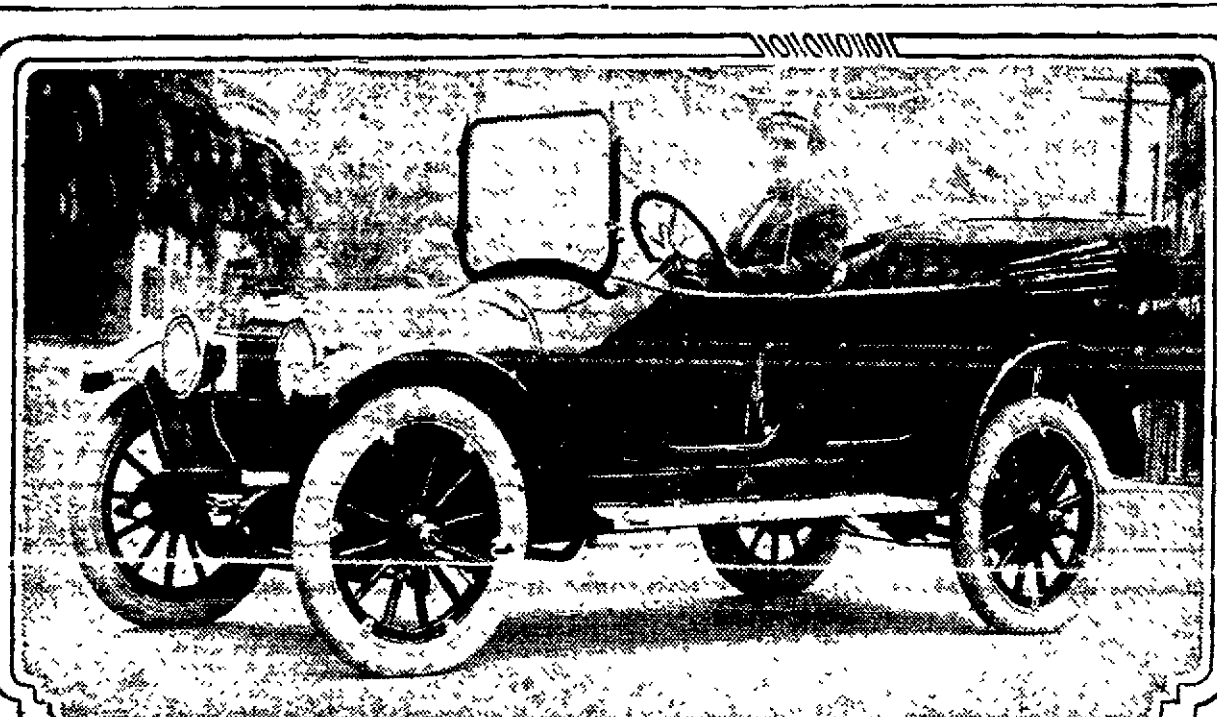

Schelbner has been engaged, for
several years with the Bosch Magneto
Co. as a specialist in the mechanical
and electrical details of ignition ap-
paratus. Previously having been con-
nected with the Spittorf, Eisenman
and other electrical concerns in the
East and Germany.

Hudson has likewise been engaged
with the Bosch Magneto Co. for sev-
eral years as a coil and magneto ex-
pert. Previously having been con-
nected with one of the largest mechani-
cal engineering concerns in Great
Britain.

The establishment is well equip-
ped with special tools, machinery,
testing and recharging apparatus as
well as facilities for charging bat-
teries, handling car wiring, installing or
repairing electric-starting and light-
ing systems.

F. A. M. sanction has been asked for
the big motorcycle meet to be held at
Berkeley on September 27. Riders
to participate.

COSBY MOTOR COMPANY THIS WEEK. IT IS ONE OF THE NEW 1915 CHASSIS MODELS OF
THE OHIO LINE, CUT-OPEN SHOWING THE WONDERFUL MAGNETIC CONTROL FEATURES.

KANSAS CITY TO HAVE
SKYSCRAPER FOR WOMEN

KANSAS CITY, Mo., Aug. 22.—Kansas City is
to have a ten-story office building which will
be devoted entirely to business women. No man
will be allowed to rent space in the building.
The building is to be erected by the Women's
Commercial club and a woman capitalist whose
name has not been made public will finance the
undertaking. The site has been previously se-
lected, but its location has not been made
public, as the women do not wish the price on
the lot to advance before they can close the
deal.

The building will be designed by a woman
architect, with a special view to the econo-
mization of women. The agent of the building
will be a woman, the janitors will be women,
the elevators will be operated by girls, and
girls will be employed as porters.
Office girls instead of boys will be employed
by the tenants and male stenographers need not
apply. One man has asked for an office in the
building, declaring that he wanted it because
he knew it would be kept clean, but his request
has been refused.

ZEBRA EATS THUMB.

TOLEDO, O., Aug. 22.—Unmindful
of the "beware of the animal" sign
hung at the Walbridge Park zoo,
Stanley Carpenter, 19, suffered the
loss of his left thumb. A zebra mis-
took it for a peanut and chewed it
off. Carpenter had been taunting
the animal by holding peanuts in his
green his fingers and thrusting them
between the bars of the animal's
cage.

Two Philadelphia motorcyclists, E. M.
Bliss and A. Tenfel, have just returned
from a 2338-mile trip to Chicago.
On September 9 and 10 the Oakland
(Cal.) Motorcycle Club will stage a 450-
mile endurance run.

UNIFORM TRAFFIC
LAWS ARE SOUGHT

Uniform traffic and speed regulations
in cities throughout the country will be
urged by motor car manufacturers at the
next convention of the International As-
sociation of Police Chiefs. If there is no
miscarriage of a plan promoted by Henry
H. Hower of the F. B. Stearns Company,
Cleveland, O., makers of Stearns-Knight
cars.

Hower started the new movement when
Louis Rich, composer of "Elektra," was
arrested in Boston for speeding twenty-
two miles an hour in his Stearns-Knight
and was chased by police from Broadway,
New York, for traveling only two miles
an hour.

A touring motorist encounters any
number of difficulties and hazards un-
limited arrests through the irregularity
of speed and traffic regulations in vari-
ous cities.

In Cleveland, O., motorists must listen
for the shrill whistle of the traffic police-
man before crossing some streets, and
other corners are regulated by colored-
light signals.

In Detroit white lines running six feet
apart regulate the movement of traffic.

Motor cars dare not encroach on the
space. Chicago traffic is controlled by
shrill whistles of traffic police.

"A motorist will break traffic ordi-
nances in nearly every city he visits,"
says Hower. "With uniform regulations
it would afford proper protection to both
pedestrians and motorists."

lead, hotly pursued by Pullen, who
finished only one minute and ten sec-
onds behind the winner.

De Palma's time was 4:06:18 for
the 301 miles, an average of 73.5
miles an hour, a trifle slower than his
record-smashing performance yester-
day, when he won the Chicago Auto-
mobile Club trophy with an average
of 73.5 miles per hour.

Pullen, who drove through the
entire race without a stop, averaged
73 miles an hour, and Barney Old-
field, who was placed third, had an
average of 68.2. G. H. Anderson, win-
ner of last year's Elgin National, was
forced out because of mechanical
trouble before the race was half over.

ELGIN, Ill., Aug. 22.—Duplicating
his spectacular finish in yesterday's
race, Ralph De Palma, piloting a Mer-
cedes, won the 301-mile race for the
Elgin national trophy this afternoon
from a field of 23 starters.

A crowd numbering 75,000, the
greatest throng that ever gathered
for the Elgin events, saw the race for
the coveted trophy that developed
into a tragedy. Spencer Wishart, mil-
lionaire New York sportsman and
captain of the Mercer team, was
crushed beneath his car while leav-
ing the field and died two hours later
in the Elgin Hospital. His mecheni-
cian, John C. Janter, was hovering
between life and death tonight, and
five spectators in the path of Wish-
art's Mercedes are suffering from minor
injuries.

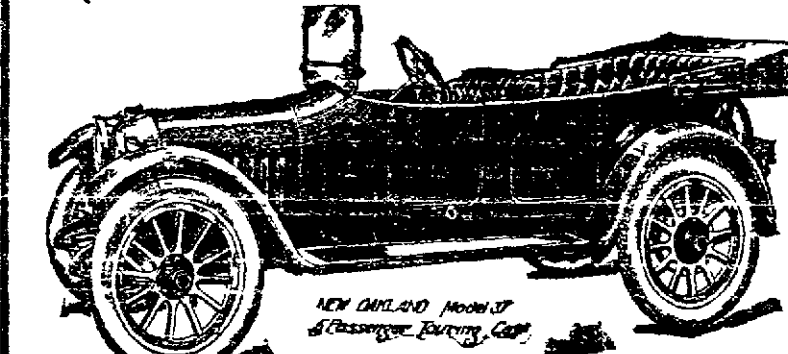

With the race one-third over, Wish-
art's Mercedes, in the lead and spurting
at 150 miles an hour, grazed Hen-
ning's Mercer, catapulted off the
course and over a fence and landed
with a tree. Wishart's leg was broken
and his chest so badly crushed that
four ribs protruded. His bride of last
June, who was Miss Louise Mac-
Gowan, daughter of the late Hugh
MacGowan, Indianapolis traction
magnate, was in the grandstand. She
hurried to the hospital, but Wishart
died without regaining consciousness.

Mechanic Janter's right arm
was nearly severed from his body and
he sustained internal injuries. Five
other persons, Ollie Hansen and Mil-
dred Hoffman of Elgin; George
Hinckley, Rockford, Ill., and an un-
identified man and girl, who were in
that car's path, were cared for at the
field hospital.

Burrman, in a French Peugeot, flash-
ed into the lead, and when Wishart's
car leaped the course, but was soon
overtaken by Rickenbacher, who re-
placed Alley in a Duesenberg.

Rickenbacher held on like a
bulldog until the 206th lan.
Then, with the victory almost in his
grasp, his car developed mechanical
troubles, and De Palma grabbed the

IT IS HERE!

NEW—1915—NEW
Oakland

"Sturdy as the Oak"
MODEL 37 TOURING CAR
Price \$1350 in San Francisco
A Car of Distinction

Stylish, comfortable, pleasure car, seating five passengers, with room
to spare. The graceful, low, distinctively Oakland French streamline
body, the German silver V-shaped radiator, the heavy crown fenders
and the broad running boards give it beauty and style unsurpassed even
in the highest priced cars. The mechanical construction is as perfect as
the outward appearance is beautiful, and will bear the closest scrutiny.

THE NEW FACTORY ORGANIZATION

Has produced in the "New Oakland" Model 37 a unit of beauty,
power, economy and service—a car that you will be proud to drive
alongside of the best of them and enjoy the comparison.

The four-cylinder, silent New Oakland-Northway motor provides
more power than you will ever need. Low body construction and
elimination of useless weight, greatly reduces wear and tear
on tires. A motor that wastes no fuel—the Oakland-Stewart
vacuum gasoline feed, doing away with the pressure system. The low construction of the car,
without decreasing the road clearance, adds to the safety, comfort and
joy of riding.

Fully equipped with Standard Delco Starting, Lighting and Ignition
system, with automatic spark advance. Non-skid tires in rear, Oakland
One-man Top, absolutely true to name, heavy Crown Fenders, extra
large Valves, Tungsten steel, divided Windshield, Speedometer, Electric
Horn operated from center of steering wheel, Headlights with dimmer,
Shroud Light, Tail Light, Tools, License Tag Brackets; in fact, every
practical, modern improvement and convenience for the comfort and
safety of the driver and passengers.

The New Oakland Organization Has Adopted a
Most Liberal Service and Business Policy

"NEW OAKLAND" POWER
The New Oakland-Northway
motor, designed by the most
capable engineers the automobile
industry has ever known, is so
constructed that the greatest
possible driving power is ob-
tained from the fuel used. The
extra large valves of Tungsten
steel, with their increased lift,
have given this motor wonderful
power, more than you will ever
need.

"NEW OAKLAND" ECONOMY
Low body construction and
elimination of useless weight,
greatly reduces wear and tear
on tires. A motor that wastes
no fuel—the Oakland-Stewart
vacuum gasoline feed, doing
away with the pressure system
—specially designed manifold
and throttle valve—these are a
few of the many improvements
which effect economy and re-
duce cost of upkeep in the "New
Oakland."

In points of appearance the New Oakland Car is calculated to
satisfy the most exacting, whilst the most particular buyer will delight
in its mechanical perfection. In a word, the New Oakland is a car
which stands in the front rank of the real aristocrats among motor
cars, and is—without a car that embodies probably more constructional
thought than any other, and for that reason alone must command the
attention of every discerning motorist.

THE REVISED
ELECTRIC

WAR SITUATION HELPS MOTOR TRADE

Concise Outline Given on the European Situation

The European war will act as a positive boost to American business in general, and the automobile industry in particular, in the opinion of John N. Willys, president of the Willys-Overland Company and second largest manufacturer of automobiles in the world, who expresses his views in a cablegram from London. For two months Willys has been making a study of conditions in Europe at close range and is thoroughly in touch with the situation both at home and abroad.

Great opportunities for trade extension given to the United States by recent events, writes Mr. Willys. "Sir George Parisi, England's foremost financial writer, declares that the war will bring great wealth to American industries and an economic benefit to the people of the United States. He prophesies that Americans will be able to sell their crops at prices which will allow them to secure a larger income than could possibly be realized had there been no war or danger."

"I do not believe in capitalizing the misfortunes of others. War is the greatest calamity which can befall a civilized community from a purely commercial point of view. The precipitation of hostilities has brought ruin to many Europeans, and I know that the sympathy of every true American goes out to them in this crisis. But putting aside all sentiment, I am simply stating facts that are patent to one who is in the field, and which I think should be brought to the attention of every American business man."

"The call for army reserves throughout Europe has completely demoralized the industries on this side of the Atlantic. Many of the largest automobile factories have practically been unmanned. Only a very small number of automobiles will be built in Europe until there is a cessation of hostilities and the warlike atmosphere has cleared."

"In the meanwhile the entire field will be open to the American motor car manufacturers. There may be some difficulty in shipping cars to European ports, as they may be declared contraband goods, but the rest of the civilized world will be free from European competition and is America for the taking. And once the people who have heretofore bought automobiles of foreign manufacturers discover the superiority of American cars, Europe will never regain the field she has lost."

Within the past few weeks Overland dealers have shown their faith in the future of the industry by materially increasing their contracts for cars for the coming season. They are close students of the market and are filled with optimism. We fully expect to sell 15,000 Overland cars during the next year."

The country has the greatest wheat crop in its history. Coinciding as it does with the European war, it means millions to the growers. Dispatches published in London state that the first mobilization of troops hastened the export movement of grain and that the price of wheat has advanced greatly."

"Although it is stated in official circles that at present England has a four months' supply of grain in storage, it is commonly known that with this grain the inhabitants of the British Isles could not subsist three weeks without importations. When England declared war the excitement was intense and retail prices of food made a jump of 50 per cent. A number of the co-operative stores, which are very strong in this country, were forced to close because of the advance in food supplies. Word came from Glasgow and other cities of Scotland that a food famine is already threatened."

"The orders of the war lords in calling thousands of men from the fields and the farms to the front, has created a situation much worse than normal. The situation in all European countries is equally bad. With the men on the battlefield instead of the farm, there is danger of famine unless foodstuffs are imported. The summary action of Switzerland in forbidding the exportation and in buying huge stores of grain and provisions from outside markets exemplifies the alarm felt among all of the governments."

"It is understood that other countries are to follow suit and not only prohibit the exportation of their own wheat, but even go so far as to remove all duties on the importation. Extra inducements doubtless will be offered to forward grain from the United States."

"This will create an enormous demand, and as the greatest wheat-producing country in the world, the United States will reap untold profits. It means money for the American farmer, and his financial status is the best criterion on which to base an estimate of the country's prosperity. It is prophesied by Overland dealers throughout the country that the next twelve months will see a record sale of automobiles among the rural population."

"Other American industries have an equally bright prospect. With business in Europe at a standstill, America will become the factory, the forge, the farm and the one big source from which the other nations of the world must of necessity draw their supplies."

"Business conditions throughout the United States are sound. Our financial system is backed by the strongest national resources in the world. Our banks, safe and solid as they are, have been rendered doubly secure by the Federal reserve and the great amount of emergency currency recently put into circulation."

"The great need of the United States as seen with the perspective of the Europeans, is internal peace. In this world crisis American citizens should forget all petty animosities and narrow political agitations. There should be no interference with the orderly processes of business. The administration should assist in maintaining the satisfactory and fortunate condition in which the country finds itself. With the rest of the world at sword's point, our own peace and prosperity should be doubly appreciated."

RIDE AND KEEP CLEAN.
The unique feature of the transcontinental motorcycle trip being made by G. D. Duntz and E. T. Brennan of New York City is the fact that these tourists are carrying a complete moving picture outfit, which they expect to use en route. Duntz is gathering information on which to base a new transcontinental road map. Both men are riding a Harley-Davidson which has sidecar attached, and are carrying tent and cooking utensils.

Indianapolis on the first leg of their journey they bore evidence of their theory that one can easily ride a motorcycle and still keep clean. Dressed in neat, well-fitting khaki suits, they were seen to have had only a short trip instead of one of hundreds of miles.

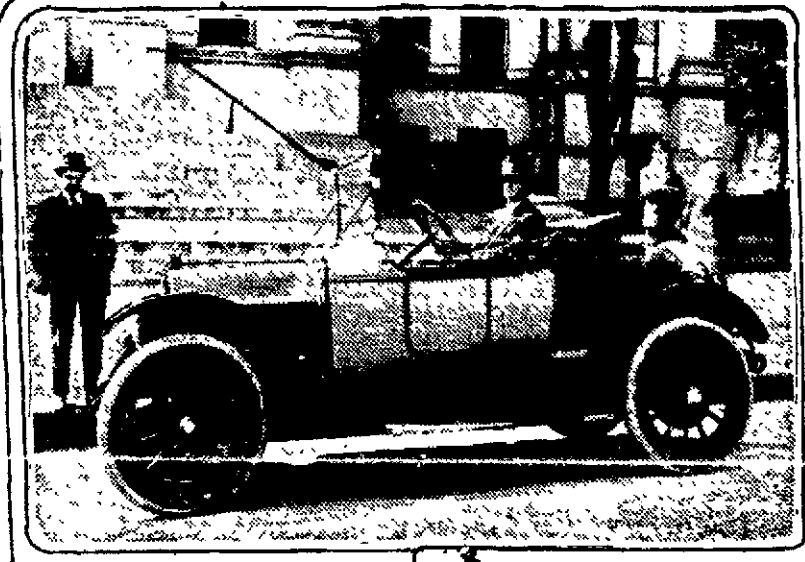

In Athens, Ga., motorcycles are used for parcel post deliveries.

ROAD SIGNS TELL WAY FOR AUTOIST

The proper signing of all roads of Northern California is a work the California State Automobile Association is now doing. The club's engineer will start this week over the roads of San Mateo county, gathering the data to be placed upon each sign, also, setting stakes to guide the men who follow up in the association's truck, placing the signs.

The sign adopted by the association is not only very attractive, but the contrast of colors is such that they are plainly visible at a distance. The sign is baked enamel, 23 by 22 inches in size, with blue lettering on a light lemon yellow background. The sign, as a whole, is emblematic of the state and national associations, being of a diamond shape.

Not only will they be placed on all main roads, but the secondary ones as well. The sign being enamelled as it is, would not doubt last a score of years, should the careless boy and the reckless hunter refrain from shooting them. To overcome this the association has a bullseye target stenciled on each post, 18 inches below the sign, with the lettering, "If you must shoot, shoot this."

No doubt there are not many so destructive as to shoot the sign, after the club has gone to the trouble of furnishing them with a target. Upon the completion of San Mateo county the club will then sign Alameda and Sonoma counties. The counties to follow these have not yet been decided. However, it is intended to sign all counties north of the Tehachapi with the one uniform sign.

STATES POSITION OF TIRE COMPANY

C. A. Gilbert Outlines the Nobby
Tread Policy in War
Crisis.

The unfortunate position of the American tire manufacturer, in respect to the present war in Europe, and its effect upon his supply of raw material, especially crude rubber, has been forcibly brought to the attention of both maker and user. That the present conflict across the seas is hampering American business in all lines is now only too evident, that it is seriously interfering with the production of tires and probably will, until peace is established, be detrimental to all at a glance at the upward tendency of the price of crude rubber.

Though Brazil, Mexico and the East Indies furnish the major portion of the rubber used in commerce, and these countries are directly in the war zone—still, the fact remains that all the world's rubber is carried in English, German and French ships, all liable to capture by warships of the warring powers—has made the price of this essential tire material jump in price fully 100 per cent in the past ten days.

"The effect upon the tire industry, of the war in Europe, has been so demoralizing that no one could have foreseen the present conditions three months ago," said C. A. Gilbert, manager of the tire department of the United States Rubber Company of California, "and to state that the situation is one of the most extraordinary that the tire industry has been called upon to face is putting it mildly."

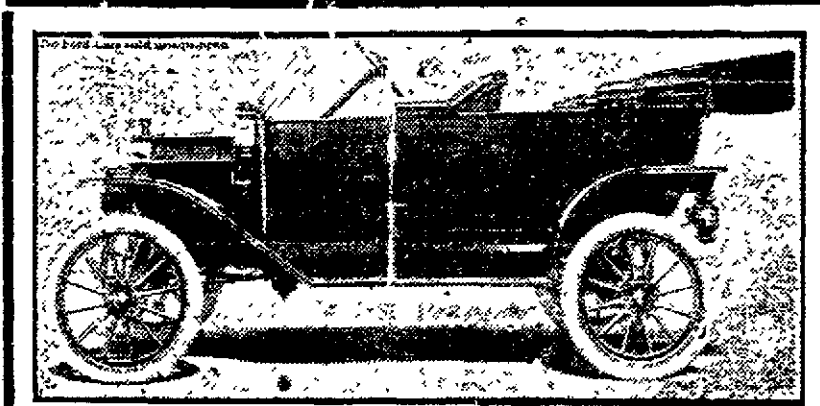

The big factors in the situation which at present confront us are to keep the high standards of our tires up, both in the quality and quantity of material used, as well as the excellence of the fabrication of same. These standards we have determined at all costs to maintain, and we feel that the motorists of the country will realize that if crude rubber jumps fully 100 per cent, with the supply badly crippled even at that price, that it is only fair and just for us to maintain our prices as at present.

Irrespective of sensational statements and conflicting reports, there is a situation in the rubber market to be met with which calls for the closest conservation of raw material, consistent with putting out good tires, that the factories will have to contend with from now on until the trade lanes from the rubber-producing countries are again open free and unimpeded.

"United States tires in the future, as in the past, will contain just as much rubber and just as much fabric as heretofore, while the quality of both will be maintained at the highest standards in spite of war conditions. Our company will not be led away into the false paths of trade by cheapening their products in the hope of some little immediate profit, but, on the contrary, will use every effort to make more lasting and better tires right along, giving the motorist greater value for his money now, when so many calls are being made on his resources."

"Being as closely in touch with the rubber situation as any company can be, we feel that a straight, clean adherence to present conditions will work out for the best interests of both dealer and consumer. One thing is certain, and that is United States tires will be found in the van of any movement looking toward the ultimate good of its patrons and motorists in general."

The Laporte (Ind.) Motorcycle Club will make a run to St. Joseph, Mich., August 30.

YOUTHFUL NOBLEMAN BECOMES FARM HAND

WATERTOWN, S. D., Aug. 22.—Garbed in overalls and a buckskin shirt, George Trubnikov, aged 21 years, the son of a Russian nobleman and heir to a large estate on the river Volga, was working on the farm of Thornton Babcock near Watertown, for the purpose of getting first-hand information about practical farming in America.

The method he learns here he expects to put into operation on the 11,000-acre family farm in the czar's dominion.

The youthful Russian will pay particular attention to the use of modern American machinery on the farm with a view to introducing it in Russia.

He came to South Dakota through an acquaintance formed with Prof. N. E. Hansen of the State College of Agriculture, who made two trips to Russia to secure Siberian alfalfa seed.

CAT FORGETS MICE TO
CLEAR HOUSE OF FLIES

LEWISTOWN, Pa., Aug. 22.—E. E. Clapp of this town has no trouble with flies in his house. His cat, which is part raccoon, is a better fly-catcher than policeman, sitting at stances or swatters. The animal works industriously until all the flies inside the house are killed.

The Laporte (Ind.) Motorcycle Club will make a run to St. Joseph, Mich., August 30.

STRANGER GIVEN AID; BECOMES MODEL FARMER

CONOVERVILLE, Ind., Aug. 22.—A stranger, cared for by the police and the sheriff six weeks ago, has repaid the kindness with unusually successful efforts to mend his condition.

Leo Halle came to Conoverville penniless, friendless and homeless and asked for lodging in the jail. He was fed and sheltered for two days. Perry D. Ferguson, the sheriff, obtained a place for him on the farm of Charles Moffett in Harrison township. Halle proved the best farm employee Moffett ever had.

Halle's former home was near Columbus. His wife was drowned in the flood more than a year ago and six children died since. Heart-broken and without money or kin, he set out to start his darkened life anew. He is 53 years old.

MYSTERIOUS BIRD HAS
GRUDGE AGAINST WOMAN

PETERSBURG, Ind., Aug. 22.—Residents of this town are puzzled over the queer actions of a mysterious bird, which attacks Mrs. Mary Ann Goodrich every time she leaves the house after dusk. It never molests other persons. Every attempt to kill the creature has failed. The bird is quite small, its body resembles a blackbird and its head seems to be covered with fur.

MODERN WOMAN'S CROWN FRIGHTENS COWS AWAY

MARINETTE, Wis., Aug. 22.—Crows had been working great havoc with the newly planted corn fields of Howard Smithson, a young farmer, until he went to Milwaukee and got an idea from the fashions sported by women.

The upper part of the figure he dressed with a low necked garment and the lower part with a silk skirt. He fashioned the hair low over the forehead, hiding the ears, and upon the head he set a waving plume.

Soon after a flock of crows came hovering over the field. They were just preparing to alight when they beheld such a figure as had never before met their gaze. With one mighty caw they flew away.

So great was the success of the first picnic of the Los Angeles Motorcycle Dealers' Association that it is assured the event will be made an annual affair. More than 2000 motorcyclists and their friends attended the picnic.

W. A. Coleman, a civil engineer of Bradenburg, Ky., finds a motorcycle of six value in going to and from his work.

SLEEPS ELEVEN DAYS AFTER CUTTING WEEDS

TAYLOR, Tex., Aug. 22.—E. E. Jungmichael, aged 45 years, a prominent farmer, whose eleven days' sleep in a state of coma baffled the skill of attending physicians has at last awakened to consciousness.

Unconscious of the passage of time, he thought on awakening that it was but yesterday when he went to sleep by the roadside as he was returning from a day's work cutting the weeds in the family garden.

He is improving rapidly and his family and physicians now have strong hopes for speedy recovery.

SUNFLOWER IS GIANT.

VISALLIA, Aug. 22.—A huge sunflower raised by former Mayor A. R. Orr of Visalia has been presented to the Tulare county Board of Trade and will be exhibited at San Diego.

The stalk is 16 feet high. In the Hanford union high school garden was a cluster of sunflowers this summer, some of which measured 13 feet in height and three feet from the ground the stalks measured three inches through.

---	---	---	---

been needed and with the coming of the war, the exposition the need is increasing," said Mrs. J. C. McCall, executive director of the bureau. "In fact, there are more than 100,000 women in the Protective Bureau in nearly every case are in need of financial assistance. Of course there are employment agencies, but in most cases these are out of the question, because of such a shortage of their personnel, the most needy women are the ones to be overlooked."

"The one of the most important agencies in need of financial assistance are the churches. There are some religious organizations that to a limited degree, help women and girl applicants, but in general, they are not able to do much more than to direct them to the city's employment bureau and get it started."

Among the women to be helped are:

- 1. The women who are discharged from the United States Navy, Military and Naval Air Corps.
- 2. The women who are discharged from the United States Army.
- 3. The women who are discharged from the United States Coast Guard.
- 4. The women who are discharged from the United States Marine Corps.
- 5. The women who are discharged from the United States Air Corps.
- 6. The women who are discharged from the United States Navy.
- 7. The women who are discharged from the United States Army.
- 8. The women who are discharged from the United States Coast Guard.
- 9. The women who are discharged from the United States Marine Corps.
- 10. The women who are discharged from the United States Air Corps.

The work of the Women's Protective Bureau, including as it does many things not covered by the city's employment bureau, is important, has already become in-

[illegible]

from his home in that country and last night claimed Miss Belia Angus at a wedding ceremony performed at the home of Mr. and Mrs. G. L. Peabody, 2605 Ninetieth avenue. The groom and his bride were both dressed in white. The bride was attended by Miss Zina Selig, while the best man was M. L. Hunt.

Following the ceremony a wedding supper was served, among those attending being Mr. and Mrs. H. A. Kennedy, Mr. and Mrs. G. L. Peabody, Mrs. E. Turner, Mr. and Mrs. T. E. Hunt, Mr. and Mrs. C. R. Hunt, Miss Florence A. Baker, Mrs. H. A. Kennedy, Mr. and Mrs. J. W. Selig.

Some time after ten and Miss Angus was escorted to her home in Edinburgh, where she will remain until she is again called to remain at her home in the city. A. H. Kennedy, who was unable to be disengaged, pointed and followed the girl to the city.

Chief was leaving on was halted at Muirbach and searched.

CEMETERY IS EXPENSIVE.
SACRAMENTO, AUG. 22.—Rumors that cemeteries is not a lucrative business. The city of Sacramento is not finding it so. Burial grounds maintained by the municipality are operated at an annual loss of about \$9000, according to Health Officer Williamson. This is half of the total running expenses.
Officer Williamson asked for the \$9000 in the tax budget, and it was granted.

BUILDING THREATENED.
Second and Brush streets, were threatened by fire when a rubbish caught fire at 8 o'clock last night. The flames were extinguished under the direction of Assistant Chief Whitehead.

AMATEUR BASEBALL & SEMI-PRO BASEBALL Edited by "Bill Crosby"

"Pete Starnes" came back and pitched a perfect game for the Ambrose Tailors, holding the Lynne Stanley Giants to two scratch hits, and one lone run, the result of one of those two scratch hits. "Pete" is a young fellow, a "Pete" mystifying shoots. "Pete" has much praise coming over his wonderful pitching.

Little Al Wetzel got back in the game Sunday, playing center for the Ambrose Tailors. He pitched a perfect game, holding the Lynne Stanley Giants to two scratch hits, and one lone run, the result of one of those two scratch hits.

Ed. Truck pitched a great game around first base for the Ambrose Tailors, holding the Lynne Stanley Giants to two scratch hits, and one lone run, the result of one of those two scratch hits.

It is reported that "Red" Powers, Ambrose's shortstop, is contemplating entering St. Mary's college, where he will hold down shortstop for the varsity.

The Boyle-Lawler team No. 1 again administered defeat to the All-City team, this time by a score of 10 to 0. Boyle-Lawler's victory was a complete rout, with the team winning by a score of 10 to 0.

The Berkeley Wagoners are planning to play Great Western Power on their home grounds, next Sunday, August 30.

Amateur baseball circles are very much interested in the game to be staged on the Coast League grounds, September 19, for charity, between the members of the Athletes and Commercial Clubs.

PACIFIC COAST LEAGUE RESULTS YESTERDAY

At San Francisco—Venice 4, San Francisco 0.

At Portland—Portland 10, Oakland 4.

At Los Angeles—Los Angeles 2, Sacramento 0.

STANDING OF THE CLUBS.

Club	W.	L.	Pct.
Portland	10	5	.667
San Francisco	7	8	.469
Los Angeles	7	8	.469
Sacramento	6	9	.400
Oakland	4	11	.263

GAMES TODAY.

At Oakland—Venice vs. San Francisco.

At San Francisco—Venice vs. San Francisco.

At Los Angeles—Los Angeles vs. Sacramento.

HOW THE SERIES STAND.

San Francisco 2, Venice 2.

Portland 4, Oakland 2.

Los Angeles 4, Sacramento 2.

The large crowd of fans who witnessed last Sunday's contest were most satisfied, as the game was a real treat in the short time of 1 hour and 20 minutes.

"Dutch" Lloyd, on the mound for Elmhurst, is having great arm of ball at present. Last Sunday he held the Athletics to four hits, defeating them 4 to 0.

Stratton, a youngster, is putting up a fine game in center for Elmhurst, while Castro and also covering the outfield in class.

Elmhurst's utility man, who is also a class man in the clubhouse, playing the left field and in good style.

Elmhurst will play Leandro at Elmhurst at 2:30 today.

SAUSALITO YACHTS TO RACE TODAY

The Annual Perpetual Trophy race of the Sausalito Yacht Club will line some of the fastest boats on the water today, when the starter fires the gun at 1 o'clock. Thirteen entries have been sent in to the regatta committee, and their ratings have been determined under the Sausalito rule. The trophy is a coveted one among the yachtsmen of the area, and is won by the boat which finishes first.

THROWS IN STRIKES FROM CENTER

Donnie Bush probably paid Tris Speaker the most original and highest tribute that has been made in the American league.

"Pretty fair" exclaimed Bush, "why, that fellow throw strikes from center field."

CHICHESTER'S PILLS

Chichester's Pills are a reliable remedy for all ailments of the digestive system. They are gentle on the stomach and work quickly to relieve constipation, indigestion, and other digestive troubles.

BEAVERS POUND PROUGH FOR SECOND TIME THIS WEEK

Farical Game in Portland Results in Defeat of Oaks by 13-4 Score.

PORTLAND, Ore., Aug. 22.—Clinton Prough today tried for the second time this week to beat the Beavers, but after going along in good shape for two innings, he blew up and was driven from the mound, Quinlan replacing him. The locals scored 12 runs off Prough in seven innings, and added another off Clinton in the eighth.

Portland registered three more in the sixth on two walks, Kores' double and Davis' singles. Again in the seventh, the boy at the board hung up a "3," hit by Kores, Lober, and Davis, two runs and Middleton's error did the work. Quinlan allowed another run in the eighth, while the Oaks also scored in this inning. The Portlanders became excited on the ninth and presented two runs to the Oaks. Jones, the young catcher from California, caught the last two innings for the Oaks.

U. C. RUGGERS START PRACTICE.

The University of California rugger will start their annual training for the coming football season with a practice of the freshman team on Tuesday afternoon. The varsity rugger will start two days later.

Boyer, centerfielder for the O. R. E., made a play which in the fourth frame, saving a run and will be a credit to the holder nine.

Gaylord Repp, the big right-handed twirler, who has been working out with the Oaks this season, will enter the Santa Clara college this season. Repp showed good form while with the Oaks and will no doubt take a steady berth on the college club.

Fodder Dolan did his share of the work in Sunday's game against Centerville, when he struck out 15 men and also connected for a couple and two singles off Lloyd.

Wolfford still continues to tag the ball for the S. J. I. team at Fruitvale and is playing a bang-up game behind the bat. He will play with the team at Fruitvale and will be a credit to the team.

RAY CITIES LEAGUE.

Great Western beat a somewhat changed lineup in their game at Bay View with the Coast League team. The game was a close one, with the home team winning by a score of 10 to 9.

Little Flynn, after an absence of four months, was back in a Power County uniform, scored two runs and got two of the twelve hits.

The Macabres look to make trouble with the league leaders from now on. Herrin has a lot of hitters on the team, and the way later is going the No. 17 lodge boys should keep on winning, now that they are started.

"Lefty" McKim hurt his arm cranking his big gun. He was not able to start today against the Great Western.

Adams, the Power County twirler, last Sunday got three singles and a double in four trips to the plate. The Great Western team has a habit of doing this. Adams was when he had some few weeks back, while playing left, got five hits in as many trips, one going for three bases. Adams will be a credit to the team.

"Lefty" McKim hurt his arm cranking his big gun. He was not able to start today against the Great Western.

TEACHER TESTS MIND OF PUPILS

Eye or Ear Powers Discovered
by High School
Educator.

What are you, "Eye-minded" or "Ear-minded?"

Those are the two big "Mental Measurements."

Those are the two divisions in which human minds fall, and which at once classify man for what he is useful in—or otherwise.

There's nothing freakish about these questions. In fact, the whole system of mental survey as practiced in the psychological laboratory of the Oakland School Department and many others depends on just this classification, and the school life of the future depends entirely on whether the coming children are to be "Eye" or "Ear-minded."

The psychological laboratory of the Oakland schools, as directed by Mrs. Vinnie U. Hicks, who conducts "sub-normal" classes in Oakland and examined the mental power of her charges from time to time, has in the past three years made remarkable developments along the line of perfecting and adapting studies to children found wanting in either "Eye" or "Ear" perception. Many also called dull children have been found to be more "Ear-minded" than "Eye-minded," or vice versa.

For instance, a child might be unable to memorize a line by reading—and memorize it at once by hearing it read. A change in the method—and the child is as bright if not brighter than any other.

MAKES TEST.

Another child might be unable to learn from hearing his teacher speak—but might learn at once by reading for himself. The same rule applies.

The students are tested in the Oakland laboratory by questions devised by Mrs. Hicks, to ascertain at once the exact state of memory and perception.

First, a student is usually given the ear test. "Repeat after me," says Mrs. Hicks, "13, 26, 24." The pupil usually does.

"Now repeat 27, 52, 36, 45."

Some pupils fall short in memory at four figures. Others go as far as ten. The eye test is the next.

It is shown, for instance, a picture of "The Gleaners." This is examined for a moment.

"Now," says the teacher, "how many wheels are on the cart?"

The child says four, and is surprised to find that there are really two—if it's "eye test" it is bad.

Even a question as to what a pupil received at the last Christmas has proved a valuable memory test. Other children are found to be sub-normal through extreme diffidence.

"As a rule," the verdict of the psychological laboratory goes, "it's a case of 'Ear-minded' or 'Eye-minded,' and that forms the basis of the work."

**ROW FOLLOWS REFUSAL
TO CAROL "DIE WACHT"**

SAN DIEGO, Aug. 22.—Hostilities between two German youth occurred at the Germania Hall last Thursday as the result of the refusal of one of the members to join in singing "Die Wacht am Rhein," the German national hymn, ended in Justice of the Peace Solon Bryan's court today with the discharge of Robert Manzeck, who was accused of disturbing the peace. Manzeck is physical instructor at the "Turnverein." The testimony before Judge Bryan yesterday was that Manzeck, who was accused of disturbing the peace, was not a member of the Germania Hall, and that he was not a member of the Germania Hall, and that he was not a member of the Germania Hall.

HAVE STARTED BUREAU.

The Tourist Association of Central California has raised \$43,506 and a permanent office has been established at 525 Market street, San Francisco. An office has been established in Chicago at 900 Lytton building, with John S. Ross, formerly with the Southern Pacific Railroad, Oakland, and well known in this section of the State, in charge. An information bureau for tourists is being organized for serving tourists. Of the funds raised for the association, Alameda county is credited with \$9680.

M. J. Friedman, a young business man of this city, was among those who recently passed the bar examination at Sacramento.

Mr. Friedman has long been identified with one of Oakland's leading stores and will shortly forsake the mercantile life for the practice of law.

RICE EXPOSITION UNIQUE IN NORTH

California Industry Display to
Be First Made Above the
Mason-Dixon Line.

OROVILLE, Cal., Aug. 22.—For the first time in the history of the United States a rice exposition is to be given north of the Mason and Dixon line.

The significance of this announcement will be more fully appreciated when it is understood that California is fast taking rank as one of the most important rice producing states in the Union. To celebrate the third anniversary of the establishment of the industry here, the people of Butte county have planned a mammoth exposition to be given in Gridley on September 3, 4, 5, and 6. According to statements from the Department of Agriculture at Washington this is the first time that such an exposition has been staged north of the Mason and Dixon line.

In the course of the three years the industry has assumed remarkably large proportions. Three years ago there was less than fifty acres planted to rice in Butte county. Today there are 15,000 acres planted to the cereal, and the value of the crop this year is estimated at \$1,000,000. Preparations are already in progress for planting many additional acres next year, and it would not be surprising if the crop output were doubled.

TO SHOW EVERY STAGE.

At the Exposition to be given in Gridley, which is officially known as "Butte County Rice Exposition," rice will be shown in its every stage from the seed that is planted in work of harvesting and threshing it. They will also see rice to walk into the rice mills and see the manner in which the rice is prepared for commercial consumption. It will be a revelation to most people to know the one hundred and one products into which rice is manufactured, ranging from the rough rice paddy to the finest complex powders that Millady uses to beautify herself.

An interesting fact in connection with the Exposition is that it has received the endorsement of both Federal and State officials. Representatives of the Department of Agriculture at Washington will be present and will deliver talks and addresses on the various problems connected with the rice industry. Those persons having lands that they believe are adapted for rice culture will be enabled to receive definite information from the Government relative to the constituent qualities of good rice land. Irrigation problems and problems connected with the harvesting and milling of the rice will also be discussed by experts.

RICE-FED CATTLE.

The State Dairying Department is also taking a great interest in the Exposition. One of the most interesting features of the big fair will be a dairy herd of cows that have been and will be fed upon rice powders and rice straw fodder.

Hand in hand with the development of rice fields there is going the development of a big dairy industry. For it has been found that rice straw forms an admirable fodder for cattle.

Letters have been received from a number of rice growers of Louisiana and Texas who are planning to attend the Exposition. The development of the rice industry in California has attracted great interest in the rice growing sections of the South by reason of the larger yield per acre here, and the better quality of California rice. As a result there has already been invested in California rice lands a large amount of Southern money.

Investors have written back to their friends and relatives about conditions here and many are planning to come to Butte county during the time of the exposition to investigate conditions on the ground.

Special rates have been granted by both the Southern Pacific and the Northern Pacific Railroads for the Exposition.

**COMMISSION ON WAY
TO COAST FOR HEARING.**

PORTLAND, Ore., Aug. 22.—The United States Industrial Relations Commission having completed a three days' session here, concluded at noon today, and its members left for San Francisco this afternoon, where hearings will be begun next Tuesday.

WILLIAMS, Aug. 22.—A temporary injunction has been granted against Milton Jacobs, the Southern Pacific railroad, and others to prevent the construction of the spur railroad track which the state railroad commission recently ordered the Southern Pacific to install at Wyvo for Jacobs at his gravel pit. Judge Finch will hear the cause next Monday to determine whether the injunction shall be made permanent.

PARIS FASHIONS ARE COMING HERE

Buyer Gets Models Over Be-
fore War ties Up
Ship.

Oakland hats are going to be more sumptuous than ever this year. The war will not make a bit of difference here, and people are beginning to realize that their home city is enjoying a reputation throughout America of not only importing the best European models in millinery and of copying them perfectly in the local workrooms, but of having much originality and of conceiving many new and smart styles. Perhaps the climate has something to do with it, for California weather is proverbially coquettish and certainly the hats which the Oakland women are wearing share this quality.

Abrahamson's millinery buyer, Mrs. Gilbert, is just back from her New York trip, where she has been getting all the latest ideas as well as all the newest

are somewhat influenced by local happenings, for style is not a mere whim or vagary on the part of a few Parisian dressmakers, as many seem to think, but really does intimately partake of the life and spirit of the people, as was shown in the rage for Balkan colors and costumes during the recent Turco-Balkan war.

GOLD IS DULLED.

Just now gold and silver are greatly in demand, and from time immemorial silver has been the basis of the world's royalty. But this season the gold is not bright it is dull-tarnished—the silver likewise. And surely no one can doubt but that the fortunes of royalty are on the wane. After the war how many princes will retain their thrones? No one can know, but to judge from present indications their future is dark—and their emblems, silver and gold, even on hats, are tarnished, or evaporated, to use a new-found term.

To get the Paris fashions is going to be difficult this year, but Abrahamson's has been fortunate in sending abroad early for all the latest things and Mrs. Gilbert has come back with models direct from the great creators of Paris. Hats are mostly very large or very small, intermediate shapes are little worn. But do not think from this that the styles are going to be in the least unbecomingly extreme. All are practical and especially suited to the needs of the California women, and for this reason only models from the most exclusive French houses are shown, such as Georgette, Mme. Louise, Caroline Reboux and Camille.

NEW COLOR COMBINE.

Among the smartest color combinations for this season are the black and steel, dull silver and especially the antique, the new French Corbeau blue, Tete de Negre, an exquisite shade of soft brown, and King George red. The Tete de Negre is especially stunning in a Georgette model, quite large, a little on the tulle side, is trimmed in ostrich tips, varying in shade from pale yellow to golden brown. A model in Corbeau blue from the Mme. Louise is very striking, being made in the toque style of velvet and soft feathers—the crown rising to a high dome's peak behind. The Corbeau is also lovely in a small velvet turban caught up at one side with a peacock green pompon. Another novelty is a basque hat made of black velvet, with steel bands and antique beads on tiny velvet shapes are also among the season's newest trimmings, while feather arrangements and ostrich tips are always good.

The smartest models are now on exhibition at Abrahamson's, though the formal opening will not take place until the 3d of September, and it is hoped that the ladies of Oakland will have a chance to wear all the latest models for Admission day, September 2.

**SUNDAY LECTURE THEME,
"AN EGYPTIAN FUNERAL"**

SAN FRANCISCO, Aug. 22.—The fifth lecture of the series on "Ancient Egypt" will be given by Assistant Curator E. V. Gifford on Sunday at 3 p. m. in the auditorium of the University of California Museum of Anthropology at the Affiliated Colleges, San Francisco.

Of all the subjects which can be studied in the museum's Egyptian collection, the most popular is the best illustrated inasmuch as practically everything shown is part of the funeral equipment found in the graves of the ancient Egyptians. The title of the lecture is "An Egyptian Funeral." It will be illustrated by lantern slides, many of them made from pictures in the tombs of wealthy Egyptians. An Egyptian burial from start to finish took as long as 121 days. Throughout his life an Egyptian saved his money and prepared for the great event, which in his eyes assumed an importance which cannot be realized by people of modern times. In fact, he thought more of dying than of living.

A special exhibit bearing on the subject of the lecture has been prepared and will be displayed for one week. It is entitled "Servants of the Dead." Originally wealthy Egyptians had their servants sacrificed at the funeral. Later they substituted models in place of them. Car line No. 6 runs direct to the museum.

**TO TAKE PART IN BIG
FETE AT ST. HELENA**

ST. HELENA, Aug. 22.—The Rutherford grange, 140 members strong, will take part in the great industrial and floral parade that is to be one of the leading features of the St. Helena vintage festival on Labor day. As part of their dress the women of the grange will wear gingham sun bonnets and aprons, while the men will be attired in suitable farmers' garb. They will march in the parade and will also enter stock, farm wagons and products. A fine collective exhibit will also be shown by the grange.

The Home Industry League of California has been granted space in one of the big tents in which to display and boost products made in this State. This exhibit will be educational in character and interesting, as well as attractive.

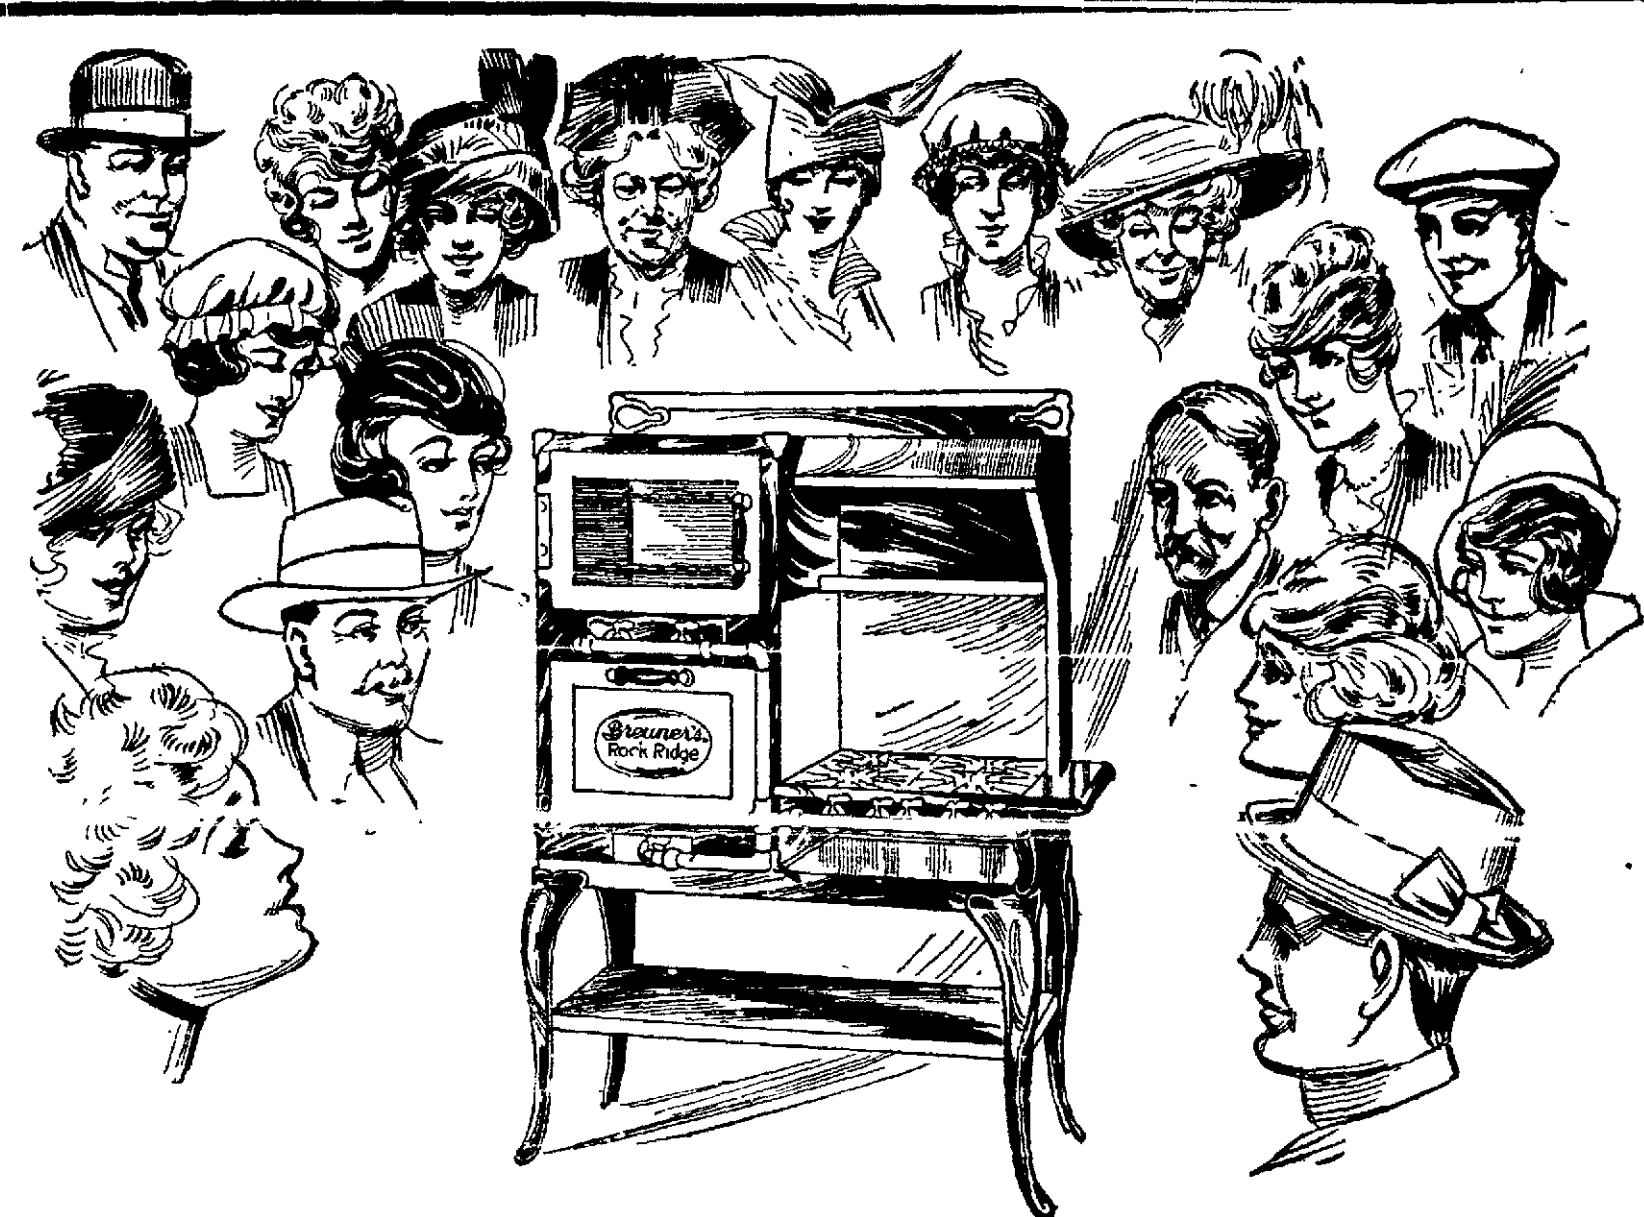

The electric wiring in the two tents is practically completed and soon the work of preparing for the exhibits will be begun.

The musical features of the festival this year will be very far ahead of previous years and will add greatly to the enjoyment of guests. Two splendid concerts will be given on Sunday, September 5.

After the final production of the vintage allegory on Monday night, there will be a street dance and confetti battle. For this jolly occasion the committee has procured several thousand caps to be given the merry.

THRASHING CREWS BUSY.

KLAMATH FALLS, Aug. 22.—Thrashing has commenced in Klamath county and reports from all sections are to the effect that the crop of wheat will be one of the best in years. Farmers are predicting thirty bushels an acre with the grain free from rust. For the first time a combined harvester operated by gasoline is operating in the fields.

All California is interested in the success of the new California-made Breuner Gas Range Line

—Here, at last, after years of experimenting, a line of Gas Ranges has been produced in our own Golden State that is the PEER of any manufactured in all America. That statement we do not make haphazard, but only after exhaustive tests and careful comparisons have convinced us that it is a solid, substantial fact.

—To prove our faith in these Gas Ranges we have secured their exclusive sale for Alameda County, under our own name, which means that the rock-bound guarantee of Breuner's, your own home-town concern (instead of a foreign corporation) stands back of every range.

—TWO CONDITIONS affecting Gas Ranges are found in Oakland and other bay cities that do not obtain in Eastern cities where other gas ranges are made.

—FIRST, we have here much dampness in the air. This dampness causes the sheet iron or steel used in ordinary ranges to rust out quickly.

—SECOND, our gas here is made from oil instead of coal (as in the East) and contains a great deal more moisture than coal gas. This moisture, in the form of sweat, also rusts out iron and shortens the life of the ordinary range ONE-HALF.

—BREUNER GAS RANGES are made from a material especially adapted to this climate—a material that RESISTS RUST from moisture, gas fumes, acids, etc.—a material known as "ARMCO" or American Ingot Iron, a new and wonderful discovery of the scientists that is 99.84 per cent pure.

—THE SANITARY FEATURES of Breuner Gas Ranges will appeal to every housewife. All the parts, including even the oven linings, can be instantly and quickly taken out, without tools, for cleaning.

—THE SPOTLESS WHITE ENAMEL doors, splashes, boiler pans, drip pans and so forth, can be washed as easily as a china dish.

—ELECTRIC WELDING, the most modern process, is used to join the pieces together, instead of old-fashioned bolts and rivets.

—THE PATENT AUTO LIGHTER gives you instant heat by the simple pressure of a button.

—From \$14 to \$47.50 run the prices on the Breuner line

—and you can buy any of them for \$5 down and \$1 a week.

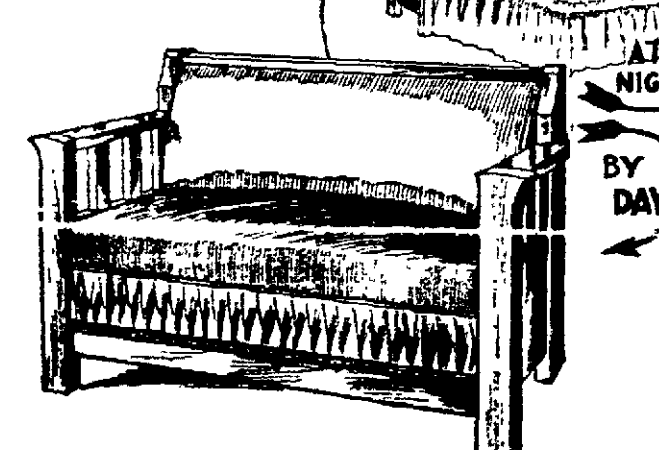

—Free demonstrations every day.

Trade in your old worn out stove and get a modern "Breuner"

"Hooverize" Your Home

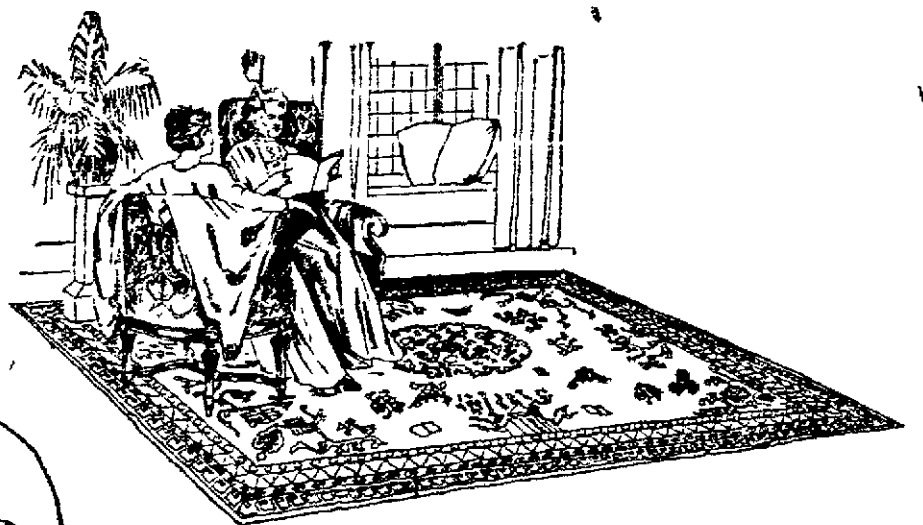

—It required two years to convince us that the "Hoover" was the one cleaner that cleaned CLEAN.
—We are now prepared to let you prove this to yourself in a two days' free trial at your home, entirely at our expense, delivered and called for.
—The Hoover sweeps, shakes and suction cleans all with one operation. The motor does all the work—you simply guide.
—Price \$40—payable \$1.25 a week.
—See the demonstration in our window this week.

**"Frantz" Premier
Cleaners**
are now only
\$22.50

Don't miss it! \$27.50

An extra Bedroom without extra rent. Less than 5 feet long—space inside for mattress and bedding. Solid oak, fumed finish—upholstered in Spanish leatherette.
\$4.00 Down—Then \$1.00 a Week

Glorious Axminsters, \$18.75

The one great August opportunity to secure a floor covering you'll be proud to own for much less than the usual price. Full room size Axminster Rugs, 9 feet wide by 12 feet long—with that deep plush—like "pile" that gives an air of "class" to any home.

MIDSUMMER SALE Chintzes and Cretonnes

—To make room for our new autumn line—we offer this week our entire stock of "dropped" patterns and small pieces (5 to 15 yards) in Cretonnes and Chintzes—at the single price of 15c the yard.
—Among these goods are values ranging from 20 to 50 cents the yard regularly.

Breuner's

Recission Sought For Mutual Mistake

(Eighteenth case in a series of recission suits decided affecting agents and owners, summarized for THE TRIBUNE by Attorney Carlos G. White of Oakland, lecturer in law at the University of California, and member of the firm of Dunn, White & Alken.)

The case of Taber and wife vs. Building Company, decided on July 28, 1914, by the District Court of Appeals, originated in our own city, Oakland.

On May 10, 1910, the plaintiffs, in company with an agent in the employ of the building company, inspected a certain tract in the neighborhood of Girard and Windsor avenue. At that time the tract had been mapped out, but the streets were not made, and it was impossible for one unfamiliar with the land to determine by inspection the true line of Windsor avenue. The plaintiffs selected a plot of land lying on the side of a knoll and situated at or above the level of the street and of the surrounding land.

The plaintiffs, in company with the agent, stood on the parcel of land and said they would buy it. The agent had a map in his hand and said that the corner lot was sold, and also the plot below the level of the street and was partly filled ground.

The plaintiffs, in company with the agent, stood on the parcel of land and said they would buy it. The agent had a map in his hand and said that the corner lot was sold, and also the plot below the level of the street and was partly filled ground.

The plaintiffs, in company with the agent, stood on the parcel of land and said they would buy it. The agent had a map in his hand and said that the corner lot was sold, and also the plot below the level of the street and was partly filled ground.

The plaintiffs, in company with the agent, stood on the parcel of land and said they would buy it. The agent had a map in his hand and said that the corner lot was sold, and also the plot below the level of the street and was partly filled ground.

INDUSTRIAL SITES IN CITY TEMPT INVESTOR

Commercial Expert Shows Reasons for Success of Waterfront Ventures

(By D. H. BRADLEY.)

A great many of the recent occurrences have all contributed to strengthening and increasing the confidence of the investing public in the future of Oakland real estate. The Oakland Chamber of Commerce has had within the past two or three weeks three or four prospective buyers of Oakland real estate. These buyers have come from other cities and in nearly every instance the prices which they were informed the Oakland owners fixed on their property were regarded as reasonable. These prospective purchasers were all in position to make investments in other cities of the United States. These men were capable of measuring the possibilities of future increase in value and in every instance they expressed their gratification that they could secure at the reasonable present valuation the ground

for business use and which most probably increase in value many fold within a few years. There is the secret of the stability of Oakland real estate values, and this applies to lands adapted to other than industrial use.

When analyzed, the foundation for the success of these ventures is that the Oakland ground is admirably adapted to the present business purposes, and second, that all the local conditions and the certain growth in the city along all lines make their real estate not only a safe investment of itself, but one which, in the matter of what may be the future of the business that may be located on it, it will be worth many times the price paid. The ordinary public does not carefully analyze the conditions which have brought about the present values in Oakland real estate, and which insure an increase in value.

The trained real estate dealer or investor, however, does analyze and he is enabled to find here in active operation, all of those conditions which make real estate valuable. A short time ago THE TRIBUNE printed a table showing the large percentage of home owners among Oakland's citizens. It was surprising, even to a great many residents of Oakland, that this city, with Berkeley and Alameda, ranked highest among all cities of the United States, having as large a population, in the number of homes owned in proportion to the people living within the city. This fact not only proves conclusively that there are conditions here which make Oakland most desirable for residence purposes, but it is a final conclusive argument in favor of Oakland to the prospective manager of a factory.

The manager of the Chamber of Commerce and his office force have had many times demonstrated to them so many times that they know that it is a truth so general that it applies to all classes of manufacturers. The reason is not far to seek. The manager of an industrial establishment, no matter what the other conditions may be, knows that he is in a position to draw steady and efficient operatives. MANUFACTURERS FLOCK TO NEW SITES UPON HARBOR

NEW HOMES RISING IN THE HILL DISTRICTS OVERLOOKING OAKLAND AND THE BAY, WHERE RECENT DEVELOPMENT HAS BEEN GREAT.

Factories Locating Here

Waterfront Work Fast
Filling Sites on Bay and Estuary

Factory men have started a spirited campaign for more manufacturing, operating through the different Oakland factory organizations, and using as a basis for the campaign the recent announcement of the many contracts awarded Oakland firms for Federal supplies. A complete list of such supply contracts has been compiled by the factory men and is on hand for use by the different commercial men and the prospective manufacturers.

The work of urging Oakland's claims as a city of factories is now being gotten under way by the Harbor Development Committee of the Oakland Commercial Club, working in conjunction with W. W. Keith, newly appointed Oakland municipal harbor manager. Keith is not only working for the development of the Oakland city property of the waterfront, but has announced a comprehensive system for a campaign of general harbor development in which the Commercial Club officers and committees are to aid.

That there is already a considerable demand for harbor space by factory men is indicated by several requests made to the city council for permits to allow the hauling of supplies and materials to different parts of the bay shore. The beginning of the D. J. Hanlon factory, a skin bottling concern, and the factory to plant more than 100,000 shoes, the city has started a lively competition along the city front and the location of several lengths of the small, where land is now available for factories, has caused considerable interest in this land.

Each dealer that several big factories are now negotiating for this land, and that he cannot at present afford to lose it, is the basis of these proposals.

BIG PLANT COMES TO CITY

Oakland to Be Center of Distribution for Air Brakes

With the selection of Oakland as a manufacturing center by an air-brake company, formerly operating in Salt Lake City, this city will become the distributing and manufacturing center of one of the three air-brake companies in the United States and may claim the only firm of its kind west of Chicago.

Following the choosing of a twenty-acre site along the Oakland inner harbor, the new company will begin at once the erection of a factory for immediate use, costing \$25,000. Later buildings will be added that will bring the expenditures to probably \$150,000.

The air-brake company, which is backed by western capital, will employ 400 men from the start, this number to be increased in proportion to the increase of the volume of output. Up-to-date electrical stock handling cranes, jacks and trucks are to be installed and deep-water docks and spur tracks will be placed at once, making the new Oakland plant one of the most complete and efficient on the Pacific Coast.

"We selected Oakland as our chief manufacturing site only after the most thorough investigation of manufacturing locations and conditions throughout the west," said W. H. Sheasby, manager of

of free sites from different cities, but the many shipping advantages that Oakland offered brought us here.

"As several large western railroads have placed orders with us in advance for our products, we will begin manufacturing on a large scale. Later both eastern and western branches will be established, making Oakland the manufacturing heart of an industry nation-wide in its activities."

OAKLAND HAS BANNER HOME-BUILDING SEASON

A NEW PRIVATE GIRLS' SCHOOL, RECENTLY COMPLETED IN PIEDMONT, AND ONE OF THE ELABORATE BUILDINGS OF AN EDUCATIONAL NATURE COMPLETED IN THE BAY REGION THIS YEAR.

MANY PERMITS ISSUED; CONTRACTORS ACTIVE

New Work Includes Costly Domiciles and a Big List of Bungalows

Home building is lively in Oakland, according to the permits issued for building by the city permit bureau this week. Several big residences and a large number of small houses have been brought up to a considerable figure.

One of the biggest dwelling house permits of the week was issued Thursday, when plans were announced by J. A. Munro for a \$10,000 residence at Hand and Lake Shore avenues.

Five small dwelling houses were contracted for this week by the Oakland Home Corporation, according to permits issued, each to cost in the neighborhood of \$1,400. These are all to be situated on Bartlett street, south of Brookdale avenue.

The detailed building permits of the week follow:

WEDNESDAY.
Breed & Bancroft, repairs, 1323 Telegraph avenue, \$20.
Breed & Bancroft, repairs, 1333 Telegraph avenue, \$20.
P. Jacquot, repairs, 1474 Eighth street, \$25.
Munroe Osmond, one and one-half story, six-room dwelling, 423 View street, \$2,500.
E. L. Blackman, one-story, three-room dwelling, north side Russell street, 90 feet west of Seventeenth avenue, \$500.
Mrs. J. H. Flathman, one-story garage, south side Leach avenue, 120 feet west of Everett avenue, \$250.
E. A. C. Postel, one-story garage, north side Fourteenth street, 80 feet east of Fifth street, \$100.
J. H. Williams, alterations, 1130 Twenty-sixth avenue, \$20.
Pinal Dome Refining Company, concrete foundation, footings, 1300 Broadway, \$200.
J. A. Munro, two-story, nine-room dwelling, northwest corner Hand and Lake Shore avenues, \$10,000.
C. B. Colt, one-story, five-room dwelling, south side Wesley street, 83 feet east of Wayne, \$200.
Mrs. L. A. Cart, alterations, 4552 Telegraph avenue, \$50.
Fred Marmona, addition, 1309 Eighty-fourth avenue, \$200.
H. Mason, alterations, northwest corner Thirty-eighth and Webster streets, \$100.
W. G. Thornally, tool house, 6027 East Sixteenth street, \$150.
E. W. Woodard, one-story garage, west side Fourteenth avenue, 155 feet from Park boulevard, \$200.
A. K. Percival, alterations, 1510 Harrison street, \$50.
Mrs. J. Glinski, one-story addition, southeast corner Tenth street and Fifty-fifth avenue, \$50.
W. O. Lockett, addition, 5514 Taft avenue, \$150.
George A. Cockerton, one-story garage, 1061 Walker avenue, \$150.
E. R. Isen, alterations, 538 Fifteenth street, \$50.
Oakland Home Corporation, one-story, five-room cottage, west side Bartlett street, 50 feet south of Brookdale, \$2,425.
Oakland Home Corporation, one-story, five-room dwelling, west side of Bartlett street, 170 feet south of Brookdale, \$2,425.
Oakland Home Corporation, one-story, five-room dwelling, west side of Bartlett street, 210 feet south of Brookdale, \$2,425.
Charles R. Stone, one-story, three-room dwelling, east side Brvenue, 200 feet south of Woolsey, \$250.
E. M. Welch, one-story, five-room dwelling, west side of Kingsley, 150 feet south of East Thirty-seventh street, \$1,000.
F. Colman, two-story, six-room dwelling, northeast corner Curran and Montana streets, \$1,000.
Dr. Spencer Laffay, two-story, eight-room dwelling, northwest corner East Seventeenth and Twenty-second avenues, \$1,000.
H. D. Rowe, repairs, 405 Seventh street, \$15.
John P. Nall, one-story, three-room cottage, northwest corner Laurel and Montana streets, \$250.
Mrs. A. Peock, alterations, 1408 Webster street, \$20.
Kate Williams, one-story, two-room addition, 357 Brown avenue, \$250.
Mrs. F. Hutchinson, repairs, 1625 Fifty-fifth avenue, \$50.
Dr. Spencer Laffay, two-story, eight-room dwelling, northwest corner East Seventeenth and Twenty-second avenues, \$1,000.
H. D. Rowe, repairs, 405 Seventh street, \$15.
John P. Nall, one-story, three-room cottage, northwest corner Laurel and Montana streets, \$250.
Mrs. A. Peock, alterations, 1408 Webster street, \$20.
Kate Williams, one-story, two-room addition, 357 Brown avenue, \$250.
Mrs. F. Hutchinson, repairs, 1625 Fifty-fifth avenue, \$50.
Dr. Spencer Laffay, two-story, eight-room dwelling, northwest corner East Seventeenth and Twenty-second avenues, \$1,000.

OAKLAND HAS CLIMATE, IS VERDICT

Federal Reports Show City's Attraction for Homes.

If climate makes a city, Oakland has another claim on progress by the official figures of the United States Weather Bureau. For the first time in history the result of the weather on the bay region, on equal days being warmer than any place across the bay, and on warm days being considerably cooler.

Comparative tables have been compiled by the Weather Bureau on both sides of the bay by local realty men and as a result a table showing at a glance every variation in temperature in the past two months is now at hand, and will be used as a new means of bringing more home-seekers to the side of the bay.

Early in 1914 the United States Weather Bureau began for the first time to include the daily temperature of Oakland among those of other cities of the United States. The record will be found on the following table:

Joseph Sanders, resinsing roof, 3441 Telegraph avenue, \$50.
J. T. Hinch, one-story, five-room dwelling, east side of Everett, 160 feet northeast of Thirty-eighth street, \$2,500.
Jersey Milk and Butter Company, two-story creamery, south side of Thirty-seventh street, 200 feet west of Grove, \$2,000.
See On, alterations, 913 Webster street, \$100.
Perry Woodbridge, one-story, four-room cottage, 2501 Brown avenue, \$1,100.
Perry Woodbridge, one-story, four-room dwelling, northwest corner Brown and Kansas streets, \$1,100.
Oscar Aho, one-story, three-room dwelling, 1653 Eighty-third avenue, \$200.
George V. J. J., one-story garage, south side of Fifty-fifth street, 150 feet east of Shattuck avenue, \$125.
J. S. Myers, resinsing, 2023 Market street, \$125.
W. Douglas, resinsing, 211 Fifth street, \$110.
Anderson & Folwick, two-story, seven-room dwelling, east side of Vermont, 253 feet south of Fairbank, \$3,500.
A. J. Hansen, alterations, 1036 Sixty-second street, \$150.
Andrew A. Jacobs, addition, 2739 East Broadway, \$325.
W. M. Redbury, fire repairs, 2323 Eighth street, \$50.
I. Linienbaum, roof repairs, 333 Third street, \$150.
George O. Brash, addition, 5270 Manila avenue, \$150.
E. J. Jensen, one-story, six-room dwelling, south side Sixty-first street, 24 feet west of Herzog, \$2,500.
Jesse A. Berger, two-story, six-room dwelling, 505 feet east of Fifth street, \$2,500.
Cornelius Donovan, one-story, five-room cottage, south side North street, 225 feet east of Telegraph, \$1,800.
Cornelius Donovan, one-story, five-room cottage, north side North street, 127 feet east of Telegraph, \$1,800.
Cornelius Donovan, one-story, five-room cottage, north side North street, 207 feet east of Telegraph, \$1,800.
Cornelius Donovan, one-story, five-room cottage, north side North street, 247 feet east of Telegraph, \$1,800.
Cornelius Donovan, one-story, five-room cottage, north side North street, 237 feet east of Telegraph, \$1,800.

New Building to Be Erected at Head of Broadway at Once

Another new building, erected with the growth of activity at the head of Broadway, is now under way at the corner where College avenue, Broadway and College terrace join. The new structure is to be erected at a cost of \$12,000 and will be a one-story building, containing stores, and built with large plate glass windows. The structure is being erected by Wynn Meredith, of Alameda, general manager of the Sanderson-Porter Company, and owner of extensive property holdings throughout the east bay region. It will contain five stores on Broadway and two on College avenue.

TO RUSH WORK UPON NEW CHURCH

Berkeley Edifice Will Be Very Elaborate; \$40,000 Is the Cost.

BERKELEY, Aug. 21.—The trustees of the First Baptist Church expect to begin next week work on their new church edifice at the southwest corner of Haste and Third streets. The building will be of stone and concrete, and its estimated cost is \$40,000. The ground on which the structure is to stand occupies one of the commanding views of the city. It was purchased about six years ago, the congregation considering the present location at Fulton street and Alston too near the business center.

Work on the edifice is so rapidly nearing completion that members of the lodge are already planning for the exercises with which the structure is to be dedicated, though it is not yet possible to fix the date. Work is also expected to recommence soon on the Federal building adjoining where a delay has been necessary because of the failure of iron and steel building materials to arrive.

Local promoters are interested in the fact told by the assessors' figures of an increase in the city's assessment. The new figure is above \$12,000,000, representing an advance over last year of \$2,000,000. Although it seems necessary now to increase the tax rate, there is little dissatisfaction among local development men because of the material advances in improvement of streets to be derived from the increase.

The building permits for the week approximated \$100,000 in the estimates for the new work planned. Among those granted were the following:

H. M. Reid, California and Fairview, \$2140.
Mrs. E. J. McHenry, La Loma and Vista 10 rooms, \$4000.
Judson Paint Co., Grayson and Fourth, one story, \$500.
Judson Paint Co., Grayson and Fourth, one story, \$500.
R. S. Pennington, Oxford and Indian Rock, 7 rooms, \$3500.
G. Needham, Telegraph and Dwight, alterations, \$1000.
Mrs. E. J. McHenry, La Loma and Vista 5 rooms, \$2000.
C. H. Kinney, Carlton and Mabel 5 rooms, \$1700.
C. H. Kinney, Carlton and Mabel 5 rooms, \$1500.
Abbot, Chinmuck, Ashby and Shattuck, alterations, \$1000.
First Baptist Church, Dana and Haste, \$40,000.
A. Spohn, Oakvale and Claremont, 8 rooms, \$1000.
Judson Paint Co., Grayson and Fourth, one story, \$500.
W. H. Haynes, Clarendon and Avalon, 3 rooms, \$500.
Charles Akers, Alston and Roosevelt, 5 rooms, \$2250.

GREAT RESIDENCES RISE IN NEW HILL DISTRICTS

Piedmont Shares in Activity of Home Makers; Many Houses Elaborate

A circle, a mile in diameter, embracing the lake shores and a section of Piedmont, with Piedmont hills as a center, contains 75 per cent of all the two-story homes built in Oakland since January 1. This is shown in a table, compiled from the city of Oakland building permits, and showing all two-story houses or over erected in Oakland. Piedmont's big houses are shown to be more unevenly scattered than those in the new East Oakland district, which, according to building permits, shows the fastest building progress in the city. Fourth Avenue Heights shows the next heaviest building developments, according to the table.

The figures have been graphically shown in a map, marked to show building progress, and designed by H. A. Laffay, a local realty expert.

Later has drawn in all new-built districts where homes of more than two stories have been constructed. Considerable building activity in larger homes is shown in the annexed district under the tables, this extending along East Fourteenth street and its side streets from Fitchburg into Oakland. Between Fitchburg and San Leandro only two new two-story homes have been constructed, although the bungalow building in the district has been exceptionally heavy.

LAKE BUILDING.
The lake of Lake Merritt, according to the table, shows a remarkable building development. The tract known as Piedmont-by-the-Lake is, on the map, almost black with new buildings marked from the permit records. Beyond this tract, Piedmont Heights, Crocker Highlands, Piedmont Knoll, and their surrounding neighborhoods show a heavy development. To the west of these heavy building activity is marked in the Oak Park tract and its neighborhood, all along the one-mile circle and all within twenty minutes of the downtown section of Oakland. The exception of bungalows and cottages.

BIG STEAMER LINES TO LOCATE UPON HARBOR

New Development Rapid Under Direction of the City Officials and Commercial Club Men

What will, according to many men and commercial experts, prove perhaps the most important news in the recent indications of rapid development on the municipal waterfront, came with the announcement of the negotiations under way between W. W. Keith, harbor manager and several big steamship companies which are planning to locate their headquarters in the city, which, it is perfectly assumed, will be located later at the Oakland waterfront. Another strong indication of the probability of big lines touching here came this week with the announcement of the extensive contracts entered into by firms on this side of the bay for goods to be shipped to the Orient. Thirteen cargoes of roofing alone had to be moved across the bay to be loaded in a rush order on a big liner. There was a large consignment of other goods as well, and as the orders were to be rushed, and the time for the probable advent of the steamer was near.

At the time that a berth on this side would have reduced the hauling expense to a negligible extent.

Keith has not yet given out the details of his plan, but his correspondence declared to have completed negotiations for a site a short distance from the distributing plant. The oil company owns a big refining plant near Santa Monica, and will bring in products of this factory by ships to the Oakland distribution station.

Several new buildings are being planned for the region and a general plan of development is under way, furthered by the Rock Ridge Improvement Club and other organizations in the district.

The proposed new street will connect with the Claremont district at Hillcrest avenue and the Contra Costa road, thus forming a main artery for travel direct to the downtown portions of Oakland.

ACCIDENT SHIFTS RIDER FROM BICYCLE TO COW

WASHINGTON, Pa., Aug. 22.—J. F. Welch, a bicyclist, and a cow furnished great excitement to spectators on the Hill Church road when Welch, riding his machine, collided with a person in the road.

In the ensuing collision Welch was thrown from his bicycle and landed on his back. Down the road the animal dashed, following and plowing. Then she stopped and gave an exhibition of a game with Welch clinging to her horns. On the third attempt the rider was thrown into a roadside field.

EVERY BOY NEEDS CLOTHES THAT WILL NOT ONLY GIVE HIM A NATTY LOOK, BUT THAT WILL WITHSTAND THE ROUGH WEAR THAT THE STURDY YOUNG AMERICAN SUBJECTS THEM TO.

SUCH IS OUR BOYS' "Victor" Suit

With Two Pairs Pants \$4.95

THEY ARE POSITIVELY THE BEST FOR LOOKS, WEAR AND PRICE. THE EAST BAY CITIES' MOST COMPLETE BOYS' SHOP.

Money-Back Smith. 224 Green Trading Stamps Free With Every Purchase

I'VE PICKED OUT MY AUTUMN SUIT

And It's Up at CHERRY'S Waiting for Me.

There were a few little alterations, I'm going to get it tomorrow morning. How'd you like to come long and choose YOUR new suit, la?

You may as well get it now, for at CHERRY'S you can BUY YOUR CLOTHES ON CREDIT. The only reason ALL the girls aren't wearing all suits now is because some of 'em can't afford to—or think they can't.

CHERRY'S CREDIT SYSTEM—a few dollars down and the rest by the week or month—makes it easy and economical to wear the latest styles while they're new and little bit unusual.

Oh, those stunning new suits I saw at Cherry's Saturday! The shades and color effects are lovely, and the clever ways they're made are simply indescribable. Blue and black and brown and green—all sorts of striped effects, too. And purple going to be immensely modish this autumn, Ida.

The sizes are all there and all the latest fashionable designs. You'll find Cherry's stores all over the city. The Oakland addresses are 15 13th street for ladies and 525 3rd street for men. The San Francisco stores are at 1009 Market street and 2400 Mission street.

EAVES OPERATING TABLE TO TELEPHONE

LOS ANGELES, Aug. 22.—Arising from his operating couch at the receiving hospital just after police surgeons had removed a bullet from his side, E. J. Crosby, 25 years old, a chauffeur of 3511 Harrison way, notified his employer that he would be late for work.

Crosby was cleaning his revolver in his room when it accidentally struck him near the earbone, grazed a rib and emerged about six inches from the point of entrance.

VETERAN STAGE MAN DIES.

OROVILLE, Aug. 22.—News has been received in this city of the death of Henry P. Morrison, a veteran stage driver of Butte county, from a fractured skull received in a fall from a horse. He was a native of Illinois, 7 years old. In 1852 he mined at region City, then a lively camp. A few years later he removed to Cherokee, owned several stage lines until 1893, when he went to San Francisco.

If It's Wrong It'll Make It Right.

Exchange Dept.—We will take old furniture in exchange as part payment for new, anything that is salable (except mattresses and bedding) and allow what it is worth.

JACKSON'S. 1414 Broadway, Oakland

Rent Dept.—is on the main floor to the right as you enter the door, rent list and all information free. We have all the desirable places listed.

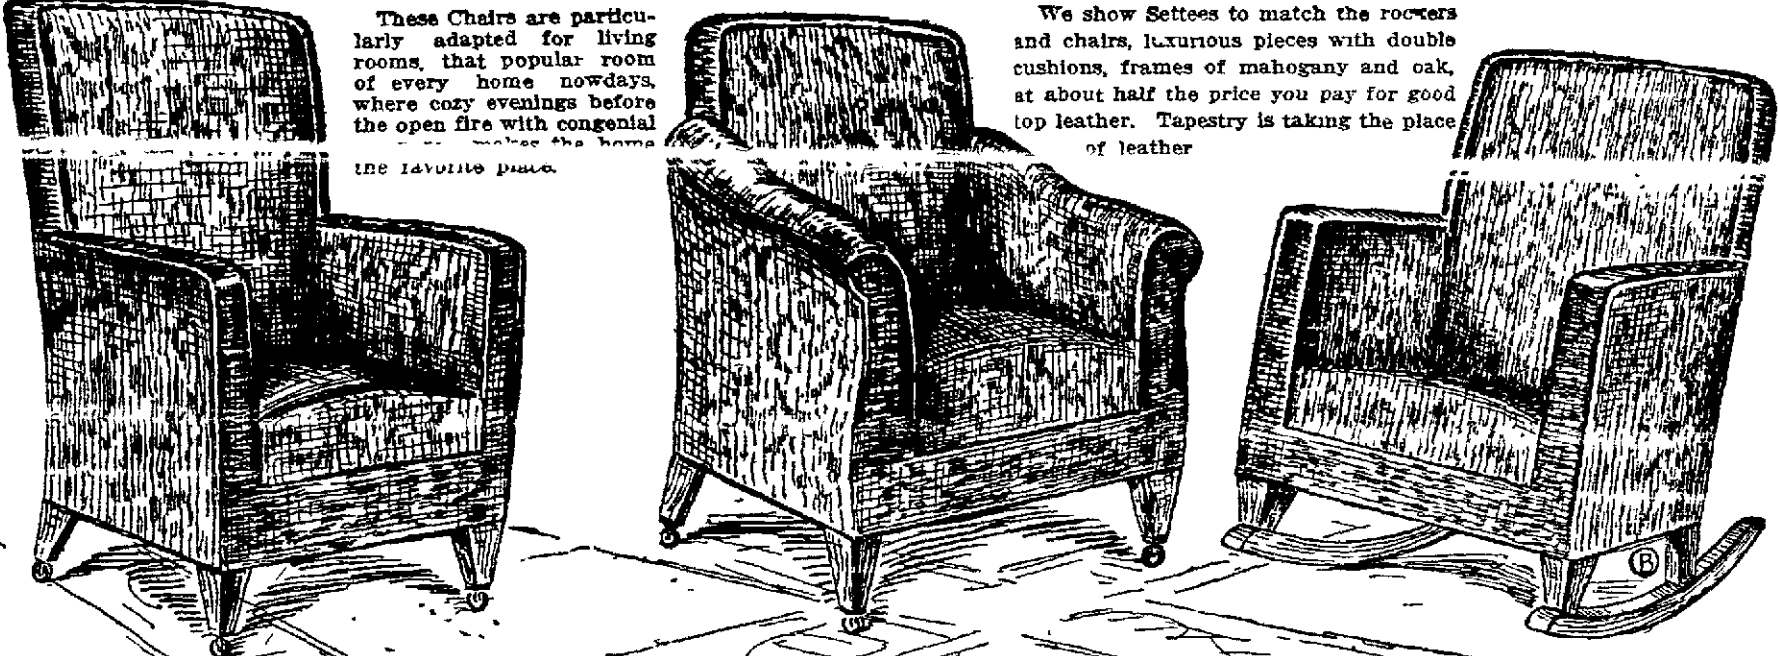

Living room furniture in comfortable tapestry. Here are some chairs with ease and peace in every line, big, roomy. Special display and sale of chairs, rockers and sofas in tapestry

About tapestry

There is nothing more serviceable and it is rich in furnishing effect, harmonizes with all wood finishes; it is the popular and proper covering for Furniture this season, and will be used almost exclusively next year in place of leather.

About leather

The advance in the cost of leather, due to the automobile, makes it impossible to cover big chairs, as illustrated, with genuine top leather for less than twice the price quoted in tapestry, and split leather will not wear half as long as tapestry.

There is something about the above Chair that speaks contentment; frame is mahogany, beautiful tapestry covering. Terms, \$3.00 down, \$3.00 month.

\$27.00

The above Chair is exceptionally well upholstered, soft seat, and back with comfortable arm rests as illustrated; mahogany frame, rich tapestry covering. Terms, \$3.50 down, \$1.00 week.

\$33.75

The above Rocker matches the first chair, same frame and pattern of tapestry, a Rocker that is well balanced, strong and comfortable. See them on the Mezzanine Floor.

\$27.50

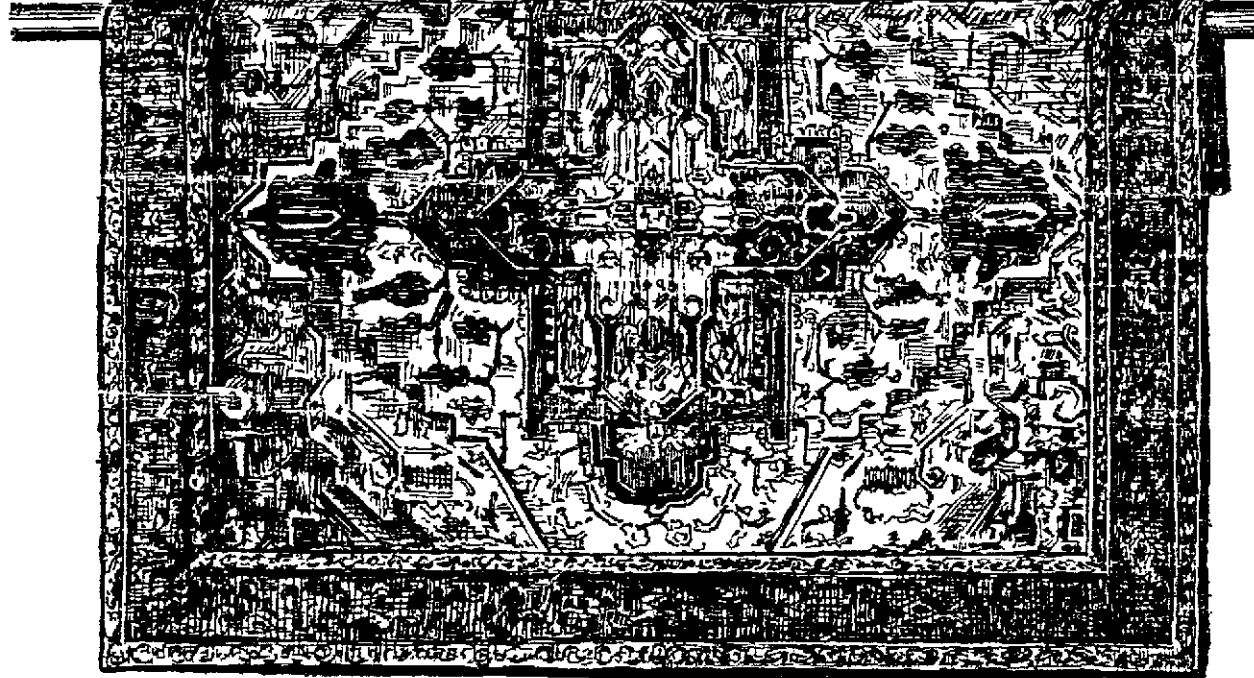

3-room Outfit

This outfit is a mighty value shown in rooms on our second floor; of course it does not include everything you would need for housekeeping, but with a few additional articles it makes good serviceable, economical outfit to begin with.

There is a kitchen, dining room and bedroom. It includes a set of dishes, enough for small family and the furniture is solid oak.

Terms, \$6.50 cash \$6.50 month

\$65.00

All wool Axminster rugs, 9x12

\$2.00 down, \$1.00 week, and we will take them back and refund the two dollars if they are not satisfactory.

Beautiful patterns, floral, oriental and conventional designs, fast colors, high pile, all wool rugs suitable for any room; the most practical rug one can buy. There is nothing made for the money that will give the same service.

See them on third floor, Carpet and Drapery department.

4 rooms complete

Don't fail to see this one before you buy. Compare it with others. We took great care in assembling it to give the best values possible.

This is the outfit that pleases everyone; it includes Rugs and Linoleum for the floor, a set of Dishes, Cooking Utensils and Bedding, kitchen-dining room, bedroom and living room with big Morris Chair and Arm Chairs in fumed, bedroom has Maple Furniture with Verne Martin Bed. Shown in rooms on second floor.

Terms, \$25 down, \$4.00 week

\$207.55

MOTHER-IN-LAW SMOKED CIGARS

Church Members Divided in Divorce Suit Against Pastor.

NEW YORK, Aug. 22.—A factional dispute in the Presbyterian Church at Woodbury, N. J., in which some of the members side with the minister, the Rev. J. Edwin Triplett, and some with his wife, Dorothy A. Triplett, is to be aired in the Supreme Court during the trial of the separation action of Mrs. Triplett against the minister.

At present the young wife is living with her mother, Dora M. Nelson, at 220 Wadsworth avenue.

Mrs. Triplett alleges that her husband used physical force against her. She had to stay in bed, she says, to recover from the beatings at the pastor's hands. He denies he ever beat her, and says her mother, who has been married four times, caused all the trouble.

Triplett submitted to the court an affidavit from Henry V. Rogers, one of the trustees of his church, in which Rogers said he heard Mrs. Triplett say she was "sick and tired of being a minister's wife."

Triplett got an affidavit from his wife's mother's fourth husband, John H. Nelson. He said Mrs. Nelson, the mother of Mrs. Triplett, drank intoxicating liquor and smoked cigars and cigarettes. Mrs. Nelson brands this affidavit as fiction, and her daughter declares that the statements in it are entirely false. In order to make a reply she produced a letter alleged to be from Triplett's own mother to her son. The letter reads:

"You have had an opportunity, my dear Edwin, but you have failed to exemplify the sacred trust committed to your care. If you had been kind and gentle and had never deceived her, and had not been suspicious, you would have had her respect and love today."

Mrs. Triplett also submitted a letter from her husband to herself, which reads:

"With the help of God I have resolved to emulate the example of our saviour. No matter what may occur, I shall not quarrel, use unkind words or harsh language, nor use physical force—not even so much as to raise a finger at you, my dear Dorothy."

POLICEMAN REFUSES TO WALK; IS SUSPENDED

FRESNO, Aug. 22.—Following a heated argument in which he is said to have defied Chief Wilson to discharge him, Mounted Officer Chew has been suspended from the local police department for refusing to walk a beat after having served on the mounted squad. Chew is reported, refused to obey the chief's orders when told to take a beat, and made remarks to the effect that he "would show the chief who his friends were and where he stood."

Chief Wilson's action in the matter was approved by Admiral Manner, superintendent of the police department, and always in good standing for the past three years.

The vacancy on the mounted squad, caused by the suspension of Chew, was filled by the appointment of Sergeant George Pringle, who will have charge of it. Pringle is one of the oldest members of the department, having served as an officer for the past eighteen years. He has had years of experience as a mounted officer and his appointment was well received by his officers.

Pringle's place at the sergeant's desk in the city hall is being temporarily filled by Field Sergeant Mullins.

OFFICERS KEPT BUSY ENDING FRESNO WARS

FRESNO, Aug. 22.—That as war spreads in Europe the fear of excitement grips apace in this city is testified to by Patrolman Rutherford, who has had to intervene in no less than five Austrian-Servian tongue and fist battles since Tuesday.

MANY LIVESTOCK ENTRIES FOR FAIR

Prize Animals Entered by Big Owners Throughout California.

SACRAMENTO, Aug. 22.—The live stock department of the State Fair has received sufficient entries to test

pen at the fair grounds. There will be two parades this year, and, in addition, the prize winning horses in the draft driving and other classes, will be exhibited two different evenings at the horse show.

exhibitions of polo ponies, gaited saddle horses and show stock. This program is already in the mails and is receiving the approval of every one interested in the horse game.

The leading breeders of dairy herds in Northern California are represented in the live stock exhibit. The cattle department is filled and several new herds are entered this year for the first time.

Besides the best dairy stock in California, being shown, the sheep and swine entries are larger than usual.

SPECIAL FEATURES.

A special feature will be the demonstrations of tractor engines and other farm machinery and implements. An eight-acre field has been set aside for this purpose and every large manufacturer of traction engines is represented.

agricultural classes have been rearranged and will prove very attractive. The main pavilion will prove a great educational factor concerning these phases of the State's industry this year.

Moving pictures will be taken of the various features and exhibits. The pictures will be made under the direction of the Sacramento Valley Exposition Commission and will be shown at the Panama-Pacific Exposition next year.

MEMORIAL IS PLANNED FOR LOST FORESTER

FRESNO, Aug. 22.—The forest service has made arrangements to place

in honor of Louis Margolin, the forest examiner who lost his life in Dinkers creek, near Ross crossing, in the Kings river country.

The finding of Margolin's hat, shirt and some of his papers have established the fact that he was drowned in Dinkers creek on June 20 while searching for the camp of timber reconnaissance men working in that vicinity.

seemed perfectly satisfied, and apparently took a lease for a second year.

Monday night Paterson's pipe was drawing well and he suddenly realized that the matter of ridding the hive of the bees was a simple matter after all. So he called in one of the neighbors who is handy with carpenter's tools and asked him to cut out that certain portion of the house which the bees had selected as a quiet living place.

and agreed to cut off the rafters. He inserted the proviso, however, that Paterson assist by standing by the lines and making steady the piece.

It wasn't exactly the way Paterson had figured but he was game. The bees were not long in finding out that some one was tampering with their humble domain. They came out in a body and attacked their enemies with a front and flank movement which floored the amateur carpenter.

A crowd of neighbors who had gathered to watch the work, and who merely were acting as innocent bystanders, were not forgotten by the bees and the run which followed the evacuation of the hive would have been a first-rate scene for a flicker comedy.

The bees' next moves in a corner of the veranda, and Paterson is figuring between politicians' new schemes to terminate their loan.
